sector expenditure and planning future procurement activities) ("**Third Party Body**"). The Supplier confirms and agrees that the Authority may itself provide the Third Party Body with management information relating to the Services purchased, any payments made under this Contract, and any other information relevant to the operation of this Contract.

8.6 Upon receipt of management information supplied by the Supplier to the Authority and/or the Third Party Body, or by the Authority to the Third Party Body, the Parties hereby consent to the Third Party Body and the Authority:

8.6.2 sharing the management information or any statistics produced using the management information with any other Contracting Authority.

8.7 If the Third Party Body and/or the Authority shares the management information or any other information provided under Clause 8.6 of this Schedule 2, any Contracting Authority receiving the management information shall, where such management information is subject to obligations of confidence under this Contract and such management information is provided direct by the Authority to such Contracting Authority, be informed of the confidential nature of that information by the Authority and shall be requested by the Authority not to disclose it to any body that is not a Contracting Authority (unless required to do so by Law).

8.8 The Authority may make changes to the type of management information which the Supplier is required to supply and shall give the Supplier at least one (1) month's written notice of any changes.

9.2 Unless otherwise stated in the Commercial Schedule the Contract Price:

9.2.1 shall be payable from the Actual Services Commencement Date;

9.2.2 shall remain fixed during the Term; and

- 9.6 Where the Authority raises a query with respect to an invoice the Parties shall liaise with each other and agree a resolution to such query within thirty (30) days of the query being raised. If the Parties are unable to agree a resolution within thirty (30) days the query shall be referred to dispute resolution in accordance with the Dispute Resolution Procedure. For the avoidance of doubt, the Authority shall not be in breach of any of any of its payment obligations under this Contract in relation to any queried or disputed invoice sums unless the process referred to in this Clause 9.6 of this Schedule 2 has been followed and it has been determined that the queried or disputed invoice amount is properly due to the Supplier and the Authority has then failed to pay such sum within a reasonable period following such determination.
- 9.7 The Supplier shall pay to the Authority any service credits and/or other sums and/or deductions (to include, without limitation, deductions relating to a reduction in the Contract Price) that may become due in accordance with the provisions of the Specification and Tender Response Document. For the avoidance of doubt, the Authority may invoice the Supplier for such sums or deductions at any time in the event that they have not automatically been credited to the Authority in accordance with the provisions of the Specification and Tender Response Document. Such invoices shall be paid by the Supplier within 30 days of the date of such invoice.

- 9.10 If a Party fails to pay any undisputed sum properly due to the other Party under this Contract, the Party due such sum shall have the right to charge interest on the overdue amount at the applicable rate under the Late Payment of Commercial Debts (Interest) Act 1998, accruing on a daily basis from the due date up to the date of actual payment, whether before or after judgment.

- 14.4 The amount of any indemnity cover and/or self insurance arrangements shall not relieve the Supplier of any liabilities under this Contract. It shall be the responsibility of the Supplier to determine the amount of indemnity and/or self insurance cover that will be adequate to enable it to satisfy its potential liabilities under this Contract. Accordingly, the Supplier shall be liable to make good any deficiency if the proceeds of any indemnity cover and/or self insurance arrangement is insufficient to cover the settlement of any claim.
- 14.5 The Supplier warrants that it shall not take any action or fail to take any reasonable action or (in so far as it is reasonable and within its power) permit or allow others to take or fail to take any action, as a result of which its insurance cover may be rendered void, voidable, unenforceable, or be suspended or impaired in whole or in part, or which may otherwise render any sum paid out under such insurances repayable in whole or in part.
- 14.6 The Supplier shall from time to time and in any event within five (5) Business Days of written demand provide documentary evidence to the Authority that insurance arrangements taken out by the Supplier pursuant to Clause 14 of this Schedule 2 and the Key Provisions are fully maintained and that any premiums on them and/or contributions in respect of them (if any) are fully paid.
- 14.7 Upon the expiry or earlier termination of this Contract, the Supplier shall ensure that any ongoing liability it has or may have arising out of this Contract shall continue to be the subject of appropriate indemnity arrangements for the period of twenty one (21) years from termination or expiry of this Contract or until such earlier date as that liability may reasonably be considered to have ceased to exist.

 - 15.3.2 comply with such Remedial Proposal (including, without limitation, as to its timescales for implementation, which shall be thirty (30) days unless otherwise agreed between the Parties); and/or
 - 15.3.3 remedy the default or breach notwithstanding the implementation of such Remedial Proposal in accordance with the agreed timescales for implementation,
- shall be deemed, for the purposes of Clause 15.4(ii) of this Schedule 2, a material breach of this Contract by the Party in breach not remedied in accordance with an agreed Remedial Proposal.
- 15.4 Either Party may terminate this Contract by issuing a Termination Notice to the other Party if such other Party commits a material breach of any of the terms of this Contract which is:

- 15.6 If the Authority, acting reasonably, has good cause to believe that there has been a material deterioration in the financial circumstances of the Supplier and/or any third party guaranteeing the obligations of the Supplier under this Contract and/or any material Sub-contractor of the Supplier when compared to any information provided

- 15.6.1 the Authority may (but shall not be obliged to) give notice to the Supplier requesting adequate financial or other security and/or assurances for due performance of its material obligations under this Contract on such reasonable and proportionate terms as the Authority may require within a reasonable time period as specified in such notice;
- 15.6.2 a failure or refusal by the Supplier to provide the financial or other security and/or assurances requested in accordance with Clause 15.6 of this Schedule 2 in accordance with any reasonable timescales specified in any such notice issued by the Authority shall be deemed a breach of this Contract by the Supplier and shall be referred to and resolved in accordance with the Dispute Resolution Procedure; and
- 15.6.3 a failure to resolve such breach in accordance with such Dispute Resolution Procedure by the end of the escalation stage of such process shall entitle, but shall not compel, the Authority to terminate this Contract in accordance with Clause 15.4(i) of this Schedule 2.

In order that the Authority may act reasonably in exercising its discretion in accordance with Clause 15.6 of this Schedule 2, the Supplier shall provide the Authority with such reasonable and proportionate up-to-date financial or other information relating to the Supplier or any relevant third party entity upon request.

- 17.7 Where the obligations on the Supplier under Clause 17 of this Schedule 2 are subject to the Data Protection Legislation, the Supplier will, and shall procure that any Sub-contractor will, use its best endeavours to seek the consent of the Supplier Personnel to disclose any information covered under the Data Protection Legislation and utilise any other exemption or provision within the Data Protection Legislation which would allow such disclosure.

Schedule 5

Specification and Tender Response Document

Service specification: Access to a physical health offer for NHS staff

Background

As part of NHS England and NHS Improvement's (NHS E&I) ongoing work to support the health and wellbeing of all NHS colleagues through evidence based models, the national Health and Wellbeing team at NHS England and NHS Improvement have been allocated some non-recurrent funding in 2021/22 to procure a physical health and wellbeing offer for all NHS staff.

During the pandemic, there was predominantly a big focus on supporting the mental health and wellbeing of our NHS people, including a programme that offered support through a range of mental health and wellbeing apps. Later in 2020/21, NHS England and NHS Improvement developed a broader national physical health and wellbeing programme, in which we recognised that the physical health of our NHS people is key to supporting their overall wellbeing.

Going forward, feedback from a number of NHS organisations suggests that many colleagues are now in a place where they would like a more comprehensive physical activity offer. Therefore, we are keen to further develop our physical health and wellbeing offer, whilst keeping it streamlined and easy to access, and would like to procure one programme of physical health and wellbeing support, that is ideally evidence based and that can be evaluated throughout its running, and is inclusive of all abilities, offering something for everyone.

