In this case, the Buyer also has the right to terminate by notice in writing the participation of any Collaboration Supplier to this Agreement and sever its name from the list of Collaboration

Suppliers, so that this Agreement will continue to operate between the Buyer and the remaining Collaboration Suppliers.

10.2 Consequences of termination

10.2.1 Subject to any other right or remedy of the parties, the Collaboration Suppliers and the Buyer will continue to comply with their respective obligations under the [contracts] [Call-Off Contracts] following the termination (however arising) of this Agreement.

11.1.1 For the purposes of this Agreement, the expression “Force Majeure Event” will mean any cause affecting the performance by a party of its obligations under this Agreement arising from acts, events, omissions, happenings or non-happenings beyond its reasonable control, including acts of God, riots, war or armed conflict, acts of terrorism, acts of government, local government or Regulatory Bodies, fire, flood, storm or earthquake, or disaster but excluding any industrial dispute relating to any party, the party's personnel or any other failure of a Subcontractor.

11.1.2 Subject to the remaining provisions of this clause 11.1, any party to this Agreement may claim relief from liability for non-performance of its obligations to the extent this is due to a Force Majeure Event.

11.1.3 A party cannot claim relief if the Force Majeure Event or its level of exposure to the event is attributable to its wilful act, neglect or failure to take reasonable precautions against the relevant Force Majeure Event.

11.1.4 The affected party will immediately give the other parties written notice of the Force Majeure Event. The notification will include details of the Force Majeure Event together with evidence of its effect on the obligations of the affected party, and any action the affected party proposes to take to mitigate its effect.

11.1.5 The affected party will notify the other parties in writing as soon as practicable after the Force Majeure Event ceases or no longer causes the affected party to be unable to comply with its obligations under this Agreement. Following the notification, this Agreement will continue to be performed on the terms existing immediately before the Force Majeure Event unless agreed otherwise in writing by the parties.

11.2 Assignment and subcontracting

11.2.1 Subject to clause 11.2.2, the Collaboration Suppliers will not assign, transfer, novate, sub-license or declare a trust in respect of its rights under all or a part of this Agreement or the benefit or advantage without the prior written consent of the Buyer.

11.3 Notices

11.3.1 Any notices given under or in relation to this Agreement will be deemed to have been properly delivered if sent by recorded or registered post or by fax and will be deemed for the purposes of this Agreement to have been given or made at the time the letter would, in the ordinary course of post, be delivered or at the time shown on the sender's fax transmission report.

11.3.2 For the purposes of clause 11.3.1, the address of each of the parties are those in the Detailed Collaboration Plan.

11.4.2 Each of the parties agrees that in entering into this Agreement and the documents and agreements referred to in it does not rely on, and will have no remedy in respect of, any statement, representation, warranty or undertaking (whether negligently or innocently made) other than as expressly set out in this Agreement. The only remedy available to each party in respect of any statements, representation, warranty or understanding will be for breach of contract under the terms of this Agreement.

11.4.3 Nothing in this clause 11.4 will exclude any liability for fraud.

11.5 Rights of third parties

Nothing in this Agreement will grant any right or benefit to any person other than the parties or their respective successors in title or assignees, or entitle a third party to enforce any provision and the parties do not intend that any term of this Agreement should be enforceable by a third party by virtue of the Contracts (Rights of Third Parties) Act 1999.

11.6 Severability

If any provision of this Agreement is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, that provision will be severed without effect to the remaining

provisions. If a provision of this Agreement that is fundamental to the accomplishment of the purpose of this Agreement is held to any extent to be invalid, the parties will immediately commence good faith negotiations to remedy that invalidity.

No purported amendment or variation of this Agreement or any provision of this Agreement will be effective unless it is made in writing by the parties.

11.8 No waiver

The failure to exercise, or delay in exercising, a right, power or remedy provided by this Agreement or by law will not constitute a waiver of that right, power or remedy. If a party waives a breach of any provision of this Agreement this will not operate as a waiver of a subsequent breach of that provision, or as a waiver of a breach of any other provision.

11.9 Governing law and jurisdiction

This Agreement will be governed by and construed in accordance with English law and without prejudice to the Dispute Resolution Process, each party agrees to submit to the exclusive jurisdiction of the courts of England and Wales.

Definitions and interpretation

In this Deed of Guarantee, unless defined elsewhere in this Deed of Guarantee or the context requires otherwise, defined terms will have the same meaning as they have for the purposes of the Call-Off Contract.

Term	Meaning
Call-Off Contract	Means [the Guaranteed Agreement] made between the Buyer and the Supplier on [insert date].

- reference to a gender includes the other gender and the neuter
- references to an Act of Parliament, statutory provision or statutory instrument also apply if amended, extended or re-enacted from time to time

Guarantee and indemnity

The Guarantor irrevocably and unconditionally guarantees that the Supplier duly performs all of the guaranteed obligations due by the Supplier to the Buyer.

If at any time the Supplier will fail to perform any of the guaranteed obligations, the Guarantor irrevocably and unconditionally undertakes to the Buyer it will, at the cost of the Guarantor:

- fully perform or buy performance of the guaranteed obligations to the Buyer
- as a separate and independent obligation and liability, compensate and keep the Buyer compensated against all losses and expenses which may result from a failure by the Supplier to perform the guaranteed obligations under the Call-Off Contract

As a separate and independent obligation and liability, the Guarantor irrevocably and unconditionally undertakes to compensate and keep the Buyer compensated on demand against all losses and expenses of whatever nature, whether arising under statute, contract or at common Law, if any obligation guaranteed by the guarantor is or becomes unenforceable, invalid or illegal as if the obligation guaranteed had not become unenforceable, invalid or illegal provided that the guarantor's liability will be no greater than the Supplier's liability would have been if the obligation guaranteed had not become unenforceable, invalid or illegal.

Obligation to enter into a new contract

If the Call-Off Contract is terminated or if it is disclaimed by a liquidator of the Supplier or the obligations of the Supplier are declared to be void or voidable, the Guarantor will, at the request of the Buyer, enter into a Contract with the Buyer in the same terms as the Call-Off Contract and the obligations of the Guarantor under such substitute agreement will be the same as if the Guarantor had been original obligor under the Call-Off Contract or under an agreement entered into on the same terms and at the same time as the Call-Off Contract with the Buyer.

Any notice or demand served on the Guarantor or the Buyer under this Deed of Guarantee will be deemed to have been served if:

- delivered by hand, at the time of delivery
- posted, at 10am on the second Working Day after it was put into the post
- sent by email, at the time of despatch, if despatched before 5pm on any Working Day, and in any other case at 10am on the next Working Day

In proving Service of a notice or demand on the Guarantor or the Buyer, it will be sufficient to prove that delivery was made, or that the envelope containing the notice or demand was properly addressed and posted as a prepaid first class recorded delivery letter, or that the fax message was properly addressed and despatched.

Any notice purported to be served on the Buyer under this Deed of Guarantee will only be valid when received in writing by the Buyer.

