Section 1 – About UK Shared Business Services

Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for the Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows Contracting Authorities the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business, Energy and Industrial Strategy (BEIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities. Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

Privacy Statement

At UK Shared Business Services (UK SBS) we recognise and understand that your privacy is extremely important, and we want you to know exactly what kind of information we collect about you and how we use it.

This privacy notice link below details what you can expect from UK SBS when we collect your personal information.

- We will keep your data safe and private.
- We will not sell your data to anyone.

- We will only share your data with those you give us permission to share with and only for legitimate service delivery reasons.

<https://www.ukpbs.co.uk/use/pages/privacy.aspx>

Privacy Notice

This notice sets out how the Contracting Authority will use your personal data, and your rights. It is made under Articles 13 and/or 14 of the UK General Data Protection Regulation (UK GDPR).

YOUR DATA

The Contracting Authority will process the following personal data:

Names and contact details of employees involved in preparing and submitting the bid;
Names and contact details of employees proposed to be involved in delivery of the contract;
Names, contact details, age, qualifications and experience of employees whose CVs are submitted as part of the bid.

Purpose

The Contracting Authority are processing your personal data for the purposes of the tender exercise, or in the event of legal challenge to such tender exercise.

Legal basis of processing

The legal basis for processing your personal data is processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the data controller, such as the exercise of a function of the Crown, a Minister of the Crown, or a government department; the exercise of a function conferred on a person by an enactment; the exercise of a function of either House of Parliament; or the administration of justice.

Recipients

Your personal data will be shared by us with other Government Departments or public authorities where necessary as part of the tender exercise. The Contracting Authority may share your data if required to do so by law, for example by court order or to prevent fraud or other crime.

Retention

All submissions in connection with this tender exercise will be retained for a period of (7) years from the date of contract expiry, unless the contract is entered into as a deed in which case it will be kept for a period of (12) years from the date of contract expiry.

Your Rights

You have the right to request information about how your personal data are processed, and to request a copy of that personal data.

You have the right to request that any inaccuracies in your personal data are rectified without delay.

You have the right to request that any incomplete personal data are completed, including by means of a supplementary statement.

You have the right to request that your personal data are erased if there is no longer a justification for them to be processed.

You have the right in certain circumstances (for example, where accuracy is contested) to request that the processing of your personal data is restricted.

You have the right to object to the processing of your personal data where it is processed for direct marketing purposes.

You have the right to object to the processing of your personal data.

International Transfers

As your personal data is stored on our IT infrastructure and shared with our data processors Microsoft and Amazon Web Services, it may be transferred and stored securely in the UK and European Economic Area. Where your personal data is stored outside the UK and EEA it will be subject to equivalent legal protection through the use of Model Contract Clauses.

Complaints

If you consider that your personal data has been misused or mishandled, you may make a complaint to the Information Commissioner, who is an independent regulator. The Information Commissioner can be contacted at:

Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
0303 123 1113
casework@ico.org.uk

Any complaint to the Information Commissioner is without prejudice to your right to seek redress through the courts.

Contact Details

The data controller for your personal data is:

The Department for Business, Energy & Industrial Strategy (BEIS)

You can contact the Data Protection Officer at:

BEIS Data Protection Officer, Department for Business, Energy and Industrial Strategy, 1 Victoria Street, London SW1H 0ET. Email: dataprotection@beis.gov.uk.

Section 2 – About the Contracting Authority

UK Research and Innovation

Operating across the whole of the UK and with a combined budget of more than £6 billion, UK Research and Innovation represents the largest reform of the research and innovation funding landscape in the last 50 years.

As an independent non-departmental public body UK Research and Innovation brings together the seven Research Councils (AHRC, BBSRC, EPSRC, ESRC, MRC, NERC, STFC) plus Innovate UK and a new organisation, Research England.

UK Research and Innovation ensures the UK maintains its world-leading position in research and innovation. This is done by creating the best environment for research and innovation to flourish.

For more information, please visit: www.ukri.org

Section 3 - Working with the Contracting Authority.

In this section you will find details of your Procurement contact point and the timescales relating to this opportunity.

