SECTION VI COMPLEMENTARY INFORMATION

ADDITIONAL INFORMATION:

NHS Supply Chain anticipates appointing 40 suppliers to the Framework Agreement. The number of suppliers as set out in this Contract Notice is an estimate only, and that the number of suppliers appointed to each Lot is not capped. The number appointed to each Lot is subject to the satisfaction of the exclusion and minimum requirements criteria specified and the achievement of a minimum hurdle score. Tenderers should refer to section 9 of the Invitation to Tender for details of the scoring process to be used to assess the suppliers to be appointed to the Framework Agreement. NHSSC reserves the right to appoint more suppliers to the Framework Agreement in the event that more than 40 reach the minimum score for appointment which is set out in the ITT. The estimated value of the purchases throughout the term (including the extension option described at section II.2.2) of the framework agreement is 75 105 000 GBP. The actual value of the framework agreement may be less than, or exceed, the estimated value dependent upon the requirements of those bodies eligible to purchase from the framework throughout the duration. The term of contracts formed under the Framework Agreement may continue beyond the end of the term of the Framework Agreement itself. NHSSC expects to provide successful suppliers with the opportunity to offer additional savings to customers through the provision of discounted pricing, value added offerings and commitment/bulk buy initiatives. NHSSC will share savings information in order to assist its customers with making informed procurement decisions.

The Framework Agreement will be between NHSSC and the Supplier. Under the Framework Agreement there will be two different methods of supply - one for Non-Direct Contract Products and one for Direct Contract Products. All products are currently supplied as Direct Contract Products, however NHSSC reserves the right to review the methods of supply from time to time. For any products supplied as Non-Direct Contract Products, NHSSC will be entitled to purchase the supplies and/or services which it will then make available for purchase by 1) any NHS Trust; 2) any other NHS entity; 3) any government department, agency or other statutory body and/or 4) any private sector entity active in the UK healthcare sector.

For any Direct Contract Products (currently all products covered by this Invitation to Tender); 1) NHS Supply Chain; 2) any NHS Trust; 3) any other NHS entity; 4) any government department, agency or other statutory body and/or 5) any private sector entity active in the UK healthcare sector will be able to enter into a direct contract with the Supplier for any of the supplies and/or services under the Framework. The Supplier will be required to report to and pay a direct contract management fee to NHSSC as detailed in the tender documents. It is a requirement that successfully awarded applicants provide full support, staff training and education including all training materials, at the applicant's own cost. Electronic ordering will be used and electronic invoicing

Draft : Validation Test

will be accepted and electronic payment will be used. Tenders and all supporting documentation for the contract must be priced in sterling and written in English. Any agreement entered into will be considered a contract made in England according to English law and will be subject to the exclusive jurisdiction of the English Courts. NHSSC is not liable for any costs (including any third party costs fees or expenses) incurred by those expressing an interest in, participating or tendering for this Framework. NHSSC reserves the right to terminate the procurement process (or part of it), to change the basis of and the procedures for the procurement process at any time, or to procure the subject matter of the contract by alternative means if it appears that it can be more advantageously procured by alternative means. The most economically advantageous or any tender will not automatically be accepted.