Data has shown that poor physical health and wellbeing can lead to an increased risk of developing mental health problems, long term conditions (such as diabetes and heart disease) as well as social impacts too. In time, staff who feel unwell are likely to have time off work (leading to increased sickness absence rates across the NHS), and they may also need to seek support through their local NHS service. Data has also been collected from across NHS Trusts which suggests that access to physical wellbeing support is important for their workforce.

The intention is to offer a proactive physical health and wellbeing offer, that supports staff to remain well, is easily accessible, and that in the longer term may provide financial benefits to the NHS (a healthier workforce will result in less sickness absence).

Aims and Objectives

On review of the physical health and wellbeing programme offered in 2020/21, NHSE&I would like to provide NHS colleagues with an inclusive, holistic health and wellbeing offer that provides easy to access, proactive support for both mental and physical wellbeing. This physical health and wellbeing support offer will compliment and run alongside the other national health and wellbeing support offers to ensure we have a well-rounded and inclusive approach to health and wellbeing.

The requirement of the provider is to offer both an educational learning and development offer, that shares insights into how food, nutrition, nature, etc. can affect your wellbeing, but that also offers an inclusive active physical offer (through online sessions and communities similar to the 5k Our Way programme ran recently – more details can be found here <https://www.england.nhs.uk/supporting-our-nhs-people/support-now/physical-health-and-wellbeing/>). Physical activity in any form is a great way to keep you healthy, both physically and mentally. Research shows that doing exercise influences the release and uptake of feel-good chemicals called endorphins in the brain.

In order to provide an offer that is sustainable, can be embedded across the NHS in the longer term, that best meets the needs of our diverse workforce, and uses learning from last year, the procurement of a physical health and wellbeing programme will be split into the following two principal lots:

Lot 1: An inclusive physical activity / sports programme that all NHS colleagues will be able to easily sign up to and access.

Lot 2: A learning and development offer that educates and informs colleagues of the benefits of looking after your health and wellbeing.

Provider Requirements (In Scope)

Details of the requirements from providers bidding for one or both lots can be seen below:

Lot 1: An ongoing, inclusive physical activity / sports programme that all NHS colleagues will be able to easily sign up to and access. This could include:

- A series of online activities or home workouts (such as yoga, HIIT, pilates, boxercise, Zumba), scheduled at regular intervals throughout the year. Frequency can be determined by the supplier, but should be regular (i.e a minimum of one per week, hosted by a professional/expert of that activity) and offered at varying times (i.e some in mornings, some in the evening to account for the different working patterns of our NHS colleagues).
- Access to the above sessions through an easy to use, accessible app or digital/online platform
- Community challenges that builds on the “Our NHS People” brand and encourages communities or teams of colleagues to support one another with their wellbeing. For example, setting local challenges to walk a number of miles as a team.
- Opportunities for staff to access sporting and adventurous challenges, either through separate programmes or expeditions, and also designed to enhance self-confidence, resilience and leadership as well as being able to give back to their communities

Lot 2: A learning and development offer that educates and informs colleagues of the benefits of looking after your health and wellbeing. This could include:

- A regular series of online community events and webinars, featuring motivational speakers such as athletes, personal trainers, dieticians, lifestyle and wellbeing speakers, armed forces colleagues, medical professionals, who can talk through focussed topics on physical health and wellbeing and identify the links between this programme and other national programmes such as the Prevention Team’s staff

weight loss programme. This could be delivered virtually or face to face, dependent on Covid restrictions.

- Places for NHS staff to access a training programme on topics such as nutrition, exercise
- An online, group coaching programme that aims to upskill communities of health and wellbeing champions to feel confident in talking to colleagues about physical health
- An online video that provides tailored support to upskilling line managers to talk about physical health in wellbeing conversations

Criteria

Providers must demonstrate that their offer:

- Is inclusive and accessible to all abilities, age, sex, etc.
- Is accessible and representative of the diverse workforce of the NHS
- Encompasses more than one solution to improving physical health, for example an offer which provides a range of workouts, physical wellbeing advice, nutritional advice, healthy recipe ideas, how to sleep well
- Has the option to be delivered face to face, dependent on Covid restrictions e.g. organised fun runs, assault courses, sporting challenges and expeditions, walking/hiking group sessions for NHS staff
- Supports the creation of networks of like-minded staff

Timescales

NHS England and NHS Improvement are keen to have appointed a supplier/s by September 2021. The contract term for the supplier/s will be from September (dependent on procurement timescales) until 31 March 2022.

Budget

The national health and wellbeing team at NHS England and Improvement have been allocated £225k Exc VAT to procure a physical health and wellbeing offer for all NHS staff.

Our approach combines leading clinical and academic expertise with commercial competence and experience in delivering programmes at scale. This, combined with the promotional power and energy of our project ambassador [REDACTED] and his network, enables us to deliver an inclusive offer with a range of content for all abilities and needs across the 1.3M NHS staff. The project team, digital platform and training content is already functional and ready to be delivered now.

2. **Product Description** This is a complete solution, delivered through a hybrid model of digital and face to face education and training. The components of the offer against **Lot 1** are as follows:

2.2 **Strategic Performance & Clinical Safety Oversight Committee** A combined oversight committee would be formed with NHS E, to ensure the project is delivered compliantly, adhering to clinical and ethical guidelines. This comes with **no additional cost** to the project¹.

2.4 [REDACTED] has been invested over the last year to develop a bespoke, state of the art platform, specifically for this project. It hosts a range of 'on-demand' (pre-recorded) and live content, as well as community challenges, competitions and events. [REDACTED]

2.6 COVID Safety & Recovery We have worked with the clinical team running NW London post-COVID clinics to ensure all activity programmes have “red flags” to identify anyone who may have undiagnosed post-COVID issues. This should provide a safety-net to ensure all programmes can be run safely. Secondly, we are part of a clinical trial being run by Imperial College (A.McGregor PI) to design an app-based activity programme for post-COVID activity recovery. This will be incorporated into the digital platform once the trial has demonstrated efficacy.

2.7 Training & Exercise Content Delivery Based on a 7-month roll-out, the proposed content delivery for online and F2F activities would be as follows:

Our inclusive and holistic approach will deliver a more active, healthy and happy workforce. The challenge, competition and adventurous components will enhance team cohesion, productivity and morale through a shared sense of experience and achievement. With the experience and passion of our collaboration, we have the ability to deliver the most comprehensive solution at unprecedented value.

Technical Questionnaire – Lot 1 – Q2

1. **Introduction.** The clinical, academic and commercial expertise of the 'Fit to Care' collaboration is considerable. This team formed 15 months ago to combine this experience and commence research and development. The principal case study which highlights our ability to deliver strategic success is selected from the experience of our commercial delivery partner; BMF Human Performance Ltd. Wider examples of partner experience have been cited to support the efficacy of our whole-solution offer.

2. **Organisational Case Study.** BMF Human Performance was established to deliver bespoke, holistic performance, health and wellbeing programmes for a range of public, commercial and sporting clients. Its major client in the public sector is the British Army, where BMF works in partnership with Capita to deliver physical, psychological, health and wellbeing programmes to Army recruit applicants. BMF was initially awarded a 6-month pilot to prove concept and was subsequently awarded a 3 year contract to provide training support services for the entire recruit candidate cohort. Details are as follows:

Pilot (6 months) results

- **30% increase in female pass rate (94%)**
- **8% increase in male (100%)**

■ **Contract Length & Capacity:** 3 years – Delivering for minimum of 20,000 up to 100,000 per annum

■ **Objective:** To enhance recruiting and retention of Army applicants; Improve pass-rates at assessment centres and improve their preparation to enter basic Army training (build confidence & mental resilience, reduce injury and raise physical performance standards)

■ **Target Audience:** This contract is managed under the Army and Capita Diversity & Inclusion working group. A common misconception is that all Army personnel are born 'fit and ready'. In fact, the Army requires a wide variety of roles to be filled (the majority not directly related to combat). BMF was tasked to deliver for those in most need of assistance, who are commonly from lower socio-economic and minority groups and have little knowledge of exercise, health and wellbeing. BMF engaged with, and retained, these individuals to achieve unprecedented success.

