(Edn 04/22)

D1. This section details how your Tender will be evaluated, the tools used to evaluate the Tender and the evaluation criteria.

D2. Negotiations do not apply to this tender process.

D3. Selection Process

Tenders will be evaluated in the order of the steps detailed below. If a Tender does not meet any mandatory pass criteria of any one step the Authority reserves the right to cease the evaluation and exclude the Tender from the remainder of the selection process.

Step 1 The Authority will complete an Initial Review of the Tender Return.

Each Tender will be reviewed in accordance with the following PASS/FAIL (Mandatory) criteria:

Note 1: Tenders will only be considered 'Compliant' if they score a PASS for all the following criteria.

All Questions within the Qualification Envelope within DSP including:

1. Completion of the returns detailed in DEFFORM 47 Annex A
2. Tenderer confirmation of its compliance as detailed at the Statement of Requirement Compliance Matrix and Commercial Compliance Matrix
3. Tenderer confirmation of its compliance to provide ALL Articles contained in the List of Articles at Annex A to Schedule 9 (Part 1 and Part 2) and provision of Firm prices and Lead Times for ALL Articles in Part 1 of the List of Articles at Annex A to Schedule 9.

Note 2: The Authority reserves the right to mark a Tender compliant, when the Tenderer is unable to provide all Articles contained in Part 2 of the List of Articles, at its sole discretion.

Step 2 Tenders will then be subject to the Price Evaluation detailed at Section 2, Lead Time Evaluation detailed at Section 3, Technical Evaluation detailed at Section 4 and Social Value Evaluation at Section 5.

Step 3 All Compliant Tenders will be included in the Most Economically Advantageous Tender (MEAT) calculation to provide an Overall Bid Score as detailed at Section 6.

Step 4 Following completion of the Initial Review, all Compliant Tenders will be invited to a Reverse Auction as detailed at Section 7.

Note 3: If only one tender is received, or on evaluation only one tender is considered to be compliant, a Reverse Auction will not take place.

Step 5 On completion of the Reverse Auction, the Price Evaluation detailed at Section 2 and Most Economically Advantageous Tender (MEAT) calculation as detailed at Section 6 will be repeated to provide a Final Overall Bid Score.

Step 6 Tenders will be selected as detailed at Section 8.

D4. Financial Evaluation

The Maximum score available within this Assessment shall be 70 marks.

Price comparison exercises will be undertaken to calculate a score for the items within Part 1 of the List of Articles.

Part 1 has been split into 3 sections A, B and C based upon the Authorities assessment of consumption. Section A being the assets with the highest consumption rate and Section C with the lowest consumption rate.

Sections A, B and C have been weighted as follows:

- Section A – 50% of the maximum 70 marks
- Section B – 30% of the maximum 70 marks
- Section C – 20% of the maximum 70 marks

The following method will be used for assessment:

1. The Tenderer is to provide a Firm Price for provision of each Article (Quantity 1) within Section A, Section B and Section C of Part 1 at Column I (Firm Price per DofQ) of the List of Articles at Annex A to Schedule 9. Firm Prices are required for all items within the Sections of Part 1.

2. Each Article has an estimated consumption for the Contract Duration. The Firm Prices and estimated consumption will be used to calculate each Section's Total Estimated Cost for the duration of the Contract. *For Example:*

Section A of Part 1 contains 2 Articles.

Tenderer A's Firm Price for Article 1 is £100. Article 1's estimated consumption for the duration of the Contract is 3.

Tenderer A's Firm Price for Article 2 is £200. Article 2's estimated consumption for the duration of the Contract is 4.

$$£100 \times 3 = £300$$

$$£200 \times 4 = £800$$

$$£800 + £300 = £1100$$

Tenderer A's Total Estimated Cost for Section A Part 1 is: £1100.

3. Total Estimated Cost for all Tenderer's will be reviewed. The Tenderer with the lowest cost for each section will be awarded the maximum score available per section. The Financial Scores of each of the other Tenderers will be determined using the following calculation:
(Lowest Section Estimated Cost / Tenderers Section Estimated Cost) x Max Marks Available
Lowest Section Estimated Cost / Tenderers Section Estimated Cost x Max Marks Available

Scores will be set to two (0.00) decimal places.

For Example:

. Section A Maximum weighted score available 50% of 70 (35 marks)

Tenderer A's Total Estimated Cost for Section A is £1100.00

Tenderer B 's Total Estimated Cost for Section A is £1200.00

Tenderer C 's Total Estimated Cost for Section A is £1300.00

Tenderer D's Total Estimated Cost for Section A is £1400.00

Tenderer A has provided the lowest cost for Section A and receives the maximum score available. Other tenderers scores are calculated as follows:

*Tenderer A: £1100.00 / £1100.00 x 35 = score of **35***

*Tenderer B: £1100.00 / £1200.00 x 35 = score of **32.08***

*Tenderer C: £1100.00 / £1300.00 x 35 = score of **29.62***

*Tenderer D: £1100.00 / £1400.00 x 35 = score of **27.5***

The same process will be applied to Sections B and C as per the example for Section A above. The weighted score for sections B and C are as follows:

- Section B 30% of 70 marks (21)

- Section C 20% of 70 marks (14)

Part 1's maximum mark available is 70

Each tenderers total score for the financial Evaluation will be calculated by adding together their weighted score for each section.

D5. Lead Time Evaluation

The Maximum score available within this Assessment shall be 10 marks.

Lead time comparison exercises will be undertaken to calculate a score for each Section (A,B and C) of Part 1 of the List of Articles.

Sections A, B and C have been weighted as follows:

- Section A – 50% of the maximum 10 marks
- Section B – 30% of the maximum 10 marks
- Section C – 20% of the maximum 10 marks

The following method will be used for assessment:

1. The Tenderer is to provide a Lead time for provision of each Article within the Articles Lead Time in Working days Column J of the List Of Articles . Lead Times are required for all items in Part 1. The lead time provided will be used to calculate Anticipated Delivery Dates when the Authority places a Demand Order for the duration of the Contract.
2. The Total Lead Time for each Section will be calculated. *For Example:*
Section A Part 1 contains 2 Articles.
Tenderer A's Lead Time for Article 1 is 5 working days. Tenderer A's Lead time for Article 2 is 10 working days
$$5 + 10 = 15 \text{ working days}$$

Tenderer A's Total Lead Time for Section A of part 1 is: 15 working days.
3. Total Lead Time for all Tenderer's will be reviewed. The Tenderer with the shortest Lead time for all items in each Section of Part 1 will be awarded the maximum score available for that section. The Lead Time Scores of each of the other Tenderers will be determined using the following calculation:
$$\frac{\text{Lowest section Lead Time}}{\text{Tenderers section Lead Time}} \times \text{Max Marks Available}$$

Scores will be set to two (0.00) decimal places.

For Example:

Section A's maximum mark available is 50% of the maximum 10 (5).

Tenderer A's Total Lead Time is 15 working days

Tenderer B 's Total Lead Time is 20 working days

Tenderer C 's Total Lead Time is 25 working days

Tenderer D's Total Lead Time is 30 working days

Tenderer A has provided the shortest lead time and receives the maximum score available.

Other tenderers scores are calculated as follows:

*Tenderer A: $15 / 15 \times 5 =$ score of **5***

*Tenderer B: $15 / 20 \times 5 =$ score of **3.75***

*Tenderer C: $15 / 25 \times 5 =$ score of **3***

*Tenderer D: $15 / 30 \times 5 =$ score of **2.5***

The same process will be applied to Sections B and C as per the example for Section A above.

