UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our customers improve efficiency, generate savings and modernise.

It is our vision to become the leading provider for our customers of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by its customers, UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

UK SBS currently manages £700m expenditure for its Customers.

Our Customers who have access to our services and Contracts are detailed [here](#).

Section 2 – About Our Customer

STFC is a world-leading multi-disciplinary science organisation, whose goal is to deliver economic, societal, scientific and international benefits to the UK and its people – and more broadly to the world.

STFC support an academic community of around 1,700 in particle physics, nuclear physics, and astronomy including space science, who work at more than 50 universities and research institutes in the UK, Europe, Japan and the United States, including a rolling cohort of more than 900 PhD students.

The organisation's large-scale scientific facilities in the UK and Europe are used by more than 3,500 users each year, carrying out more than 2,000 experiments and generating around 900 publications.

The combination of access to world-class research facilities and scientists, office and laboratory space, business support, and an environment which encourages innovation has proven a compelling combination, attracting start-ups, SMEs and large blue chips such as IBM and Unilever.

Examples of funded research

- STFC is providing the design infrastructure for the £23bn UK microelectronics sector that underpins strategically important industries worth £78bn to the UK economy
- STFC's ISIS facility and its users, working in partnership with the NHS, developed a novel material to improve the treatment of cleft lip and palate, speeding up healing times and reducing operating costs
- STFC's Synchrotron Radiation Source was used to understand how conventional anti-malarial drugs work, allowing the development of more effective treatment to reduce the devastating global impact of malaria
- STFC's ISIS facility is identifying new materials that can safely and conveniently store hydrogen, enabling the development of hydrogen-fuelled cars reducing reliance on fossil fuels and cutting carbon emissions

Section 4 – Specification and about this procurement

Executive Summary

MOONS (Multi-Objects Optical and Near-infrared Spectrograph for the VLT) is a new concept for an astronomical spectrograph. It has been selected by the European Southern Observatory (ESO) in response to a call for proposals for the study of new instruments. This requirement is for the Camera Optics, a sub system of the Spectrograph instrument.

This requirement is for the UK Astronomy Technology Centre, part of the Science & Technology Facilities Council. UK ATC will initially assemble the spectrograph on site in Edinburgh, prior to disassembling for shipping and installation in Chile.

The MOONS design consists of two identical cryogenic spectrographs. Each spectrograph incorporates three cameras fed by fibre optics. This tender is for the procurement of the lenses and mirrors for the cameras. The layout of one spectrometer is shown in Figure 1.

The optics can be conveniently divided into the following sub-systems:

Camera-RI, Camera-YJ and Camera-H - These are to be used to re-image the spectra onto the detectors. These three cameras are made of two lenses (L1, L2) and one mirror (M1); all these elements have one aspheric surface. The lens L2 is positioned inside the central hole of L1.

The cameras have a very fast focal aperture (about F/0.95) and a large field of view (about $\pm 9^\circ$).

- Camera-H covers the wavelengths range between 1450nm and 1800nm.
- Camera-YJ covers the wavelengths range between 940nm and 1350nm.
- Camera-RI works from 640nm to 950nm.

All the optical elements will be mounted on an optical bench inside a vacuum tank, cooled to cryogenic temperatures (about 120K).

The following items are not within the scope of this procurement: Fibres; Collimator; Dichroics; Dispersers and the glass blanks for the camera lenses and mirrors.

The customer (UK ATC) will provide the glass blanks for the lenses and mirrors.

Detailed mechanical drawings of the optical elements shall be prepared by the manufacturing company. The detailed mechanical design of the optical elements and of the L1-L2 assembly will be defined and agreed in close collaboration with the MOONS project team (UK ATC).

The full specification – VLT-SPE-MON-14620-2002 Specification for the procurement of the MOONS Camera Optics is provided as an attachment within the e-sourcing platform

<https://gpsesourcing.cabinetoffice.gov.uk/sso/jsp/login.jsp>

The Contract duration shall be for a period of 2 years from commencement of the Contract.

Award Evaluation of criteria

Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation: Score/Total Points available multiplied by 20 ($60/100 \times 20 = 12$)

Where an evaluation criterion is worth 10% then the 0-100 score achieved will be multiplied by 10.

Example if a Bidder scores 60 from the available 100 points this will equate to 6% by using the following calculation: Score/Total Points available multiplied by 10 ($60/100 \times 10 = 6$)

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 40

Evaluator 3 scored your bid as 80 Evaluator 4 scored your bid as 60 Your final score will $(60+40+80+60) \div 4 = 60$
Price elements will be judged on the following criteria. The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion. For example - Bid 1 £100,000 scores 100. Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80 Bid 3 £150,000 differential £50,000 remove 50% from price scores 50. Bid 4 £175,000 differential £75,000 remove 75% from price scores 25. Bid 5 £200,000 differential £100,000 remove 100% from price scores 0. Bid 6 £300,000 differential £200,000 remove 100% from price scores 0. Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50 In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: $\text{Score/Total Points} \times 50$ ($80/100 \times 50 = 40$) The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

5.4.5 Once the evaluation process and due diligence is complete, should the result of the process result in a tied place(s) then the supplier(s) who scored the highest subtotal in the following quality (criteria) shall be considered the successful supplier and shall be awarded the opportunity.