Section 3 – Contact details		
3.1.	Contracting Authority Name and address	UK Research and Innovation (UKRI) Polaris House Swindon SN2 1FL
3.2.	Buyer name	Fadzanai Nyarufuro
3.3.	Buyer contact details	ProfessionalServices@uksbs.co.uk
3.4.	Estimated value of the Opportunity	£25,000.00 excluding VAT
3.5.	Process for the submission of clarifications and Bids	All correspondence shall be submitted within the Messaging Centre of the e-sourcing. Guidance Notes to support the use of Delta eSourcing is available here. Please note submission of a Bid to any email address including the Buyer <u>will</u> result in the Bid <u>not</u> being considered.

Section 3 - Timescales		
3.6.	Date of Issue of Contract Advert on Contracts Finder	Thursday, 18th November 2021 Contracts Finder
3.7.	Latest date / time ITQ clarification questions shall be received through Delta eSourcing messaging system	Thursday, 25 th November 2021 11:00am
3.8.	Latest date / time ITQ clarification answers should be sent to all Bidders by the Buyer through Delta eSourcing Portal	Monday, 29 th November 2021
3.9.	Latest date and time ITQ Bid shall be submitted through Delta eSourcing	Friday, 3 rd December 2021 11:00am
3.10.	Date Bidders should be available if Clarifications are required	Monday, 6 th December 2021
3.11.	Anticipated notification date of successful and unsuccessful Bids	Wednesday, 5 th January 2022
3.12.	Anticipated Contract Award date	Wednesday, 5 th January 2022
3.13.	Anticipated Contract Start date	Friday, 14 th January 2022
3.14.	Anticipated Contract End date	Friday, 11 th March 2022
3.15.	Bid Validity Period	90 Days

Section 4 – Specification

1. Background

Introduction

UKRI is working in partnership with Ofgem to develop the future delivery model of the fund for the Ofgem Strategic Innovation Fund ('the SIF'). This is a new, multi-year innovation programme to transform energy networks innovation and position the UK as the Silicon Valley of energy systems innovation.

To support this programme we are interested in designing a data science function which adds additional value to the users and customers of the programme. These include internal teams, the public, innovators (funded through the programme and otherwise), investors, policy makers, and the energy networks themselves.

Innovate UK is progressing on its journey to becoming a data-driven organisation. With the Ofgem programme just starting, we have an opportunity to look at how we better capture, analyse and use data to offer additional value. With this we want to consider how approaches could be applied and scaled across the whole organisation. The project will therefore require close working with the Innovate UK data team, as well as the Ofgem Strategic Innovation Fund team.

Context and background

The SIF programme was launched publicly in August 2021. It is a £450M+ funding programme primarily focussed on delivering better outcomes to energy consumers through innovation. The top-level objectives to the programme are to;