The weighted score for sections B and C are as follows:

- Section B 30% of 10 marks (3)
- Section C 20% of 10 marks (2)

Part 1's lead time evaluation maximum mark available is 10

Each tenderers total score for the lead time Evaluation will be calculated by adding together their weighted score for each section.

D6. Technical Evaluation

The Maximum score available within this Assessment shall be 10 marks.

1. The Tenderer is to provide an Answer to each Question
2. Answers must not exceed 1 page of A4 in Arial font 11 per question.

Question Number	Question	Maximum Score Available
1	Technical ability to perform the contract, including details of skills, competence and experience and reliability relevant to the contract.	2
2	Overview of how you will manage the Order Process	2
3	Process of suggesting Alternatives	2
4	Your ability to ensure full traceability of products across the supply chain in providing conformity to specification and your controls to prevent the delivery of non-conforming products and services under the contract.	2
5	Process of expediting orders with Priority Codes and provision of Hastening Service	2

2. The Tenderer is required to respond to **all** questions. Failure to do so will result in your tender being non-compliant. The Tenderer should read and understand the scoring guidance as well as characteristics sought before preparing their submission for each question. Further guidance and document criteria can be found in the Statement Of Requirement at Schedule 9 (SoR).

3. Characteristics Sought:

Note: this list is non-exhaustive.

- All requirements set out within the Statement of Requirement are met.
- Examples are relevant to the requirement.
- Clear communications plan with delivery schedule/ timescales
- Identification of relevant documentation and evidence to enable Airworthiness Checks
- Management of supply chain to mitigate any risks

4. The Authority will be looking for, and rewarding, industry best practice and company standards. Each question will be scored based on five levels of response: ranging from High Confidence to Major Concerns. The following table shows how these translate to numerical scores.

Scoring Level	Percentage (%) of available marks
High Confidence	100
Good Confidence	70
Satisfactory Confidence	30
Low Confidence	10
Major Concerns	0

5. Any question marked with Major Concerns will mean that the technical bid does not meet the required standard. The Authority reserves the right to exclude the Tenderer from the competition.

6. The Authority will base its assessment upon the level of confidence generated by the responses that the potential provider has the skills, knowledge and experience to meet the requirement:

High Confidence (100%)	Reliably satisfies the requirements with exceptional and relevant evidence.
	Very high confidence in the response based on the Tenderer's approach/justification/evidence provided. The information and confidence characteristics sought are delivered with comprehensive and verifiable evidence resulting in the Authority judging that it is very likely to achieve the outcomes sought in this area.

D8. Overall Bid Score

Each Tender will be evaluated, using the Most Economically Advantageous Tender (MEAT) calculation below:

Financial Score + Lead Time Score + Technical Score + Social Value Score = Overall Bid Score

- a. The Financial Score is the score in the range of 0 to 70 calculated in accordance with the Financial Evaluation section detailed at Section 2 and
- b. The Lead Time Score is the score in the range of 0 to 10 calculated in accordance with the Lead Time Evaluation section detailed at Section 3 and
- c. The Technical Score is the score in the range of 0 to 10 calculated in accordance with the Technical Evaluation section detailed at Section 4.
- d. The Social Value Score is the score in the range of 0 to 10 calculated in accordance with the Technical Evaluation section detailed at Section 5.

Overall bid scores will be ranked and used for the purposes of the reverse auction as described below

D9. Reverse Auction

The Authority intends to conduct a Reverse Auction for this requirement in accordance with Step 2 of the Selection Process. See Annex B to Defform 47 for details.

D10. Selection of Tenderers

Following completion of the Reverse Auction, each tender will be re-evaluated using the MEAT calculation above to provide a Final Overall Bid Score.

The Tender with the highest Final Overall Bid Score wins.

Should one or more Tenders have the same Overall Bid Score, the Tender with the highest Financial Score will be ranked higher. If both Tender's have the same Financial Score the scores of the following questions will be consecutively considered: Lead Time Score, Technical Score and Social Value Score.

DEFFORM 47
(Edn 04/22) Submission of your Tender

E1. Your Tender and any ITT Documentation must be submitted electronically via the Defence Sourcing Portal (DSP) by 15/06/2022. The Authority reserves the right to reject any Tender received after the stated date and time. Hard copy, paper or delivered digital Tenders (e.g. email, DVD) at OFFICIAL SENSITIVE

classification are no longer required and will not be accepted by the Authority. Tenderers are required to submit an electronic online Tender response to 701025375.

E2. You must provide via the DSP one priced copy of your Tender and one unpriced copy. Both copies should be clearly labelled and easily identifiable. You must ensure that there are no prices present in your unpriced copy. The Authority has the right to request, at its discretion, that any pricing information found in the unpriced copy is redacted in accordance with paragraph E3.

E3. The Authority may, in its own absolute discretion allow the Tenderer to rectify any irregularities identified in the Tender by the Authority or provide clarification after the Tender return date. For example, this may include, but is not limited to, redacting pricing information in the unpriced copy of the tender, rectifying, or providing clarification in relation to a corrupt or blank document. Tenderers will be provided with instructions via the DSP on how they can correct such irregularities which must be completed by the deadline set. The Authority will cross reference the amended Tender with the original Tender submitted to the DSP before the Tender return date to ensure that no other amendments, other than in relation to the specific irregularity/clarification communicated by the Authority, have been made. Should Tenderers make additional amendments to the Tender other than those relating to the specific irregularity/clarification communicated to the Tenderer by the Authority, this will result in a non-compliant bid.

E4. The DSP is accredited to OFFICIAL SENSITIVE. Material that is protectively marked above this classification must not be uploaded to the DSP. Please contact **FOIA Section 40-Personal Information** if you have a requirement to submit documents above OFFICIAL SENSITIVE

E5. You must not upload any ITAR or Export Controlled information as part of your Tender or ITT documentation into the DSP. You must contact **FOIA Section 40-Personal Information** to discuss any exchange of ITAR or Export Controlled information. You must ensure that you have the relevant permissions to transfer information to the Authority.

E6. You must ensure that your DEFFORM 47 Annex A is signed, scanned and uploaded to DSP with your Tender as a PDF (it must be a scanned original). The remainder of your Tender must be compatible with MS Word and other MS Office applications.

Lots

E7. This requirement has not been split into Lots

- a. your name and address;
- b. the Tender Reference Number and due date for return of the Tender; and
- c. the Description and Item Number as shown in the Schedule of Requirements.

E10. You should send any samples to the named Commercial Officer before the Tender return date.

E11. The Authority may retain all samples for twelve (12) months from the Tender return date. After this period, the Authority will destroy the samples unless you specifically state you require their return. The Authority may keep samples associated with a successful Tender indefinitely.

E12. Samples that are consumed will not be returned.

F1. The issue of ITT Documentation or ITT Material is not a commitment by the Authority to place a Contract as a result of this competition or at a later stage. Neither does the issue of this ITT or subsequent Tender submission create any implied Contract between the Authority and any Tenderer and any such implied Contract is expressly excluded.

F2. The Authority reserves the right, but is not obliged to:

- a. vary the terms of this ITT in accordance with applicable law;
- b. seek clarification or additional documents in respect of a Tenderer's submission during the Tender evaluation where necessary for the purpose of carrying out a fair evaluation. Tenderers are asked to respond to such requests promptly;
- c. visit your site;
- d. disqualify any Tenderer that submits a non-compliant Tender in accordance with the instructions or conditions of this ITT;
- e. disqualify any Tenderer that is guilty of misrepresentation in relation to its Tender, expression of interest, the dynamic PQQ or the tender process;
- f. re-assess your suitability to remain in the competition, for example where there is a material change in the information submitted in and relating to the PQQ response, see paragraphs A31 to A34;
- g. withdraw this ITT at any time, or choose not to award any Contract as a result of this tender process, or re-invite Tenders on the same or any alternative basis;
- h. re-issue this ITT on a single source basis, in the event that this procurement does not result in a 'competitive process' as defined in the Single Source Contract Regulations 2014, making such adjustments as would be required by the application of the Defence Reform Act 2014 and/or the Single Source Contract Regulations 2014;
- i. choose not to award any Contract as a result of the current tender process;
- j. where it is considered appropriate, ask for an explanation of the costs or price proposed in the Tender where the Tender appears to be abnormally low;

F3. The Contract will be entered into when the Authority sends written notification of its entry into the Contract, via a DEFFORM 159. Written notification will be issued, to the address you provide, on or before the end of the validity period specified in paragraph C3.

