In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

I2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within 20 Working Days of either Party notifying the other of the dispute and such efforts shall involve the escalation of the dispute to the finance director of the Contractor and the commercial director of the Authority.

I2.2 Nothing in this dispute resolution procedure shall prevent the Parties from seeking from any court of competent jurisdiction an interim order restraining the other Party from doing any act or compelling the other Party to do any act.

I2.3 If the dispute cannot be resolved by the Parties pursuant to clause I2.1 the Parties shall refer it to mediation pursuant to the procedure set out in clause I2.5 unless: (a) the Authority considers that the dispute is not suitable for resolution by mediation; or (b) the Contractor does not agree to mediation.

If appropriate, the Parties may at any stage seek assistance from the Centre for Effective Dispute Resolution to provide guidance on a suitable procedure;
 - (c) unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings;
 - (d) if the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives;
 - (e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and
 - (f) if the Parties fail to reach agreement in the structured negotiations within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the Courts unless the dispute is referred to arbitration pursuant to the procedures set out in clause 12.6.
- 12.6 Subject to clause 12.2, the Parties shall not institute court proceedings until the procedures set out in clauses 12.1 and 12.3 have been completed save that:

 - (c) the tribunal shall consist of a sole arbitrator to be agreed by the Parties;
 - (d) if the Parties fail to agree the appointment of the arbitrator within 10 days of the Arbitration Notice being issued by the Authority under clause 12.7(a) or if the person appointed is unable or unwilling to act, the arbitrator shall be appointed by the LCIA;

SCHEDULE 1 - SPECIFICATION

1. Executive Summary

In November last year, BEIS, awarded the Care Quality Commission a grant of £635,400 via the Regulators' Pioneer Fund to deliver 'Assessing Integrated Care System performance in understanding and responding to the health and care needs and experiences of people most likely to experience poorer care and inequalities.' The RPF is a grant-based fund to enable UK regulators and local authorities to help create a UK regulatory environment that encourages business innovation and investment. The current £12m round is being delivered by the Department for Science Innovation and Technology.

In July 2022 42 Integrated Care Systems (ICS) were established across England on a statutory basis. ICSs are partnerships of organisations who come together to plan and deliver joined up health and care services in an area. CQC has new powers to assess the performance of these Integrated Care Systems.

Integrated Care Systems need to understand the health and care needs and experiences of people and communities, including those of people more likely to experience poorer care and inequalities, and to reduce health and care inequalities. This aligns with the government's Levelling Up agenda and CQC's strategic ambitions to deliver regulation driven by people's experiences and needs and to reduce inequalities.

CQC is undertaking a project to work collaboratively with research, system and voluntary sector partners to provide an ICS Integrated Care Board with a rigorous, scalable approach to assessing, reporting on and driving improvement in people's experiences of integrated care; how ICS's are performing in relation to their People and Communities strategies; and how ICS's are performing in acting on people's needs and experiences to reduce inequalities in health and care provision.

The project will support ICS's and ICBs to develop a rigorous consistent framework for tracking and demonstrating their progress in these areas.

We are looking to commission an external partner to work with us on this project to lead the delivery and support the co-design of this framework and a suite of learning products and activities, along with a written report. This will require working closely with an additional VCS external partner.

CQC expects this partner to:

- Have independent knowledge and expertise in tracking and demonstrating the impact of listening to and understanding the needs and experiences of people who use health and care services, particularly those more likely to experience poorer care and inequalities.
- Provide a robust and methodical research approach to this activity.
- Provide analysis using a robust analytical framework.

- Provide knowledge and expertise relating to the needs and experiences of people more likely to experience poor care and inequalities.
- Be committed to co designing approaches with people who use services and organisations that represent or act on their behalf.
- Make sure they have the right level of resource to deliver this project and ensure it meets key milestones. Engage and work with ICS that have volunteered to test the framework.

2. The Requirement

The successful supplier will need to have a robust understanding of how to create effective change. They will need to understand how to work strategically with organisations to understand their individual context, and how they can work with them to develop an accessible, flexible and dynamic framework available across multiple platforms that has a real impact on reducing inequalities in health and care in local area.

The successful supplier will have experience in enabling change within complex settings and ideally have experience of working with Integrated Care Systems.

CQC expect that the successful supplier would lead on development of the framework and demonstrate an explicit willingness to work with our external supplier of voluntary and community sector (VCS) engagement and with ICSs to deliver a robust programme of co-design to develop a useful tool. The joint working with our VCS external partner will bring together a range of perspectives, through the delivery of a blend of accessible, one to one and group engagement activities that meet the needs of participants. The framework delivered will also need to be accessible and user friendly (and user tested), it will need to be dynamic and able to adapt to the requirements of different local areas. We will require the successful supplier to demonstrate how the insight gained from co-design has directly influenced the framework design and any associated tools to ensure they meet user's needs.

The successful supplier will be required to work collaboratively with CQC colleagues taking a One Team approach. This means regularly attending and contributing to meetings such as monthly project oversight groups and external advisory groups.

We would also expect the supplier to facilitate attendance of ICS representatives at some internal and external meetings as required.

Other requirements of the supplier include:

- Independent expertise in tracking and demonstrating the impact of listening to and understanding the needs and experiences of health and care services.
- Skills in robust research methodology development and application
- Analytical skills
- Ability to translate complex research findings into an accessible and clear output.
- Expert knowledge and expertise relating to engagement with people more likely to experience poor care and inequalities.

- Project management and tracking skills in overseeing delivery of multiple project strands including project progress, financial and risks and issues reporting.
- Relationship management skills to maintain successful working relationship across different dimensions of this project.

Project deliverables:

We expect the partner will work collaboratively with CQC, other project partners the voluntary sector and system partners to co design, develop, pilot, and test the outputs in order to provide a scalable approach to driving improvements by developing:

1. An assessment model and framework for ICBs to track and demonstrate success in:
 - a. How ICSs are performing in relation to their People and Communities strategies
 - b. How ICSs are performing in acting on people's needs and experiences to reduce inequalities in health and care provision.
2. A suite of supporting learning products and activities: the nature of these products will be driven by the learning and designed to target CQC's 8 impact mechanisms. This is likely to include a mix of written material, events, and work to influence and guide stakeholder activity.
3. Recommendations for how CQC can build this framework into its assessments of ICS performance.
4. Interim and final reports in 5 parts:
 - Innovative practice in measuring performance in understanding and acting on the experiences and needs of people more likely to experience poor care.
 - Draft and final models for measuring how this performance impacts health and care inequalities.
 - Recommendations for ICS's and CQC
 - Evaluation and impact of project.

The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause 19 (Dispute Resolution).
