# Annex 1 – Specification

## **1. Background to Natural England**

1.1 Natural England is the government’s advisor on the natural environment. We provide practical advice, grounded in science, on how best to safeguard England’s natural wealth for the benefit of everyone.

1.2 Our remit is to ensure sustainable stewardship of the land and sea so that people and nature can thrive. It is our responsibility to see that England’s rich natural environment can adapt and survive intact for future generations to enjoy. We work with farmers and land managers; business and industry; planners and developers; national and local government; interest groups and local communities to help them improve their local environment.

## **2. Background to Protected Landscapes Management Plans**

2.1. Management Plans are statutory documents. They are over-arching and strategic, setting out the future vision and management objectives, for the area. Management Plans are for those with an interest in that protected landscape as a place not just the staff and Members of an AONB or National Park or the local authorities that adopt Management Plans in AONBs.

2.2 Section 66 of the Environment Act 1995 requires National Park Authorities to produce Management Plans and to review them every five years. Sections 89 and 90 of the Countryside and Rights of Way Act 2000 (the CROW Act) creates a statutory responsibility for local authorities and Conservation Boards to produce AONB Management Plans and thereafter to review adopted and published Plans at intervals of not more than five years.

2.3 Section 11A(2) of the National Parks and Access to the Countryside Act 1949 (National Parks), Section 17A of the Norfolk and Suffolk Broads Act 1988 (The Broads) and Section 85 of the Countryside and Rights of Way Act 2000 (AONBs) also sets out that relevant authorities “shall have regard” to the statutory purposes of AONBs and National Parks.

2.4 Guidance for Protected Landscape Management Plans has previously been separated out:

### **National Parks**

- [Countryside Agency National Park Management Plans Guidance \(2005\)\(CA216\)](#)
- DEFRA [National Park circular 2010](#)

### **AONBs**

- Countryside Agency [AONB Management Plans \(2001\) \(CA23\)](#)
- Countryside Agency [Review of AONB Management Plans \(2006\) \(CA221\)](#)
- NAAONB - [AONB Management Plans Support for their revision in England \(2017\)](#)

## **3. Background to the specific work area relevant to this project**

3.1 The main objective of this work is to produce easily updatable, relevant, and engaging content for new Management Plan Guidance, for National Parks and Areas of Outstanding Natural Beauty (AONBs), by the Spring of 2023. To help provide consistency across the Protected Landscapes family and not replicate sections of guidance, the intention is to have joint guidance, but some parts

will be specific to the different Protected Landscape bodies e.g. National Park Authorities, Conservation Boards, AONB Partnerships and the Broads Authority, it reflect the different requirements that specific legislation places on them. The current guidance documents are out of date and little used so this is an opportunity to start afresh and produce some guidance that will be used time and again and not sit on the shelf.

3.2 Natural England is taking a proactive leadership role in landscape conservation, enhancement and creation across England ensuring landscape is an integral part of Nature recovery for people and planet.

3.3 In June 2021, Natural England (NE), National Parks England (NPE) & National Association for Areas of Outstanding Natural Beauty (NAAONBs) signed a [Joint Agreement](#) that sets out a joint commitment to deliver more for people, nature and climate through our protected landscapes in England.

3.4 As part of this Joint Agreement, and in response to the Glover [Landscapes Review](#) (published September 2019), it was identified that there is a need for strengthened AONB and National Park Management Plans (sometimes also referred to as Partnership Plans) to set out clear priorities and actions, notably in relation to nature recovery and the response to climate change. The Landscapes Review also identified that plans should be developed and implemented in partnership, be visionary, ambitious, identify funding sources, have meaningful targets to measure performance and be underpinned by the natural capital approach.