Conforming to the Law

F4. You must comply with all applicable UK legislation and any equivalent legislation in a third state.

F5. Your attention is drawn to legislation relating to the canvassing of a public official, collusive behaviour and bribery. Disqualification will be without prejudice to any civil remedy available to the Authority or any criminal liability that your conduct may attract.

Bid Rigging and Other Illegal Practices

F6. You must report any bid rigging, fraud, bribery, corruption, or any other dishonest irregularity in connection to this tendering exercise to:

Defence Regulatory Reporting Cell Hotline

0800 161 3665 (UK) or

Conflicts of Interest

F7. Any attempt by Tenderers or their advisors to influence the contract award process in any way may result in the Tenderer being disqualified. Specifically, Tenderers shall not directly or indirectly at any time:

- enter into any agreement or arrangement with any other person as to the form or content of any other Tender, or offer to pay any sum of money or valuable consideration to any person to effect changes to the form or content of any other Tender;
- enter into any agreement or arrangement with any other person that has the effect of prohibiting or excluding that person from submitting a Tender;
- canvass the Authority or any employees or agents of the Authority in relation to this procurement;
or
- attempt to obtain information from any of the employees or agents of the Authority or their advisors concerning another Tenderer or Tender.

F8. Where you have advised the Authority in relation to this procurement procedure or otherwise have been or are involved in any way in the preparation or conduct of this procurement procedure or where any other actual or potential conflict of interest (COI) exists or arises at any point before the Contract award decision, you must notify the Authority immediately.

F9. Where an actual or potential COI exists or arises, you must provide a proposed Compliance Regime within seven (7) calendar days of notifying the Authority of the actual or potential COI. The proposal must be of a standard which, in the Authority's sole opinion, appropriately manages the conflict, provides sufficient separation to prevent distortion of competition and provides full details listed in F9 a to g below. Where the Contract is awarded and the COI is still relevant post-Contract award decision, your proposed Compliance Regime will become part of the Contract Terms and Conditions. As a minimum, the Compliance Regime must include:

- a. the manner of operation and management;
- b. roles and responsibilities;
- c. standards for integrity and fair dealing;
- d. levels of access to and protection of competitors' sensitive information and Government

Government Furnished Assets

F11. Where the Authority provides Government Furnished Assets (GFA) in support of this competition, you must include details of the GFA in your Public Store Account and treat it in accordance with Def Stan 05-099. If unsuccessful in this competition, you must seek instructions for the GFA from the named Commercial Officer.

Standstill Period

F12. The Authority is allowing a space of ten (10) calendar days between the date of dispatch of the electronic notice of its decision to award a Contract to the successful Tenderer before entering into a Contract, known as the standstill period. The standstill period ends at 23:59 on the 10th day after the date the DEFFORM 158s are sent. If the 10th day is not a business day, the standstill period ends at 23:59 of the next business day.

Publicity Announcements

F13. If you wish to make an announcement regarding this procurement, you must seek approval from the named Commercial Officer and Press Office and such permission will only be given at the sole discretion of the Authority. Requests must be made in writing to the named Commercial Officer and a copy of the draft announcement provided. This shall then be forwarded to the Press Office and their contact details will be provided for further follow up.

F14. Under no circumstances should you confirm to any Third Party the Authority's Contract award decision before the Authority's announcement of the award of Contract.

Sensitive Information

F15. All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-governmental role delivering overall Government policy on public procurement, including ensuring value for money, related aspects of good procurement practice and answering Freedom of Information requests.

F16. For these purposes, the Authority may share within Government any of the Tenderers documentation/information (including any that the Tenderer considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Tenderer to the Authority during this procurement. Tenderers taking part in this competition must identify any sensitive material in the DEFFORM 539A (or SC1B Schedule 4 or SC2 Schedule 5) and consent to these terms as part of the competition process. This allows the Authority to share information with other Government Departments while complying with our obligations to maintain confidentiality.

F17. Where required, the Authority will disclose on a confidential basis any information it receives from Tenderers during the tender process (including information identified by the Tenderer as Commercially Sensitive Information in accordance with the provisions of this ITT) to any Third Party engaged by the Authority for the specific purpose of evaluating or assisting the Authority in the evaluation of the Tenderer's Tender. In providing such information the Tenderer consents to such disclosure.

Reportable Requirements

F18. Listed in the DEFFORM 47 Annex A (Offer) are the Mandatory Declarations. It is a Condition of Tendering that you complete and attach the returns listed in the Annex and, where you select yes, you attach the relevant information.

F19. Your Tender will be deemed non-compliant and excluded from the tender process if you fail to complete the Annex in full and attach relevant information where required.

Suppliers are also encouraged to work with the Authority to support the Authority's SME initiative, however this is not a condition of working with the Authority now or in the future, nor will this issue form any part of the Tender evaluation. Information on the Authority's purchasing arrangements, our commercial policies and our SME policy can be found at [Gov.UK](#) and the DSP.
19. The opportunity also exists for Tenderers to advertise any sub-contract valued at over £10,000 on the Defence Sourcing Portal and further details can be obtained directly from:

<https://www.gov.uk/guidance/subcontract-advertising>. This process is managed by the Strategic Supplier Management team who can be contacted at: DefComrclSSM-Suppliers@mod.gov.uk.

Transparency, Freedom of Information and Environmental Information Regulations

20. The Authority shall publish notification of the Contract and publish Contract documents where required following a request under the FOI Act except where publishing such information would hinder law enforcement; would otherwise be contrary to the public interest; would prejudice the legitimate commercial interest of any person or might prejudice fair competition between suppliers.
21. The Authority may publish the contents of any resultant Contract in line with government policy set out in the Government's [Transparency Principles](#) and in accordance with the provisions of either DEFCON 539, SC1B Conditions of Contract Clause 5 or SC2 Conditions of Contract Clause 12.
22. Before publishing the Contract, the Authority will redact any information which is exempt from disclosure under the Freedom of Information Act 2000 ("the FOIA") or the Environmental Information Regulations 2004 ("the EIR").
23. You must complete the attached Tenderer's Commercially Sensitive Information Form (DEFFORM 539A, SC1B Schedule 4 or SC2 Schedule 5) explaining which parts of your Tender you consider to be commercially sensitive. This includes providing a named individual who can be contacted with regard to FOIA and EIR.
24. You should note that while your views will be taken into consideration, the ultimate decision whether to publish or disclose information lies with the Authority. You are advised to provide as much detail as possible on the form. It is highly unlikely that a Tender will be exempt from disclosure in its entirety. Should the Authority decide to publish or disclose information against your wishes, you will be given prior notification.

Electronic Purchasing

25. Tenderers must note that use of the [Contracting, Purchasing and Finance \(CP&F\)](#) electronic procurement tool is a mandatory requirement for any resultant contract awarded following this Tender. By submitting this Tender, you agree to electronic payment. You may consult the service provider on connectivity options. Failure to accept electronic payment will result in your Tender being non-compliant and excluded from the tender process.