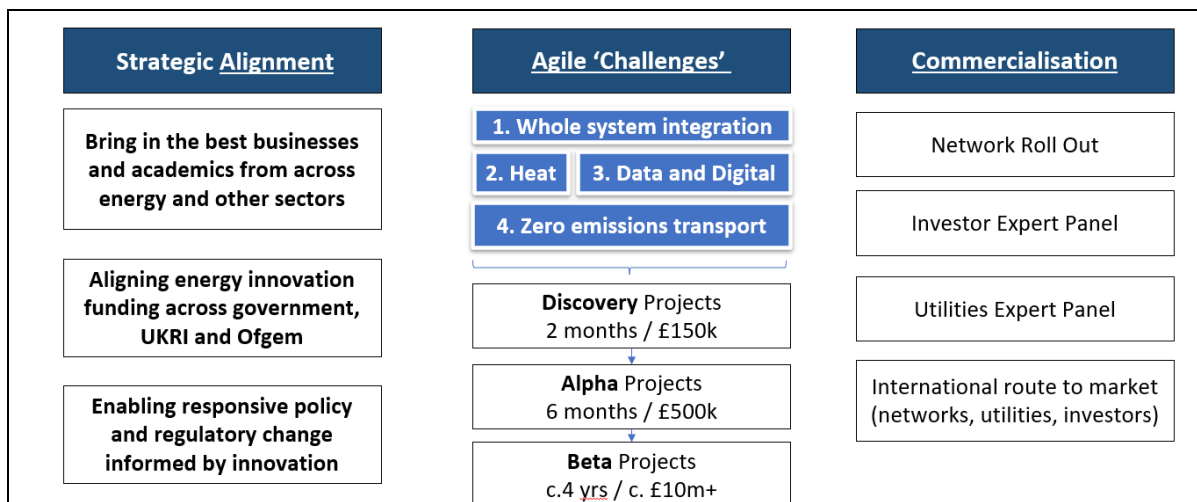

1. Deliver a net zero energy system at lowest costs to consumers
2. Position the UK as the 'Silicon Valley' of energy systems

The structure and rules for the programme are outlined and regulated through the SIF Governance Document.

Over the course of the programme, we will be setting a range of strategic challenge areas for innovation funding. This will look to tackle some of the critical challenges that exist for a successful transition to a net-zero energy transition. We have recently opened four challenges for energy network innovation funding across;

- Whole system integration
- Data and digitalisation
- Zero emission transport
- Heat

The SIF delivery model is structure around 3 core pillars:

We will capture data to support all 3 of these pillars. This includes data on;

- The businesses and researchers working across the innovation ecosystem and funded through SIF
- Funding applications, and findings, learning and knowledge generated through funded projects
- Impact and benefits evaluation metrics
- Investor readiness measurements, and data regarding international opportunities
- Policy and regulation considerations and evidence

Through this project we would like the chosen contractor to consider if we are capturing the most right data, structuring it in the most appropriate way, and how we can better present or make it accessible in order to meet the needs of our users. More description is provided on this below.

2. Aims and Objectives of the Project

What is needed for this project from the contractor?

This project will require close working with the Innovate UK data team, helping to develop capability within the Innovate UK team, as well as delivering the core deliverables of the tender. We also have a SIF programme, whom work with Ofgem to collaboratively deliver the SIF in a way which integrates and aligns with other innovation programmes. We are working together in an agile manner across these teams to develop proposals for the SIF, but which could also provide value more widely across Innovate UK and UKRI.

The Data Discovery, Analysis, and Design project is proposed to be structured in 3 phases, each covering distinct activities and outputs. However, we do invite variations and advice around the delivery model of this project by respondents to help achieve the best outcomes within the project lifecycle.

	Proposed activities	Proposed outputs
Discovery	Identify what information the following user groups would benefit from through innovation projects.	Discovery Paper outlining

	<ul style="list-style-type: none"> - Ofgem and Government - Non-funded innovators - Consumers and the general public - Investors and stakeholders involved in procurements <p>Identify how the data is currently captured within Innovate UK.</p> <p>Review the current process used for capturing and processing evaluation and benefits data.</p> <p>Review existing tools that Innovate UK are, and are not, currently using.</p>	<ul style="list-style-type: none"> • Information required by Innovation project stakeholders. • Methods of capture. • Current systems available through innovate that support capturing.
Analysis	<p>Perform a SWOT and GAP analysis of these current data processes to make recommendations for future solution, including:</p> <ul style="list-style-type: none"> • Which metrics are captured during the application, monitoring and reporting of projects. Whether the format of how these are captured and whether any should be converted into alternative data formats (i.e., natural language, defined parameters etc.) • The KPIs and evaluation metrics captured. This includes formats, methods, and the systems used. • The type of capabilities we need within the team, including recruitment and contracting. Outline the best way to deliver these services (i.e. within the Ofgem team, IUK data team etc.). Please note, a wider exercise is currently ongoing across Innovate UK to understand the requirements and capabilities needed within the core data team. This project should complement and support that work. 	<ul style="list-style-type: none"> • SWOT & Gap Analysis • Analysis and Recommendations paper

