Estates Construction Framework at De Montfort University, Leicester

Ahead of the planned procurement exercise to establish a multi lot framework to support Estates functions, De Montfort University & Leicester College intend to hold a supplier briefing & consultation event on 1st November 2018.

This event is held in conjunction with Leicester Business Festival for the provision of Building Maintenance, Minor Building Works (Works) and Construction related Consultant Services across its campus network in 2019.

This will be a 4 year framework agreement with an estimated value of GBP £5m to £10m per year or £25m to £35m over 4yrs. It is anticipated that Projects awarded via the Agreement will incorporate the following works & services as required:

- General Building Works
- Architects/Building Surveyors and Architectural
- Landscaping Consultants
- Civil & Structural Engineers Engineering
- Mechanical and Electrical Engineers
- Mechanical Engineering works
- Electrical Engineering works
- Design Consultants
- Quantity Surveyors
- Construction Project Managers
- Asset & Valuation consultants
- Hard and Soft Landscaping works
- Roofing
- Flooring
- Windows & Glazing Works
- Painting
- and any other related specialist works to be defined by Estates dept.

This list is not exhaustive but acts as an indication of the types of projects that may arise during the Agreement term. A Lot structure for the above categories will be defined in the OJEU contract notice & tender documents that will be published in December 2018.

To attend the free event on 1st November 2018, and for further information please register via the link below:
