

## TENDER BULLETIN NR 4

THE FOLLOWING ALTERATIONS AND AMENDMENTS ARE TO BE MADE TO THE WORK SCHEDULES DOCUMENT ISSUED BY MDA CONSULTING LTD DATED APRIL 2024.

## **GENERALLY**

• Please find attached a copy of the Contractor Question and Answer Sheet dated 24 May 2024.

Kindly acknowledge receipt of this Tender Bulletin Nr 4 with your tender return and confirm that the necessary amendments have been made and will be incorporated into your tender documents.

MDA Ref	Query	Responses as of 24th May 2024
RESPONSE IS	SUED TO CONTRACTORS PREVIOUSLY	
1	Can you advise when the details for the interior finishings packages are being released?	Interior finishes will not be released until after contract award, please allow the provisional sums as included in the Work Schedules.
2	The following documents are noted on the tender drawing registers but are not in the tender document folders •Electrical Specification •Mechanical Specification •DICE drawings WAK-DCE-XX-XX-DR-C-5000, WAK-DCE-XX-XX-DR-C- 5001, WAK-DCE-XX-XX-DR-C-5002, WAK-DCE-XX-XX-DR-C-9000	The Dice drawings listed have not been issued for tender, but I have asked the question about whether these should be issued Drawings 5000, 5001, 5002 and 9000 are strategy and planning drawings and are not relevant to the tender. Therefore, these should be omitted from the tender drawings lists. The M&E Specs can be found in the Work Schedules document.
3	We wondered if you could plot the locations of the Boreholes and Trial Pits onto either Moss drawing 03/GP2/D or Survey drawing 46833_CCTV Rev 0 . The reason being that the locations have been overlaid onto a photo of the site and the BH and TP's don't have a 'Ground Level' on the page, so we can't accurately work out the level at which the rock occurs (Mudstone).	Ground investigation coordinates have been provided on a markup sketch attached. Coordinates are expected to be accurate to within 5m.
4	We have a first floor plan drawing but specific first floor steelwork layout drawing. Does this drawing exist?	See Dice drawing WAK-DCE-00-01-DR-S-1010 for first floor steelwork
5	There appear to be are no steelwork elevation drawings for Gridlines A & J. Please can you issue asap.	See Dice drawing WAK-DCE-00-ZZ-DR-S-2100 for steelwork elevations
6	Can we get a copy of a site plan in DWG format.	Issued on Contracts Finder Tender Bulletin Nr 2
7	Can we get a copy of the steelwork drawings in IFC and or REVIT format	Issued on Contracts Finder Tender Bulletin Nr 2
8	We have asked by a proposed pump chamber contractor for the existing rising main length and the outfall invert level as the drainage layout does not show the full rising main run.	Unfortunately we do not have an answer as the rising main and outfall was not fully picked up on the surveys. Further surveys will need to be undertaken by the contractor to confirm length of rising main and outfall levels.
9		To follow
10	Confirmation of all Dextra lighting to be free issue	No contract is for the supply and installation.
11	Is all secondary containment required to be galvanised conduit, or is PVC alternative sufficient?	No galvanised as per specification
12	Is the PV installation to be linked with existing set-up, orwill they be segregated systems?	PV is dedicated to this building
13	Distribution manufacturer to be Schneider? No Specification documents with relevance to the M&E installation have been provided.	Schneider as per specification
14	Any exteral lighting works to be completed? I.e bollard lighting, external fascia illumination etc	External lighting as per drawingss
15	Any M&E specification for the project we are to tender towards?	Yes should already have them
16 17	Will there be any lighting control requirements i.e DaLi control Workshop power installation to be on drop-down isolators? Or is	As per specification
18	there a further design intent for this area. Extent of EV charging installation, are we to provide a full EV	As per drawings
19	installation or just provide the distribution board for the works? Length of contracted works; specification document denotes 32- weeks, are for us to provide indicative programme to include with your submission?	As per drawigs and specification The Constuction period is 47 Weeks, Start on site 22nd July 2024 with completion 13th June 2025
20	Possibility of .DWG format drawing files for the project?	These may be made available post contract to the successful contractor. The will not be released for tender.
21	Do you require us to provide for temporary site 110v electrics?	You will be required to provide all temporary site services as required to complete the works.
22	Confirmation of secondary containment material type, specification asks for metal galvanised conduit, however mentioned PVCu containment can be installed	As per specification
23	Confirmation of how many sockets within workshop area require the no-load shut off device, as each shut off device is limited to 16a.	All sockets

