#### Solution Approach

It is Blue Border's understanding that the MoJ high level requirement is for a Managed Service to deliver the functional and non-functional requirements; supporting stakeholder maps, the 'As Is' process maps and potential future process maps in readiness to support the commercial tender process for the delivery of a Judicial Payroll solution.

We understand that the Programme will run until December 2022, however on clarification as per our query, our proposal has been provided to cover the period 1<sup>st</sup> April 2021 to end December 2021.

Blue Border's approach has proved to be successful throughout the work completed to date on the Judicial Payroll Programme and would welcome the opportunity to be able to continue in that vein. Our open, honest, and collaborative engagement will continue with the Business and the Commercial Teams to ensure the creation of the functional and non-functional requirements are completed and signed off by the Business as appropriate.

Blue Border will ensure that the programme has the rigor and auditability required, evidenced through clear and concise reporting and risk management. This will be achieved via the completion and continued review of the RAID (Risks, Assumption, Issues and Dependencies); monthly and programme governance reporting and scope management ensuring that all change has the necessary approval.

Blue Border will work with the MoJ Commercial Team to support the creation of the tender documentation and ensure that the business engagement and requirements are reflected in the documentation that provides the best future service for the Programme and HMCTS.

The request for the managed service is defined into three areas: Programme Management, Digital Data Solution, and a Pension Solution. Based upon these three streams we have created the deliverables and planned dates as defined in the table below.
