1. Industry Codes:

48132000 - Aviation test software package.

38540000 - Machines and apparatus for testing and measuring.

Section VI: Summary of Requirements / Description of Work, Goods and Services

1. Summary of Requirements / Description of Work: Aviation test software package. Machines and apparatus for testing and measuring. The Authority is considering the purchase of items of Test Equipment as detailed below;

IFF Mode 5 Ramp Test Set and Accessory Tripod

Interested parties should submit their Expression of Interest by email to
thomas.bamford@babcockinternational.com

Included in your expression of interest should the following information;

- Item technical specification documents
- Evidence of BS EN ISO 9001 (or equivalent standard) with appropriate scope for the requirement.

Please note that the Authority reserves the right to exclude any potential provider(s) whose accreditation does not cover the scope of the Authorities' requirement.

2. Main Place of Performance or Delivery: Telford and Wrekin
3. Can a supplier bid alone for only a part of the contract?: No

Section VII: Reverse Auction

1. Reverse Auction: Yes. A Reverse Auction, conducted using electronic means, may be used as part of the procurement process for this requirement. Specific relevant information on Reverse Auction usage will be given in the Invitation to Tender.

Section VIII: Estimated Value of Requirement

1. Estimated Value of Requirement: Category G1: 113K - 348K GBP

Section IX: QA Standards

1. QA Standards: BS EN ISO 9001 with appropriate scope

Section XII: Additional Information

1. Additional Information:

The contracting authority considers that this contract may be suitable for economic operators that are small or medium enterprises (SMEs). However, any selection of tenderers will be based solely on the criteria set out for the procurement. Suppliers interested in working with the MOD should register on its Supplier Information Database (SID), available at www.contracts.mod.uk. The SID is a catalogue of potential suppliers available to all MOD procurement staff, and is the main supplier database used by MOD. Please note that the registration and publication of a company profile on the SID does not mean or imply that the supplier has in any way been vetted or approved by the MOD. Suppliers wishing to compete for a contract opportunity must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions in the contract notice.

From 2 April 2014 the Government is introducing its new Government Security Classifications Policy (GSC) to replace the current Government Protective Marking Scheme. A key aspect of this is the reduction in the number of security classifications used. All suppliers to the Department are encouraged to make themselves aware of the changes as it may impact on this Requirement. The link below to the Gov.uk website provides information on the new GSC.

<https://www.gov.uk/government/publications/government-security-classifications>

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies, or otherwise.

Advertising Regime DCB:- These contract opportunities are published on mod Contracts Online and in the MoD Defence Contracts Bulletin.
