Event coordination and support	Procurement of accommodation for training, workshop and conference participants	We routinely procure accommodation for didactic trainings conducted by Field Epidemiology Training Programs (FETPs) in our Network, in more than 35 countries in sub-Saharan Africa. We also provide this service for our biennial AFENET Conference that is attended in person by at least 600 delegates from across the globe. Additionally, over the last seven years provided this service for the US CDC's STOP training, where we make accommodation bookings for more than 200 training attendees. Since 2019, we have been supporting Africa CDC to book accommodation for participants in meetings and trainings.	For participant safety, we predominantly use UN security-cleared venues. In most countries, we also have prequalified vendors with whom we have framework contracts to ease preparatory activities.

	Optional: support with/procurement of regional travel for participants, where required.	Across the continent, we have service providers to provide ticketing services for travelers. We also have framework contracts with regional carriers such as Ethiopian and Kenya Airways. This way, we are able to procure tickets at cheaper costs than if we procured from a travel agent. We have the capacity to travel more than 400 participants at a time, as happened during Africa CDC's CPHIA2022. We will also be traveling at least 500 participants from different parts of the continent to CPHIA2023 which will be held in Lusaka, Zambia.

Given our strong linkages with governments across the continent, we would have the ability to support this activity on a larger scale.	
2. Translation and interpretation	3. Optional: procurement of translation and interpretation services, as needed.	Given that our primary area of operation – Africa – is multilingual, we have a pool of vendors that can provide interpretation and translation services across the continent. Our focus is on the 6 official languages of the AU – English, Portuguese, Spanish, French, Arabic, and Swahili. We have a listerv of interpreters across the continent	Where interpreters are not available in a particular country, we facilitate travel of others from another country to provide the required service.

Supplies Platform (AMSP), we are able to procure equipment and supplies and have them delivered to where they are needed. The AMSP was set up during the pandemic to ease access to medical supplies for African countries, at a time when they were so scarce. Using the platform, AFENET procured more than 20,000,000 COVID-19 test kits and oxygen concentrators that were delivered to several countries across the platform. Where required supplies are available within a country, our procurement team works with in-country vendors to procure and deliver the items.	
	6. Optional: support with transportation logistics and import processes for equipment Cefas are sending into country.		

Our clients include to who we have provided support to include:

1. **Cefas:** Following referral by UKHSA, AFENET supported Cefas to procure and distribute IT equipment to officers in Nigeria and Ghana.
2. **UK Health Security Agency (UKHSA)** for their International Health Regulations (IHR) strengthening project in Nigeria, Ethiopia and Sierra Leone with potential for extension to other West African countries. Specifically, we provide in-country ground transportation services for UKHSA contractors as well as staff and provide events management services for their meetings. We also provide support to UKHSA activities in other countries in Africa like Togo, Senegal, Kenya. The management support includes procurement of materials, printings, international ticketing, venue and vendor sourcing, catering considering a variety of dietary requirements, and laptops/IT equipment.
3. **Africa CDC:** we provide a range of logistic support services to Africa CDC, across all the 55 AU member states. We also provide logistic support for continent-wide activities organized by Africa CDC. As part of the roll out of Africa CDC's Saving Lives and Livelihood Initiative (SLL), AFENET

organized a national training simultaneously in all the states of Nigeria plus FCT (37) in just 2 days. The support included ticketing, venue sourcing, per diem payments, printing, accommodation, catering. Over 600 persons were and trained.

4. **CRDF Global:** AFENET is a strategic partner to CRDF global and has provided logistic support for the organization's activities (e.g., training workshops, procurements for projects, international travel) in Nigeria and other countries in Africa.

Proposed Approach

Please describe your proposed approach to deliver the requirements, including how you will ensure value for money is achieved when procuring the required services. Please confirm which of the services listed in the Technical Specification you are able to provide, with relevant supporting evidence of capability

To ease coordination with Cefas, we shall assign an overall project lead, who will serve as the primary focal point for Cefas at AFENET. The team lead's contacts (phone and email) will be provided to PHE focal persons, so that requests for services and feedback reports are shared through them. Based on the location and type of the assignment requested by Cefas, this individual will assign team members to implement the task order.

We will also work with Cefas to agree on the minimum information to be provided to our teams to ensure efficient and expedited service provision, as highlighted below:

Service area	Minimum information needs
Events coordination and support	Number of meeting participants/travelers Preferred/selected venue for meeting and/or accommodation Nature of meeting (residential/non-residential) Quantity, type and characteristics of materials to be printed Banking details of participants for payment of stipends Arrival and departure dates for participants
Travel and transportation	Number of travelers Preferred mode of transportation (air/road) Travel start and end dates Origin of travel and destination
Translation and interpretation	Languages for translation/interpretation
Procurement	Specifications of goods or services required Quantity of items to be procured

Once a request for services is received from Cefas, the team lead will channel it to the staff that will be involved in the implementation, but with the initiating team lead retaining an oversight function and coordinating with Cefas. For instance, for procurement requests will be channeled to a member of the procurement team to coordinate to completion the entire procurement as required by Cefas.

To ensure value for money, we will as much as possible:

7. Use competitive bidding for all goods and services.
8. Use incountry resources as they are more often cheaper than those externally sourced
9. Rely on our database of tried and tested vendors for the various goods and services requested in the RFQ
10. Continuously evaluate our support to Cefas, with a goal of continuously improving our service delivery for optimal results.