■ **Structure & Delivery.** The Army programme comprises a range of ability-matched online programmes, delivered through both on-demand and live training sessions. There is absolute parity between the core programming components; psychological, exercise and health & wellbeing. The offer is supported by a dedicated performance team, and engagement is driven by a marketing & retention team. An oversight committee reviews detailed monthly reports to guide the project and instruct remedial action where required. The online offer is complimented by F2F training; delivered in all regions by dedicated training teams. Access to BMF core programmes is also available through its franchise network. ***Note:** We intend to use a similar programme structure and principles of strategic & operational success to deliver a tailored and inclusive solution for all NHS staff.

3. **Efficacy of the 'Fit to Care' offer** (aligned to Lot 1 – Physical activity programme). The evidence cited below is aligned to the areas this collaboration considers most critical to achieving success.

■ **Tangible physical performance results: - Army recruiting programme.** Pilot results detailed above in paragraph 2. This level of performance has been sustained during transition to the main contract.

■ **Online system with tailored hybrid offer (on-demand & live): - BMF Online.** Since COVID hit, BMF has delivered over **60 online sessions** a day across its network. From Mar – Dec 2020, online services have reached over **1 million participants** and **Retained over 85%** of its members throughout the COVID era, compared with 40% retention across the wider gym sector. BMF online achieved **NPS of 87%**

■ **Engagement: - (1) BMF with Bear Grylls – hosting National Fitness Day.** Achieved reach of **29.15 Million people**; **19.1 M inspired** to get active for the first time & **8.7 M children** participated in activities. (2) **FSEM / Moving Medicine.** Online course continues to help train clinicians further in motivational interviewing in the context of physical activity. **84,000 users** of the Moving Medicine resources in over **133,000 different sessions**

■ **Community: - BMF with Bear Grylls.** BMF is the largest outdoor fitness operator in Europe. It was founded on the delivery of military inspired fitness. This is defined not by elitism but by enabling an individual to unlock potential and reach their goals. This is achieved through effective coaching (overcoming adversity) and fostering team cohesion through competition & challenges, NOT (as some might think) through firm discipline. Through this model, BMF has become the leader in community-based fitness for all abilities and the largest outdoor fitness provider in Europe. It has a 21 year track record of changing lives for the better; adopting an active lifestyle or undertaking challenges that, prior to BMF, individuals never thought possible.

4. **Lessons Learnt.** The following five lessons were considered by the collaboration to be the most relevant and should be priority areas of focus to enable success with NHS E.

■ **Effective Stakeholder Relationships.** A cohesive and collaborative strategic approach is required from the out-set. Constant 2-way dialogue will be required to ensure success is delivered. This will be most applicable to launching the programme and hitting engagement & retention targets in year 1.

■ **Parity Between Core Programmes.** Programme success requires equal focus on the psychological, exercise and wellbeing components.

■ **Hybrid Delivery Model.** The balance of on-demand & live, and F2F is essential. One offer alone will achieve limited engagement but the combination of multiple training offers and mechanisms to deliver, that are resilient to the seasonal changes, will achieve long-term retention. This MUST, however, be delivered under one coherent strategy so as to avoid confusion or competing stove-piped offers.

■ **Marketing Strategy.** Targeting the non-active population requires a multi-layered influence approach, utilising ambassadors, local influencers, leaders and advocates. A combined stakeholder promotional strategy is required but organic referral is the key to success. This takes time to build, so strategic patience is required with large scale programmes.

■ **Incentivisation and Purpose.** Training with a purpose/goal is the key to retention; the combination of competition and challenge aids community building and the 'feel good' factor. This can be further enhanced by a tangible incentives and rewards programme that should be an integral part of the offer.

Technical Questionnaire – Lot 1 – Q3

1. **Introduction.** Developing a diverse and inclusive offer has been a top strategic priority throughout our project's 15 months of development. The concepts and platform have been co-designed with frontline NHS staff, supported by NHSE&I and numerous other partners. It reflects their diversity and feedback. Our team is diverse (our clinical lead is a British Asian NHS doctor, our academic lead is a female professor, our NHS project lead is an Asian female NHS occupational therapist). In terms of operation delivery, BMF (commercial delivery partner), has undergone a significant modernisation programme since its acquisition in 2018. This entailed developing multiple training models, programmes for all abilities and employing a broader workforce from a diverse range of backgrounds. Its Human Performance Division is now contracted by Capita under a DE&I initiative with the Army to specifically focus on improving health and physical performance of minority groups. BMF has a willingness to partner with a range of delivery agents to ensure that the project's instructors, education and training sessions cater for all needs, backgrounds and abilities. Its fun and inclusive offers are encapsulated by its philosophy of '*train anyone, anywhere.*'

2. **An Inclusive Offer – Training for all.** This will be achieved through the following:

■ **People.** We will ensure our people reflect the diversity within the NHS workforce. This includes; oversight committee, project management team, coaches and instructors. As a priority, these teams will work closely with the NHS staff to understand in detail their needs, goals or concerns. Where required we will select specific leads for any hard to reach/under-represented groups. As a quality control and educational mechanism, all staff (and partner staff) will be given DE&I training as a mandatory part of the onboarding process.

■ **Design and Language.** We will ensure that the imagery, presentation and text within our promotions, education and training are sensitive and tailored to a broad range of backgrounds and ability.

■ **A Fair and Inclusive Training Environment.** BMF has become expert at building diverse training communities, through a training philosophy of enjoyment, fulfilment and fairness. This is fostered through challenge, teamwork and social interaction whilst exercising – NOT just delivering a workout. This military inspired approach breaks-down any social barriers or prejudices; it's just about exercise, learning, fulfilling potential and coming together as a team, irrespective of background. These are the key themes that will run through all aspects of our programme for NHS staff.

3. **Accessibility – Training Anywhere.** We are proposing a comprehensive range of ability related content that will cater for everyone. Staff members may just want to understand more about stress management or diet; the broad range provides an offer with multiple 'hooks' to get people into a programme that will improve their health. The hybrid construct of delivery means that we can reach them at anytime, anywhere; digital (on demand & live) or face to face at their place of work. For those who do not have access to digital infrastructure at home, we will work with their Trust to ensure they have equal access to the materials as others.

4. **Recognition of Diversity within the NHS Workforce.** Our collaboration is led by members of NHS and wider public sectors (MOD). We therefore possess inherent understanding of the composition of NHS staff, the pressures they face and potential solutions to make their lives better and strengthen the organisation. We will, however, continue to remain connected to all levels of staff within the NHS to ensure we continually evolve this understanding. We have direct contact with and support from frontline NHS staff, Trust level, Regional and National members of the NHS so can ensure we are reflecting NHS diversity at every level of the programme.

Technical Questionnaire – Lot 1 – Q4

1. **Introduction.** Our collaboration formed over 15 months ago with the aim of improving the health & welfare of NHS staff, and then expanding this influence to address wider health inequalities across the UK population. The concept started by bringing together the leading organisations in relevant fields and then partner with an agile commercial entity that could deliver a national strategy at pace. The team has current NHS staff and possesses considerable expertise across clinical, academic and commercial sectors.

2. **Collaboration & Partner Composition.** The details, lead and relevant knowledge, skills and experience of each entity are summarised below:

3. **Steering Group & Project Management**. The project will be assured, managed and delivered using a three-tier structure in collaboration with NHS E. Details as follows:

■ **Tier 1 – Strategic Performance & Clinical Safety Oversight Committee**. A combined oversight committee would be formed with NHS E, to ensure the project is being delivered successfully, within clinical and ethical guidelines. Details of our committee members are at Footnote¹.

