GPA Darlington Temporary Facility Notes

Item	Description	Qts	Unit	Rate	£
	Stage 1 Pre Construction Fee for PCSA				
A	The Tenderer is to include a fixed price lump sum for carrying out the pre-construction services described in the scope of services included in the PCSA. The Contractor is also to state the length of the pre-construction period his costs assume. The total sum for his involvement will be adjusted if the actual period of weeks is different from that stated. This applies ONLY to time related charges that are properly chargeable. Services equivalent to set up and take down should be separately identified. Note, As stated in Attachment 3, Section 2.6, the Provisional CONTRACTUAL end date for the PCSA is 1/2/22, this date allows for means of instruction of advance material orders ahead of full contract award at Stage 2. No Costs should be included for the interim period between completion of the PCSA Scope of services and the Contractual end date. Where Costs are due for services in this interim period these will be agreed and instructed on a separate basis.		Item		
В	This figure should be fully inclusive of all of the costs of employing staff engaged on the project, including payroll costs, travel, subsistence, secretarial/ clerical support etc. and any organisation type costs. Head office overheads and profit should be stated separately. The Contractor shall provide evidence of such costs if requested by the Employer or Employers Agent.		Item		
	Pre Construction Design Fees				
С	The Contractor is to include within his pre - construction fixed price lump sum fee for the provision of the design team services through to completion of design to RIBA Stage 4.		Item		
	These design fees, are to include fees for the provision of surveys, planning, breeam, design of temporary works and any other associated services deemed required, and shall be fully inclusive of all of the costs of employing the design team to secure sufficient design to commence the construction phase and to complete his obligations under the PCSA agreement.				
	Site Investigations and Validations				
D	The Contractor is to identify any site investigation or validation works he believes are required to be undertaken during the life of the project and include the fees to be included upon agreement of the First Stage outputs.		Item		
	Planning & Road Closures				
E	The Contractor is to identify any planning or road closures works he believes are required to be undertaken during the life of the project and include the fees to be included upon agreement of the First Stage outputs.		Item		
	BREEAM & Sustainability				
F	The Contractor is to identify any site BREEAM and Sustainability requirement works he believes are required to be undertaken during the life of the project and include the fees to be included upon agreement of the First Stage outputs.		Item		

	I	1 1	1
	Construction Package Costs		
G	Identified subcontract packages within the Expression of Interest and this Document (Partitions, System Partitions, Floor Finishes, Ceilings, Internal Doors) are used to determine the total price for each Contractor for the purposes of the Stage 1 tender evaluation. Costs for these packages are to be provided on a fixed price lump sum basis. Rates, Quantities & Total Costs are deemed fixed and are to be awarded as part of the Stage 2 Tender. Only in the event of Client led Design Changes effecting quantities shall the total costs be revisited. Tenderers are to include for all associated costs to work packages based on the information provided. Tenderers are to ascertain the required quantities for the work packages from the design information provided.	Item	
Н	Identified Packages for Raised Access Floor, Wall Finishes and Lighting Fixtures are used to determine the total price for each Contractor for the purposes of the Stage 1 tender evaluation. Costs for these packages are to be provided on a fixed rate basis, with quantities remeasurable as part of Stage 2. The successful Tenderer will provide fixed price lump sum costs for the packages for Stage 2 award. Quantities for each element are provided as part of this document for the purposes of Stage 1 submissions.	Item	
	The Contractor will be required to provide the actual sub – contractor costs for the whole project on an open book basis via competition during the second stage tender process. Within the pricing schedule we have also asked the contractor to price a number of fixed lump sum packages as part of their Stage 1 Tender return. The pricing schedule is there as a guide along with the quantities. It is the contractors responsibility and risk to ensure they have allowed all costs to complete the works on site. The Stage 3 design Intent is to be progressed to completed costs.		
	The Contractor will be required to provide the actual sub – contractor costs for the whole project on an open book basis via competition during the second stage tender process with the only exceptions being packages listed as Fixed Price Lump Sum in Section G of this document.		
I	Whilst a section of this document is devoted to Preliminaries and must be completed, it is not exhaustive and the Main Contractor must return a fully priced detailed copy of his Preliminaries with his "tender."	Item	
J	Where quantities have been included within this Pricing Document "the quantities are in no way deemed to be complete or definitive."	Item	
K	Where blank quantities have been left, the quantities of materials required for the works are to be ascertained by the Tenderer and inserted against the relevant items within this Schedule. Prior to the final agreement, of Contract conditions, all quantities contained herein will be omitted in favour of a fully fixed LUMP SUM contract.	Item	
L	The quantities of materials required for the works are to be ascertained from the tender drawings and specifications. The descriptions are not intended to describe all works necessary to complete the item nor are they exhaustive; the Trade Contractor shall ascertain the full scope of the works from the Drawings and Specification(s) and his/her tender is deemed to include for all such works as are necessary for the complete and proper execution of the works. The Trade Contractor shall add any item to this Schedule that he considers is not adequately covered.	Item	