Change of Circumstances

26. In accordance with paragraph A31, if your circumstances have changed, please select 'Yes' to the appropriate question on DEFFORM 47 Annex A and submit a Statement Relating to Good Standing with your Tender.

Asbestos, Hazardous Items and Depletion of the Ozone Layer

27. The Authority is required to report any items that use asbestos, that are hazardous or where there is an impact on the Ozone. Where any Contractor Deliverables fall into one of these categories select 'Yes' to the appropriate question on DEFFORM 47 Annex A and provide further details in your Tender.

Defence Safety Authority (DSA) Requirements

28. Tenderers are required to comply with any applicable DSA military regulatory policy and regulation. Tenderers who wish to propose an alternative acceptable means of compliance must obtain agreement in principle from the relevant defence regulator (through the Project Team) in advance of submitting their Tender. Acceptable Means of Compliance (AMC) are strongly recommended practices and a justification will be required if they are not followed. Tenderers must consult the relevant defence regulator where there is more than one AMC. You must confirm how you intend to comply with the regulatory articles, and the date you consulted with the relevant defence regulator.

Bank or Parent Company Guarantee

29. You will be informed whether you are required to provide a Bank or Parent Company Guarantee. In the event that you are selected as the winning Tenderer, you must provide your Bank or Parent Company Guarantee (in the form of DEFFORM 24/24A as appropriate) during the standstill period. No Contract will be awarded until a suitable Bank or Parent Company Guarantee, as appropriate, is in place. Failure to provide a Bank or Parent Company Guarantee during the standstill period, will result in you being de-selected as the winning Tenderer. The Authority reserves the right to re-evaluate the Tenders, (if necessary) to take into account the absence of the de-selected Tenderer, enabling the Authority to establish the next winning Tenderer and award a Contract.

Reverse Auction

1. The Authority intends to conduct a Reverse Auction for this requirement. The Reverse Auction is a process conducted via the Defence Sourcing Portal (DSP). Tenderers who have submitted a compliant response to the ITT documentation are invited to offer a lower price than that provided in the earlier Tender return through a Reverse Auction. The purpose of conducting a Reverse Auction is so that the Authority benefits from improved competition while Tenderers benefit from improved knowledge about market pricing. Acceptance of an offer resulting from a Reverse Auction by the Authority shall be subject to the terms and conditions of the DEFFORM 47.
2. In accordance with paragraph F2 of the DEFFORM 47 the Authority reserves the right to request an explanation of the costs or price proposed.
3. To participate in the Reverse Auction, Tenderers must have access to the DSP and one of the following browsers:
 - a. Microsoft Edge;

- b. Google Chrome;
 - c. Mozilla Firefox (ESR) 68+; or
 - d. Safari 13.0.5+ for MacOS.
4. The Authority shall notify the date and scheduled start time of the Reverse Auction to all compliant Tenderers. The Authority will manage the operational aspects of the Reverse Auction event and provide the Tenderer with the Rules of Participation. Where a Tenderer has not previously used the DSP, they will need to register in order to obtain a username and password that allows secure access to the relevant web pages, including the training activity and the individual Reverse Auction event.
 5. Training shall be provided by the Authority usually 24 hours before the event is scheduled to take place. The training exercise is aimed at ensuring that participating Tenderers are adequately equipped in terms of computer software, hardware and Internet connectivity. It will also provide the opportunity to confirm that starting prices are accurate as actual pricing will be used during the training. The identity of the Tenderers shall not be disclosed at any point.
 6. Compliant Tenderers shall be notified of the starting prices by the Authority prior to the Reverse Auction scheduled start time but shall not be able to make any revised bid until the start of the Reverse Auction. The Authority shall use the lowest total tendered price per lot, submitted by a compliant Tenderer on DEFFORM 47 Annex A, as the starting price in the Reverse Auction. If the Tender has been evaluated using Most Economically Advantageous Tender evaluation criteria the total price of the highest scored tender per lot, rather than the lowest price, will be ranked first. If the Tender has been evaluated where nominal price discounts have been awarded for technical elements of the tendered solution, the total lowest weighted price per lot, rather than the lowest price, will be ranked first. If the requirement is divided into lots each lot will be auctioned concurrently.
 7. During the Auction each Tenderer will be able to see their own tendered price in comparison to the lowest total tendered price (or highest scored total price / lowest weighted total price) per lot and their individual ranking. Any change in the total price, or a Tenderer's individual ranking, will be reflected on the screen shortly after it has been submitted. A new total price submitted by a Tenderer that equals an existing total price will be ranked behind the existing bid.
 8. The Reverse Auction will have a standard duration of thirty minutes. The DSP will indicate the time remaining to the end of the Auction. Any bids submitted in the final three minutes of the Auction will automatically extend the Auction to ensure that there is always at least three minutes remaining to allow Tenderers to review their position and enter a lower bid. The Auction will end only when no more bids are received during the three-minute extensions.
 9. Tenderers must note that bids made during the Reverse Auction are provided on the understanding that the price offer shall remain open for acceptance by the Authority. The Authority reserves the right not to award a Contract based on the outcome of the tender process or the Reverse Auction.

- c. In the event of any change to the identity of the Authority's Representatives, the Authority shall provide written confirmation to the Contractor, and shall update Schedule 3 (Contract Data Sheet) in accordance with Condition 6 (Formal Amendments to the Contract).

8. Severability

- a. If any provision of the Contract is held to be invalid, illegal or unenforceable to any extent then:
 - (1) such provision shall (to the extent that it is invalid, illegal or unenforceable) be given no effect and shall be deemed not to be included in the Contract but without invalidating any of the remaining provisions of the Contract; and

10. Assignment of Contract

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

11. Third Party Rights

Notwithstanding anything to the contrary elsewhere in the Contract, no right is granted to any person who is not a Party to the Contract to enforce any term of the Contract in its own right and the Parties to the Contract declare that they have no intention to grant any such right.

12. Transparency

b. Subject to clause 12.c the Authority shall publish and maintain an up-to-date version of the Transparency Information and Publishable Performance Information in a format readily accessible and reusable by the general public under an open licence where applicable.

c. If, in the Authority's reasonable opinion, publication of any element of the Transparency Information and Publishable Performance Information would be contrary to the public interest, the Authority shall be entitled to exclude such Information from publication. The Authority acknowledges that it would expect the public interest by default to be best served by publication of the Transparency Information and Publishable Performance Information in its entirety. Accordingly, the Authority acknowledges that it shall only exclude Transparency Information and Publishable Performance Information from publication in exceptional circumstances and agrees that where it decides to exclude Information from publication on that basis, it will provide a clear statement to the general public explaining the categories of information that have been excluded from publication and reasons for withholding that information.

d. The Contractor shall assist and co-operate with the Authority as reasonably required to enable the Authority to publish the Transparency Information and Publishable Performance Information, in accordance with the principles set out above, including through compliance with the requirements relating to the preparation of Publishable Performance Information set out in clause 12.e to 12.i. Where the Authority publishes Transparency Information, it shall:

(2) taking account the Sensitive Information set out in Schedule 5, consult with the Contractor where the Authority intends to publish Information which has been identified as Sensitive Information. For the avoidance of doubt the Authority, acting reasonably, shall have absolute discretion to decide what information shall be published or be exempt from disclosure in accordance with the FOIA and/or the EIR; and

(3) present information in a format that assists the general public in understanding the relevance and completeness of the information being published to ensure the public obtain a fair view on how this Contract is being performed.