■ **Tier 2 – Dedicated Project Management Team**. A dedicated operational and marketing team would be established to deliver against the project KPIs. This would consist of:

- **Senior Project Manager**. This will be fulfilled by a Director level role, with vast commercial, operational experience and is familiar with public sector contracts. They will work closely with the NHS E lead to deliver the national strategy and operational plan
- **Marketing & Retention Specialist**. A Head of Marketing with experience in delivering major engagement marketing campaigns and retention schemes on health and wellbeing. They will be employed to deliver the national and regional engagement and retention strategy.
- **Data Analyst & Finance Manager**. A lead analyst with broad experience across multiple sectors, will ensure accurate and timely data reports against project KPIs. They will also manage the cost centre closely with the project lead to ensure scope, timelines and budget are met.

■ **Tier 3 – Delivery Team**. This will comprise of a broad range of specialists from a diverse range of backgrounds. They will be led by a dedicated the athletic manger who will co-ordinate closely with NHS E central team, staff and mangers to ensure the client journey and exercise experience is being delivered to a 'best in class' service. They will ensure systems and training resources are aligned, select the most relevant specialists & coaches and ensure sub-contractor offers are delivered.

4. **Collaboration with NHS E**. From the outset, this collaboration will work closely with NHS E to forge a transparent and effective relationship. To guarantee the project is delivered within scope and on target, a review process will be established to ensure the programme achieves its strategic objectives. This oversight committee, comprised of internal and external monitors, will sit monthly to audit, provide direction, and take remedial action if required. With a concentrated focus on performance, a robust review process and an agile organisation which is contractually held to account on the deliverables, the team is confident in its ability to deliver its agreed metrics. Should any target be missed, the intent will be to undertake remedial action at no additional cost and realign to a path that achieves success.

5. **Processes, Routine & Reporting**. BMF has developed flexible policies, operating instructions and procedures to enable effective delivery of large-scale projects for major organisations. These can be tailored to suit every organisational structure in terms of reporting, decision making and operations. Our recommendation would be to balance regular (monthly) face to face performance reviews, with a weekly operational routine. This will be enabled by live-data dash boards that align to project KPIs and allow complete transparency throughout the project's lifespan.

Technical Questionnaire – Lot 1 – Q5

1. **Introduction.** Our collaboration has considerable experience in delivering pilots and major programmes at pace and scale. BMF (commercial delivery entity) have the systems, knowledge and organisational agility to deliver operational success for NHS E. Its recommendation would be to adopt a phased roll-out. This would utilise multiple feedback sources (data & anecdotal) and employ an agile operating structure, with a robust decision-making process for change requests that would ensure success in the early critical stages. The design of this programme has been very iterative to date and the initial phase would see further co-design with partner Trusts. This would allow adjustments to ensure the programme was delivering the content and effect NHS staff want. In addition, the nature of the platform allows it to host any content. This would allow individual NHS staff/Trusts to design content that could be hosted, facilitating peer-led and peer-to-peer learning. Throughout this process we will have specific focus on groups who maybe underrepresented or tend not to engage with these types of initiatives. Further detail on how these principles would be implemented for NHS E programme are as follows:

2. **Project Execution.** For the initial 7-month period we recommend a 3-phase approach:

■ **Phase 1 – Test & Adjust (8 wks).** Recommend 3-4 regions (large city, outlying and devolved region) to co-design, test offer and adjust prior to main launch. This phase ensures that main launch starts well, with buy-in from early adopters.

■ **Phase 2 – Main Launch (12 wks).** Main launch aims to make a major engagement impact across entire NHS for online services.

■ **Phase 3 – F2F, Challenges & Adventure (8wks).** Momentum from the first two phases begins to culminate in a series of events, national challenges and adventurous training activities.

3. **Feedback and Reporting.** This aspect would be delivered by the project performance manager in collaboration with NHS E with complete transparency. It would use the following mechanisms:

■ **Marketing Data.** Using our agencies and organic systems we would capture open rate data and platform engagement. This data will be continually reviewed to tailor effectiveness of the marketing strategy and optimise conversion.

■ **Operational Data.** Live data dash-boards will be developed for operational KPIs. These would show data on overall engagement, type and frequency.

■ **Satisfaction Data.** Using a combination of CRM, social media and localised NHS surveys, we would gather anecdotal feedback to compare against data, test regional variance and customer satisfaction. Net promoter score would also be adopted as an indicator for customer satisfaction.

4. **Analysis & Tailoring.** All data sets would be collected, analysed and presented to the oversight committee for monthly performance review. Major changes to promotional material, structure and operations would require a decision at this level. This is process critical to avoid change fatigue and marketing an ambiguous offer. However, a level of regional tailoring is recommended within the project framework. This can be facilitated by a level of autonomy to make adjustments that would sit with the project manager, working in conjunction with NHS E and regional teams. The agility of our organisational structure and systems is there to facilitate this approach, and can also be used to pilot new capabilities across different regions at relatively short notice. This will ensure that the programme is tailored to the individual needs of the target communities, especially those who typically would not engage in these programmes.

Technical Questionnaire – Lot 2 – Q6

1. **Introduction.** The project team will work closely with NHS E to ensure mass engagement in this offer across all demographics and abilities within the NHS workforce. We will address objectives on wellbeing, by adopting similar working processes to that of wider successful commercial and public sector programmes that are already being delivered by this organisation. For a programme of this size and scale a balance of national and regional communications will be required to achieve success. The principles and process to achieve this are detailed below.

2. **Marketing & Engagement.** Our aim will be to raise awareness across the entire NHS workforce and achieve; **100,000 staff regularly engaging in activity over the 7-month period.** This will be achieved through combining the following communications process:

- **Single Engagement Strategy.** We will work closely with NHS E, regional teams and partner organisations to develop one robust and scalable engagement strategy, that optimises the existing marketing and communications strategy within the NHS. This will comprise of both national and localised campaigns that are relevant to seasonal themes, work routine and demographic

- **Multi-Platform & Multi Channel Approach.** Digital and physical communications to capture all demographics will be disseminated across multiple platforms; automated CRM, social media, employment dashboards text etc. Regional groups on Social platforms will be created to facilitate organic content creation

- **Organic Referral.** A highly credible organic influence campaign is required for success. This will require carefully selected national and local influencers to work with priority groups and their leaders. It will be built through regional empowerment and programme advocacy that delivers the organic referral required to achieve mass engagement and instigate change in non-active groups that previously have been difficult to access

- **Ambassadors Influence.** We will use both macro and micro levels within the national strategy to generate and effective influence campaign. As the programme ambassador, Bear Grylls will directly assist with promoting the programme at **no cost**. He also has access to a wide range of high-profile individuals from diverse backgrounds.

3. **Retention – Building Community.** The delivery team is expert at building inclusive and diverse communities. Engagement and retention of priority groups will be largely dependent on performance in this area. This will be achieved through implementing a model aligned to the following principles:

- **Content Upgrades.** We will remain agile to deliver both planned and reactive upgrades to the platform, content or profile of the physical component to ensure long-term engagement

- **Challenge & Competition.** Competition and undertaking challenge is an innate human need that if unlocked, even in low confidence individuals, can be hugely powerful. They will be a regular a core part of the programme

- **Achievement & Recognition.** Any success, relevant to individuals or groups, needs to be recognised; certificates, retail etc

- **Incentivisation & Rewards.** An incentivised model for better health will underpin the programme. A range of incentives and rewards schemes will be developed that are relevant to the localised workforce.

