Statement of Requirements

Background

1. MS2022 is a Cat A service delivery and acquisition project being undertaken by NC. The most recent IPA review has highlighted a number of complexities and the key recommendation included the establishment of a senior recovery director to work with the project delivery team to identify and build a revised schedule, recommendations for the continuation of service beyond the existing contract until the new service has been delivered and a revised organisational structure for the team as it moves into the Assessment phase. The Project has recently been approved by JROC and its Initial Gate Business Case has been approved by the IAC and has transitioned to the Assessment Phase.

Requirement

2. The Project Recovery Director will lead a diagnostic of MS2022 to ensure that MS2022 can proceed with an improved Delivery Confidence Assessment through the Assessment Phase, and progress through the critical Procurement Phase to Full Business Case. Key aspects of the role are:

- a. a schedule deep dive (building on the recent DE&S Review and subsequent Project progress);
- b. work with the Marine Services delivery team on Fallback planning;
- c. review of the Commercial and Procurement Strategies (and the gaps in maturity of thinking that have delayed the project);
- d. review of the project delivery organisation (incl structure, capability and capacity of resources);
- e. examination of the project's performance, metrics, issues, Risks and artefacts to determine the condition of the project; and,
- f. to lead the Project through the next phase of market engagement and the transition to the next stage of the procurement.

Deliverables

3. The key deliverables to be confirmed once on contract are:

- a. re-baselined Schedule by 30 Jun 20;
- b. the Fallback Plan and Balloon Payment Review Notes by end Jul 20;
- c. consolidation of a full and effective suite of Project Controls by 30 Sept 20;
- d. a re-cast Organisational Design particularly the capability, capacity and behaviours by 30 Sept 20;

- e. a clear transition plan for continuity of service by 31 Oct 20; and
- f. a draft handover report by 31 October 20 and a handover report by the end of the following month.

Security Considerations

- 4. The Project Recovery Director must hold SC clearance;
- 5. A MOD laptop will be provided for the duration of the contract.

Annex:

A. Outline Scope of Project Director Role.

**Annex A to
NBC(P)/MS2022/Recovery PB BC
dated 11 May 20**

OUTLINE SCOPE OF PROJECT DIRECTOR ROLE

Reporting to NBC(Portsouth), the Head of Marine Services 2022 will design and deliver the Project to replace existing Provision of Marine Services commercial arrangements which are due to expire in 2022. At its core, the role is responsible for building on the foundations that have seen the project transition successfully to the Assessment Phase and establishing a programme of work to deliver the requirement, commercial and procurement strategy, financial baseline, business case approvals and ultimately place the contracts, and create the organisation that will manage them to deliver effective and efficient vessel acquisition and service delivery.

Responsibilities - the following responsibilities, whilst not an exhaustive list, are key to the role:

1. The leadership of the team in a coherent, unified way, imposing discipline and good practice across the team.
2. Develop the current Project in the context of the strategic headmark for Marine Services delivery and in doing so ensure that the Project team is resourced fully.