Publishable Performance Information

e. Within three (3) months of the effective date of Contract the Contractor shall provide to the Authority for its approval (such approval shall not be unreasonably withheld or delayed) a draft Publishable Performance Information KPI Data Report consistent with the content requirements of Schedule 9.

f. If the Authority rejects any draft Publishable Performance Information the Contractor shall submit a revised version of the relevant KPI Data Report for further approval by the Authority with five (5) business days of receipt of any notice or rejection, taking account of any recommendations for revision and improvement to the report provided by the Authority. This process shall be repeated until the parties have an agreed version of the Publishable Performance Information.

g. The Contractor shall provide an accurate and up-to-date version of the KPI Data Report to the Authority for each quarter at the frequency referred to in the agreed Schedule 9.

h. Any dispute in connection with the preparation and/or approval of Publishable Performance Information, other than under clause 12.f, shall be resolved in accordance with the dispute resolution procedure provided for in this Contract.

i. The requirements of this Condition are in addition to any other reporting requirements in this Contract.

13. Disclosure of Information

a. Subject to clauses 13.d to 13.i and Condition 12 each Party:

- (1) shall treat in confidence all Information it receives from the other;
- (2) shall not disclose any of that Information to any third party without the prior written consent of the other Party, which consent shall not unreasonably be withheld, except that the Contractor may disclose Information in confidence, without prior consent, to such persons and to such extent as may be necessary for the performance of the Contract;
- (3) shall not use any of that Information otherwise than for the purpose of the Contract; and
- (4) shall not copy any of that Information except to the extent necessary for the purpose of exercising its rights of use and disclosure under the Contract.

b. The Contractor shall take all reasonable precautions necessary to ensure that all Information disclosed to the Contractor by or on behalf of the Authority under or in connection with the Contract:

- (1) is disclosed to their employees and Subcontractors, only to the extent necessary for the performance of the Contract; and
- (2) is treated in confidence by them and not disclosed except with the prior written consent of the Authority or used otherwise than for the purpose of performing work or having work performed for the Authority under the Contract or any subcontract.

c. The Contractor shall ensure that their employees are aware of the Contractor's arrangements for discharging the obligations at clauses 13.a and 13.b before receiving Information and shall take such steps as may be reasonably practical to enforce such arrangements.

d. A Party shall not be in breach of Clauses 13.a, 13.b, 13.f, 13.g and 13.h to the extent that either Party:

- (1) exercises rights of use or disclosure granted otherwise than in consequence of, or under, the Contract;
- (2) has the right to use or disclose the Information in accordance with other Conditions of the Contract; or
- (3) can show:
 - (a) that the Information was or has become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the Parties;
 - (b) that the Information was already known to it (without restrictions on disclosure or use) prior to receiving the Information under or in connection with the Contract;
 - (c) that the Information was received without restriction on further disclosure from a third party which lawfully acquired the Information without any restriction on disclosure; or
 - (d) from its records that the same Information was derived independently of that received under or in connection with the Contract;

provided that the relationship to any other Information is not revealed.

- e. Neither Party shall be in breach of this Condition where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this Condition. f. The Authority may disclose the Information:
- (1) to any Central Government Body for any proper purpose of the Authority or of the relevant Central Government Body, which shall include: disclosure to the Cabinet Office and/or HM Treasury for the purpose of ensuring effective cross-Government procurement processes, including value for money and related purposes. Where such a disclosure is made the Authority shall ensure that the recipient is made aware of its confidentiality;
 - (2) to Parliament and Parliamentary Committees or if required by any Parliamentary reporting requirement;
 - (3) to the extent that the Authority (acting reasonably) deems disclosure necessary or appropriate in the course of carrying out its public functions;
 - (4) subject to clause 13.g below, on a confidential basis to a professional adviser, consultant or other person engaged by any of the entities defined in Schedule 1 (including benchmarking organisations) for any purpose relating to or connected with the Contract;
 - (5) subject to clause 13.g below, on a confidential basis for the purpose of the exercise of its rights under the Contract; or
 - (6) on a confidential basis to a proposed body in connection with any assignment, novation or disposal of any of its rights, obligations or liabilities under the Contract;

and for the purposes of the foregoing, references to disclosure on a confidential basis shall mean disclosure subject to a confidentiality agreement or arrangement containing terms no less stringent than those placed on the Authority under this Condition.

g. Where the Authority intends to disclose Information to a commercial entity which is not a Central Government Body in accordance with clauses 13.f.(4) or 13.f.(5) above, the Authority will endeavour to provide the Contractor with 3 Business Days' notice in advance of such disclosure. In relation to a disclosure of Information made under clause 13.f.(3) above, if reasonably requested by the Contractor within 2 Business Days of such notice being given, where the Authority has not already done so, it will endeavour to procure from the intended recipient of the Information an agreement containing confidentiality terms the same as, or substantially similar to, those placed on the Authority under this Condition.

h. Before sharing any Information in accordance with clause 13.f, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.

i. The Authority shall not be in breach of the Contract where disclosure of Information is made solely and to the extent necessary to comply with the Freedom of Information Act 2000 (the "Act") or the Environmental Information Regulations 2004 (the "Regulations"). To the extent permitted by the time for compliance under the Act or the Regulations, the Authority shall consult the Contractor where the Authority is considering the disclosure of Information under the Act or the Regulations and, in any event, shall provide prior notification to the Contractor of any decision to disclose the Information. The Contractor acknowledges and accepts that their representations on disclosure during consultation may not be determinative and that the decision

whether to disclose Information in order to comply with the Act or the Regulations is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Act or the Regulations.

j. Nothing in this Condition shall affect the Parties' obligations of confidentiality where Information is disclosed orally in confidence.

14. Publicity and Communications with the Media

The Contractor shall not and shall ensure that any employee or Subcontractor shall not communicate with representatives of the press, television, radio or other media on any matter concerning the Contract unless the Authority has given its prior written consent.

Such concerns may include but are not limited to potential threats to national security, the ability of the Authority to comply with its statutory obligations or matters covered by the declarations made by the Contractor prior to contract award.

d. The Authority may terminate the Contract by giving written notice to the Contractor within six months of the Authority being notified in accordance with clause 15.a. The Authority shall act reasonably in exercising its right of termination under this Condition.

e. If the Authority exercises its right to terminate in accordance with clause 15.d the Contractor shall be entitled to request the Authority to consider making a payment representing any commitments, liabilities or expenditure incurred by the Contractor in connection with the Contract up to the point of termination. Such commitments, liabilities or expenditure shall be reasonably and properly chargeable by the Contractor, and shall otherwise represent an unavoidable loss by the Contractor by reason of the termination of the Contract. Any payment under this clause 15.e must be fully supported by documentary evidence. The decision whether to make such a payment shall be at the Authority's sole discretion.

f. Notification by the Contractor of any intended, planned or actual change of control shall not prejudice the existing rights of the Authority or the Contractor under the Contract nor create or imply any rights of either the Contractor or the Authority additional to the Authority's rights set out in this Condition.

16.Environmental Requirements

The Contractor shall in all their operations to perform the Contract, adopt a sound proactive environmental approach that identifies, considers, and where possible, mitigates the environmental impacts of their supply chain. The Contractor shall provide evidence of so doing to the Authority on demand.

17.Contractor's Records

a. The Contractor and their Subcontractors shall maintain all records specified in and connected with the Contract (expressly or otherwise) and make them available to the Authority when requested on reasonable notice.

b. The Contractor and their Subcontractors shall also permit access to relevant records that relate to the contractual obligations to supply goods or services under the Contract, held by or controlled by them and reasonably required by the Comptroller and Auditor General, their staff and any appointed representative of the National Audit Office, and provide such explanations and information as reasonably necessary for the following purposes:

- (1) to enable the National Audit Office to carry out the Authority's statutory audits and to examine and/or certify the Authority's annual and interim report and accounts; and
- (2) to enable the National Audit Office to carry out an examination pursuant to Part II of the National Audit Act 1983 of the economy, efficiency and effectiveness with which the Authority has used its resources.

d. Unless the Contract specifies otherwise the records referred to in this Condition shall be retained for a period of at least 6 years from:

- (1) the end of the Contract term;
- (2) the termination of the Contract; or
- (3) the final payment, whichever occurs latest.