Technical Questionnaire – Lot 1 – Q7

1. **Introduction and method statement.** The aim of this programme is to generate behaviour change in NHS staff so that they adopt a more active, healthier lifestyle that leads to physical health and mental health benefits. The advocacy generated will promote these benefits through education, use of Public Health networks and partner initiatives to penetrate and assist local communities recover from COVID-19. The inclusion of the Imperial College led COVID-19 recovery app demonstrates the commitment within our programme to recovery and returning people to a healthier active lifestyle. The programme provides the knowledge and tools to enable the NHS to lead the recovery from COVID-19 and improve the nation's health across all communities.

2. **Method statement.** We will use NHS staff to deliver the healthier lifestyle message to the wider population and aim to sustain this programme in the long-term. We will commence this process through the delivering following initiatives over the initial 7-month roll-out:

- **Engagement and Retention Strategy.** We will utilise the lessons learned from the engagement and incentivised retention scheme to engage local communities in better health programmes. Specifically, how the programme is targeting hard to reach/under-represented groups.

- **Partnerships.** We will use the Public Health networks between the NHS and local councils to co-design similar models with employers, educational institutions and sporting clubs to achieve buy-in. Our recommendation would be to allocate and open up 10% of the staff challenges to the wider community as a tangible benefit of the programme to that community.

- **Demonstrate the benefits of better health.** We will produce reports that demonstrate the costs savings from enhancing health; the proposal does not require specialist equipment or gym membership which will make it accessible to all, irrespective of socio-economic class. We will do a cost analysis and use EuroQol EQ-5D on sample groups to show improvements in quality-of-life scores.

- **Data sharing on wellbeing.** We will disseminate information on the metrics gathered via our digital platform to show process and performance (i.e. sign up, compliance, progression); well-being effect gathered by Anglia Ruskin University; nutrition effect gathered by British Dietetic Association.

- **Data Sharing on physical activity.** We will provide redacted self-reported data, such as International Physical Activity Questionnaire (IPAQ).

- **Targeting health inequalities.** We will facilitate a continuous feedback loop from users/providers into the project board to aid improvement.

3. **Education, Employment and Re-training.** The programme already has many volunteers who have assisted in its co-design. This model will continue to grow through the education courses that can then expand to local community representatives. There are opportunities to qualify as instructors and mentors; getting people both active and employed.

4. **Summary.** Improved community health and COVID recovery requires this broad strategy. This programme aims to be the catalyst for broader health models that can penetrate every community across the UK.

This military inspired approach breaks-down any social barriers or prejudices; it's just about exercise, learning, fulfilling potential and coming together as a team, irrespective of background. These are the key themes that will run through all aspects of our programme for NHS staff.

3. **Accessibility – Training Anywhere.** We are proposing a comprehensive range of ability related content that will cater for everyone. Staff members may just want to understand more about stress management or diet; the broad range provides an offer with multiple 'hooks' to get people into a programme that will improve their health. The hybrid construct of delivery means that we can reach them at anytime, anywhere; digital (on demand & live) or face to face at their place of work. For those who do not have access to digital infrastructure at home, we will work with their Trust to ensure they have equal access to the materials as others.

4. **Recognition of Diversity within the NHS Workforce.** Our collaboration is led by members of NHS and wider public sectors (MOD). We therefore possess inherent understanding of the composition of NHS staff, the pressures they face and potential solutions to make their lives better and strengthen the organisation. We will however, continue to remain connected to all levels of staff within the NHS to ensure we continually evolve this understanding. We have direct contact with and support from frontline NHS staff, Trust level, Regional and National members of the NHS so can ensure we are reflecting NHS diversity at every level of the programme.

Technical Questionnaire – Lot 2 – Q4

1. **Introduction.** Our collaboration formed over 15 months ago with the aim of improving the health & welfare of NHS staff, and then expanding this influence to address wider health inequalities across the UK population. The concept started by bringing together the leading organisations in relevant fields and then partner with an agile commercial entity that could deliver a national strategy at pace. The team has current NHS staff and possesses considerable expertise across clinical, academic and commercial sectors.

2. **Collaboration & Partner Composition.** The details, lead and relevant knowledge, skills and experience of each entity are summarised below:

3. **Steering Group & Project Management**. The project will be assured, managed and delivered using a three-tier structure in collaboration with NHS E. Details as follows:

■ **Tier 1 – Strategic Performance & Clinical Safety Oversight Committee**. A combined oversight committee would be formed with NHS E, to ensure the project is being delivered successfully, within clinical and ethical guidelines. Details of our committee members are at Footnote¹.

■ **Tier 2 – Dedicated Project Management Team**. A dedicated operational and marketing team would be established to deliver against the project KPIs. This would consist of:

- **Senior Project Manager**. This will be fulfilled by a Director level role, with vast commercial, operational experience and is familiar with public sector contracts. They will work closely with the NHS E lead to deliver the national strategy and operational plan
- **Marketing & Retention Specialist**. A Head of Marketing with experience in delivering major engagement marketing campaigns and retention schemes on health and wellbeing. They will be employed to deliver the national and regional engagement and retention strategy.
- **Data Analyst & Finance Manager**. A lead analyst with broad experience across multiple sectors, will ensure accurate and timely data reports against project KPIs. They will also manage the cost centre closely with the project lead to ensure scope, timelines and budget are met.

■ **Tier 3 – Delivery Team**. This will comprise of a broad range of specialists from a diverse range of backgrounds. They will be led by a dedicated the Health & Welfare Manger who will co-ordinate closely with NHS E central team, staff and mangers to ensure the client journey and exercise experience is being delivered to a 'best in class' service. They will ensure systems and training resources are aligned, select the most relevant specialists & coaches and ensure sub-contractor offers are delivered.

4. **Collaboration with NHS E**. From the outset, this collaboration will work closely with NHS E to forge a transparent and effective relationship. To guarantee the project is delivered within scope and on target, a review process will be established to ensure the programme achieves its strategic objectives. This oversight committee, comprised of internal and external monitors, will sit monthly to audit, provide direction, and take remedial action if required. With a concentrated focus on performance, a robust review process and an agile organisation which is contractually held to account on the deliverables, the team is confident in its ability to deliver its agreed metrics. Should any target be missed, the intent will be to undertake remedial action at no additional cost and realign to a path that achieves success.

5. **Processes, Routine & Reporting**. BMF has developed flexible policies, operating instructions and procedures to enable effective delivery of large-scale projects for major organisations. These can be tailored to suit every organisational structure in terms of reporting, decision making and operations. Our recommendation would be to balance regular (monthly) face to face performance reviews, with a weekly operational routine. This will be enabled by live-data dash boards that align to project KPIs and allow complete transparency throughout the project's lifespan.

¹ Chris St George (Chair NMC); Fazeel Chharawala (DE&I advisor); Tim Surridge (Commercial advisor); Mr Shehan Hettiaratchy (Chair AF clinical Ref Gp); John Etherington (President FSEM); Andy Burman (BDA); Professor Matthew Fossey; Professor Alison McGregor (IC).

Technical Questionnaire – Lot 1 – Q5

1. **Introduction.** Our collaboration has considerable experience in delivering pilots and major programmes at pace and scale. BMF (commercial delivery entity) have the systems, knowledge and organisational agility to deliver operational success for NHS E. Its recommendation would be to adopt a phased roll-out. This would utilise multiple feedback sources (data & anecdotal) and employ an agile operating structure, with a robust decision-making process for change requests that would ensure success in the early critical stages. The design of this programme has been very iterative to date and the initial phase would see further co-design with partner Trusts. This would allow adjustments to ensure the programme was delivering the content and effect NHS staff want. In addition, the nature of the platform allows it to host any content. This would allow individual NHS staff/Trusts to design content that could be hosted, facilitating peer-led and peer-to-peer learning. Throughout this process we will have specific focus on groups who maybe underrepresented or tend not to engage with these types of initiatives. Further detail on how these principles would be implemented for NHS E programme are as follows:

2. **Project Execution.** For the initial 7-month period we recommend a 3-phase approach:

■ **Phase 1 – Test & Adjust (8 wks).** Recommend 3-4 regions (large city, outlying and devolved region) to co-design, test offer and adjust prior to main launch. This phase ensures that main launch starts well, with buy-in from early adopters.

