## Annex D3:

### Local Government Pension Schemes (LGPS)

**[Guidance: You should take specific legal advice on this Annex D3 and in particular the risk apportionment provisions contained herein.]**

**Please note that this Part D is drafted to reflect the requirements of New Fair Deal. Accordingly, where a contracting authority is a local authority (or other type of best value authority) then it will be subject to the requirements of the Best Value Authorities Staff Transfers (Pensions) Direction 2007 (or the Welsh Authorities Staff Transfers (Pensions) Direction 2012 if appropriate) and should take further specific legal advice to ensure compliance with those Directions.**

Note the LGPS unlike the CSPA & NHSPA is a funded scheme which has associated cost implications as follows:

There is not 1 LGPS but approx. 90 different Funds, each with their own separate Scheme Employer and Administering Buyer, it is important to identify the correct one(s) and amend the definition of "Fund" accordingly.

It is important to check whether CCS and or the Buyer can actually participate in the LGPS. Where a government department is taking on services which were formerly the responsibility of a Local Authority it may be necessary to obtain secretary of state approval for participation in the LGPS, this is because the services are being provided to Gov. Dept. and not to a Local Authority.

Unlike New Fair Deal the 2007 Best Value pension direction does not provide a right to bulk transfer past service. Whilst typically before the 2007 direction LA did provide such a right, it is a significant additional cost and therefore bulk transfer wording has been excluded. If required take legal advice due to the exceptionally high costs which can result from a requirement to provide bulk transfers.]

## **Business Continuity & Disaster Recovery - Europe**

Enterprise Holdings employs full-time business continuity resources to support its business continuity & disaster recovery activities in the United States and Europe. They are responsible for the overarching business continuity services Enterprise Holdings engages in.

In the interest to protect Enterprise Holdings, and our clients, we view our business continuity and disaster preparedness plans as highly confidential information. We would be willing to share these plans with your procurement buyers and consultants further in the bid process.

### **Business Continuity Plans**

Our Business Continuity Services department is responsible for measuring and auditing Enterprise and National's resiliency and consulting with departments to ensure we maintain the appropriate level of resiliency. Business managers are responsible for the education and implementation of the plan within their operating group or department. Its scope includes the ability to operate outside of their current facility within a 4 to 8-hour time frame after a disaster invocation, and for the duration of any disruption. Enterprise Holdings has moved to a work from anywhere business model enabling its employees to work remotely in the event of a major incident at its headquarters.

The Business Continuity business model has been well proven during the 2020/21 pandemic.

Significant changes in business process requirements prompt us to update our recovery plan, as do changes in our supporting information technology. We also update our plan based on how much time has elapsed since our previous update — at least annually — as well as lessons we learn from validation exercises.

## **Employee Emergency Notification System (ENS)**

The Emergency Notification System (ENS) tool allows us to get critical information to employees — by phone, text message, or email — during a wide variety of emergencies. In the event of an emergency,

**Call-Off Schedule 8 (Business Continuity and Disaster Recovery)**

Crown Copyright 2017

automated notifications can be activated through the ENS to provide employees with information about the incident as well as any specific instructions. Examples of these emergencies include natural disasters, environmental hazards, security breaches, and other instances that could put employees' personal safety at risk. The system is invaluable in keeping our employees safe and informed in the event of major disruptions to business operations.

## **Disaster Recovery Plans**

Disaster Recovery Plans for critical technologies are maintained and tested annually in North American and European geographically dispersed data centres and with a global recognized third-party provider.

Resiliency measures in place for our data centres include onsite power generation, UPS systems, gas suppression systems, redundant connections, diverse carriers and support contracts. Systems are monitored 24 hours a day, 7 days a week.

## **Recovery point objective(s)**

We base critical recovery processes on the recovery tier level that the business process falls under: 0-72 hours, 3-5 days, 6-30 days and 30+ days. Data Centre recovery exercise results are confidential but may be viewed in person at Enterprise Rent-A-Car's location.

## **Data centre security and certification**

Our data centres maintain compliance to the Payment Card Industry Data Security Standards (PCI DSS). As a level 1 merchant our controls are annually tested by an independent Qualified Security Assessor (QSA). Multiple levels of security are employed across all data centres, including restricted employee badge access, on-site security personnel, and electronic surveillance.

