

## **STSC-SS-0030 – Ground Investigation Contract 3**

### **Tender Summary**

South Tees Site Company Limited is seeking quotations from contractors to assess the current ground conditions in parts of the land holding.

The contract is to be based on Infrastructure Conditions of Contract Ground Investigation Version, as published by the Association for Consultancy and Engineering in August 2011 (with subsequent ICC amendments) Full details will be included in the final tender document.

### **Contract No. 3**

Land area reference: SSI3 and Torpedo Ladle Workshop (TLW) Area  
Approximate land area: 50 hectares  
Budget estimate: £160k

This ground investigation will comprise approximately 6 No. boreholes and 120 No. trial pit excavations. Boreholes will be drilled to depths of 15m to 20m. Certain boreholes will be extended to recover 5m rock cores, and some will have monitoring instrumentation installed. Trial holes will extend to depths no greater than 4m to 5m. The works will include sampling and laboratory analysis of soils and groundwater. Testing will address geotechnical properties and soil and groundwater contamination. When operational, the SSI3 land area was utilised for steel making, and the related buildings and plant are still in place and occupy a large part of the area. The TLW site is partially occupied by steel shed buildings. The ground investigation site works on the SSI3 and TLW areas will target the open land around and external to the existing facilities. The site operates under strict health and safety protocols and procedures.

### **Documents and Instructions**

Non-Disclosure Agreement – To be returned completed with your expression of interest no later than Wednesday 26 July, 4pm to [procurement@stscld.co.uk](mailto:procurement@stscld.co.uk).

Tender Timeline to be confirmed and will be issued 31 July 2017.

Full detailed tender document will be issued 31 July 2017.