Beneficiary's protections

The Guarantor will not be discharged or released from this Deed of Guarantee by:

- any arrangement made between the Supplier and the Buyer (whether or not such arrangement is made with the assent of the Guarantor)
- any amendment to or termination of the Call-Off Contract
- any forbearance or indulgence as to payment, time, performance or otherwise granted by the Buyer (whether or not such amendment, termination, forbearance or indulgence is made with the assent of the Guarantor)
- the Buyer doing (or omitting to do) anything which, but for this provision, might exonerate the Guarantor

This Deed of Guarantee will be a continuing security for the Guaranteed Obligations and accordingly:

- it will not be discharged, reduced or otherwise affected by any partial performance (except to the extent of such partial performance) by the Supplier of the Guaranteed Obligations or by any omission or delay on the part of the Buyer in exercising its rights under this Deed of Guarantee
- it will not be affected by any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, control or ownership, insolvency, liquidation, administration, appointment of a receiver, voluntary arrangement, any legal limitation or other incapacity, of the Supplier, the Buyer, the Guarantor or any other person

- if, for any reason, any of the Guaranteed Obligations is void or unenforceable against the Supplier, the Guarantor will be liable for that purported obligation or liability as if the same were fully valid and enforceable and the Guarantor were principal debtor
- the rights of the Buyer against the Guarantor under this Deed of Guarantee are in addition to, will not be affected by and will not prejudice, any other security, guarantee, indemnity or other rights or remedies available to the Buyer

The Buyer will be entitled to exercise its rights and to make demands on the Guarantor under this Deed of Guarantee as often as it wishes. The making of a demand (whether effective, partial or defective) relating to the breach or non-performance by the Supplier of any Guaranteed Obligation will not preclude the Buyer from making a further demand relating to the same or some other Default regarding the same Guaranteed Obligation.

The Buyer will not be obliged before taking steps to enforce this Deed of Guarantee against the Guarantor to:

- obtain judgment against the Supplier or the Guarantor or any third party in any court
- make or file any claim in a bankruptcy or liquidation of the Supplier or any third party
- take any action against the Supplier or the Guarantor or any third party
- resort to any other security or guarantee or other means of payment

No action (or inaction) by the Buyer relating to any such security, guarantee or other means of payment will prejudice or affect the liability of the Guarantor.

The Buyer's rights under this Deed of Guarantee are cumulative and not exclusive of any rights provided by Law. The Buyer's rights may be exercised as often as the Buyer deems expedient. Any waiver by the Buyer of any terms of this Deed of Guarantee, or of any Guaranteed Obligations, will only be effective if given in writing and then only for the purpose and upon the terms and conditions on which it is given.

Any release, discharge or settlement between the Guarantor and the Buyer will be conditional upon no security, disposition or payment to the Buyer by the Guarantor or any other person being void, set aside or ordered to be refunded following any enactment or Law relating to liquidation, administration or insolvency or for any other reason. If such condition will not be fulfilled, the Buyer will be entitled to enforce this Deed of Guarantee subsequently as if such release, discharge or settlement had not occurred and any such payment had not been made. The Buyer will be entitled to retain this security before and after the payment, discharge or satisfaction of all monies, obligations and liabilities that are or may become due owing or incurred to the Buyer from the Guarantor for such period as the Buyer may determine.

 - the Guarantor's memorandum and articles of association or other equivalent constitutional documents, any existing Law, statute, rule or Regulation or any judgment, decree or permit to which the Guarantor is subject
 - the terms of any agreement or other document to which the Guarantor is a party or which is binding upon it or any of its assets
 - all governmental and other authorisations, approvals, licences and consents, required or desirable

This Deed of Guarantee is the legal valid and binding obligation of the Guarantor and is enforceable against the Guarantor in accordance with its terms.

Payments and set-off

All sums payable by the Guarantor under this Deed of Guarantee will be paid without any set-off, lien or counterclaim, deduction or withholding, except for those required by Law. If any deduction or withholding must be made by Law, the Guarantor will pay that additional amount to ensure that the Buyer receives a net amount equal to the full amount which it would have received if the payment had been made without the deduction or withholding.

- (b) These Clauses shall be read and interpreted in the light of the provisions of Regulation (EU) 2016/679.
- (c) These Clauses shall not be interpreted in a way that conflicts with rights and obligations provided for in Regulation (EU) 2016/679.

In case of local laws applicable to the data importer that prohibit return or deletion of the personal data, the data importer warrants that it will continue to ensure compliance with these Clauses and will only process it to the extent and for as long as required

under that local law. This is without prejudice to Clause 14, in particular the requirement for the data importer under Clause 14(e) to notify the data exporter throughout the duration of the contract if it has reason to believe that it is or has become subject to laws or practices not in line with the requirements under Clause 14(a).

8.6 Security of processing

- (a) The data importer and, during transmission, also the data exporter shall implement appropriate technical and organisational measures to ensure the security of the data, including protection against a breach of security leading to accidental or unlawful destruction, loss, alteration, unauthorised disclosure or access to that data (hereinafter 'personal data breach'). In assessing the appropriate level of security, the Parties shall take due account of the state of the art, the costs of implementation, the nature, scope, context and purpose(s) of processing and the risks involved in the processing for the data subjects. The Parties shall in particular consider having recourse to encryption or pseudonymisation, including during transmission, where the purpose of processing can be fulfilled in that manner. In case of pseudonymisation, the additional information for attributing the personal data to a specific data subject shall, where possible, remain under the exclusive control of the data exporter. In complying with its obligations under this paragraph, the data importer shall at least implement the technical and organisational measures specified in Annex II. The data importer shall carry out regular checks to ensure that these measures continue to provide an appropriate level of security.
- (b) The data importer shall grant access to the personal data to members of its personnel only to the extent strictly necessary for the implementation, management and monitoring of the contract. It shall ensure that persons authorised to process the personal data have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality.
- (c) In the event of a personal data breach concerning personal data processed by the data importer under these Clauses, the data importer shall take appropriate measures to address the breach, including measures to mitigate its adverse effects. The data importer shall also notify the data exporter without undue delay after having become aware of the breach. Such notification shall contain the details of a contact point where more information can be obtained, a description of the nature of the breach (including, where possible, categories and approximate number of data subjects and personal data records concerned), its likely consequences and the measures taken or proposed to address the breach including, where appropriate, measures to mitigate its possible adverse effects. Where, and in so far as, it is not possible to provide all information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay.
- (d) The data importer shall cooperate with and assist the data exporter to enable the data exporter to comply with its obligations under Regulation (EU) 2016/679, in particular to notify the competent supervisory authority and the affected data subjects, taking into account the nature of processing and the information available to the data importer.

8.7 Sensitive data

Where the transfer involves personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data, or biometric data for the purpose of uniquely identifying a natural person, data concerning health or a person's sex life or sexual orientation, or data relating to criminal convictions and offences (hereinafter 'sensitive data'), the data importer shall apply the specific restrictions and/or additional safeguards described in Annex I.B.