## **Branch Locations**

Should an event disrupt operations at a rental location, such service interruptions are minimised using mobile technology that provides the capability to easily manage customer transactions at any branch location. Using LaunchPad, our mobile tablet solution that gives the rental operative access to the branch rental system, the rental branch service delivery can continue even if the physical location is not in operation.

Phones from a branch can be forwarded to either an alternative branch or to our contact centres. If all phone communication is cut from the branch to the rest of the company, an email message can be sent to the Contact Centre to advise. All staff at the Contact centre will be notified of the name and address of the branch closure and staff will open the branches internal system and attempt to answer any customer queries.

## **Car Club / CarShare**

The Car Club/CarShare technical team applies industry best practices to ensure the availability of our supported technologies and hardware. Redundancies are implemented as needed to support continuous service and access to data. If outages arise, a dedicated technical team is available 24 hours a day every day to get the application back online. Car Club/CarShare is supported by resilient technology and data protection that limits unplanned interruptions, we aim for 100% system availability, our goal to resolve any unplanned interruptions as soon as possible, to a target of 2-4 hours maximum.

Our vehicles are accessed through a Mobile App (iOS & Android), should there be any issues at the vehicle or with the Mobile App we have a dedicated clubhouse available 24 hours a day every day who can remotely connect to the vehicle to assist. If a vehicle cannot be accessed our clubhouse team will help the customer transition to another vehicle within the Car Club/CarShare fleet, or transfer to a daily rental vehicle, or advise of an alternative transport method where possible.

Through 2023/24 we are upgrading our hardware within the vehicle to support Bluetooth for access, enabling 4G connectivity, and allowing for a roaming network connection which will always connect to the strongest network provider, further reducing the risk of service interruption.

21.6 The Supplier must update the motor insurance database (MID) or provide the appropriate data for the Buyer to manage this themselves in respect of the Vehicles at all times in order to meet the requirements of the EU Motor Insurance Directive.

### **23 Termination of A Hire**

23.1 Without affecting any other right or remedy available to them, the Supplier can terminate the Hire of the Vehicle by giving written notice to the Buyer if:

23.1.1 the Buyer fails to pay an undisputed invoiced sum due under a Hire within 30 days of the date of the Reminder Notice;

23.1.2 there is a default of any terms in 18.1 of this Call-Off Schedule 22 - Vehicle Hire Terms by the Buyer which is irremediable or (if such breach is remediable) fails to remedy that breach within a period of 30 working days after being notified in writing to do so.

23.2 The Buyer may terminate a Hire without any Charge if the Vehicle is within its Hire Period or the Buyer complies with the cancellation terms where the Hire Period has not commenced, excluding the costs for conversions or modifications carried out on the Vehicle specifically at the Buyers request.

23.3 In the case of Vehicle Hire under Lots 3 and 4 the Supplier acknowledges and agrees that the Buyer may terminate the Hire by giving one working days' notice. Under all other Lots Hire can be terminated by the Buyer without notice.

24.2 When a Hire is terminated and the Hire Period is thereby reduced from the period originally agreed, the Supplier may charge the Buyer at the rate applicable to the actual Hire Period in the Call-Off Schedule 5 - Pricing Details for any outstanding payments and may seek retrospective payment for the difference between the rate previously paid and the correct rate for all days from the commencement of the Hire Period.

- (h) it will comply with each Call-Off Contract.

### 8.2 The warranties and representations in Clauses 2.10 and 8.1 are repeated each time the Supplier provides Deliverables under the Contract.

### 8.3 The Supplier indemnifies both CCS and every Buyer against each of the following:

- (a) wilful misconduct of the Supplier, Subcontractor and Supplier Staff that impacts the Contract; and
- (b) non-payment by the Supplier of any Tax or National Insurance.

### 8.4 All claims indemnified under this Contract must use Clause 26.

- 9.6 If an IPR Claim is made or anticipated the Supplier must at its own expense and the Buyer's sole option, either:

  - (b) replace or modify the relevant item with substitutes that do not infringe IPR without adversely affecting the functionality or performance of the Deliverables.
- 9.7 In spite of any other provisions of a Contract and for the avoidance of doubt, award of a Contract by the Buyer and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Supplier acknowledges that any authorisation by the Buyer under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific IPR involved.
