Schedule 3 - Statement of Requirements

Title: Equine Dentistry Services for Military Working Horses

Customer Sponsor: Headquarters London District

Users: Household Cavalry Mounted Regiment and The King's Troop Royal Horse Artillery

Background

1. Horses' teeth continually erupt throughout their life. Due to modern methods of keeping horses, ie stabled and on soft diets which are high in concentrates, their teeth are not worn away like their wild ancestors. As a result of continued eruption and domestication, they need dental intervention and regular dental care in order to prevent oral pathology impacting on the welfare of the horse. This pathology can develop at any time during the horse's life but is more commonly seen in young adolescents and the mature horse – typical of the Military Working Horse.

Key Aspect of the Requirement

2. If left untreated the horse will experience discomfort and pain which will prevent a horse carrying out ceremonial duties and there is a high chance that this will also attract unwanted media attention on welfare grounds. Horses with dental issues and, therefore, oral pain can become increasingly difficult to ride safely. They become very reactive when a rider is on top increasing the chance of an accident and injury to the rider.
3. Good dental care is primarily about prevention, as in human dentistry and poor dental care and hygiene has a massive impact on the welfare of the equine.

Users

4. The Household Cavalry Mounted Regiment (HCMR) who are located in Hyde Park Barracks, Knightsbridge, London, SW7 1SE with their Training Wing (HCTW) located in Combermere Barracks, St Leonards Road, Windsor, SL4 3DN and The Kings Troop Royal Horse Artillery (KTRHA) who are located in King George VI Lines, Repository Road, Woolwich, London SE18 4BB.

Specification

5. The provision of equine dental care by a fully qualified Equine Dental Technician who has passed the British Equine Veterinary Association (BEVA) and the British Veterinary Dental Association (BVDA) Equine Dental Technician (EDT) examinations and can demonstrate that they have been undertaking equine dentistry procedures to a satisfactory standard.

Requirement

6. To provide routine and advanced dental care to circa 400 military working horses of the Household Cavalry Mounted Regiment and The Kings Troop Royal Horse Artillery.

7. Visits are to be made at regular intervals through the year to each unit as follows:

- a. HCMR - 7 visits treating up to 33 horses per visit
- b. HCTW - 2 visits treating up to 33 horses per visit
- c. KTHRA - 5 visits treating up to 25 horses per visit

In addition, one visit a year to the Royal Military Academy Sandhurst, Camberley, Surrey, GU15 4PQ is required to treat up to 8 horses.

8. Each horse is provided with an individual dental care plan and these are reviewed at the time of treatment with the respective Veterinary Officers.

9. Equine Dental Technicians will be required to provide their own equipment and must hold professional indemnity and third-party liability insurance at all times.

10. All Equine Dental Technicians treating military working horses will need to be Counter Terrorist Check security cleared:

11. The Ministry of Defence reserves the right to terminate the services of any Equine Dental Technician should there be any concerns from a qualified veterinarian regarding the quality of clinical care delivered or animal welfare.

Demanding Authority