Design	<p>Propose what data services would provide value to innovators, regulators, Government and investors. Outlining solutions that consider:</p> <ul style="list-style-type: none"> • How IUK can maximise the use of existing systems (rather than build further silos of data) • Make recommendations for how we could create datasets through the application, reporting and monitoring processes. • Consider, where existing systems may not be fit for purpose where new data systems may be beneficial. For instance, to reduce data siloes. <p>Outline an MVP delivery and least regrets options. These might include, but should not be limited to;</p> <ul style="list-style-type: none"> • A digital investor platform. • A brokerage digital platform for people to find and start building proposals with. • An interactive insight tool showing things like location, technical focus, maturity, stakeholders etc involved in all projects. • A mechanism for best sharing knowledge, learning, and datasets from funded projects. 	<p>Solution Outline to include</p> <ul style="list-style-type: none"> • Proposed MVP Solution Architecture • Roadmap • Staffing requirements and plan • The potential benefits to implementation
--------	---	--

This work will be carried out remotely via video conferencing and other online tools. We expect the contractor to attend a weekly progress meeting with Innovate UK. The principal point of contact within the Innovate UK team will be within the data team, with supportive involvement from the SIF team. We expect the contractor to integrate with the existing team on a day-to-day basis, working openly and collaboratively whilst making themselves available to join workshops and meetings as necessary.

We request a 1.5 hour kick off meeting to develop a shared view of the aims of the project, to prioritise work, and agree initial deliverables. This should be led by the chosen contractor. We will also carry out a midpoint project review meeting, and a close out meeting to review and reflect on deliverables and learnings from the project.

Skills and expertise required

The external support should demonstrate capability and expertise in the following areas:

- The ability to work in an agile, flexible, and adaptable manner.
- A willingness to challenge ideas and demonstrate experience of achieving influence across the energy industry.
- Ability to use best practice in qualitative and quantitative data analysis techniques.
- Excellent written and verbal communication skills for engaging with others and delivering findings.
- Communicating analysis and insight. Knowing how to use the most appropriate medium to visualise data to tell compelling and actionable stories relevant for business goals. You can present, communicate and disseminate analysis and recommendations effectively, appropriately and with high impact.
- Performance measurement. Knowing how to enable the team to develop a performance framework including KPIs or a service or product. You can provide the intelligence to support the formulation of both short-term and long-term strategic plans. You can identify and analyse options, and assess their feasibility and operational impact. You can ensure that business solutions are aligned with strategy, business goals and end user needs.
- Technical understanding. Up to date understanding of industry developments regarding data management, use, and analysis. So that you make cost-effective use of new and emerging tools and technologies. You keep up to date with advances in digital analytics tools and data manipulation products.
- Understanding analysis across the product life cycle. You understand the different phases of product delivery and can plan and run the analysis for these. You can contribute to decision-making throughout the product life cycle. You can work in collaboration with user researchers, developers, and other roles throughout the product life cycle. You understand the value of analysis, how to contribute with impact, and what data sources, analytical techniques and tools can be used at each point throughout the product life cycle.
- Understanding constraints. You understand and can work within given constraints (including but not limited to technology, policy, regulatory, financial, legal, ethical, social, user constraints). You feel comfortable challenging constraints that can be changed. You know how to ensure compliance against constraints by adapting products and services where needed with a particular focus on data security and privacy concepts including data protection.
- Undertaking analysis and providing insight. You can turn data into valuable insights that inform decisions. You understand analytical tools; you are numerate. You know how to collect, collate, cleanse, and interpret data to derive meaningful and actionable insights. You can identify and apply the most appropriate analytical techniques to bring different sources together to tell a story. You know how to involve teams in analytics to increase consensus and challenge assumptions.
- User-centred analysis. You understand and can identify who users are and what their needs are, based on evidence. You put users first and can manage competing priorities. You understand the importance of analysis to user-centred design and know how to collaborate with professions that are focused on user-centred design (for example, user research, user experience, content, design, business analysis). You can act as a voice of the internal user and end user and

can bring together data from varying sources to ensure that all members of agile delivery teams have access to actionable insights.

- Verification and validation of data and analysis. You know about quality assurance techniques including those used by other analytical professions. You can identify the right data sources and then validate and understand how to interpret the results. You know how to ensure that data is fit for purpose.