8.8 Onward transfers

The data importer shall only disclose the personal data to a third party on documented instructions from the data exporter. In addition, the data may only be disclosed to a third party located outside the European Union ²(in the same country as the data importer or in another third country, hereinafter 'onward transfer') if the third party is or agrees to be bound by these Clauses, under the appropriate Module, or if:

- (i) the onward transfer is to a country benefitting from an adequacy decision pursuant to Article 45 of Regulation (EU) 2016/679 that covers the onward transfer;
- (ii) the third party otherwise ensures appropriate safeguards pursuant to Articles 46 or 47 Regulation of (EU) 2016/679 with respect to the processing in question;
- (iii) the onward transfer is necessary for the establishment, exercise or defence of legal claims in the context of specific administrative, regulatory or judicial proceedings; or
- (iv) the onward transfer is necessary in order to protect the vital interests of the data subject or of another natural person.

Any onward transfer is subject to compliance by the data importer with all the other safeguards under these Clauses, in particular purpose limitation.

8.9 Documentation and compliance

- (a) The data importer shall promptly and adequately deal with enquiries from the data exporter that relate to the processing under these Clauses.
- (b) The Parties shall be able to demonstrate compliance with these Clauses. In particular, the data importer shall keep appropriate documentation on the processing activities carried out on behalf of the data exporter.
- (c) The data importer shall make available to the data exporter all information necessary to demonstrate compliance with the obligations set out in these Clauses and at the data exporter's request, allow for and contribute to audits of the processing activities covered by these Clauses, at reasonable intervals or if there are indications of non-compliance. In deciding on a review or audit, the data exporter may take into account relevant certifications held by the data importer.
- (d) The data exporter may choose to conduct the audit by itself or mandate an independent auditor. Audits may include inspections at the premises or physical facilities of the data importer and shall, where appropriate, be carried out with reasonable notice.
- (e) The Parties shall make the information referred to in paragraphs (b) and (c), including the results of any audits, available to the competent supervisory authority on request.

Clause 9

Use of sub-processors

- (a) **GENERAL WRITTEN AUTHORISATION** The data importer has the data exporter's general authorisation for the engagement of sub-processor(s) from an agreed list. The data importer shall specifically inform the data exporter in writing of any intended changes to that list through the addition or replacement of sub-processors at least 30 business days in advance, thereby giving the data exporter sufficient time to be able to object to

² The Agreement on the European Economic Area (EEA Agreement) provides for the extension of the European Union's internal market to the three EEA States Iceland, Liechtenstein and Norway. The Union data protection legislation, including Regulation (EU) 2016/679, is covered by the EEA Agreement and has been incorporated into Annex XI thereto. Therefore, any disclosure by the data importer to a third party located in the EEA does not qualify as an onward transfer for the purpose of these Clauses.

such changes prior to the engagement of the sub-processor(s). The data importer shall provide the data exporter with the information necessary to enable the data exporter to exercise its right to object.

- (b) Where the data importer engages a sub-processor to carry out specific processing activities (on behalf of the data exporter), it shall do so by way of a written contract that provides for, in substance, the same data protection obligations as those binding the data importer under these Clauses, including in terms of third-party beneficiary rights for data subjects. ³ The Parties agree that, by complying with this Clause, the data importer fulfils its obligations under Clause 8.8. The data importer shall ensure that the sub-processor complies with the obligations to which the data importer is subject pursuant to these Clauses.
- (c) The data importer shall provide, at the data exporter's request, a copy of such a sub-processor agreement and any subsequent amendments to the data exporter. To the extent necessary to protect business secrets or other confidential information, including personal data, the data importer may redact the text of the agreement prior to sharing a copy.
- (d) The data importer shall remain fully responsible to the data exporter for the performance of the sub-processor's obligations under its contract with the data importer. The data importer shall notify the data exporter of any failure by the sub-processor to fulfil its obligations under that contract.
- (e) The data importer shall agree a third-party beneficiary clause with the sub-processor whereby – in the event the data importer has factually disappeared, ceased to exist in law or has become insolvent – the data exporter shall have the right to terminate the sub-processor contract and to instruct the sub-processor to erase or return the personal data.

Clause 10

Data subject rights

- (a) The data importer shall promptly notify the data exporter of any request it has received from a data subject. It shall not respond to that request itself unless it has been authorised to do so by the data exporter.
- (b) The data importer shall assist the data exporter in fulfilling its obligations to respond to data subjects' requests for the exercise of their rights under Regulation (EU) 2016/679. In this regard, the Parties shall set out in Annex II the appropriate technical and organisational measures, taking into account the nature of the processing, by which the assistance shall be provided, as well as the scope and the extent of the assistance required.
- (c) In fulfilling its obligations under paragraphs (a) and (b), the data importer shall comply with the instructions from the data exporter.

Clause 11

Redress

- (a) The data importer shall inform data subjects in a transparent and easily accessible format, through individual notice or on its website, of a contact point authorised to handle complaints. It shall deal promptly with any complaints it receives from a data subject.

³ This requirement may be satisfied by the sub-processor acceding to these Clauses under the appropriate Module, in accordance with Clause 7.

- (b) In case of a dispute between a data subject and one of the Parties as regards compliance with these Clauses, that Party shall use its best efforts to resolve the issue amicably in a timely fashion. The Parties shall keep each other informed about such disputes and, where appropriate, cooperate in resolving them.
- (c) Where the data subject invokes a third-party beneficiary right pursuant to Clause 3, the data importer shall accept the decision of the data subject to:
 - (i) lodge a complaint with the supervisory authority in the Member State of his/her habitual residence or place of work, or the competent supervisory authority pursuant to Clause 13;
 - (ii) refer the dispute to the competent courts within the meaning of Clause 18.
- (d) The Parties accept that the data subject may be represented by a not-for-profit body, organisation or association under the conditions set out in Article 80(1) of Regulation (EU) 2016/679.
- (e) The data importer shall abide by a decision that is binding under the applicable EU or Member State law.
- (f) The data importer agrees that the choice made by the data subject will not prejudice his/her substantive and procedural rights to seek remedies in accordance with applicable laws.

Clause 12

Liability

- (a) Each Party shall be liable to the other Party/ies for any damages it causes the other Party/ies by any breach of these Clauses.
- (b) The data importer shall be liable to the data subject, and the data subject shall be entitled to receive compensation, for any material or non-material damages the data importer or its sub-processor causes the data subject by breaching the third-party beneficiary rights under these Clauses.
- (c) Notwithstanding paragraph (b), the data exporter shall be liable to the data subject, and the data subject shall be entitled to receive compensation, for any material or non-material damages the data exporter or the data importer (or its sub-processor) causes the data subject by breaching the third-party beneficiary rights under these Clauses. This is without prejudice to the liability of the data exporter and, where the data exporter is a processor acting on behalf of a controller, to the liability of the controller under Regulation (EU) 2016/679 or Regulation (EU) 2018/1725, as applicable.
- (d) The Parties agree that if the data exporter is held liable under paragraph (c) for damages caused by the data importer (or its sub-processor), it shall be entitled to claim back from the data importer that part of the compensation corresponding to the data importer's responsibility for the damage.
- (e) Where more than one Party is responsible for any damage caused to the data subject as a result of a breach of these Clauses, all responsible Parties shall be jointly and severally liable and the data subject is entitled to bring an action in court against any of these Parties.
- (f) The Parties agree that if one Party is held liable under paragraph (e), it shall be entitled to claim back from the other Party/ies that part of the compensation corresponding to its/their responsibility for the damage.
- (g) The data importer may not invoke the conduct of a sub-processor to avoid its own liability.