■ **Phase 2 – Main Launch (12 wks).** Main launch aims to make a major engagement impact across entire NHS for online services.

■ **Phase 3 – F2F, Challenges & Adventure (8wks).** Momentum from the first two phases begins to culminate in a series of events, national challenges and adventurous training activities.

3. **Feedback and Reporting.** This aspect would be delivered by the project performance manager in collaboration with NHS E with complete transparency. It would use the following mechanisms:

■ **Marketing Data.** Using our agencies and organic systems we would capture open rate data and platform engagement. This data will be continually reviewed to tailor effectiveness of the marketing strategy and optimise conversion.

■ **Operational Data.** Live data dash-boards will be developed for operational KPIs. These would show data on overall engagement, type and frequency.

■ **Satisfaction Data.** Using a combination of CRM, social media and localised NHS surveys, we would gather anecdotal feedback to compare against data, test regional variance and customer satisfaction. Net promoter score would also be adopted as an indicator for customer satisfaction.

4. **Analysis & Tailoring.** All data sets would be collected, analysed and presented to the oversight committee for monthly performance review. Major changes to promotional material, structure and operations would require a decision at this level. This is process critical to avoid change fatigue and marketing an ambiguous offer. However, a level of regional tailoring is recommended within the project framework. This can be facilitated by a level of autonomy to make adjustments that would sit with the project manager, working in conjunction with NHS E and regional teams. The agility of our organisational structure and systems is there to facilitate this approach, and can also be used to pilot new capabilities across different regions at relatively short notice. This will ensure that the programme is tailored to the individual needs of the target communities, especially those who typically would not engage in these programmes.

Technical Questionnaire – Lot 2 – Q6

1. **Introduction.** The project team will work closely with NHS E to ensure mass engagement in this offer across all demographics and abilities within the NHS workforce. We will address objectives on wellbeing, by adopting similar working processes to that of wider successful commercial and public sector programmes that are already being delivered by this organisation. For a programme of this size and scale a balance of national and regional communications will be required to achieve success. The principles and process to achieve this are detailed below.

2. **Marketing & Engagement.** Our aim will be to raise awareness across the entire NHS workforce and achieve; **100,000 staff regularly engaging in activity over the 7-month period.** This will be achieved through combining the following communications process:

- **Single Engagement Strategy.** We will work closely with NHS E, regional teams and partner organisations to develop one robust and scalable engagement strategy, that optimises the existing marketing and communications strategy within the NHS. This will comprise of both national and localised campaigns that are relevant to seasonal themes, work routine and demographic

- **Multi-Platform & Multi Channel Approach.** Digital and physical communications to capture all demographics will be disseminated across multiple platforms; automated CRM, social media, employment dashboards text etc. Regional groups on Social platforms will be created to facilitate organic content creation

- **Organic Referral.** A highly credible organic influence campaign is required for success. This will require carefully selected national and local influencers to work with priority groups and their leaders. It will be built through regional empowerment and programme advocacy that delivers the organic referral required to achieve mass engagement and instigate change in non-active groups that previously have been difficult to access

- **Ambassadors Influence.** We will use both macro and micro levels within the national strategy to generate an effective influence campaign. As the programme ambassador, Bear Grylls will directly assist with promoting the programme at **no cost**. He also has access to a wide range of high-profile individuals from diverse backgrounds.

3. **Retention – Building Community.** The delivery team is expert at building inclusive and diverse communities. Engagement and retention of priority groups will be largely dependent on performance in this area. This will be achieved through implementing a model aligned to the following principles:

- **Content Upgrades.** We will remain agile to deliver both planned and reactive upgrades to the platform, content or profile of the physical component to ensure long-term engagement

- **Challenge & Competition.** Competition and undertaking challenge is an innate human need that if unlocked, even in low confidence individuals, can be hugely powerful. They will be a regular a core part of the programme

- **Achievement & Recognition.** Any success, relevant to individuals or groups, needs to be recognised; certificates, retail etc

- **Incentivisation & Rewards.** An incentivised model for better health will underpin the programme. A range of incentives and rewards schemes will be developed that are relevant to the localised workforce.

Technical Questionnaire – Lot 2 – Q7

1. **Introduction and method statement.** The aim of this programme is to generate behaviour change in NHS staff so that they adopt a more active, healthier lifestyle that leads to physical health and mental health benefits. The advocacy generated will promote these benefits through education, use of Public Health networks and partner initiatives to penetrate and assist local communities recover from COVID-19. The inclusion of the Imperial College led COVID-19 recovery app demonstrates the commitment within our programme to recovery and returning people to a healthier active lifestyle. The programme provides the knowledge and tools to enable the NHS to lead the recovery from COVID-19 and improve the nation's health across all communities.

2. **Method statement.** We will use NHS staff to deliver the healthier lifestyle message to the wider population and aim to sustain this programme in the long-term. We will commence this process through the delivering following initiatives over the initial 7-month roll-out:

- **Engagement and Retention Strategy.** We will utilise the lessons learned from the engagement and incentivised retention scheme to engage local communities in better health programmes. Specifically, how the programme is targeting hard to reach/under-represented groups.

- **Partnerships.** We will use the Public Health networks between the NHS and local councils to co-design similar models with employers, educational institutions and sporting clubs to achieve buy-in. Our recommendation would be to allocate and open up 10% of the staff challenges to the wider community as a tangible benefit of the programme to that community.

- **Demonstrate the benefits of better health.** We will produce reports that demonstrate the costs savings from enhancing health; the proposal does not require specialist equipment or gym membership which will make it accessible to all, irrespective of socio-economic class. We will do a cost analysis and use EuroQol EQ-5D on sample groups to show improvements in quality-of-life scores.

- **Data sharing on wellbeing.** We will disseminate information on the metrics gathered via our digital platform to show process and performance (i.e. sign up, compliance, progression); well-being effect gathered by Anglia Ruskin University; nutrition effect gathered by British Dietetic Association.

- **Data Sharing on physical activity.** We will provide redacted self-reported data, such as International Physical Activity Questionnaire (IPAQ).

- **Targeting health inequalities.** We will facilitate a continuous feedback loop from users/providers into the project board to aid improvement.

3. **Education, Employment and Re-training.** The programme already has many volunteers who have assisted in its co-design. This model will continue to grow through the education courses that can then expand to local community representatives. There are opportunities to qualify as instructors and mentors; getting people both active and employed.

4. **Summary.** Improved community health and COVID recovery requires this broad strategy. This programme aims to be the catalyst for broader health models that can penetrate every community across the UK.

1.6 Calculation of Transfer Amount

- 1.6.1 The Authority shall use reasonable endeavours to procure that twenty (20) Business Days after the Transfer Option Deadline, the Transfer Amount is calculated by the Third Party's Actuary or the Authority's Actuary (as appropriate) on the following basis and notified to the Supplier along with any appropriate underlying methodology.