3. Suggested Methodology

Your approach to delivery.

For the delivery of this work, we expect the successful supplier to:

- Partner with an extensive range of stakeholders. You should have a robust framework and plan for managing this engagement, and not presume reliance on UKRI, or Ofgem. UKRI will facilitate introductions with energy sector stakeholders who will be engaged with the SIF, but it is also expected that the delivery contractor would benefit from having some knowledge and networks with the energy sector (including through a partnership bid, if necessary).
- Take an agile and iterative approach to delivery. Using best practices and modern tools for effective delivery.
- Consider how the impacts of Covid-19 disruption, and hybrid ways of working could introduce risk to the delivery of this project, and how you will manage those risks. Particularly how you will effectively engage stakeholders.
- Work effectively and collaboratively with the full range of teams internal to UKRI, balancing requirements and achieving consensus.
- Embrace the delivery team’s ways of working, such as:
 - Agile delivery practices
 - using tools and systems that best enable UKRI and Ofgem to make best use deliverables
 - maximising corporate knowledge retention throughout delivery i.e. strong documentation of work through the development stages of the programme
 - ensuring effective handover to the delivery team on conclusion of the work
- Ensure that the outputs are presented in a professional manner, that can be shared with Ofgem and any other delivery partners.
- Outputs delivered will be the property of Innovate UK and shared with OFGEM and BEIS.

4. Deliverables

	Proposed outputs
Discovery	Discovery Paper outlining <ul style="list-style-type: none"> • Information required by Innovation project stakeholders. • Methods of capture. • Current systems available through innovate that support capturing.

Analysis	<ul style="list-style-type: none"> • SWOT & Gap Analysis • Analysis and Recommendations paper
Design	<p>Solution Outline to include</p> <ul style="list-style-type: none"> • Proposed MVP Solution Architecture • Roadmap • Staffing requirements and plan • The potential benefits to implementation

Please note that the scoping report will be made available in the public domain.

Section 5 – Evaluation model

The evaluation model below shall be used for this ITQ, which will be determined to two decimal places.

Where a question is 'for information only' it will not be scored.

The evaluation team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required.

The evaluation and if required team may comprise staff from UK SBS and the Contracting Authority and any specific external stakeholders the Contracting Authority deems required. After evaluation and if required moderation scores will be finalised by performing a calculation to identify (at question level) the mean average of all evaluators (Example – a question is scored by three evaluators and judged as scoring 5, 5 and 6. These scores will be added together and divided by the number of evaluators to produce the final score of 5.33 ($5+5+6=16\div3=5.33$))

Pass / Fail criteria		
Questionnaire	Q No.	Question subject
Commercial	SEL1.2	Employment breaches/ Equality
Commercial	SEL1.3	Compliance to Section 54 of the Modern Slavery Act
Commercial	SEL2.10	Cyber Essentials
Commercial	SEL2.12	General Data Protection Regulations (GDPR) Act and the Data Protection Act 2018
Commercial	FOI1.1	Freedom of Information
Commercial	AW1.1	Form of Bid
Commercial	AW1.3	Certificate of Bona Fide Bid
Commercial	AW3.1	Validation check
Commercial	AW4.1	Compliance to the Contract Terms
Commercial	AW4.2	Changes to the Contract Terms
Commercial	AW6.3	Non-Disclosure Agreement
Commercial	AW6.4	Justification
Price	AW5.1	Maximum Budget
Price	AW5.4	E Invoicing
Quality	AW6.1	Compliance to the Specification
Quality	AW6.2	Variable Bids
-	-	Invitation to Quote – received on time within e-sourcing tool
In the event of a Bidder failing to meet the requirements of a Mandatory pass / fail criteria, the Contracting Authority reserves the right to disqualify the Bidder and not consider evaluation of any of the Award stage scoring methodology or Mandatory pass / fail criteria.		

Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this ITQ. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	20%
Quality	PROJ1.1	Approach	25%
Quality	PROJ1.2	Staff to Deliver	25%
Quality	PROJ1.3	Understanding the Environment	10%
Quality	PROJ1.4	Project Plan and Timescales	10%
Quality	PROJ1.5	Risk Management	10%

Evaluation of criteria

Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.

