Section 4 – Specification and about this procurement

The Department for Business Innovation and Skills (BIS) is looking to select an organisation to manage the 2016-2020 round of the “Study China” study visit programme on behalf of the Department. Proposals are therefore invited from organisations working in partnership with Chinese institutions wishing to run study visits in China for students (our definition: over 17 years of age and studying at or about to study at UK HEIs [including colleges]) from summer 2016 until summer 2020. It is envisaged that 350 UK students per year will participate in “Study China” during this period. The 3 week visit will allow UK-based students to experience Chinese language, culture and business links. It is hoped that the study visit experience will encourage the students to explore further opportunities for study or work in China.

Although the programme is UK-wide, the BIS funding only covers students studying in English HEIs. Additional places are also made available to the Devolved Administrations in Scotland, Wales and Northern Ireland and, subject to funds being made available by the Devolved Administrations, they will make their own separate arrangements with the successful bidder.

Study China Programme

Why encourage student mobility?

- 1 BIS is committed to encouraging UK students to spend time abroad as part of their studies in order to equip them with the skills and awareness necessary to live and work effectively in the global economy. It is especially important that UK students engage with China - one of the world’s largest and fastest growing economies and a country which will have increasing global importance in the years to come. Increased education collaboration between the UK and China will be of benefit to both countries.
- 2 We are also keen to encourage our young people to gain an understanding of the Chinese economy and experience of business links. We are particularly keen that they are encouraged to explore opportunities for further study or work (in business or other forms of employment) in China and thus engage with China on a long term basis.
- 3 BIS is looking to select an organisation to develop and manage a programme of study visits on behalf of the Department. Proposals are therefore invited from organisations working in partnership with Chinese institutions wishing to run a programme of study visits starting in summer 2016. The visits would provide a relatively large number of UK students with exposure to China at a relatively low cost.

Scope

4 The scope of required services for the Study China Programme is as follows:

Purpose of required services:

5 The study visit programme will improve UK student international mobility and will allow UK-based students to experience Chinese language, education, culture and business. It is hoped that as the students gain a greater understanding of China, they will be more likely to explore future opportunities to study and or work there. It is also anticipated that organising and running the study visits will help to establish and strengthen relationships between UK and China students and universities as well as building partnerships with businesses. We are also hoping that study undertaken in China would lead to academic credits for the students.

Statement of what the supplier shall provide:

6 In 2016, 2017, 2018, 2019 and 2020, the supplier will deliver a study visit programme in the summer break in partnership with a Chinese institution/Chinese institutions. Each year, 350 students based at English HEIs will participate in a visit of approximately 3 weeks in duration. Institutions are free to decide on the content of the visits but they must cover key aspects of Chinese language, economy, ideas for potential work opportunities, further study opportunities and Chinese culture. In order to achieve this aim the supplier shall carry out the following:

- Develop a 3 week study visit with Chinese partner institutions that cover key aspects of Chinese language, economics, an introduction to business, further study opportunities and culture. An important aspect of the visit is for the students to have the opportunity to interact with their peers and to play as full a part as possible in daily life in China e.g. in student activities, university/campus life etc. Apart from this, institutions are free to decide upon the content of the visits.
- Advertise and promote “Study China” widely across the UK.
- Define selection criteria, accept applications from students and select appropriate candidates.
- Put measures in place to reduce the candidate drop-out rate once they have accepted a place on the programme.
- Provide successful candidates with support and advice in terms of arranging flights, visas and insurance.
- Ensure, with their Chinese partner institution, that suitable accommodation and boarding arrangements are put in place for the duration of the visits and that appropriate measures are taken with regard to Health and Safety legislation.
- Arrange transportation from the Chinese airport to the visit venue.
- Engage the private sector.
- Promote information about opportunities for further study or work in China.
- Disseminate good practice widely, including using alumni ambassadors.

Documentation and Evaluation

7 The supplier shall be required to produce a series of reports, at least quarterly, but more often if requested, setting out progress against objectives, listing any problems encountered and the relevant coping strategies implemented where appropriate. The supplier will also be required to produce a final evaluation report in consultation with their Chinese partner/s. This report is to be published no later than one month after

the completion of the visits.

The supplier shall include BIS branding/BIS logo on all Study China documentation including on promotional material.

Requirements

Eligibility

- 8 To be eligible for this programme the supplier must be an organisation able to utilise a link/links with a Chinese partner institution/s.
- 9 The scheme is open to all current UK-based students interested in learning more about the Chinese language, economy, business links and culture. Applications are particularly welcome from those who have never experienced China or international travel or study opportunities. EU citizens may apply provided they are currently registered as students in a UK organisation. More detailed eligibility criteria may be developed at the discretion of the supplier, in consultation with BIS.

Work Experience and Cultural Immersion

- 10 It is envisaged that the design of the programme will provide links with businesses. We would encourage institutions to think of ways in which corporate sponsorship, work placements and buddy shadowing could be incorporated into the programme. We would like to see the establishment of sustainable partnerships between British and Chinese universities and businesses and for the visits to include opportunities for networking.
- 11 The institutions will also set up a varied and interesting programme to immerse the students in the history and culture of China. Institutions should explain how they plan to involve Chinese students in the visits to ensure that the UK students benefit as much as possible in terms of language learning, cultural immersion, study opportunities and the fostering of international understanding. The visits should be of mutual benefit, and it is to be hoped that the students will develop lasting friendships.

