1 Scheme Type

This scheme is a value band B (£30k to £250k) Road Renewal Scheme.

2 Scheme Description

The purpose of this project is to resurface the hardshoulder and lane 1 of a 2 lane slip road between the mainline diverge and junction circulatory (the extent of HA boundary) which currently has a poor surface profile. The scheme consists of removal and replacement of the thin surface course system.

The works will include but are not limited to:

- Provision of temporary accommodation or all necessary facilities to meeting health and safety requirements;
- Planing off and resurfacing the existing thin surface course system over the width of the hardshoulder and lane 1 of the slip road over a length of not more than 500m;
- Amendment to the level (raising or lowering) of no more than 20 gully gratings and frames which are affected by the resurfacing works;
- Replacement of hardshoulder and edge of carriageway road markings for the length of the works;
- Provision and installation of road studs where required.

3 Road category on which the work is to be carried out

The works will take place adjacent to a dual three lane motorway.

4 Traffic Management

The provision of traffic management is outside the scope of this scheme.

5 Period within which the work is to be carried out

The works are to be carried out within Time Band 10.

6 Site Restrictions and Constraints

There are no identified site constraints or restrictions at the works location.

7 Indicative Programme and Season within which the work is to be carried out

The works are anticipated to be completed within 2 nights.

The majority of the works are to be constructed outside of British Summer Time.