60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60
 Evaluator 2 scored your bid as 60
 Evaluator 3 scored your bid as 40
 Evaluator 4 scored your bid as 40
 Your final score will $(60+60+40+40) \div 4 = 50$

Once the above evaluation process has been undertaken and the scores are apportioned by evaluator(s) this will then be subject to an independent commercial review and moderation meeting, if required by the commercial lead, any and all changes will be formally recorded relative to the regulatory obligations associated with this procurement, so as to ensure that the procurement has been undertaken in a robust and transparent way.

Price elements will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100. All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.
 Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80
 Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.
 Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.
 Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.
 Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.
 Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50.

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: $\text{Score/Total Points multiplied by 50}$ $(80/100 \times 50 = 40)$

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

This evaluation criteria will therefore not be subject to any averaging, as this is a mathematical scoring criteria, but will still be subject to a commercial review.

Evaluation process

The evaluation process will feature some, if not all, the following phases.

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> • ITQ logged upon opening in alignment with UK SBS's procurement procedures. • Any ITQ Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.
Compliance check	<ul style="list-style-type: none"> • Check all Mandatory requirements are acceptable to the Contracting Authority. • Unacceptable Bids maybe subject to clarification by the Contracting Authority or rejection of the Bid.
Scoring of the Bid	<ul style="list-style-type: none"> • Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the criteria.
Clarifications	<ul style="list-style-type: none"> • The Evaluation team may require written clarification to Bids
Re - scoring of the Bid and Clarifications	<ul style="list-style-type: none"> • Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Evaluation criteria.
Moderation meeting (if required to reach an award decision)	<ul style="list-style-type: none"> • To review the outcomes of the Commercial review • To agree final scoring for each Bid, relative rankings of the Bids
Due diligence of the Bid	<ul style="list-style-type: none"> • the Contracting Authority may request the following requirements at any stage of the Procurement. • Submission of insurance documents from the Bidder • Request for evidence of documents / accreditations referenced in the / Invitation to Quote response / Bid and / or Clarifications from the Bidder • Taking up of Bidder references from the Bidders Customers. • Financial Credit check for the Bidder
Validation of unsuccessful Bidders	<ul style="list-style-type: none"> • To confirm contents of the letters to provide details of scoring and meaningful feedback on the unsuccessful Bidders Bid in comparison with the successful Bidders Bid.

Section 6 – Evaluation questionnaire

Bidders should note that the evaluation questionnaire is located within the **e-sourcing questionnaire**.

Guidance on how to register and use the e-sourcing portal is available at <http://www.uksbs.co.uk/services/procure/Pages/supplier.aspx>

PLEASE NOTE THE QUESTIONS ARE NOT NUMBERED SEQUENTIALLY

Section 7 – General Information

What makes a good bid – some simple do's 😊

DO:

- 7.1 Do comply with Procurement document instructions. Failure to do so may lead to disqualification.
- 7.2 Do provide the Bid on time, and in the required format. Remember that the date/time given for a response is the last date that it can be accepted; we are legally bound to disqualify late submissions. Responses received after the date indicated in the ITQ shall not be considered by the Contracting Authority, unless the Bidder can justify that the reason for the delay, is solely attributable to the Contracting Authority
- 7.3 Do ensure you have read all the training materials to utilise e-sourcing tool prior to responding to this Bid. If you send your Bid by email or post it will be rejected.
- 7.4 Do use Microsoft Word, PowerPoint Excel 97-03 or compatible formats, or PDF unless agreed in writing by the Buyer. If you use another file format without our written permission, we may reject your Bid.
- 7.5 Do ensure you utilise the Delta eSourcing messaging system to raise any clarifications to our ITQ. You should note that we will release the answer to the question to all Bidders and where we suspect the question contains confidential information, we may modify the content of the question to protect the anonymity of the Bidder or their proposed solution
- 7.6 Do answer the question, it is not enough simply to cross-reference to a 'policy', web page or another part of your Bid, the evaluation team have limited time to assess bids and if they can't find the answer, they can't score it.
- 7.7 Do consider who the Contracting Authority is and what they want – a generic answer does not necessarily meet every Contracting Authority's needs.
- 7.8 Do reference your documents correctly, specifically where supporting documentation is requested e.g. referencing the question/s they apply to.
- 7.9 Do provide clear, concise and ideally generic contact details; telephone numbers, e-mails and fax details.
- 7.10 Do complete all questions in the questionnaire or we may reject your Bid.
- 7.11 Do ensure that the Response and any documents accompanying it are in the English Language, the Contracting Authority reserve the right to disqualify any full or part responses that are not in English.
- 7.12 Do check and recheck your Bid before dispatch.