Clause 13

Supervision

- (a) [Where the data exporter is established in an EU Member State:] The supervisory authority with responsibility for ensuring compliance by the data exporter with Regulation (EU) 2016/679 as regards the data transfer, as indicated in Annex I.C, shall act as competent supervisory authority.

[Where the data exporter is not established in an EU Member State, but falls within the territorial scope of application of Regulation (EU) 2016/679 in accordance with its Article 3(2) and has appointed a representative pursuant to Article 27(1) of Regulation (EU) 2016/679:] The supervisory authority of the Member State in which the representative within the meaning of Article 27(1) of Regulation (EU) 2016/679 is established, as indicated in Annex I.C, shall act as competent supervisory authority.

[Where the data exporter is not established in an EU Member State, but falls within the territorial scope of application of Regulation (EU) 2016/679 in accordance with its Article 3(2) without however having to appoint a representative pursuant to Article 27(2) of Regulation (EU) 2016/679:] The supervisory authority of one of the Member States in which the data subjects whose personal data is transferred under these Clauses in relation to the offering of goods or services to them, or whose behaviour is monitored, are located, as indicated in Annex I.C, shall act as competent supervisory authority.

- (b) The data importer agrees to submit itself to the jurisdiction of and cooperate with the competent supervisory authority in any procedures aimed at ensuring compliance with these Clauses. In particular, the data importer agrees to respond to enquiries, submit to audits and comply with the measures adopted by the supervisory authority, including remedial and compensatory measures. It shall provide the supervisory authority with written confirmation that the necessary actions have been taken.

SECTION III – LOCAL LAWS AND OBLIGATIONS IN CASE OF ACCESS BY PUBLIC AUTHORITIES

Clause 14

Local laws and practices affecting compliance with the Clauses

- (a) The Parties warrant that they have no reason to believe that the laws and practices in the third country of destination applicable to the processing of the personal data by the data importer, including any requirements to disclose personal data or measures authorising access by public authorities, prevent the data importer from fulfilling its obligations under these Clauses. This is based on the understanding that laws and practices that respect the essence of the fundamental rights and freedoms and do not exceed what is necessary and proportionate in a democratic society to safeguard one of the objectives listed in Article 23(1) of Regulation (EU) 2016/679, are not in contradiction with these Clauses.
- (b) The Parties declare that in providing the warranty in paragraph (a), they have taken due account in particular of the following elements:
- (i) the specific circumstances of the transfer, including the length of the processing chain, the number of actors involved and the transmission channels used; intended onward transfers; the type of recipient; the purpose of processing; the categories and format of the transferred personal data; the economic sector in which the transfer occurs; the storage location of the data transferred;

- (ii) the laws and practices of the third country of destination – including those requiring the disclosure of data to public authorities or authorising access by such authorities – relevant in light of the specific circumstances of the transfer, and the applicable limitations and safeguards⁴;
 - (iii) any relevant contractual, technical or organisational safeguards put in place to supplement the safeguards under these Clauses, including measures applied during transmission and to the processing of the personal data in the country of destination.
- (c) The data importer warrants that, in carrying out the assessment under paragraph (b), it has made its best efforts to provide the data exporter with relevant information and agrees that it will continue to cooperate with the data exporter in ensuring compliance with these Clauses.
 - (d) The Parties agree to document the assessment under paragraph (b) and make it available to the competent supervisory authority on request.
 - (e) The data importer agrees to notify the data exporter promptly if, after having agreed to these Clauses and for the duration of the contract, it has reason to believe that it is or has become subject to laws or practices not in line with the requirements under paragraph (a), including following a change in the laws of the third country or a measure (such as a disclosure request) indicating an application of such laws in practice that is not in line with the requirements in paragraph (a).
 - (f) Following a notification pursuant to paragraph (e), or if the data exporter otherwise has reason to believe that the data importer can no longer fulfil its obligations under these Clauses, the data exporter shall promptly identify appropriate measures (e.g. technical or organisational measures to ensure security and confidentiality) to be adopted by the data exporter and/or data importer to address the situation. The data exporter shall suspend the data transfer if it considers that no appropriate safeguards for such transfer can be ensured, or if instructed by the competent supervisory authority to do so. In this case, the data exporter shall be entitled to terminate the contract, insofar as it concerns the processing of personal data under these Clauses. If the contract involves more than two Parties, the data exporter may exercise this right to termination only with respect to the relevant Party, unless the Parties have agreed otherwise. Where the contract is terminated pursuant to this Clause, Clause 16(d) and (e) shall apply.

Clause 15

Obligations of the data importer in case of access by public authorities

15.1 Notification

- (a) The data importer agrees to notify the data exporter and, where possible, the data subject promptly (if necessary with the help of the data exporter) if it.
 - (i) receives a legally binding request from a public authority, including judicial authorities, under the laws of the country of destination for the disclosure of personal data transferred pursuant to these Clauses; such

⁴ As regards the impact of such laws and practices on compliance with these Clauses, different elements may be considered as part of an overall assessment. Such elements may include relevant and documented practical experience with prior instances of requests for disclosure from public authorities, or the absence of such requests, covering a sufficiently representative time-frame. This refers in particular to internal records or other documentation, drawn up on a continuous basis in accordance with due diligence and certified at senior management level, provided that this information can be lawfully shared with third parties. Where this practical experience is relied upon to conclude that the data importer will not be prevented from complying with these Clauses, it needs to be supported by other relevant, objective elements, and it is for the Parties to consider carefully whether these elements together carry sufficient weight, in terms of their reliability and representativeness, to support this conclusion. In particular, the Parties have to take into account whether their practical experience is corroborated and not contradicted by publicly available or otherwise accessible, reliable information on the existence or absence of requests within the same sector and/or the application of the law in practice, such as case law and reports by independent oversight bodies.

- notification shall include information about the personal data requested, the requesting authority, the legal basis for the request and the response provided; or
- (ii) becomes aware of any direct access by public authorities to personal data transferred pursuant to these Clauses in accordance with the laws of the country of destination; such notification shall include all information available to the importer.
- (b) If the data importer is prohibited from notifying the data exporter and/or the data subject under the laws of the country of destination, the data importer agrees to use its best efforts to obtain a waiver of the prohibition, with a view to communicating as much information as possible, as soon as possible. The data importer agrees to document its best efforts in order to be able to demonstrate them on request of the data exporter.
- (c) Where permissible under the laws of the country of destination, the data importer agrees to provide the data exporter, at regular intervals for the duration of the contract, with as much relevant information as possible on the requests received (in particular, number of requests, type of data requested, requesting authority/ies, whether requests have been challenged and the outcome of such challenges, etc.).
- (d) The data importer agrees to preserve the information pursuant to paragraphs (a) to (c) for the duration of the contract and make it available to the competent supervisory authority on request.
- (e) Paragraphs (a) to (c) are without prejudice to the obligation of the data importer pursuant to Clause 14(e) and Clause 16 to inform the data exporter promptly where it is unable to comply with these Clauses.