18.Notices

a. A Notice served under the Contract shall be:

- (1) in writing in the English language;

The Authority shall return these Contractor Deliverables to the Contractor at the Contractor's risk and cost.
- b. Rejection of any of the Contractor Deliverables under clause 29.a30.a shall take place by the time limit for rejection specified in Schedule 3 (Contract Data Sheet), or if no such period is specified, the Contractor Deliverables shall be deemed to be accepted within a reasonable period of time.

 - (3) give the Contractor a further 20 Business Days or such other reasonable period agreed by the Authority, from the date of the inspection at 29.c.(2).(i) or the provision of a sample at 29.c.(2).(ii), to comment on whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel; and
 - (4) determine, on the balance of probabilities and strictly on the evidence available to it at the time, whether the Contractor Deliverable or consignment meets the definition of Counterfeit Materiel

Where the Authority has determined that the Contractor Deliverable, part or consignment of Contractor Deliverables contain Counterfeit Material then it may reject the Contractor Deliverable, part or consignment under 29.a and 29.b (Rejection).

- d. In addition to its rights under 29.a and 29.b (Rejection), where the Authority reasonably believes that any Contractor Deliverable or consignment of Contractor Deliverables contains Counterfeit Materiel, it shall be entitled to:
 - (1) retain any Counterfeit Materiel; and/or

- g. Any scrap or other disposal payment received by the Authority shall be off set against any amount due to the Authority under clause 29.f.(4). If the value of the scrap or other disposal payment exceeds the amount due to the Authority under clause 29.f.(4) then the balance shall accrue to the Contractor.
- h. The Authority shall not use a retained Article or consignment other than as permitted in clauses 29.c – 29.j.
- i. The Authority may without restriction report a discovery of Counterfeit Materiel and disclose information necessary for the identification of similar materiel and its possible sources.

- e. If the Diversion Order increases the quantity of Contractor Deliverables beyond the scope of the Contract, it is to be returned immediately to the Authority's Commercial Officer with an appropriate explanation.
- f. The Contractor shall be entitled to reasonable additional delivery and packaging costs incurred in complying with the Diversion Order or cancellation. Claims are to be submitted by the Contractor to the Authority's Commercial Officer together with applicable receipts and agreed as an amendment to the Contract in accordance with Condition 6 (Formal Amendments to the Contract). The Contractor shall comply with the requirements of the Diversion Order upon receipt of the Diversion Order.

The Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance in obtaining any necessary UK import or export licence.
- b. When an export licence or import licence or authorisation either singularly or in combination is required from a foreign government for the performance of the Contract, the Contractor shall as soon as reasonably practicable consult with the Authority on the licence requirements. Where the Contractor is the applicant for the licence or authorisation the Contractor shall:
 - (1) ensure that when end use or end user restrictions, or both, apply to all or part of any Contractor Deliverable (which for the purposes of this Condition shall also include information, technical data and software), the Contractor, unless otherwise agreed with the Authority, shall identify in the application:

to apply for and obtain the licence shall rest with the Contractor or that Subcontractor. For the purposes of this Condition materiel shall mean information, technical data and items, including Contractor Deliverables, components of Contractor Deliverables and software.

- d. Where the Contract performance requires the export of materiel for which a foreign export licence or import licence or authorisation is required, the Contractor shall include the dependencies for the export licence or import licence or authorisation application, grant and maintenance in the Contract risk register and in the risk management plan for the Contract, with appropriate review points. Where there is no requirement under the Contract for a risk management plan the Contractor shall submit this information to the Authority's representative.
- e. During the term of the Contract and for a period of up to 2 years from completion of the Contract, the Authority may make a written request to the Contractor to seek a variation to the conditions to a foreign export licence or import licence or authorisation to enable the Authority to re-export or re-transfer a licensed or authorised item or licensed or authorised information from the UK to a non-licensed or unauthorised third party. If the Authority makes such a request it will consult with the Contractor before making a determination of whether the Authority or the Contractor is best placed in all the circumstance to make the request. Where, subsequent to such consultation the Authority notifies the Contractor that the Contractor is best placed to make such request:
 - (1) the Contractor shall, or procure that the Contractor's Subcontractor shall, expeditiously consider whether or not there is any reason why it should object to making the request and, where it has no objection, file an application to seek a variation of the applicable export licence or import licence or authorisation in accordance with the procedures of the licensing authority. Where the Contractor has an objection, the Parties shall meet within five (5) working days to resolve the issue and should they fail the matter shall be escalated to an appropriate level within both Parties' organisations, to include their respective export licensing subject matter experts; and
 - (2) the Authority shall provide sufficient information, certification, documentation and other reasonable assistance as may be necessary to support the application for the requested variation.

Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, import control or both the Contractor shall use reasonable endeavours to incorporate in each subcontract equivalent obligations to those set out in this Condition. Where it is not possible to include equivalent terms to those set out in this Condition, the Contractor shall report that fact and the circumstances to the Authority.
- i. Without prejudice to HM Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority shall provide the Contractor with sufficient information, certification, documentation and other reasonable assistance to facilitate the granting of export licences or import licences or authorisations by a foreign Government in respect of the performance of the Contract.

- j. The Authority shall provide such assistance as the Contractor may reasonably require in obtaining any UK export licences necessary for the performance of the Contract.
- k. The Contractor shall use reasonable endeavours to identify whether any Contractor Deliverable is subject to:

 - (2) any other related transfer or export control, that imposes or will impose end use, end user or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon their nationality. This does not include the Intellectual Property specific restrictions of the type referred to in Condition 33 (Third Party Intellectual Property – Rights and Restrictions).
- l. If at any time during the term of the Contract the Contractor becomes aware that all or any part of the Contractor Deliverables are subject to clause 32.k.(1) or 32.k.(2), they shall notify the Authority of this as soon as reasonably practicable by providing details in the DEFFORM 528 or other mutually agreed alternative format. Such notification shall be no later than thirty (30) days of knowledge of any affected Contractor Deliverable and in any event such notification shall be not less than thirty (30) days prior to delivery of the Contractor Deliverables.
- m. If the information to be provided under clause 32.l has been provided previously to the Authority by the Contractor under the Contract, the Contractor may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of clause 32.l.
- n. During the term of the Contract, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clauses 32.l or 32.m of which they become or are aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- o. For a period of up to 2 years from completion of the Contract and in response to a specific request by the Authority, the Contractor shall notify the Authority as soon as reasonably practicable of any changes in the information notified previously under clause 32.l or 32.m of which they become aware that would affect the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses by issuing an updated DEFFORM 528 to the Authority.
- p. Where following receipt of material from a Subcontractor or any of their other suppliers restrictions are notified to the Contractor by that Subcontractor, supplier or other third party or are identified by the Contractor, the Contractor shall immediately inform the Authority by issuing an updated DEFFORM 528. Within [X] days of such notification, the Contractor shall propose to the Authority actions to mitigate the impact of such restrictions. Such proposals may include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. The Authority shall notify the contractor within [X] days of receipt of a proposal whether it is acceptable and where appropriate the Contract shall be modified in accordance with its terms to implement the proposal.
- q. If the restrictions prevent the Contractor from performing their obligations under the Contract and have not been removed, modified or otherwise satisfactorily managed within a reasonable time, the Authority may at its absolute discretion elect to amend the contract in accordance with Condition 6 or as otherwise may be provided by the Contract, or to terminate the Contract. Except as set out in clause 32.r, in the event of termination in these circumstances termination shall be on fair and reasonable

terms having regard to all the circumstances including payments already made and that would otherwise be due under the Contract, costs incurred by the Contractor and benefits received by the Authority. The Parties, acting in good faith, will use all reasonable endeavours to agree such fair and reasonable terms failing which either Party may refer the matter to dispute resolution in accordance with the provisions in the Contract.

