PART 1

Introduction and Background

1.1 Introduction

The island of St Helena is an internally self-governing Overseas Territory of the United Kingdom located in the South Atlantic Ocean approximately 4,000 miles from the UK. The Government comprises a Governor (who is appointed by the Crown) an Executive Council, which has the general control and direction of Government, and a Legislative Council. The Governor retains responsibility for internal security, external affairs, defence, the public service, finance and shipping.

The island's population is around 4,800 and it has a typical small island economy with a high import dependency, a narrow economic base and large public sector (around 780 staff). Economic development is constrained by St Helena's extreme isolation, its small and until recently declining population, and a lack of significant natural resources.

The Jamestown Swimming Pool consists of two pools, namely a 33m (100 foot) long main swimming pool and a smaller paddling pool. The pool was constructed in 1979 by the Royal Engineers and opened in November of that same year. The actual swimming pool is still in good condition however the plant facility that operates the pool is past its shelf life and is in need of complete replacement. This tender looks to address this issue and extend the lifespan of the pool for at least a further 40 years.

This Invitation to Tender (ITT) contains further information about the procurement process, the Goods and assessment questions for Tenderers to complete. Each Tenderer's response (Tender) should be detailed enough to allow SHG (the Authority) to make an informed selection of the most appropriate solution.

This invitation to tender (ITT):

- Asks Tenderers to submit their Tenders in accordance with the instructions set out in the remainder of this ITT.

- Provides Tenderers with sufficient information to enable them to submit a compliant Tender (including providing templates where relevant).
- Sets out the Award Criteria and the Tender Evaluation Model that will be used to evaluate the Tenders.
- Explains the administrative arrangements for the receipt of Tenders