15.2 Review of legality and data minimisation

- (a) The data importer agrees to review the legality of the request for disclosure, in particular whether it remains within the powers granted to the requesting public authority, and to challenge the request if, after careful assessment, it concludes that there are reasonable grounds to consider that the request is unlawful under the laws of the country of destination, applicable obligations under international law and principles of international comity. The data importer shall, under the same conditions, pursue possibilities of appeal. When challenging a request, the data importer shall seek interim measures with a view to suspending the effects of the request until the competent judicial authority has decided on its merits. It shall not disclose the personal data requested until required to do so under the applicable procedural rules. These requirements are without prejudice to the obligations of the data importer under Clause 14(e).
- (b) The data importer agrees to document its legal assessment and any challenge to the request for disclosure and, to the extent permissible under the laws of the country of destination, make the documentation available to the data exporter. It shall also make it available to the competent supervisory authority on request.
- (c) The data importer agrees to provide the minimum amount of information permissible when responding to a request for disclosure, based on a reasonable interpretation of the request.

SECTION IV – FINAL PROVISIONS

Clause 16

Non-compliance with the Clauses and termination

- (a) The data importer shall promptly inform the data exporter if it is unable to comply with these Clauses, for whatever reason.

- (b) In the event that the data importer is in breach of these Clauses or unable to comply with these Clauses, the data exporter shall suspend the transfer of personal data to the data importer until compliance is again ensured or the contract is terminated. This is without prejudice to Clause 14(f).
- (c) The data exporter shall be entitled to terminate the contract, insofar as it concerns the processing of personal data under these Clauses, where:
 - (i) the data exporter has suspended the transfer of personal data to the data importer pursuant to paragraph (b) and compliance with these Clauses is not restored within a reasonable time and in any event within one month of suspension;
 - (ii) the data importer is in substantial or persistent breach of these Clauses; or
 - (iii) the data importer fails to comply with a binding decision of a competent court or supervisory authority regarding its obligations under these Clauses.

In these cases, it shall inform the competent supervisory authority of such non-compliance. Where the contract involves more than two Parties, the data exporter may exercise this right to termination only with respect to the relevant Party, unless the Parties have agreed otherwise.

- (d) Personal data that has been transferred prior to the termination of the contract pursuant to paragraph (c) shall at the choice of the data exporter immediately be returned to the data exporter or deleted in its entirety. The same shall apply to any copies of the data. The data importer shall certify the deletion of the data to the data exporter. Until the data is deleted or returned, the data importer shall continue to ensure compliance with these Clauses. In case of local laws applicable to the data importer that prohibit the return or deletion of the transferred personal data, the data importer warrants that it will continue to ensure compliance with these Clauses and will only process the data to the extent and for as long as required under that local law.
- (e) Either Party may revoke its agreement to be bound by these Clauses where (i) the European Commission adopts a decision pursuant to Article 45(3) of Regulation (EU) 2016/679 that covers the transfer of personal data to which these Clauses apply; or (ii) Regulation (EU) 2016/679 becomes part of the legal framework of the country to which the personal data is transferred. This is without prejudice to other obligations applying to the processing in question under Regulation (EU) 2016/679.

Clause 17

Governing law

[OPTION 1: These Clauses shall be governed by the law of one of the EU Member States, provided such law allows for third-party beneficiary rights. The Parties agree that this shall be the law of **The Republic of Ireland** (*specify Member State*).]

Clause 18

Choice of forum and jurisdiction

- (a) Any dispute arising from these Clauses shall be resolved by the courts of an EU Member State.
- (b) The Parties agree that those shall be the courts of The Republic of Ireland (*specify Member State*).
- (c) A data subject may also bring legal proceedings against the data exporter and/or data importer before the courts of the Member State in which he/she has his/her habitual residence.
- (d) The Parties agree to submit themselves to the jurisdiction of such courts.

APPENDIX

EXPLANATORY NOTE:

It must be possible to clearly distinguish the information applicable to each transfer or category of transfers and, in this regard, to determine the respective role(s) of the Parties as data exporter(s) and/or data importer(s). This does not necessarily require completing and signing separate appendices for each transfer/category of transfers and/or contractual relationship, where this transparency can be achieved through one appendix. However, where necessary to ensure sufficient clarity, separate appendices should be used.

C. COMPETENT SUPERVISORY AUTHORITY

Identification of the competent supervisory authority/ies in accordance with Clause 13

If the data exporter is established in an EU Member State: the supervisory authority with responsibility for ensuring compliance by the data exporter with GDPR as regards the data transfer will act as competent supervisory authority.

If the data exporter is not established in an EU Member State, but falls within the territorial scope of application of GDPR (i.e., Article 3(2) GDPR) and has appointed a representative in the EU (i.e., Article 27(1) GDPR): the supervisory authority of the Member State in which the representative is established will act as competent supervisory authority.

If the data exporter is not established in an EU Member State, but falls within the territorial scope of application of GDPR without however having to appoint a representative in the EU: the supervisory authority of one of the Member States in which the data subjects whose personal data is transferred under the Standard Contractual Clauses in relation to the offering of goods or services to them, or whose behavior is monitored, are located, will act as competent supervisory authority.

ANNEX II.A

(Pluralsight Skills and Flow Products)

TECHNICAL AND ORGANISATIONAL MEASURES INCLUDING TECHNICAL AND ORGANISATIONAL MEASURES TO ENSURE THE SECURITY OF THE DATA

EXPLANATORY NOTE:

The technical and organisational measures must be described in specific (and not generic) terms. See also the general comment on the first page of the Appendix, in particular on the need to clearly indicate which measures apply to each transfer/set of transfers.

Description of the technical and organisational measures implemented by the data importer(s) (including any relevant certifications) to ensure an appropriate level of security, taking into account the nature, scope, context and purpose of the processing, and the risks for the rights and freedoms of natural persons.

