Pricing Notes

The Horniman Museum and Gardens; Mountmaker Contractor Works

Generally

Pricing Notes

All green boxes in this pricing schedule have pre-determined formulas; they will tally in accordance with the tender requirement. PLEASE DO NOT ALTER.

The below pricing notes are to apply to all items for pricing within this pricing schedule.

The contractor must allow for all elements of the development of the design, project management, off-site production, sample production, delivery, installation and snagging of every element of the creative films and photo edits. The contractor must also allow for training the Horniman staff and the provision of O&M manuals, as described in the preliminaries and services.

The Trade Contractor shall include for all items necessary to fully complete the Works detailed in the brief and drawings, and, as such, is to enter any additional items he considers necessary to carry out the works as required by the service and/or shown on the drawings, on the Additional Items page.

If the contractor deems it necessary for the Horniman and RAA to visit their studio this should be included in the fixed cost.

Quantities are provided for information only, the contractor is required to provide his own assessments.

The Design's Briefs, Drawings, Specification and Schedules all take precedence over the pricing schedule, and in that order of precedent:

All details and information included within the tender drawings, specification, schedules and pricing schedule must be included for within the price. If there is a discrepancy or contradiction between any of the details within these documents then the tenderer must immediately notify the Contract Administrator in writing, in order that a decision may be made before the Date of the Submission of Tenders.

All line items in this pricing schedule must have individual prices provided against them. Any item without an individual price against it is automatically included within the overall total price.

Any assumptions and/or exclusions are to be collated and listed on the additional items sheet.

If asked to attend a post-tender interview, the Contractor will be asked to provide samples, which will be detailed accordingly.

Type Mounts are to be priced on a common rate for each based on the range of dimensions. This rate should also act as the pro-rata for each type.

Bespoke Mounts (Case top mounts) are to be priced individually.

Mountmaker's Contractor Works

The contractor must allow for all elements of the development of the design, project management, off-site construction, sample production, delivery, installation and snagging of every element of the Object Mounts. The contractor must also allow for training the Horniman staff and the provision of O&M manuals, as described in the preliminaries, scope and specification.

The Trade Contractor shall include for all items necessary to fully complete the Works detailed in the Designer's specification, schedule and drawings, and, as such, is to enter any additional items he considers necessary to carry out the works as required by the specification and/or shown on the drawings, on the Additional Items page.

Contractor is to note that not all objects listed will in Perspectives and Horniman's Vision will require a mount as they will not all be on display. Contractor is to provide a cost for each mount, but note the final object total will be reduced on appointment.

Any assumptions and/or exclusions are to be collated and listed on the Additional Items sheet.

Where objects are listed with multiple display options, allow for that with the largest dimensions.