- r. In the event that the restrictions notified to the Authority pursuant to clause 32.l were known or ought reasonably have been known by the Contractor (but were not disclosed) at contract award or if restrictions notified to the Authority pursuant to clauses 32.n or 32.p were known or ought reasonably to have been known by the Contractor at the date of submission of the most recent DEFFORM 528 submitted to the Authority in accordance with clause 32.l, termination under clause 32.t will be in accordance with Condition 42 (Material Breach) and the provisions of clause 33.v will not apply.
- s. The Authority shall use reasonable endeavours to identify any export control restrictions applying to materiel to be provided to the Contractor as Government Furnished Assets (GFA). Where the Authority is to provide materiel necessary to enable the Contractor to perform the Contract or in respect of which the Services are to be provided, and that materiel is subject to a non-UK export licence, authorisation, exemption or other related transfer or export control as described in the provisions of clause 32.k, the Authority shall provide a completed DEFFORM 528 or will provide a new or updated DEFFORM 528 to the Contractor within thirty (30) days of the date of knowledge and in any case not later than thirty (30) days prior to the delivery of such materiel to the Contractor.
- t. In the event that the Authority becomes aware that the DEFFORM 528 disclosure was incomplete or inaccurate or in the event additional such materiel is identified then the Authority shall provide, as soon as reasonably practicable a new or revised DEFFORM 528. In the event that the Authority becomes aware that a prior disclosure included in DEFFORM 528 submitted to the Contractor was incomplete or inaccurate less than thirty (30) days prior to the delivery to the Contractor of any material to which the updated or new disclosure relates, the Parties will meet as soon as reasonably practicable to discuss how to mitigate the impact of the incomplete or inaccurate disclosure.
- u. Where:
 - (1) restrictions are advised by the Authority to the Contractor in a DEFFORM 528 provided pursuant to clauses 32.s or 32.t or both; or
 - (2) any of the information provided by the Authority in any DEFFORM 528 proves to be incorrect or inaccurate;

the Authority and the Contractor shall act promptly to mitigate the impact of such restrictions or incorrect or inaccurate information. Such mitigation shall include, where appropriate, mutually supported attempts to obtain removal or modification to the restrictions or to obtain appropriate authorisations from the relevant foreign government. If the restrictions or incorrect or inaccurate information adversely affect the ability of the Contractor to perform their obligations under the Contract, the matter shall be handled under the terms of Condition 6 (Formal Amendments to the Contract) or as may otherwise be provided by the Contract as appropriate and if no alternative solution satisfies the essential terms of the Contract and the restrictions have not been removed, modified or otherwise satisfactorily managed within a reasonable time the Authority may terminate the Contract. Termination under these circumstances will be under the terms of Condition 41 (Termination for Convenience) and as referenced in the Contract.

- v. Pending agreement of any amendment of the Contract as set out in clause 32.q or 32.u, provided the Contractor takes such steps as are reasonable to mitigate the impact, the Contractor shall be relieved

from their obligations to perform those elements of the Contract directly affected by the restrictions or provision of incorrect or incomplete information.

The Contractor shall be responsible for ensuring they take into account any changes in VAT law regarding registration.

 - i. Part 1 – articles currently in use for which anticipated consumption data is available.
 - ii. Part 2 – articles the Authority may require throughout the duration of the contract but do not currently hold consumption data for.

- b. In order to assure compliance with MOD policy, products should meet the requirements identified within the contract Condition 24 Supply of Hazardous Materials and Substances. In addition, it should be noted that all goods MUST be supported with a Certificate of Conformity (CoFC) from the Original Equipment Manufacturer (OEM) assuring that they are supplied to a standard appropriate for use within the Aviation environment, including compliance with AQAP 2110 Edition D Version 1 - NATO Assurance Requirements for Design, Development and Production
- c. The contractor is required to hold Quality Management System certification to either:
 - i. BS EN 9120: 2018 Quality Management Systems. Requirement for Aviation, Space and Defence Distributors,

This data shall be reported to the Authority in accordance with the scheduled regular progress meetings and reports (Sections 5 and 6).

- a. The Authority shall include Priority Codes in accordance with the definitions listed below when Articles are required outside of the lead times identified in the List of Articles at Annex A:
 - i. *Aircraft on the Ground (AOG)* – A standard term for the creation of an urgent order to support an aircraft that is unable to fly without the provision of the Article ordered. The Authority's authorised Inventory Analysts will notify the Contractor by telephone of the AOG requirement and the Contractor shall respond within 4 hours by email to confirm if the AOG order can be fulfilled. If accepted, the order is to be delivered within a maximum 2 working days from receipt of the Demand Order. If the

AOG order cannot be accepted due to the Article not being immediately available, the order will require to be categorised as High Priority (para. ii) by the Authority.

- ii. *High Priority (HP)* – A standard term which describes all orders required earlier than the Standard Lead Time (SLT). It will generally be used when an AOG Article cannot be satisfied under the AOG service lead times. The Authority's authorised Inventory Analysts will notify the Contractor by telephone of the HP requirement and the Contractor shall respond within 2 working days by email to confirm if the HP order can be fulfilled. If accepted, the order is to be delivered within a maximum of 10 working days from receipt of the Demand Order. If the HP order cannot be accepted due to the Article not being immediately available, the order will require to be categorised as a SLT demand by the Authority.

- c. *Delivery* – The Contractor is to meet 100% of all Contracted Delivery Dates (Anticipated Date of Delivery) including those defined for AOG, HP and Hastened Delivery dates (Anticipated Expediated Date of Delivery). Failure to achieve this may result in contractual redress in accordance with the KPI process (Schedule 10). In the event that the Contractor either notifies the Authority that a forecast delivery date is extended beyond the Anticipated Date of Delivery, or delivery does not achieve the Anticipated Date of Delivery, the Authority reserves the right to cancel any order at nil liability to the Authority.

- d. *Packaging* – There will be a requirement for Retail Trade Packaging appropriate to the nature of the Articles supplied. The cost of packaging to these levels is to be included within the unit cost of the Article. In the event that the Contractor is unsure of the packaging requirement he shall seek confirmation from the Authority's authorised Inventory Analyst.

The Authority will need to obtain conformation from the Platform Design Authority (PDA) that it is an acceptable alternative and is suitable for use on the Merlin Aircraft. The Alternative Article should only be delivered once approval has

been provided in writing by the Authority and the Demand Order Form has been amended to reflect the change.

- h. Request For Quotation (RFQ) Service - Where the Authority has a requirement for an Article not included in the List of Articles at Annex A, or an Article included in Part 2 of the List of Articles, the Contractor may be requested to provide a quote to supply in accordance with the process at Contract Condition 52. Introduction

This Schedule 10 should be read in conjunction with Condition's 48 and 51 of the Contract, Schedule 2 (Schedule of Requirements) and Schedule 9 (Statement of Requirement).

This Schedule 10 defines and establishes the performance management framework, along with the supporting processes that will be used to assess the Contractor's performance against the Key Performance Indicators (KPIs).