- 1.6.2 If the Third Party offers a Broadly Comparable scheme to Eligible Employees:

- (i) the part of the Transfer Amount which relates to benefits accrued in that Broadly Comparable scheme other than those in Clause 1.6.2(ii) of Part D of this Schedule 7 below must be aligned to the funding requirements of that scheme; and
- (ii) the part of the Transfer Amount which relates to benefits accrued in the NHS Pension Scheme (having been previously bulk transferred into the Third Party's Broadly Comparable scheme), must be aligned to whichever of:
 - (A) the funding requirements of the Third Party's Broadly Comparable scheme; or
 - (B) the principles under which the Third Party's Broadly Comparable scheme received a bulk transfer payment from the NHS Pension Scheme (together with any shortfall payment), gives the higher figure, provided that where the principles require the assumptions to be determined as at a particular date, that date shall be the Employee Transfer Date.

- 1.6.3 In the case of Transferring Employees or any Third Party Employees who have access to the NHS Pension Scheme (and who are classed as Eligible Employees), the Transfer Amount shall be calculated by the NHS Pension Scheme's Actuary on the basis applicable for bulk transfer terms from the NHS Pension Scheme set by the Department of Health from time to time.

- 1.6.4 Each Party shall promptly provide to the Actuary calculating or verifying the Transfer Amount any documentation and information which that Actuary may reasonably require.

1.7 Payment of Transfer Amount

Subject to:

- 1.7.1 the period for acceptance of the Transfer Option having expired; and
- 1.7.2 the Supplier having provided the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) with completed and signed forms of consent in a form acceptable to the Third Party's pension scheme (or NHS Pensions) from each Eligible Employee in respect of the Transfer Option; and
- 1.7.3 the calculation of the Transfer Amount in accordance with Clause 1.6 of Part D of this Schedule 7; and
- 1.7.4 the trustees or managers of the Supplier's (or any Sub-contractor's) Broadly Comparable scheme (or NHS Pensions, as appropriate) having confirmed in writing to the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) that they are ready, willing and able to receive the Transfer Amount and the bank details of where the Transfer Amount should be sent, and not having revoked that confirmation,

the Authority will use reasonable endeavours to procure that the Third Party's pension scheme (or the NHS Pension Scheme, as appropriate) shall, on or before the Payment Date, transfer to the Supplier's Broadly Comparable scheme (or NHS Pension Scheme) the Transfer Amount in cash, together with any cash or other assets which are referable to additional voluntary contributions (if any) paid by the Eligible Employees which do not give rise to salary-related benefits.

1.8 Credit for Transfer Amount

- 1.8.1 Subject to prior receipt of the Transfer Amount, by the trustees or managers of the Supplier's Broadly Comparable scheme (or NHS Pensions, as appropriate), the Supplier must procure that year-for-year day-for-day service credits are granted in the Supplier's (Broadly Comparable scheme (or NHS Pension Scheme), or an actuarial equivalent agreed by the Authority's Actuary (and NHS Pension Scheme Actuary) in accordance with Fair Deal for Staff Pensions as a suitable reflection of the differences in benefit structure between the NHS Pension Scheme and the Supplier's pension scheme.
- 1.8.2 To the extent that the Transfer Amount is or shall be insufficient to provide benefits in the receiving scheme on the basis set out in Clause 1.8.1 above, the Supplier shall be liable to make a top-up payment into the receiving scheme such that benefits shall be provided by the receiving scheme on the basis set out in Clause 1.8.1. above.

1.9 Premature Retirement Rights

- 1.9.1 From the Employee Transfer Date until the day before the Subsequent Transfer Date, the Supplier must provide Premature Retirement Rights in

respect of the Eligible Employees that are identical to the benefits they would have received had they remained employees of an NHS Body or other employer which participates automatically in the NHS Pension Scheme.

1.10 Breach and Cancellation of any Direction Letter(s) and Right of Set-Off

- 1.10.1 The Supplier agrees that it shall notify the Authority if it breaches the terms of the Direction Letter. The Supplier also agrees that the Authority is entitled to make arrangements with NHS Pensions for the Authority to be notified if the Supplier breaches the terms of this Direction Letter.
- 1.10.2 If the Authority is entitled to terminate this Contract pursuant to Clause 15.5.5 of Schedule 2, the Authority may in its sole discretion instead of exercising its right under Clause 15.5.5 of Schedule 2 permit the Supplier to offer Broadly Comparable Pension Benefits, on such terms as decided by the Authority.
- 1.10.3 If the Authority is notified by NHS Pensions of any NHS Pension Scheme Arrears, the Authority shall be entitled to deduct all or part of those arrears from any amount due to be paid by the Authority to the Supplier having given the Supplier five (5) Business Days' notice of its intention to do so, and to pay any sum deducted to NHS Pensions in full or partial settlement of the NHS Pension Scheme Arrears. This set-off right is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.11 Compensation

- 1.11.1 If the Supplier is unable to provide the Eligible Employees with either:
 - (i) membership of the NHS Pension Scheme (having used its best endeavours to secure a Direction Letter); or
 - (ii) a Broadly Comparable scheme,

the Authority may in its sole discretion permit the Supplier to compensate the Eligible Employees in a manner that is Broadly Comparable or equivalent in cash terms, the Supplier having consulted with a view to reaching agreement any recognised trade union or, in the absence of such body, the Eligible Employees. The Supplier must meet the costs of the Authority in determining whether the level of compensation offered is reasonable in the circumstances.
- 1.11.2 This flexibility for the Authority to allow compensation in place of Pension Benefits is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.12 Supplier Indemnities Regarding Pension Benefits and Premature Retirement Rights

- 1.12.1 The Supplier must indemnify and keep indemnified the Authority and any Successor against all Losses arising out of any claim by any Eligible Employee that the provision of (or failure to provide) Pension Benefits and

Premature Retirement Rights from the Employee Transfer Date, or the level of such benefit provided, constitutes a breach of his or her employment rights.

1.12.2 The Supplier must indemnify and keep indemnified the Authority, NHS Pensions and any Successor against all Losses arising out of the Supplier (or its Sub-contractor) allowing anyone who is not an Eligible Employee to join or claim membership of the NHS Pension Scheme at any time during the Term.

1.12.3 The Supplier must indemnify the Authority, NHS Pensions and any Successor against all Losses arising out of its breach of this Part D of this Schedule 7 or the terms of the Direction Letter.

1.13 Sub-contractors

1.13.1 If the Supplier enters or has at the Commencement Date entered into a Sub-contract for delivery of all or part of the Services it shall impose obligations on its Sub-contractor in the same terms as those imposed on the Supplier in relation to Pension Benefits and Premature Retirement Benefits by this Part D of this Schedule 7, including requiring that:

- (i) if the Supplier has secured a Direction Letter, the Sub-contractor also secures a Direction Letter in respect of the Eligible Employees for their future service with the Sub-contractor as a condition of being awarded the Sub-contract; or
- (ii) if the Supplier has offered the Eligible Employees access to a pension scheme under which the benefits are Broadly Comparable to those provided under the NHS Pension Scheme, the Sub-contractor either secures a Direction Letter in respect of the Eligible Employees or provides Eligible Employees with access to a scheme with Pension Benefits which are Broadly Comparable to those provided under the NHS Pension Scheme and in either case the option for Eligible Employees to transfer their accrued rights in the Supplier's pension scheme into the Sub-contractor's Broadly Comparable scheme (or where a Direction Letter is secured by the Sub-contractor, the NHS Pension Scheme) on the basis set out in Clause 1.8 of Part D of this Schedule 7, except that the Supplier or the Sub-contractor as agreed between them, must make up any shortfall in the transfer amount received from the Supplier's pension scheme.

1.14 Direct Enforceability by the Eligible Employees

1.14.1 Notwithstanding Clause 30.8 of Schedule 2, the provisions of this Part D of this Schedule 7 may be directly enforced by an Eligible Employee against the Supplier and the Parties agree that the Contracts (Rights of Third Parties) Act 1999 shall apply to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to him or her by the Supplier under this Part D of this Schedule 7 in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.