М	Preliminaries and General Conditions are to be priced out separately and	Item	1	1
171	brought forward to the General Summary. The Contractor must provide a fully priced copy of their Preliminaries with their tender.			
N	Item totals and rates in the Pricing Schedule shall apply to authorised variations to the scope of work in accordance with the Conditions of Contract. These totals and rates shall not be adjusted for any change in material prices, wage rates, taxation or "other inflation during the course of the development."	Item		
0	Item totals and rates are 'fully inclusive' and must include for, but without "limitation", labour, materials, all preliminaries, supervision, plant, transport, tools, equipment, insurances, National Insurance contributions, pensions, including death benefit scheme, manual and public holidays, travelling time, expenses, fares and transport, non-productive time and other expenses in connection with overtime, incentive and bonus payment, guaranteed minimum bonus payment, industrial training levees, redundancy payments, sick scheme payments, taxes, any other disbursements arising from the employment of labour including non-local labour if necessary, co-ordination, engineering, overhead and profit, and everything not specifically listed here that is deemed necessary to carry out and complete the works.	Item		
Р	It should be noted that this Pricing Schedule will be incorporated into the Contract for use purely as a Schedule of Item Totals. Any items contained therein are purely indicative of the Main Contractors lump sum price build-up and shall not be subject to adjustment. Any areas of work missing from the Pricing Schedule but clearly indicated in the tender documents will be deemed to be included in the Main Contractors lump sum price.	Item		
Q	When considering and preparing the tender, the Main Contractor should use the largest scale drawings available.	Item		
R	Where the fixing of materials or goods supplied to the Main Contractor free-of- charge is indicated, the Main Contractor shall allow against such items for	Item		
S	Any required design development which is indicated in the tender documents will be the responsibility of the Main Contractor and be in accordance with the outline programme included in the tender documents. The Main Contractor is deemed to have included within his tender for all cost in complying, but without limitation, to the following: detailed drawings, detailed programme and calculations for the design of the works contained in the Specification(s) (included in the General Conditions) taking cogniscence of the Drawings as described in the tender documentation covering all stages of design, manufacture, fabrication and installation to the satisfaction of the Contract Administrator.	Item		
Т	The Main Contractor is to allow for any costs in complying with all clauses contained within the Specification(s) as no claim for lack of knowledge or understanding will be accepted.	Item		
U	The Main Contractor will be deemed to have visited the site, to have taken into account all local and existing conditions and to have made himself thoroughly acquainted with the position and accessibility of the works and the conditions under which they will have to be carried out.	Item		
٧	The Main Contractor is to allow for all costs in complying with the Contract Administrators method statements and specific method requirements.	Item		
W	The Main Contractor is to make due allowance in his tender submission for all necessary support and temporary works requirements, including design thereof.	Item		