	·	
25	We note that section 3 work schedules includes provisional sums for internal walls / partitions, Internal doors, Wall finishes, Floor Finishes, Ceiling Finishes, Fixtures and Fittings and sanitary appliances. There is also a further item in each of these sections stating 'All other works in this element apparent from the specifications, drawings and site visits but not specifically referred to above' Are we correct in assuming that all works within these sections is covered by the provisional sum provided. Please confirm.	Correct, works in these sections are covered by the Provisional Sums
26	We note that there appears to be a layering error on architectural drawing 2022/03/GP2 D as it shows part of an elevation to the west of the building site plan. Can this be checked.	We will review, revised drawing issued under tender bulletin Nr 1
27	Please can you issue the section 3 work schedules in excel format.	Unfortunatly not
28	The 300 word count limit identified at the top of Part 3 Award Questionnaire seems very tight to respond to questions 7.1 to 7.6. Does this apply to these questions or just the general SQ section and if not what are the limits for questions 7.1 to 7.6.	Yes applies to all questions
29	Question 7.6 asks for specific FE experience. Whilst we do have FE experience we also have a wealth of experience of working on secondary academies and HE establishments working within complex live environments will this evidence be acceptable too without losing any marks.	Yes this will be considered equally
30	We are missing the following DICE Structural drawings referred to in DICE's drawing issue sheet:- a) WAK-DCE-XX-XX-DR-C-5000 Rev P03 b) WAK-DCE-XX-XX-DR-C-5001 Rev P02 c) WAK-DCE-XX-XX-DR-C-5002 Rev P02 d) WAK-DCE-XX-XX-DR-C-9000 Rev P02	These drawings have not and will not be issued for tender
31	DICE drawing issue sheet refers to drawing nr WAK-DCE-XX-XX-DR-C- 8010 Manhole Schedule Rev P03. We've only got Rev P02?	
32	The drawings listed in TQ6 are included in the drawing register we received - is there an updated drawing register if these do not form part of the tender?	Issued to remove drawings listed in 30
33	Re HV Diversion works - We note that the order for the HV diversion works has placed with NPG and paid , with the works then falling under the scope of the appointed contractor. The NPG quotation within the work schedule notes an approximate lead time of 16weeks from the payment and completion of any legals – our query is in relation to the timescales involved. Is there a date when the 16week period commenced as programme wise , at present , the NPG works potentially cannot commence until mid August which is beyond the 22nd July proposed commencement on site date. Could some further information on timelines be provided ?	The order was raised by the College in February 2024
34	Internal Lighting - The performance specification notes the use of Dextra lighting – could an equivalent/approved manufacturer be offered ?	Alternaitves will be considered, however these should be supplied as an option to the complient tender. Please note with your return for consideration.
35	Extension of time - due to the bank holidays and holiday season commencing can we request an extension of time of one week, submission date 14th June? This will help ensure we have reliable returns from supply chain and can submit a complete tender.	As tender bulletin Nr 3 the tender return date has been extended by one week to 14th June 2024. Hard copies are to be returned in accordance with the orginal tender instructions.
36	Can you please issue the Soft landscape specification, we have noted drawing 2022/03/GP3 RevE in the ITT information, however there are no planting details included on this drawing	Please exclude planting at this stage
37		To follow
38	The Following drawings are noted in the tender register but are missing please could you issue: 2022/03/CD25 and 2022/03/CD16	CD 25 Attached CD16 issued with tender
39	Please provide a detail of the sub-frame system / backing panels fixed to UC to facing brickwork and rainscreen cladding to isolated columns grid line 1	Refer to CD25 for details – This is currently a draft version for your reference.
40	Is the inner wall lining Type W1 to the rear of standing seam cladding in the workshop area applied to both the machine and plant rooms above the ceiling?	Yes

[	Spec K10/19 details laminate window boards. Please confirm if these	
	are required? and also note that Spec section P20 refers "To be	
41	issued under the Interiors Package" which has not been included in	
	issued tender documents. Please issue.	The Interiors package will follow at a later date.
	Drawings DS10 & DS13 indicate Wall Type 2. above Wall Type 1	That is correct, Wall Type 2 refers to the curtain wall which sits between the
42	please confirm if this is correct ?	cladding wall (Wall Type 1)
