Stotfold Cemetery

Leaving wild flowers

The contract requires grass areas within the cemetery to be cut 16 times per year, however existing areas of primroses and bluebells, currently in the Old Section of the cemetery, are to be left to grow and flower, and then cut after they have died off. Shown in photos below.

Creating a 'wildflower' area

A 'wildflower' area is to created to the right of the Walled Garden of Rest, with mown paths leading to memorial benches.

This is to be a meadow/wildflower mix, planted in a determined area, with cut grass around the edges to stop spread.

The Town Council will be purchasing and installing memorial benches to be sited within the 'wildflower' area, along the mown paths.

The purpose of the wildflower area is to increase biodiversity in what is a formal setting, with little to attract pollinators. It will also provide a quiet place for contemplation.
