Serving

The detailed interior Layout and fitting is up to the operator of the cafe. The layout shown on the drawing is for indication only. Falmouth Town Council will provide a building ready to move in. That will include the basic finishes of floor, walls and ceilings, installation of the toilet and preparation of all services such as heating, electrical, light and the ventilation of the toilet and a simple commercial extraction fan for the kitchen cooker. Kitchen furniture is also provided by the client except for all electric equipment such as fridges etc.
The operator of the kitchen should provide a specification if other equipment is necessary.