Key Performance Indicators

The performance of the Contractor shall be monitored throughout the Contract duration using the following KPIs:

Description				
Ref	Key Performance Indicator (KPI)	Application	Performance Reporting Measure	Performance Measurement Frequency
KPI 1	Percentage of deliveries received in time in full delivered by month within the contracted lead time (working days).	All article's on demand orders	Individual Demand Order's	Monthly Report
KPI 2	Delivering Social Value	Each Social Value Criteria detailed in Annex C of the SOR	Each MAC detailed in Annex C of the SOR	Report delivered every 6 months from contract award.

Assessment for KPI 1:

Step 1 - A demand order is raised by the Authority which contains delivery dates of each article in accordance with the individual articles contracted lead time provided at Annex A to Schedule 9.

Step 2 – The contractor will acknowledge and accept the demand order within 24 hours in accordance with Condition 51 of the contract and provide a firm delivery date for each individual article.

Note: The firm delivery date should be within the contracted delivery lead time. If acknowledgement is not received from the Contractor within 24 hours, the Authority shall contact the Contractor to check if the order

has been received. If the order has not been received, the Authority may amend the Anticipated Dates of Delivery to reflect any delay at its sole discretion.

Step 3 – The date of delivery for each article will be determined as the date the individual article is received by the Authority at the MOB.

Note: proof of delivery can be MJDI receipt and a signed and dated delivery note (Deform 129J) provided by the contractor.

Step 4 – The delivery performance will be monitored monthly using the below rating to calculate the percentage of individual line items received in time and in full within the contracted lead times.

Delivery	Rating
If the article is delivered before or on the firm delivery date provided by the contractor (within the contracted delivery lead time as stipulated in Schedule 9)	Pass
If the article is delivered after the firm delivery date provided by the contractor (within the contracted delivery lead time as stipulated in Schedule 9)	Fail

PERFORMANCE BANDS

Green (target met)

Contract Target – at least 90% of orders received on time in full

Amber (Approaching Target)

Below Contract Target – 75% to 89% of orders received on time in full

Red (Requires Improvement)

Unacceptably below Contract Target – under 75% of orders received on time in full

Worked example for KPI 1

Step 1 – Report received from contractor for deliveries made in month.

Deliveries completed report							
Article	Quantity ordered	Lead time (working days)	Date order placed	Firm date of delivery	Actual delivery date	Quantity delivered	Rating

1	50	10	24/02/2022	10/03/2022	15/03/2022	50	Fail
2	10	10	24/02/2022	10/03/2022	09/03/2022	10	Pass
3	50	10	24/01/2022	10/02/2022	15/03/2022	40	Fail
4	10	10	24/02/2022	10/03/2022	10/03/2022	10	Pass
5	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass
6	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass
7	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass
8	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass
9	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass
10	10	10	24/02/2022	10/03/2022	07/03/2022	10	Pass

Step 2 – Of the deliveries received in March 8/10 were delivered on or before the contracted lead time as stipulated in Schedule 9 and therefore receive a rating of "Pass", 2/10 were delivered after the contracted lead time as stipulated in Schedule 9 and therefore receive a rating of "Fail".

8/10 x 100 = 80% Received on Time in Full

In line with KPI 1, the contractor would receive a rating of Amber for March 2022. This report will allow the Authority to monitor the contractor's performance against Schedule 9.

If the contractor knows of any reason why they cannot meet the KPI they must inform the Authority and provide evidence.

Incentive

Remedial action will be required if the supplier achieves a Red or an Amber score for a period consecutive of 3 months. The contractor will be required to submit a KPI remediation plan to the Authority within 20 working days immediately following the end of the most recent report failure, which shall outline reasons the KPI is not green and how the contractor intends to return to green in future reports. The Authority shall work with the contractor if required, using reasonable endeavors, to assist a 'return to green'. The remediation plan must be approved by the Authority.

In the event that the contractor receives >6 Amber or Red scores throughout a reporting year of the contract, without appropriate remediation action being undertaken by the contractor, the Authority reserves the right to take dispute action/terminate in accordance with clause 43. Material Breach.

Assessment for KPI 2:

Step 1 - The Contractor shall supply to the Authority, to the Commercial Officer detailed in box 1 of the Deform 111, on a 6 monthly basis a Social Value Report detailing:

1. how it has met the Mandatory Assessment Criteria (MAC) detailed in the Statement of Requirements (Annex A) in the current reporting period; and
2. how it intends to meet them in the following reporting period, setting out intended activities for the next period.

This report will allow the Authority to monitor the Contractor's performance and activities directly against the contract and against the MACs identified within Annex C to the SOR.

The report shall detail any benefits achieved and provide evidence against each of the MAC criteria.

Reports must be submitted for Authority review, who will approve and determine the score achieved.

Step 2 - The Authority will complete the review of all social value reports and advise accordingly within 10 business days. The Authority need to be content that the contractor has taken action to meet the MACs within the current reporting period and that the forward plan is achievable. If the Contractor can't achieve any of the MACs, they must evidence and justify why this is the case.

If upon review the Authority determines that the report is insufficient in quality or content, or is otherwise deemed unacceptable, the Authority reserves the right to request amendment to the plan before approval is granted.

Incentive

Remedial action will be required if the supplier achieves a Red or an Amber. The contractor will be required to submit a KPI remediation plan to the Authority within 10 business days immediately following the end of the most recent report failure, which shall outline how and when the contractor intends to return to Green.

The Authority shall work with the contractor if required, using reasonable endeavors, to assist a 'return to green'. The remediation plan must be approved by the Authority.

In the event that a Red score is sustained over three (3) consecutive reports over the life of the contract, without appropriate remediation action being undertaken by the contractor, the Authority reserves the right to terminate in accordance with clause 43. Material Breach.

PERFORMANCE BANDS

Green (target met)

Contract Target – All MACs met and report approved by the Authority.

Amber (Approaching Target)

Below Contract Target - Either $\leq 50\%$ of the MACs have been met, or evidence provided in the report is deemed insufficient and thus unacceptable to the Authority when reviewed.

Red (Requires Improvement)

Unacceptably below Contract Target – No report has been delivered by the Contractor or the Contractor has not undertaken any activities in that contract year (directly against this contract) that demonstrate working towards achieving the MACs.

Procedure for KPI Alleviation

1. Where the Contractor believes a KPI measure will be impacted adversely through Authority action/inaction or external factors outside the Contractors control, the Contractor shall formally notify the Authority's Commercial Officer at the earliest reasonable opportunity. The formal notification must be supported by:
 - a. Evidence that demonstrates the claimed Authority action/inaction or external factors outside the Contractors control occurred;
 - b. The claimed event's date of occurrence;
 - c. The actual or perceived impact;
 - d. Details of the mitigation action taken by the Contractor, or evidence that mitigation action could not reasonably have been expected; and
 - e. Any other evidence that the Contractor deems relevant for consideration.
2. If the formal notification has been issued at the earliest reasonable opportunity, and the Authority following a fair review of quality evidence, accepts full responsibility or agrees the external factors to be beyond the reasonable control of the Contractor, amendments to the Anticipated Delivery Dates may be agreed and/or the attributable Late Delivery rating may be removed. Where agreement between the parties cannot be made, the Authority reserves the right to the final decision.

Review

3. At the Annual Performance Review Meeting, the Parties will review the KPIs and the associated performance management process described in this Schedule 10 and Condition 48 of the Contract. The aim of these reviews shall be to ensure that the KPIs and associated metrics remain valid in the context of this Contract and the associated processes operate smoothly and efficiently.

4. If, during the Contract, it becomes apparent that a KPI fails to accurately capture the required output, the Authority may seek to change the KPIs by agreement with the Contractor at Monthly Progress Meetings. Once agreed these changes will be implemented into this Contract by formal Contract Amendment.