X	The tender sum is to be submitted in pounds sterling. No future adjustments will be made for currency fluctuations which remain at the Main Contractor's risk.	Item	
Y	A full breakdown of all the required insurances is to be provided with the Tender.	Item	
Z	It is anticipated works will be carried out in 'normal hours' and unit rates are to be priced on this basis. If certain activities are required to be completed 'out of hours' an extra over allowance should be shown for this.	Item	
AA	It should be noted that this Pricing Document will be incorporated into the Contract to form the Contract Sum Analysis. Any items contained herein are purely indicative of the Contractor's lump sum price build-up and shall not be subject to any adjustment other than in accordance with the proposed Conditions of Contract. Any items of work missing from the schedule but clearly indicated in the Tender Documents will be deemed included in the Contractor's lump sum price.	ltem	
AB	The Contractor will be deemed to have visited the site to have taken into account all local and existing conditions and to have made themselves thoroughly acquainted with the location and accessibility of the Works and the conditions under which they will have to be carried out.	ltem	
AC	The Contractor is to make due allowance in their Tender submission for all necessary protection of surrounding areas and other items of such nature associated with working on and around the site.	Item	
AD	The rates and totals are to be net i.e. with all trade and cash discounts deducted and are to be exclusive of VAT at the applicable rate, which will be charged pursuant to the relevant Finance Act.	Item	
AE	The Contractor shall submit a forecast project cash flow with their Tender in accordance with their proposed programme.	Item	
AF	Any item not priced shall be deemed to have been included.	Item	
AG	Where the division between items is not clear the Contractor shall identify how he has priced each item in the Pricing Schedule / Schedule of Rates.		
AH	The amounts entered by the Contractor into the Pricing Schedule / Schedule of Rates shall be complete and the total shall be carried to the Form of Tender to give the fixed price lump sum offer.		
Al	References to drawing numbers within the description of items in this Pricing Schedule / Schedule of Rates are for information only and account shall be taken for all work on all drawings and specifications.		
AJ	The Contractor shall be deemed to have made due allowance in his price for all implications of the construction sequence as detailed within the Contract Documents.		
AK	The Contractor shall allow for all costs in connection with his obligations and responsibilities described and as shown in the Scope of Works, Drawings and Specifications.		
AL	The Contractor's attention is drawn to the responsibilities he undertakes for design and the production and issue of drawings and other information required by the Contract Conditions		
AM	The Contractor shall include in his rates for meeting the design and performance requirements described on the Tender Drawings and Specifications.		

AN	The Contractor shall undertake to remedy, at his own expense, any failure to achieve design and operating requirements of the Tender Drawings and Specifications and subsequent authorised variations, including all associated costs			
AO	The Contractor is required to obtain all the necessary licences for road closures, pavement closures, hoarding or lighting and all costs shall be bourne by the Contractor.			
AP	The Contractor should undertake any further investigations he considers necessary to comply with the works. All costs associated with this clause is to be bourne by the Contractor.			
AQ	The total price is to be based upon the Specifications and Drawings as issued within this tender document which take precedent over this pricing schedule. The tender sum analysis / pricing schedule is a vehicle in which to arrive at a total sum for carrying out the proposed works and to assist with interim valuations. It is the tenderers responsibility to include any items that may have been left off of the tender sum analysis / pricing schedule			
AR	Contractors Discount is to be passed on to the Client at all times with no exception.			
AS	Preliminaries are deemed to include items that will be shared by two or more trades / packages. No additional costs will be allowed within the provisional sum expenditure for additional preliminaries.			
	Carried To Main Summary			£0

GPA Darlington Temporary Facility Construction Preliminaries

The contractor shall identify below the cost content of his contract preliminaries.

The elements indicated are for guidance only and may be added to, deleted or amended in any way so as to reflect the full identity of all preliminaries. Where \pounds 0 is stared as part of the Tender return any associated items will be deemed included for the