3.5 In January 2022, the [Government produced its response](#) to the Landscapes Review (September 2019) and clearly set out a need to align local management plans with relevant national policies and targets such as the goals of the 25 Year Environment Plan (and subsequent Environment Improvement Plan (EIP)) and the Net Zero Strategy. It also set out the commitment that Natural England will review all revised management plans, ensuring that these make fair and ambitious contributions and to facilitate this new process, Natural England will also update their guidance on management plans for protected landscapes (both National Parks and AONBs). New ambitious outcomes based targets will also be agreed for the contribution that protected landscapes will make to the achievement of the government's goals, aligned with the EIP and interim environmental targets under the Environment Act 2021 and the Net Zero Strategy. Natural England will monitor and evaluate progress against the key indicators and outcomes (collectively known as the 'Outcomes Framework') and will also support individual protected landscapes to translate these national targets into their local management plans.

3.6 Defra also undertook engagement events as part of their consultation on their response to the Landscapes review, which included two sessions on Management Plans.

3.7 During February and March 2022, NPE, NAAONB and NE working together, commissioned Craggatak, to undertake a scoping study (attached at Appendix 1) to inform recommendations for the scope of new joint Management Plan Guidance for National Parks and AONBs in England. The study was structured in 5 threads, which included a web-search and desk-based review of existing documentation, a survey questionnaire sent to 10 National Parks and 17 AONBs, and a series of virtual interviews with 44 Natural England, National Park and AONB representatives with an interest in protected landscape management planning'.

3.8 The report:

- Took into account relevant key policy and regulatory drivers that have changed since previous Management Plan guidance was drawn up for National Parks in 2005 and for AONBs in 2006, to develop a checklist that Protected Landscape bodies can use as an aide memoir.
- Worked with Protected Landscape bodies and other partners to determine how the original guidance was used. This included what worked well and any issues or obstacles encountered.
- Highlighted areas that need improvement or are missing from the existing guidance.
- Thought creatively and imaginatively to come up with suggested form and content for new guidance

3.9 Key findings from the report (that the consultants will be expected to use as a guide) included:

- Despite being good in parts the existing guidance is little used. It supports people writing their first plan and is then used as an aide-memoire.
- The good practice advice is still relevant but needs updating.
- Its style is too prescriptive for today's management planners (one size does not fit all).
- New guidance should emphasise outcomes and not outputs.
- There is a need for guidance on climate change mitigation and adaption, nature recovery, and environmental land management.
- New guidance should highlight plans must be representative of society.
- There is need for new skills around engagement and the delivery of equitable benefits and community development.
- The new guidance needs to consider management planning, of which writing the management plan is but a part. Management planning is iterative (not linear) and will embrace governance, adaptive management planning, and the assessment of management effectiveness.
- Links to existing resources and toolkits will be better than developing bespoke guidance.
- The new guidance needs to be understandable and available to a range of people with differing needs and knowledge. It needs to be up to date – always; it must be easy to update. It must be relevant and practical. It should be interactive (e.g. by considering the use of visuals) and remain fresh.

#### **4. Project requirements**

4.1 Natural England would like to commission a Contractor to produce new joint Management Plan Guidance content for both National Parks and AONBs. The successful Contractor must: :

- Work with the Steering Group and Sounding Board to design new Protected Landscape Management Plan Guidance content that takes into account the recommendations of the scoping study outlined in 3.9.
- Take into account the Government's response to the consultation on the Landscapes Review Response expected Autumn 2022, to help shape the new guidance content.
- Consult informally on draft guidance, with stakeholders from a broad audience, including but not limited to National Park Authorities, AONB Partnerships, statutory undertakers, local planning authorities, NGOs, local communities and interest groups
- Make recommendations for the design and layout of Management Plan Guidance content

to take into account the use of technology in an innovative way to enable sections of the guidance to be updated as needed.

4.2 There are several areas of work that impact on the content of management plan guidance such as the forthcoming Protected Landscapes Targets and Outcomes Framework, and possible changes to legislation so consultants should be adaptable and flexible whilst taking this into account.

4.3 The new Management Plan Guidance should clearly set out the relationship between management plans and the planning system. It should respect and provide context for the local development framework, particularly in the creation of Local Plan as well as other locally specific circumstances. It should stress the important role the description of the special qualities can play in informing both plan making and development management.

4.4 The guidance should reflect the key findings from the Craggata study (paragraph 3.9) and where appropriate consultants should suggest other improvements/items for inclusion in the new guidance.