What makes a good bid – some simple do not's

DO NOT

- 7.13 Do not cut and paste from a previous document and forget to change the previous details such as the previous buyer's name.
- 7.14 Do not attach 'glossy' brochures that have not been requested, they will not be read unless we have asked for them. Only send what has been requested and only send supplementary information if we have offered the opportunity so to do.
- 7.15 Do not share the Procurement documents, they are confidential and should not be shared with anyone without the Buyers written permission.
- 7.16 Do not seek to influence the procurement process by requesting meetings or contacting UK SBS or the Contracting Authority to discuss your Bid. If your Bid requires clarification the Buyer will contact you. All information secured outside of formal Buyer communications shall have no Legal standing or worth and should not be relied upon.
- 7.17 Do not contact any UK SBS staff or the Contracting Authority staff without the Buyers written permission or we may reject your Bid.
- 7.18 Do not collude to fix or adjust the price or withdraw your Bid with another Party as we will reject your Bid.
- 7.19 Do not offer UK SBS or the Contracting Authority staff any inducement or we will reject your Bid.
- 7.20 Do not seek changes to the Bid after responses have been submitted and the deadline for Bids to be submitted has passed.
- 7.21 Do not cross reference answers to external websites or other parts of your Bid, the cross references and website links will not be considered.
- 7.22 Do not exceed word counts, the additional words will not be considered.
- 7.23 Do not make your Bid conditional on acceptance of your own Terms of Contract, as your Bid will be rejected.
- 7.24 Do not unless explicitly requested by the Contracting Authority either in the procurement documents or via a formal clarification from the Contracting Authority send your response by any way other than via e-sourcing tool. Responses received by any other method than requested will not be considered for the opportunity.

Some additional guidance notes

- 7.25 All enquiries with respect to access to the e-sourcing tool and problems with functionality within the tool must be submitted to Delta eSourcing, Telephone 0845 270 7050
- 7.26 Bidders will be specifically advised where attachments are permissible to support a question response within the e-sourcing tool. Where they are not permissible any attachments submitted will not be considered as part of the evaluation process.

- 7.27 Question numbering is not sequential and all questions which require submission are included in the Section 6 Evaluation Questionnaire.
- 7.28 Any Contract offered may not guarantee any volume of work or any exclusivity of supply.
- 7.29 We do not guarantee to award any Contract as a result of this procurement
- 7.30 All documents issued or received in relation to this procurement shall be the property of the Contracting Authority / UKSBS.
- 7.31 We can amend any part of the procurement documents at any time prior to the latest date / time Bids shall be submitted through the Delta eSourcing Portal.
- 7.32 If you are a Consortium you must provide details of the Consortiums structure.
- 7.33 Bidders will be expected to comply with the Freedom of Information Act 2000, or your Bid will be rejected.
- 7.34 Bidders should note the Government's transparency agenda requires your Bid and any Contract entered into to be published on a designated, publicly searchable web site. By submitting a response to this ITQ Bidders are agreeing that their Bid and Contract may be made public
- 7.35 Your bid will be valid for 90 days or your Bid will be rejected.
- 7.36 Bidders may only amend the contract terms during the clarification period only, only if you can demonstrate there is a legal or statutory reason why you cannot accept them. If you request changes to the Contract terms without such grounds and the Contracting Authority fail to accept your legal or statutory reason is reasonably justified, we may reject your Bid.
- 7.37 We will let you know the outcome of your Bid evaluation and where requested will provide a written debrief of the relative strengths and weaknesses of your Bid.
- 7.38 If you fail mandatory pass / fail criteria we will reject your Bid.
- 7.39 Bidders are required to use IE8, IE9, Chrome or Firefox in order to access the functionality of the Delta eSourcing Portal.
- 7.40 Bidders should note that if they are successful with their proposal the Contracting Authority reserves the right to ask additional compliancy checks prior to the award of any Contract. In the event of a Bidder failing to meet one of the compliancy checks the Contracting Authority may decline to proceed with the award of the Contract to the successful Bidder.
- 7.41 All timescales are set using a 24-hour clock and are based on British Summer Time or Greenwich Mean Time, depending on which applies at the point when Date and Time Bids shall be submitted through the Delta eSourcing Portal.
- 7.42 All Central Government Departments and their Executive Agencies and Non-Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. The information will not be disclosed outside Government. Bidders taking part in this ITQ consent to these terms as part of the competition process.