Quality criteria questions:

AW 6.4 'Insertion and gluing of lens L1 inside lens L2' Maximum available marks 7%, and
 AW 6.7 'Positioning and tolerances of L2 inside L1'. Maximum available marks 7%

Sub -Total Maximum available marks 14%

- 7.3.3 In paragraphs 7.3.1 and 7.3.2 above the term 'person' includes but is not limited to any person, firm, body or association, corporate or incorporate.
- 7.3.4 UK SBS may disclose detailed information relating to Responses to its employees, agents or advisers and UK SBS may make any of the Contract documents available for private inspection by its officers, employees, agents or advisers. UK SBS also reserves the right to disseminate information that is materially relevant to the procurement to all Bidders, even if the information has only been requested by one Bidder, subject to the duty to protect each Bidder's commercial confidentiality in relation to its Response (unless there is a requirement for disclosure as explained in paragraphs 7.4.1 to 7.4.3 below).
- 7.3.5 All Central Government Departments and their Executive Agencies and Non Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, UK SBS may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to UK SBS during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFP consent to these terms as part of the competition process.
- 7.3.6 From 2nd April 2014 the Government is introducing its new Government Security Classifications ("GSC") classification scheme to replace the current Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC: <https://www.gov.uk/government/publications/government-security-classifications>

- 7.3.7 UK SBS reserves the right to amend any security related term or condition of the draft contract accompanying this RFP to reflect any changes introduced by the GSC. In particular where this RFP is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

7.4 Freedom of information

- 7.4.1 In accordance with the obligations and duties placed upon public authorities by the Freedom of Information Act 2000 (the 'FoIA') and the Environmental Information Regulations 2004 (the 'EIR') (each as amended from time to time), UK SBS may be required to disclose information submitted by the Bidder to UK SBS.
- 7.4.2 In respect of any information submitted by a Bidder that it considers to be commercially sensitive the Bidder should complete the Freedom of Information declaration question defined in the Question FOI1.2.
- 7.4.3 Where a Bidder identifies information as commercially sensitive, UK SBS will endeavour to maintain confidentiality. Bidders should note, however, that, even where information is identified as commercially sensitive, UK SBS may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, UK SBS is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, UK SBS cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.
- 7.4.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS and the Bidder should not attempt to answer the request without first consulting with UK SBS.
- 7.4.5 Bidders are reminded that the Government's transparency agenda requires that sourcing documents, including RFP templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS, and any contract entered into by UK SBS with its preferred supplier once the procurement is complete. By submitting a response to this RFP Bidders are agreeing that their participation and contents of their Response may be made public.

7.5. Response Validity

7.8. Preparation of a Response

- 7.8.1 Bidders must obtain for themselves at their own responsibility and expense all information necessary for the preparation of Responses. Bidders are solely responsible for all costs, expenses and other liabilities arising in connection with the preparation and submission of their Response and all other stages of the selection and evaluation process. Under no circumstances will UK SBS, or any of their advisers, be liable for any such costs, expenses or liabilities borne by Bidders or their sub-contractors, suppliers or advisers in this process.
- 7.8.2 Bidders are required to complete and provide all information required by UK SBS in accordance with the Conditions of Response and the Request for Proposal. Failure to comply with the Conditions and the Request for Proposal may lead UK SBS to reject a Response.
- 7.8.3 UK SBS relies on Bidders' own analysis and review of information provided. Consequently, Bidders are solely responsible for obtaining the information which they consider is necessary in order to make decisions regarding the content of their Responses and to undertake any investigations they consider necessary in order to verify any information provided to them during the procurement.
- 7.8.4 Bidders must form their own opinions, making such investigations and taking such advice (including professional advice) as is appropriate, regarding their Responses, without reliance upon any opinion or other information provided by UK SBS or their advisers and representatives. Bidders should notify UK SBS promptly of any perceived ambiguity, inconsistency or omission in this RFP, any of its associated documents and/or any other information issued to them during the procurement.
- 7.8.5 Bidders must ensure that each response to a question is within any specified word count. Any responses with words in excess of the word count will only be considered up to the point where they meet the word count, any additional words beyond the volume defined in the word count will not be considered by the evaluation panel.
- 7.8.6 Bidders must ensure that each response to a question is not cross referenced to a response to another question. In the event of a Bidder adding a cross reference it will not be considered in evaluation.

7.9. Submission of Responses

- 7.9.1 The Response must be submitted as instructed in this document through the e-sourcing tool. Failure to follow the instruction within each Section of this document, to omit responses to any of the questions or to present your response in alignment with

 - 7.9.9.2 Any request for a late Response to be considered must be emailed to bids@uksbs.co.uk in advance of 'the deadline' if a bidder believes their Response will be received late.