[Examples of possible measures:

Measures of pseudonymisation and encryption of personal data

- *All sensitive data transferred to destinations outside of Pluralsight environments must be encrypted with at least 256-bit keys.*
- *The IT and Operations teams ensure that sensitive data in transit within the Pluralsight environment is also encrypted with TLS and strong ciphers. Additionally, remote access to Pluralsight systems and applications must be encrypted.*
- *Team members ensure that emails (including attachments) are encrypted whenever sensitive data is contained or attached. The IT team ensures there are email encryption capabilities available to team members.*
- *The IT team is responsible for implementing Wi-Fi Protected Access (i.e. WPA2 - Enterprise) encryption which is mandatory for all Pluralsight business wireless networks.*
- *All corporate endpoint devices/laptops are encrypted using NIST standard encryption algorithms at the disk or volume level leveraging technologies incorporated in the operating system.*
- *Application credentials and service accounts are encrypted and stored in centrally managed solutions.*
- *Amazon RDS Databases are encrypted at the database level using NIST AES standard of 128 bit encryption or higher.*
- *Pluralsight does not ever store credit card information in our data stores; rather, Pluralsight utilizes third-party services, which are PCI-certified and implement industry data security standards appropriate for that data classification, to manage all confidential subscription and billing information.*
- *The Pluralsight platform leverages the bcrypt hashing algorithm for all individual customer passwords and only ever stores the hashed output of that computation.*

Measures for ensuring ongoing confidentiality, integrity, availability and resilience of processing systems and services

- *Pluralsight is ISO 27001 certified which includes an annual review, by an ANAB accredited third party, of our security practices. Additionally; as part of this certification, it is required Pluralsight also conducts an annual internal audit and an external penetration test conducted.*
- *Pluralsight possesses a SOC II Type II report, which is the assessment of Pluralsight's security controls conducted by a third party.*

Measures for ensuring the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident

- *Pluralsight's production environment is housed in the AWS US-West-2 Region. High Availability (HA) is turned on for critical services. The AWS infrastructure provides redundancy for Pluralsight platform availability.*
- *The App.Pluralsight.com Disaster Recovery Plan is activated when an event is determined to significantly affect or threaten to significantly affect The Pluralsight Skills product. The degree and extent of activation depends upon the impact and timing of the event, but for the purposes of this plan, a disaster will be declared when the primary Amazon region hosting app.pluralsight.com is unavailable and the Estimated Time to Resolution(ETR) for that region is less than our projected ETR for recovering to a different Amazon region. Specific actions to be undertaken upon disaster declaration and plan activation are detailed hereafter. Both our RTO and RPO are 24 hrs. Those objectives are what we will compare with AWS's ETR.*

- *The IT and Operations teams ensure that sensitive data in transit within the Pluralsight environment is also encrypted with TLS and strong ciphers. Additionally, remote access to Pluralsight systems and applications must be encrypted.*

- Team members ensure that emails (including attachments) are encrypted whenever sensitive data is contained or attached. The IT team ensures there are email encryption capabilities available to team members.
- The IT team is responsible for implementing Wi-Fi Protected Access (i.e. WPA2 - Enterprise) encryption which is mandatory for all Pluralsight business wireless networks.

Measures for the protection of data during transmission

- All sensitive data transferred to destinations outside of Pluralsight environments must be encrypted with at least 256-bit keys.
- The IT and Operations teams ensure that sensitive data in transit within the Pluralsight environment is also encrypted with TLS and strong ciphers. Additionally, remote access to Pluralsight systems and applications must be encrypted.
- Team members ensure that emails (including attachments) are encrypted whenever sensitive data is contained or attached. The IT team ensures there are email encryption capabilities available to team members.
- The IT team is responsible for implementing Wi-Fi Protected Access (i.e. WPA2 - Enterprise) encryption which is mandatory for all Pluralsight business wireless networks.

Measures for the protection of data during storage

- All corporate endpoint devices/laptops are encrypted using NIST standard encryption algorithms at the disk or volume level leveraging technologies incorporated in the operating system (e.g. Bitlocker and Filevault using AES-128 bit encryption or higher);
- Application credentials and service accounts are encrypted and stored in centrally managed solutions. (e.g. Hashicorp Vault, LastPass, etc.)
- Amazon RDS Databases are encrypted at the database level using NIST AES standard of 128 bit encryption or higher.
- Pluralsight plans to enhance encryption at rest strategies in AWS by the end of 2021 by further encrypting all Amazon EBS volumes and all customer data stored in Amazon S3 buckets.
- Pluralsight does not ever store credit card information in our data stores; rather, Pluralsight utilizes third-party services, which are PCI-certified and implement industry data security standards appropriate for that data classification, to manage all confidential subscription and billing information.
- The Pluralsight platform leverages the bcrypt hashing algorithm for all individual customer passwords and only ever stores the hashed output of that computation.

Measures for ensuring physical security of locations at which personal data are processed

- Customer data is housed in AWS where their physical security controls are leveraged (www.aws.amazon.com/security & www.aws.amazon.com/compliance)
- Pluralsight is ISO 27001 certified which includes an annual review, by an ANAB accredited third party, of our security practices. Additionally; as part of this certification, it is required that Pluralsight reviews Amazon Web Services (AWS) SOC II which provides appropriate assurance of AWS' physical security practices.

Measures for ensuring events logging

- Pluralsight is ISO 27001 certified which includes an annual review, by an ANAB accredited third party, of our security practices. Additionally; as part of this certification, it is required that Pluralsight has appropriate event logging practices in place.
- All critical devices, systems, datastores, and applications have event logging enabled. Logging events must contain what occurred, who or what caused the event, when the event occurred (i.e. timestamp), and the associated system applications or data affected by the events.
- Where possible, the following system, datastore, and application types of events should be logged:
 - All authentication events (success and fail)
 - Account or role creation, modification, or deletion
 - Changes to system or application configuration
 - All alerts raised by the access control system

- Administrator or operator activities
- Centrally collected event logs from systems, datastores, and applications. Access to centrally collected event logs is controlled by these teams and limited to “need to know” scenarios. Centrally collected event logs are retained for a period of no less than 12 months.

Measures for ensuring system configuration, including default configuration

- Configuration Standards such as an Implementation Checklist and Operating Procedures are in place for system components. This also includes a description of any manual or automated tasks for installation and maintenance, backup, error handling, system restart and recovery procedures, logging and monitoring methods.
- Default vendor passwords must be changed after the installation of systems or software and before system or software is used in production.

Measures for internal IT and IT security governance and management

- Pluralsight is ISO 27001 certified which includes an annual review, by an ANAB accredited third party, of our security practices. Additionally; as part of this certification, it is required Pluralsight also conducts an annual internal audit and an external penetration test conducted.
- Pluralsight possesses a SOC II Type II report, which is the assessment of Pluralsight’s security controls conducted by a third party.
- Personal data is protected with least privilege access and handled with appropriate operational procedures.
- Access shall be limited to the minimum necessary to perform the assigned duties (principle of least privilege).
- Laptops are necessary to conduct business tasks and are provided and centrally managed by IT. Other personally-owned mobile devices, such as smartphones, that are not owned by Pluralsight must adhere to our Mobile Device Policy & Standard (MDM). To protect mobile devices and business related data, the IT team is responsible for the implementation of technical security measures. Additionally, every team member is responsible to ensure that mobile devices accessing Pluralsight data comply with the following requirements:
 - Access to devices must be authenticated (including a PIN on mobile devices).
 - The device is encrypted.
 - Anti-malware software and definitions are updated automatically.