- 1.14.2 Further, the Supplier must ensure that the Contracts (Rights of Third Parties) Act 1999 shall apply to any Sub-contract to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to them by the Sub-contractor in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.

1.15 Pensions on Transfer of Employment on Exit

- 1.15.1 In the event of any termination or expiry or partial termination or expiry of this Contract which results in a transfer of the Eligible Employees, the Supplier must (and if offering a Broadly Comparable scheme, must use all reasonable efforts to procure that the trustees or managers of that pension scheme must):
- (i) not adversely affect pension rights accrued by the Eligible Employees in the period ending on the Subsequent Transfer Date;
 - (ii) within thirty (30) Business Days of being requested to do so by the Authority or Successor, (or if the Successor is offering Eligible Employees access to the NHS Pension Scheme, by NHS Pensions), provide a transfer amount calculated in accordance with Clause 1.6 of this Part D of this Schedule 7; and
 - (iii) do all acts and things, and provide all information and access to the Eligible Employees, as may in the reasonable opinion of the Authority be necessary or desirable and to enable the Authority and/or the Successor to achieve the objectives of Fair Deal for Staff Pensions.

Schedule 8

Expert Determination

1 Dispute Process

- 1.1 During any Dispute, including a Dispute as to the validity of the Contract, it is agreed that the Supplier shall continue its performance of the provisions of the Contract (unless the Authority requests in writing that the Supplier does not do so).
- 1.2 In the case of a Dispute the Supplier and the Authority shall make every reasonable effort to communicate and cooperate with each other with a view to resolving the Dispute and shall follow the procedure set out in this Schedule 8.
- 1.3 In the event of a Dispute either Party may serve a Dispute Notice on the other Party to commence formal resolution of the Dispute. The Dispute Notice shall set out:
 - 1.3.1 the material particulars of the Dispute; and
 - 1.3.2 the reasons why the Party serving the Dispute Notice believes the Dispute has arisen.
- 1.4 Following the service of a Dispute Notice the Parties shall first seek to resolve the Dispute by convening a meeting between the Authority's Contract Manager and the Supplier's Contract Manager (together the "**Contract Managers**").
 - 1.4.1 The meeting of the Contract Managers must take place within five (5) Business Days of the date of the Dispute Notice (the "**Dispute Meeting**").
 - 1.4.2 The Contract Managers shall be given ten (10) Business Days following the date of the Dispute Meeting to resolve the Dispute.
 - 1.4.3 The Contract Managers can agree to further meetings at levels 2 and/or 3, as referred to at clause 5.1 of the Key Provisions in Schedule 1, in addition to the Dispute Meeting, but such meetings must be held within the ten (10) Business Day timetable set out in paragraph 1.4.2 of this Schedule 8.
 - 1.4.4 If at any point it becomes clear that the timetable set out cannot be met or has passed, the Parties may (but shall be under no obligation to) agree in writing to extend the timetable. Any agreed extension to the timetable shall have the effect of delaying the start of the subsequent stages by the period agreed in the extension.
- 1.5 If the procedure set out in paragraph 1.4 of this Schedule 8 has been exhausted and fails to resolve the Dispute either Party may request the Dispute be resolved by way of a binding expert determination (pursuant to paragraph 1.6 of this Schedule 8). For the avoidance of doubt, the Expert shall determine all matters (including, without limitation, matters of contractual construction and interpretation) in connection with any Dispute referred to binding expert determination pursuant to paragraph 1.6 of this Schedule 8.
- 1.6 Where the Dispute is referred to binding expert determination the following process will apply:

- 1.6.1 The Party wishing to refer the Dispute to expert determination shall give notice in writing to the other Party informing it of its wish to refer the Dispute to expert determination and giving brief details of its position in the Dispute.
- 1.6.2 The Parties shall attempt to agree upon a single expert (who must have no connection with the Dispute unless both Parties have consented in writing) (an “**Expert**”). For the avoidance of doubt, where the Dispute relates to contractual interpretation and construction, the Expert may be Queen’s Counsel. In the event that the Parties fail to agree upon an Expert within five (5) Business Days following the date of the notice referred to in paragraph 1.6.1 of this Schedule 8 (or if the person agreed upon is unable or unwilling to act), the Parties agree that the Expert will be nominated and confirmed to be appointed by the Centre for Effective Dispute Resolution.
- 1.6.3 The Expert must be willing and able to complete the expert determination process within thirty (30) Business Days of the Date of Final Representations (as defined in paragraph 1.6.5 of this Schedule 8).
- 1.6.4 The Expert shall act as an expert not as an arbitrator or legal advisor. There will be no formal hearing and the Expert shall regulate the procedure as he sees fit.
- 1.6.5 The Parties shall each have the right to make written representations to the Expert and will, with reasonable promptness, provide the Expert with such assistance and documents as the Expert reasonably requires for the purpose of reaching a decision. Such representations must be made within twenty eight (28) Business Days of the Expert being appointed, or fourteen (14) Business Days after the last documents requested by the Expert have been provided to the Expert, whichever is the later (“**Date of Final Representations**”). Any documents provided to the Expert and any correspondence to or from the Expert, including email exchanges, shall be copied to the other Party simultaneously.
- 1.6.6 The Expert shall have the power to open up, review and revise any certificate, opinion, requisition or notice and to determine all matters in Dispute (including his jurisdiction to determine matters that have been referred to him).
- 1.6.7 The Expert may take such advice and assistance from professional advisers or other third parties as he reasonably considers appropriate to enable him to reach a determination of the Dispute and may issue orders that one or both of the Parties are to pay such third party costs, stating the proportion. For the avoidance of doubt, where the Expert is not Queen’s Counsel, and the Expert requires advice or assistance on matters of contractual interpretation and construction, the expert may take such advice and assistance from a third party Queen’s Counsel of their choosing under this paragraph 1.6.7 of this Schedule 8. The Parties will pay any such third party costs incurred pursuant to this paragraph 1.6.7 of this Schedule 8 in such proportions as the Expert shall order. In the absence of such order such third party costs will be paid equally.
- 1.6.8 The Expert shall provide the Parties with a written determination of the Dispute (the “**Expert’s Decision**”) within thirty (30) Business Days of the

Date of Final Representations, which shall, in the absence of fraud or manifest error, be final and binding on the Parties.

- 1.6.9 The Expert's Decision shall include reasons.
- 1.6.10 The Parties agree to implement the Expert's Decision within five (5) Business Days of the Expert's Decision being provided to them or as otherwise specified as part of the Expert's Decision.
- 1.6.11 The Parties agree that the Expert shall be entitled to proceed to give his binding determination should one or both Parties fail to act in accordance with the procedural timetable set out above.
- 1.6.12 The Parties will pay the Expert's costs in such proportions as the Expert shall determine. In the absence of such determination such costs will be shared equally.
- 1.6.13 The Parties agree to keep confidential all information arising out of or in connection with the expert determination, including details of the underlying Dispute, except where disclosure is required by Law.
- 1.7 Nothing in this Contract shall prevent:
 - 1.7.1 the Authority taking action in any court in relation to any death or personal injury arising or allegedly arising in connection with the provision of the Services; or
 - 1.7.2 either Party seeking from any court any interim or provisional relief that may be necessary to protect the rights or property of that Party (including Intellectual Property Rights) or which relates to the safety of patients and other service users or the security of Confidential Information, pending the resolution of the relevant Dispute in accordance with the Dispute Resolution Procedure.
- 1.8 Subject to paragraph 1.7 of this Schedule 8 neither Party may commence legal proceedings in relation to a Dispute until the dispute resolution procedures set out in this Schedule 8 have been exhausted. For the avoidance of doubt, either Party may commence legal proceedings to enforce the Expert's Decision.
- 1.9 This Schedule 8 shall survive the expiry of or earlier termination of this Contract for any reason.