## **5. Outputs**

5.1 The outputs of this contract will be:

- New joint Protected Landscape Management Plan Guidance content, that will provide a framework for the preparation, review and monitoring of Protected Landscape Management Plans across England.
- Where helpful the guidance should include visuals/diagrams/graphics etc to explain the process or to explain aspects of the guidance
- The guidance will use consistent terminology that will be clearly explained in a list along with any acronyms used (as appendices)
- The new guidance needs to consider the whole management planning process, preparation, delivery, monitoring, reporting, assessment and review. Some sections will need to be specific to the different PL bodies; National Park Authorities, AONB Partnerships, Conservation Boards and Broads Authority.
- Development of content that can easily be updated as new policy/good practice becomes updated or available
- Development of static content that is universal to every Protected Landscape
- An inception meeting with the project Steering Group to help finalise the scope of the work and the steps consultants intend to take to meet the project requirements.
- An engagement plan detailing planned communications and consultation with stakeholders
- Meetings, as agreed by the steering group and consultants at inception, to ensure close liaison as the production of the guidance progresses and which allows them to input

information and views.

- A mid-way meeting with a wider 'sounding board' of partners to discuss progress, content and format
- A consultation draft of the Management Plan Guidance available for the steering group, sounding board and wider Protected Landscapes family and other interested parties to comment on.
- A final meeting where the near final draft guidance will be presented for final comments and sign off by the Steering Group
- Final guidance submitted/made available alongside views gathered from stakeholders on the draft guidance, to be provided in a report, along with any other evidence gathered. The content of the Management Plan Guidance needs to be available in word text so that it can easily be lifted into a web site along with any illustrations/images/maps in JPEG format
- Training session/presentation of final guidance to National Park and AONB Management Plan leads

5.2 It is anticipated that this contract will be desk based with virtual meetings and calls to make regular contact with the contract steering group, consultees and main NE contact.

5.3 The contract steering group will be made up of a small number of officers representing National Park Authorities, AONB partnerships, Natural England and Defra.

5.4 The sounding board will be made up of a wider group of officers representing National Park Authorities, AONB partnerships, Natural England, Government Departments, NGO reps and statutory undertakers etc

5.5 PLEASE NOTE – It is anticipated that this contract will run from November 2022 to 31<sup>st</sup> March 2023 with the end date being not later than **31/03/2023**. A draft timetable is set out below in section 6. Prices will remain fixed for the duration of the contract award period..

5.6 Bids are welcome from those wanting to join forces with a graphic designer to think about presentation/layout/web design etc. If including this then please ensure that these costs are presented separately.

## **6. Draft timetable**

### 3. How the Contract works

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

## 4. What needs to be delivered

### 4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

### 4.2 Goods clauses

(a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.

(b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.

(c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.

(d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.

(e) The Supplier must have full and unrestricted ownership of the Goods at the time of transfer of ownership.

(f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.

(g) The Supplier, its subcontractor(s) and supply chain must minimise packaging used whilst providing sufficient packaging for the Goods to reach the point of Delivery safely and undamaged. The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.

(h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.

(i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

(j) The Supplier will notify the Authority of any request that Goods are returned to it or the manufacturer after the discovery of safety issues or defects that might endanger health or hinder performance and shall indemnify the Authority against the costs arising as a result of any such request. Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

(k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

#### **4.3 Services clauses**

(c) The Authority must provide the Supplier Staff with reasonable access to its premises at such reasonable times agreed with the Authority for the purpose of supplying the Services.

(d) The Supplier must at its own risk and expense provide all equipment required to deliver the Services. Any equipment provided by the Authority to the Supplier for supplying the Services remains the property of the Authority and is to be returned to the Authority on expiry or termination of the Contract.

(e) The Supplier must allocate sufficient resources and appropriate expertise to the Contract.

(f) The Supplier must take all reasonable care to ensure performance does not disrupt the Authority's operations, employees or other contractors.

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

(i) The Authority is entitled to withhold payment for partially or undelivered Services or for Services which are not delivered in accordance with the Contract but doing so does not stop it from using its other rights under the Contract.