The IT team and Information Security team have the right to control information on mobile devices and forensically examine the device believed to contain, or to have contained, corporate data where necessary for investigatory or control purposes.

- Team members are permitted to carry personal smartphones or tablets with them to corporate offices. The accessing, processing, copying, or taking pictures of business related data and documents is strictly prohibited.
- Team members shall be positively identified, authorized, and authenticated before they are granted access to company information resources.
- Access shall be limited to the minimum necessary to perform the assigned duties (principle of least privilege).
- Access to information resources shall be controlled through a defined and managed process which addresses authorizing, modifying, and revoking access, and which includes a periodic review of information system privileges.
- A user enrollment process shall be created, documented, implemented, and maintained on a regular basis.
- Each user shall be uniquely identified.
- Each user requiring access to Pluralsight’s information assets above the standard access for their job function shall submit a request
- User access requests shall be retained as required by business and regulatory needs.

- *User access and privileges shall be reviewed through a defined process.*
- *Reviews of non-administrative and administrative user access rights shall be performed at least annually.*
- *Change requests serve as a "notice" to others within Pluralsight regarding proposed alterations to the IT environment. Change requests may come from a variety of individuals within the company and are necessary for effective tracking and information management. Requests are initiated by logging a request for change on the IT change request system.*
- *Change authorization is performed by the Pluralsight IT and Security teams.*
- *A Change review will occur following the implementation of the change into the production environment. This function may be performed by a variety of personnel, but traditionally the function is best performed by those performing the actual distribution functions, or others who may be most familiar with the performance of the production environment.*
- *All Pluralsight team members are trained and educated on internet browsing and email best practices to help protect against malware, phishing, and ransomware. Team members must be attentive to indications of a compromise and must contact the IT team immediately if a compromise is suspected.*
- *The IT and Operations teams are responsible for implementing anti-malware capabilities. They establish a patch management process for systems they support and a procedure to remain aware of new vulnerabilities. These teams are also responsible for ensuring the following take place:*
- *All Windows and MacOS systems, as well as Linux systems have approved anti-malware software installed and operating.*
- *Anti-malware is centrally administered by the IT and Operations teams.*
- *Anti-malware is centrally monitored by the Information Security team.*
- *Anti-malware definition files and/or updates are downloaded and installed automatically.*
- *Anti-malware software is configured to scan all files before being accessed and/or written to disk.*
- *Anti-malware is configured to clean, quarantine, or delete any infected file.*
- *Anti-malware software is enabled at system startup and configured to only be disabled by system administrators.*
- *Anti-malware software is capable of generating audit logs and is enabled at all times.*
- *Operational software is only installed, deployed, maintained, and tested by the IT or Operations teams and a configuration control system is deployed to manage and document authorized software, applications, or libraries.*
- *The IT and Operations teams are responsible for the management of the Pluralsight business and product networks, respectively. This includes the administration and monitoring of those networks for the purposes of security and availability. All remote network level access and administration is restricted by firewall authentication. Complete network level access is only granted to the IT and Operations teams. All requests for access and network changes follow the change management process.*
- *Networks, including the components which comprise them, shall be managed and controlled to limit threats and vulnerabilities.*
- *Network controls shall ensure the protection and security of the information processing services and applications dependent on the network infrastructure.*
- *Network services agreements, whether in-house or outsourced, shall include the following provisions:*
- *Security features and requirements.*
- *Service level agreements.*
- *Specified responsibility for managing security requirements on both sides of the service delivery process.*
- *Groups of information services, users, and information systems shall be segregated on the network.*
- *Grouping shall be determined by business function, information classification, the Access Control Policy, and user access requirements.*
- *The IT and Operations teams ensure that Pluralsight networks are segregated (using authentication, physical and logical access restrictions) from each other using network ACLS, firewalls, VPNs, security groups, etc. They establish specific segments for each office location, guest wireless, team member*

wireless, development/test, stage, and production environments. Team member wireless access is, at a minimum, WPA2 Enterprise and requires unique credentials for each user.

- The Information Security team assesses each environment at least annually for risks.

Measures for ensuring data quality

- Disaster Recovery Testing is conducted quarterly.
- Pluralsight is ISO 27001 certified which includes an annual review, by an ANAB accredited third party, of our security practices. Additionally; as part of this certification, it is required Pluralsight also conducts an annual internal audit and an external penetration test conducted. Data validation inputs are also reviewed as part of the ISO 27001 certification.

- Data protection laws require that personal data not be retained for longer than is necessary for the purpose for which it is processed.
- Records must not be retained beyond the period indicated in the Records Retention Schedule unless the record is identified as information subject to a litigation hold or other valid business reason. If you are uncertain as to when a record can be destroyed, you can reach out to the Legal Department for guidance.
- Erasure Requests: Pluralsight has added a "delete my account" feature, thus facilitating learner requests to be forgotten. When a learner deletes their account, all data associated with that account in the product will no longer be identifiable to a natural person.

Measures for allowing data portability and ensuring erasure

- Erasure Requests: Pluralsight has added a "delete my account" feature, thus facilitating learner requests to be forgotten. When a learner deletes their account, all data associated with that account in the product will no longer be identifiable to a natural person.

Measures for assisting the data exporter with data subject access requests

Data importer will assist dataexporter in meeting its obligations under the GDPR by either (i) providing Customer the ability within the Platform to access, correct or delete personal data or restrict its processing; or (ii) if such functionality is not available within the Platform, make personal data available to data exporter, or as applicable, make such corrections, deletions, or restrictions on data exporter's behalf.

For transfers to (sub-) processors, also describe the specific technical and organisational measures to be taken by the (sub-) processor to be able to provide assistance to the controller and, for transfers from a processor to a sub-processor, to the data exporter

Pluralsight contractually binds its sub-processors to technical and organizational measures substantially equivalent to those to which Pluralsight has committed herein.

ANNEX II.B.

(A Cloud Guru ("ACG") Cloud Product)

TECHNICAL AND ORGANISATIONAL MEASURES INCLUDING TECHNICAL AND ORGANISATIONAL MEASURES TO ENSURE THE SECURITY OF THE DATA

EXPLANATORY NOTE:

The technical and organisational measures must be described in specific (and not generic) terms. See also the general comment on the first page of the Appendix, in particular on the need to clearly indicate which measures apply to each transfer/set of transfers.

Description of the technical and organisational measures implemented by the data importer(s) (including any relevant certifications) to ensure an appropriate level of security, taking into account the nature, scope, context and purpose of the processing, and the risks for the rights and freedoms of natural persons.