- 7.43 The Government introduced its new Government Security Classifications (GSC) classification scheme on the 2nd April 2014 to replace the current Government Protective Marking System (GPMS). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC. The link below to the Gov.uk website provides information on the new GSC:

<https://www.gov.uk/government/publications/government-security-classifications>

The Contracting Authority reserves the right to amend any security related term or condition of the draft contract accompanying this ITQ to reflect any changes introduced by the GSC. In particular where this ITQ is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

USEFUL INFORMATION LINKS

- [Contracts Finder](#)
- [Equalities Act introduction](#)
- [Bribery Act introduction](#)
- [Freedom of information Act](#)

8.0 Freedom of information

8.4.1 In accordance with the obligations and duties placed upon public authorities by the Freedom of Information Act 2000 (the 'FoIA') and the Environmental Information Regulations 2004 (the 'EIR') (each as amended from time to time), UK SBS or the Contracting Authority may be required to disclose information submitted by the Bidder to the to the Contracting Authority.

8.4.2 In respect of any information submitted by a Bidder that it considers to be commercially sensitive the Bidder should complete the Freedom of Information declaration question defined in the Question FO11.2.

8.4.3 Where a Bidder identifies information as commercially sensitive, the Contracting Authority will endeavour to maintain confidentiality. Bidders should note, however, that, even where information is identified as commercially sensitive, the Contracting Authority may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, the Contracting Authority is required to form an

independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, the Contracting Authority cannot guarantee that any information marked ‘confidential’ or “commercially sensitive” will not be disclosed.

8.4.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS or the Contracting Authority and the Bidder should not attempt to answer the request without first consulting with the Contracting Authority.

8.4.5 Bidders are reminded that the Government’s transparency agenda requires that sourcing documents, including ITQ templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS or the Contracting Authority, and any contract entered into by the Contracting Authority with its preferred supplier once the procurement is complete. By submitting a response to this ITQ Bidders are agreeing that their participation and contents of their Response may be made public.

8.5. Response Validity

8.5.1 Your Response should remain open for consideration for a period of 90 days A Response valid for a shorter period may be rejected.

8.6. Timescales

8.6.1 [Section 3](#) of the ITQ sets out the proposed procurement timetable. the Contracting Authority reserves the right to extend the dates and will advise potential Bidders of any change to the dates.

8.7. The Contracting Authority’s Contact Details

8.7.1 Unless stated otherwise in these Instructions or in writing from UK SBS or the Contracting Authority, all communications from Bidders (including their sub-contractors, consortium members, consultants and advisers) during the period of this procurement must be directed through the e-sourcing tool to the designated UK SBS contact.

8.7.2

All enquiries with respect to access to the e-sourcing tool may be submitted to Delta eSourcing on 0845 270 7050 please note this is a free self-registration website and this can be done by completing the online questionnaire at <https://uksbs.delta-esourcing.com/>

8.7.3 Bidders should be mindful that the designated Contact should not under any circumstances be sent a copy of their Response outside of the e-sourcing tool. Failure to follow this requirement will result in disqualification of the Response.