Project Management

Please describe your Project Management approach and plan for this requirement, including details on: timescales and how quickly you will be able to react to short-notice requests; how the appointed suppliers will be managed to ensure effective delivery; identification of project risks and mitigations

This project will be domiciled within the Operations Department at AFENET, and will receive oversight from the Head of Operations. Day to day operations will be coordinated by an assigned Senior Administrator (Team Lead) at AFENET. In each of the target countries, an administrator will coordinate incountry activities.

Based on the location and type of the assignment requested by Cefas, this individual will assign team members to implement the task order. In all instances, the country-based administrator will assist with making necessary contact with service providers and managing the vWhere specific teams may need support, as might be the case when there is more than one activity occurring simultaneously in a country or fr, individuals from other countries will be called in to support the activities.

While our teams are qualified to manage all tasks independently, Cefas will be kept abreast of preparations/activities as they occur, and their feedback will be sourced for continuous process improvement.

Resources within AFENET to support service delivery

1. Staffing capacity to manage different events occurring simultaneously in the same country or in different countries
2. Our experience handling large national and international events, which has strengthened our efficiency in event management
3. Our administration/logistics team are well grounded in understanding of the local context and are constantly up to date with prevailing market prices and therefore able to negotiate for the best cost options
4. Our robust procurement policy guides procurement and logistics management operations. A procurement committee evaluates all procurement requests and bids to ensure transparency, accountability and cost efficiency. The policy ensures vendors' prequalification and assessments, standardized bidding processes as well as contractual agreements that protect the client.
5. A team of qualified administrative/logistics staff across sub-Saharan Africa who have over more than 10 years provided these services.
6. Existing relationships with prequalified travel agents and regional airlines, ensuring that air tickets can be purchased for travelers on short notice
7. Framework contracts with hotels in several countries, which gives AFENET negotiated rates that are often lower than walk-in rates
8. Robust financial management system using SUN System software
9. The organization operates a risk management approach and has an established Compliance and Risk Management Unit overseen by a full-time experienced Compliance Officer. A risk register has been developed to aid the identification and assessment of potential risks (including financial risks)

as well as putting in place mechanisms to prevent and mitigate these risks. Through support from AFENET Secretariat, internal financial and compliance audits are conducted annually by the Internal audit and Risk management team to ensure governance integrity, financial accountability and robust internal controls. Likewise, audits by external auditors are occasionally conducted for specific projects and any audit queries raised are adequately responded to.

Environmental Considerations

Please provide details on how your organisation supports environmental initiatives i.e., recycling schemes, reducing the use of single use plastics, and your approach to Environmental Management.

AFENET supports environmental initiatives by operating a paperless policy, which has resulted in a reduction in paper use within the organization by more than 90%. All payment requests, accountability documents and reports are transmitted electronically across the organization. All documents are uploaded to the EchoSign, an adobe system to avoid use of papers and other physical documents. Our repository for documents/records is on a server.

3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

- (a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.
- (b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.
- (c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.
- (d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.
- (e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.
- (f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.
- (g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.
- (h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.
- (i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.
- (k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the

cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

(i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

5. Pricing and payments

5.1 In exchange for the Deliverables delivered, the Supplier shall be entitled to invoice the Authority for the charges in Annex 3. The Supplier shall raise invoices promptly and in any event within 90 days from when the charges are due.

The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

5.7 The Supplier must ensure that its subcontractors and supply chain are paid, in full, within 30 days of receipt of a valid, undisputed invoice. If this doesn't happen, the Authority can publish the details of the late payment or non-payment.

6. The Authority's obligations to the Supplier

then the Authority may:

- (i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand

35. Resolving disputes

35.1 If there is a dispute between the Parties, their senior representatives who have authority to settle the dispute will, within 28 days of a written request from the other Party, meet in good faith to resolve the dispute.

35.2 If the dispute is not resolved at that meeting, the Parties can attempt to settle it by mediation using the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedure current at the time of the dispute. If the Parties cannot agree on a mediator, the mediator will be nominated by CEDR. If either Party does not wish to use, or continue to use mediation, or mediation does not resolve the dispute, the dispute must be resolved using clauses 35.3 to 35.5.

35.3 Unless the Authority refers the dispute to arbitration using clause 35.4, the Parties irrevocably agree that the courts of England and Wales have the exclusive jurisdiction to:

- (a) determine the dispute;
- (b) grant interim remedies;
- (c) grant any other provisional or protective relief.

35.4 The Supplier agrees that the Authority has the exclusive right to refer any dispute to be finally resolved by arbitration under the London Court of International Arbitration Rules current at the time of the dispute. There will be only one arbitrator. The seat or legal place of the arbitration will be London and the proceedings will be in English.

35.5 The Authority has the right to refer a dispute to arbitration even if the Supplier has started or has attempted to start court proceedings under clause 35.3, unless the Authority has agreed to the court proceedings or participated in them. Even if court proceedings have started, the Parties must do everything necessary to ensure that the court proceedings are stayed in favour of any arbitration proceedings if they are started under clause 35.4.

35.6 The Supplier cannot suspend the performance of the Contract during any dispute.

35.7 The provisions of this clause 35 are without prejudice to the Authority's right to terminate or suspend the Contract under clause 11.

36. Which law applies

36.1 This Contract and any issues arising out of, or connected to it, are governed by English law.

36.2 The courts of England and Wales shall have jurisdiction to settle any dispute or claim (whether contractual or non-contractual) that arises out of or in connection with the Contract or its subject matter or formation.