[Examples of possible measures:

Measures of pseudonymisation and encryption of personal data

- *ACG encrypts data both at rest and in transit. All external network communication uses TLS encryption to protect it in transit. We leverage the encryption tools included in public cloud data stores to encrypt data at rest.*

Measures for ensuring ongoing confidentiality, integrity, availability and resilience of processing systems and services

- **Confidentiality**
 - *ACG restricts access to systems and infrastructure to ACG personnel (or, at limited times, consultants who are bound by confidentiality and data protection standards) who require access as part of their job responsibilities. Access removal processes are used to revoke access to personnel who no longer need it.*
 - *ACG enforces a password policy and a requirement for multi-factor authentication to protect sensitive systems.*
 - *We protect our user login against a number of attack vectors including brute force attacks by utilising third party services. Passwords are cryptographically hashed and salted by our authorisation provider based on industry best practises. Our authorization provider generates user authorisation tokens to manage connections to the platform.*
 - *ACG is primarily a serverless environment, entirely hosted in the cloud and uses the shared cloud security model. We do not run our own routers, load balancers, DNS servers, or physical servers.*
 - *Activity on ACG's systems is logged and monitored. We capture and store logs generated by our infrastructure, application code and vendors. This includes but is not limited to, Amazon Web Services (AWS), Auth0, GSuite and Github. Logs from these systems are stored and analysed for unusual activity.*
- **Integrity**
 - *The deployment of the ACG platform is entirely automated. Changes to both infrastructure and code are subject to automated testing using our Continuous Integration (CI) tool before being released to production. A change that passes our review and testing process is then deployed to production using our CI tool.*
 - *All changes to the ACG codebase are reviewed by peers. Code reviews are designed to ensure the security, performance and quality of code released to production. Code changes are staged or tested prior to deployment to production systems.*
 - *ACG engages an independent organisation to perform regular penetration tests to assess the security of our platform. The security of our platform is reviewed on a 6 monthly basis. The team works quickly to mitigate potential issues identified by these reviews.*
- **Availability and Resilience**

- ACG leverages fully managed, i.e. “serverless”, services to deliver the platform such as AWS Lambda. The provider is responsible for administering and patching the servers in such cases.
- In cases where we run cloud based servers, we actively scan for security and configuration vulnerabilities and patch those servers according to the risks presented.
- We manage our infrastructure as code, allowing us to audit and peer review any changes, and to provide a secure and automated process for applying these changes.
- ACG maintains a Business Continuity plan for the ACG organization.
- Backups are a central part of our Disaster Recovery strategy. All customer data is stored in Cloud storage services. All data is backed-up on at least a daily basis.

Measures for ensuring the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident

- ACG hosts its infrastructure in an industry leading cloud provider and all services that we utilize have High Availability as a part of the architecture.

Processes for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures in order to ensure the security of the processing

- ACG’s infrastructure is Infrastructure as Code. Our infrastructure does not have changes unless such changes are peer reviewed.

Measures for user identification and authorisation

- ACG’s systems are authenticated using SSO against our company’s central authentication.
- ACG makes use of RBACs.
- ACG’s employees all use individual accounts unique to them. Access is granted as necessary and as minimally as possible. Upon employee role change or employment termination, access is removed accordingly.

Measures for the protection of data during transmission

- ACG encrypts data in transit with TLSv1.2.

Measures for the protection of data during storage

- ACG encrypts data at rest with AES-256.

Measures for ensuring physical security of locations at which personal data are processed

- Because we are entirely cloud-based, we do not maintain any data centers. Physical security of data is handled by AWS and/or the applicable provider.

Measures for ensuring events logging

- We keep access, event, and application logs.

Measures for ensuring system configuration, including default configuration

- Configuration Standards such as an Implementation Checklist and Operating Procedures are in place for system components. This also includes a description of any manual or automated tasks for installation and maintenance, backup, error handling, system restart and recovery procedures, logging and monitoring methods. Most system configurations are saved in version control to achieve and maintain Infrastructure as Code.
- Default vendor passwords must be changed after the installation of systems or software and before system or software is used in production.

Measures for internal IT and IT security governance and management

- Our IT department follows industry standards for managing ACG assets and ensuring security from our perimeter and through to each employee’s devices.

Measures for certification/assurance of processes and products

- *We model our processes after industry best practices and are working towards third-party accredited certification.*

Measures for ensuring data minimisation

- *ACG processes relatively low risk personal data of your users in order to offer and enhance our services to you.*

Measures for ensuring data quality

- *The data that we do collect and process is mostly by a user's interaction with the service. Here the data cannot be misconstrued.*

Measures for ensuring limited data retention

- *ACG's customer data (including associated personal data) will be retained for the longer of the duration of the contract or such other period as may be provided for by applicable law.*

Measures for ensuring accountability

- *ACG has a Data Protection Officer.*

Measures for allowing data portability and ensuring erasure

- *Erase Requests: ACG has added a "delete my account" feature, thus facilitating learner requests to be forgotten. When a learner deletes their account, all data associated with that account in the product will no longer be identifiable to a natural person.*

Measures for assisting the data exporter with data subject access requests

Data importer will assist data exporter in meeting its obligations under the GDPR by either (i) providing Customer the ability within the Platform to access, correct or delete personal data or restrict its processing; or (ii) if such functionality is not available within the Platform, make personal data available to data exporter, or as applicable, make such corrections, deletions, or restrictions on data exporter's behalf.

For transfers to (sub-) processors, also describe the specific technical and organisational measures to be taken by the (sub-) processor to be able to provide assistance to the controller and, for transfers from a processor to a sub-processor, to the data exporter

ACG contractually binds its sub-processors to technical and organizational measures substantially equivalent to those to which ACG has committed herein.

This includes where that legislation (or specific provision) has been consolidated, re-enacted and/or replaced after this Addendum has been entered into.

Hierarchy

9. Although Clause 5 of the Approved EU SCCs sets out that the Approved EU SCCs prevail over all related agreements between the parties, the parties agree that, for Restricted Transfers, the hierarchy in Section **Error! Reference source not found.** will prevail.

10. Where there is any inconsistency or conflict between the Approved Addendum and the Addendum EU SCCs (as applicable), the Approved Addendum overrides the Addendum EU SCCs, except where (and in so far as) the inconsistent or conflicting terms of the Addendum EU SCCs provides greater protection for data subjects, in which case those terms will override the Approved Addendum.

Incorporation of and changes to the EU SCCs

12. This Addendum incorporates the Addendum EU SCCs which are amended to the extent necessary so that:

- a together they operate for data transfers made by the data exporter to the data importer, to the extent that UK Data Protection Laws apply to the data exporter's processing when making that data transfer, and they provide Appropriate Safeguards for those data transfers;
- b Sections **Error! Reference source not found.** to **Error! Reference source not found.** override Clause 5 (Hierarchy) of the Addendum EU SCCs; and
- c this Addendum (including the Addendum EU SCCs incorporated into it) is (1) governed by the laws of England and Wales and (2) any dispute arising from it is resolved by the courts of England and Wales, in each case unless the laws and/or courts of Scotland or Northern Ireland have been expressly selected by the Parties.

- c Clause 6 (Description of the transfer(s)) is replaced with:

"The details of the transfers(s) and in particular the categories of personal data that are transferred and the purpose(s) for which they are transferred) are those specified in Annex I.B where UK Data Protection Laws apply to the data exporter's processing when making that transfer.";
- d Not applicable. Intentionally left blank;