Dissemination of outcomes and sharing of good practice

- 12 We are working towards increasing the mobility of young people between the UK and China and would like to encourage institutions to develop strong, sustainable links with their partner organisations as well as with businesses. We would encourage the institutions to make lessons learned and outcomes of the visits available to other organisations which are working in or seeking to become involved in the same area. We would expect "Study China" alumni to be involved in the dissemination activities.

Timing

- 13 The contract to deliver the programme, starting with a study visit in China in Summer 2016 will start on 8th June 2016.
- 14 We would expect the 3 week visits to take place in the summer university break, with the first one starting in 2016.

29 The contract will be awarded on a value for money basis. BIS will provide funds to cover the following costs:

- The supplier's costs incurred in the direct management of the programme.
- Accommodation and board for the students whilst in China.
- The costs of transporting the students from the airport in China to the visit venue (on specific date).
- Tuition
- Some activities
- Reasonable costs incurred in running the programme of activities.

30 BIS expect students to cover the following costs:

- Return airfares to China
- Visa costs
- Vaccinations
- Spending money and some food
- Appropriate insurance.

The Contract duration shall be for a period of one year from commencement of the Contract with the option to extend for four further years on an annual basis.

Award Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement UK SBS has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFP. UK SBS considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	20%
Add	AW6.2	Understanding and Methodology	30%
Add	AW6.3	Project team	20%
Add	AW6.4	Quality Plan	10%
Add	AW6.5	Advertising, Promotion and Selection Plan	20%

Award Evaluation of criteria

Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation: Score/Total Points available multiplied by 20 (60/100 x 20 = 12)

Where an evaluation criterion is worth 10% then the 0-100 score achieved will be multiplied by 10.

Example if a Bidder scores 60 from the available 100 points this will equate to 6% by using the following calculation: Score/Total Points available multiplied by 10 (60/100 x 10 = 6)

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60
 Evaluator 2 scored your bid as 40
 Evaluator 3 scored your bid as 80
 Evaluator 4 scored your bid as 60
 Your final score will $(60+40+80+60) \div 4 = 60$

Price elements will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.
 Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80
 Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.
 Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.
 Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 (80/100 x 50 = 40)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

5.5. Evaluation process

5.5.1 The evaluation process will feature some, if not all, the following phases

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> RFP logged upon opening in alignment with UK SBS's procurement procedures. Any RFP Bid received after the closing date will be rejected unless circumstances attributed to UK SBS or the e-sourcing tool beyond the bidder control are responsible for late submission.

If a consortium is not proposing to form a corporate entity, full details of alternative proposed arrangements should be provided as indicated in the relevant section of the RFP. However, please note UK SBS reserves the right to require a successful consortium to form a single legal entity in accordance with regulation 19(6) of the Regulations. UK SBS recognises that arrangements in relation to consortia may (within limits) be subject to future change. Potential Providers should therefore respond in the light of the arrangements as currently envisaged. Potential Providers are reminded that any future proposed change in relation to consortia must be notified to UK SBS so that it can make a further assessment by applying the selection criteria to the new information provided and consider rejection of the Response if UK SBS reasonably consider the change to have a material impact of the delivery of the viability of the Response.

- 7.3.2 Bidders may disclose, distribute or pass any of the Information to the Bidder's advisers, sub-contractors or to another person provided that either:

- 7.3.4 UK SBS may disclose detailed information relating to Responses to its employees, agents or advisers and UK SBS may make any of the Contract documents available for private inspection by its officers, employees, agents or advisers. UK SBS also reserves the right to disseminate information that is materially relevant to the procurement to all Bidders, even if the information has only been requested by one Bidder, subject to the duty to protect each Bidder's commercial confidentiality in relation to its Response (unless there is a requirement for disclosure as explained in paragraphs 7.4.1 to 7.4.3 below).
- 7.3.5 All Central Government Departments and their Executive Agencies and Non Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.
- For these purposes, UK SBS may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to UK SBS during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFP consent to these terms as part of the competition process.
- 7.3.6 From 2nd April 2014 the Government is introducing its new Government Security Classifications ("GSC") classification scheme to replace the current Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC: <https://www.gov.uk/government/publications/government-security-classifications>

7.3.7 UK SBS reserves the right to amend any security related term or condition of the draft contract accompanying this RFP to reflect any changes introduced by the GSC. In particular where this RFP is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

Bidders should note, however, that, even where information is identified as commercially sensitive, UK SBS may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, UK SBS is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, UK SBS cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.

7.4.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS and the Bidder should not attempt to answer the request without first consulting with UK SBS.

7.4.5 Bidders are reminded that the Government's transparency agenda requires that sourcing documents, including RFP templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS, and any contract entered into by UK SBS with its preferred supplier once the procurement is complete. By submitting a response to this RFP Bidders are agreeing that their participation and contents of their Response may be made public.