## 5. Pricing and payments

Any disputed amounts shall be resolved through the dispute resolution procedure detailed in clause 35.

5.6 If any sum of money is recoverable from or payable by the Supplier under the Contract (including any sum which the Supplier is liable to pay to the Authority in respect of any breach of the Contract), that sum may be deducted unilaterally by the Authority from any sum then due, or which may become due, to the Supplier under the Contract or under any other agreement or contract with the Authority. The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

- (c) the Worker's contract may be terminated at the Authority's request if the Worker provides information which the Authority considers isn't good enough to demonstrate how it complies with clause 31.2 or confirms that the Worker is not complying with those requirements;
- (d) the Authority may supply any information they receive from the Worker to HMRC for revenue collection and management.

## 32. Publicity

32.1 The Supplier and any subcontractor shall not make any press announcements or publicise this Contract or its contents in any way; without the prior written consent of the Authority.

32.2 Each Party acknowledges to the other that nothing in this Contract either expressly or by implication constitutes an endorsement of any products or services of the other Party and each Party agrees not to conduct itself in such a way as to imply or express any such approval or endorsement.

## 33. Conflict of interest

33.1 The Supplier must take action to ensure that neither the Supplier nor the Supplier Staff are placed in the position of an actual or potential conflict between the financial or personal duties of the Supplier or the Supplier Staff and the duties owed to the Authority under the Contract, in the reasonable opinion of the Authority.

33.2 The Supplier must promptly notify and provide details to the Authority if a conflict of interest happens or is expected to happen.

33.3 The Authority can terminate its Contract immediately by giving notice in writing to the Supplier or take any steps it thinks are necessary where there is or may be an actual or potential conflict of interest.

## 34. Reporting a breach of the contract

34.1 As soon as it is aware of it the Supplier and Supplier Staff must report to the Authority any actual or suspected breach of Law or breach of its obligations under the Contract.

34.2 Where an actual or suspected breach is notified to the Authority under clause 34.1, the Supplier will take such action to remedy any breach as the Authority may reasonably require. Where the breach is material, the Authority has the right to terminate under clause 11.4.

34.3 The Supplier must not retaliate against any of the Supplier Staff who in good faith reports a breach listed in clause 34.1.

## 35. Resolving disputes

35.1 If there is a dispute between the Parties, their senior representatives who have authority to settle the dispute will, within 28 days of a written request from the other Party, meet in good faith to resolve the dispute.

35.2 If the dispute is not resolved at that meeting, the Parties can attempt to settle it by mediation using the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedure current at the time of the dispute. If the Parties cannot agree on a mediator, the mediator will be nominated by CEDR. If either Party does not wish to use, or continue to use mediation, or mediation does not resolve the dispute, the dispute must be resolved using clauses 35.3 to 35.5.

35.3 Unless the Authority refers the dispute to arbitration using clause 35.4, the Parties irrevocably agree that the courts of England and Wales have the exclusive jurisdiction to:

- (a) determine the dispute;
- (b) grant interim remedies;
- (c) grant any other provisional or protective relief.

35.4 The Supplier agrees that the Authority has the exclusive right to refer any dispute to be finally resolved by arbitration under the London Court of International Arbitration Rules current at the time of the dispute. There will be only one arbitrator. The seat or legal place of the arbitration will be London and the proceedings will be in English.

35.5 The Authority has the right to refer a dispute to arbitration even if the Supplier has started or has attempted to start court proceedings under clause 35.3, unless the Authority has agreed to the court proceedings or participated in them. Even if court proceedings have started, the Parties must do everything necessary to ensure that the court proceedings are stayed in favour of any arbitration proceedings if they are started under clause 35.4.

35.6 The Supplier cannot suspend the performance of the Contract during any dispute.

35.7 The provisions of this clause 35 are without prejudice to the Authority's right to terminate or suspend the Contract under clause 11.

## 36. Which law applies

36.1 This Contract and any issues arising out of, or connected to it, are governed by English law.

36.2 The courts of England and Wales shall have jurisdiction to settle any dispute or claim (whether contractual or non-contractual) that arises out of or in connection with the Contract or its subject matter or formation.
