

Section 1 - Consultancy Value Statement: Value to be delivered	
Supplier Name	Parsons Brinckerhoff Ltd
Title of Contract	Economic Consultancy to review the case for large scale transport investment in London
Requirement Summary	To inform the London study, the Authority requires economic consultancy to review the case for large scale transport investment in London (including Crossrail 2), in the context of a broader assessment of London's strategic transport challenges and options for future investment available to address them.
Financial Value Statement	N/A
Non-financial Value Statement	The National Infrastructure Commission has been tasked with carrying out specific studies of pressing infrastructure challenges. This contract supports the National Infrastructure Commission's study on the future of London's transport system, particularly reviewing strategic options for future investment in large scale transport improvements – on road, rail and underground – including Crossrail 2
Section 2 - Consultancy Value Statement: Actual Value Delivered	
Financial Value Statement	N/A
Non-financial Value Statement	The output of this contract was a report, produced by the consortium that worked on the study. This report helped inform National Infrastructure Commission's recommendations on the transport challenges facing London. The National Infrastructure Commission report "Transport for a World City" and the final consultancy report are available on the National Infrastructure Commission's website.
