- G1.10 If, for whatever reason, the Contractor fails to give effect to and maintain the insurances required by the provisions of the Contract the Authority may make alternative arrangements to protect its interests and may recover the costs of such arrangements from the Contractor.
- G1.11 The provisions of any insurance or the amount of cover shall not relieve the Contractor of any liabilities under the Contract. It shall be the responsibility of the Contractor to determine the amount of insurance cover that will be adequate to enable the Contractor to satisfy any liability referred to in clause G1.2.
- G1.12 The Contractor shall effect and maintain with a reputable insurance company a fidelity insurance policy or policies in respect of the loss, theft or misappropriation of moneys which is appropriate and as would be considered reasonable for a supplier similar to the Contractor providing services similar to or the same as the Services whilst in the custody or possession of the Contractor, or its Staff.

Such insurance shall be maintained for a minimum of six (6) years following the expiration or earlier termination of the Contract.

- G2.4 The Contractor shall, on request, provide the Authority with copies of all insurance policies referred to in clause G2.1 or a broker's verification of insurance to demonstrate that the appropriate cover is in place, together with receipts or other evidence of payment of the latest premiums due under those policies.

H4 Consequences of Expiry or Termination

The Authority shall take all reasonable steps to mitigate such expenditure. Authority. In addition, the Authority will reimburse any additional expense reasonably incurred by the Contractor as a direct result of such disruption.

- H5.6 The Contractor shall have a Business Continuity Plan in place, agreed with the Authority, to ensure that the Service to the Authority will be maintained in the event of disruption (including, but not limited to, disruption to information technology systems) to the Contractor's operations, and those of Sub-contractors to the Contractor, however caused. Such contingency plans shall be available for the Authority to inspect and to practically test at any reasonable time, and shall be subject to regular updating and revision throughout the Contract Period.

H6 Recovery and Obligations upon Termination

- H6.1 On the expiry or termination of the Contract for any reason (or in advance if stated as such), the Contractor shall:

(b) without prejudice to Clause H6.1(a), if requested by the Authority, transfer to the Authority (or such other person as the Authority may direct) all Participants' records (or specific Participants' records as identified by the Authority). Where ownership of such records is not vested in the Authority, the Contractor shall transfer, or procure the transfer of, all rights, title and interest in and to such records to the Authority (or such other person as the Authority may direct) at no cost to the Authority (or the third person as the case may be);

(c) if requested by the Authority, promptly deliver to the Authority all Property (including materials, documents, information and access keys) provided to the Contractor by the Authority. Such property shall be handed back in good working order (allowance shall be made for reasonable wear and tear);

(d) assist and co-operate with the Authority to ensure an orderly transition of the provision of the Services to the Replacement Contractor and/or the completion of any work in progress in accordance with the provisions of Schedule 12 (Arrangements leading up to Expiry or Termination);

(e) no later than twelve (12) Months in advance of expiry or upon termination of this Contract, promptly provide all information concerning the supply of the Services which may reasonably be requested by the Authority for the purposes of adequately understanding the manner in which the Services have been supplied or for the purpose of allowing the Authority or the Replacement Contractor to conduct due diligence in accordance with Clause B13 (Employee Provisions on Expiry or

Termination) and the provisions of Schedule 12 (Arrangements leading up to Expiry or Termination);

(f) if requested by the Authority, use all reasonable endeavours to procure the transfer of any licences, or the granting of an appropriate licence or sub-licence, to the Authority or the Replacement Contractor of any third party Intellectual Property Rights that are necessary for the continued supply of the Services following termination or expiry of the Contract. Where the owner of the third party Intellectual Property Rights requires payment in consideration for transferring or granting such licence or sub-licence (the “**Transfer Fee**”) the Contractor shall first notify the Authority. If the Authority informs the Contractor that the transfer/granting of a licence should proceed, the Authority shall (unless the end of the Contract Period arises due to the Contractor’s Default) be responsible for paying the Transfer Fee. For the avoidance of doubt, the Authority shall have no liability for any Transfer Fee that the Contractor has incurred without obtaining Approval; and

(g) repay to the Authority the Fees (or any part(s) thereof) the Contractor has been paid in advance in respect of Services not provided by the Contractor as at the date of expiry or termination.

H6.2 If the Contractor fails to comply with Clauses H6.1 (a) - (c), the Authority may recover possession thereof and the Contractor grants a licence to the Authority or its appointed agents to enter (for the purposes of such recovery) any premises of the Contractor or its permitted suppliers or Sub-contractors where any such items may be held.

H6.3 Where the end of the Contract Period arises due to the Contractor’s Default, the Contractor shall provide all assistance under Clause H6.3 (d) and (e) free of charge. Otherwise, the Authority shall pay the Contractor’s reasonable costs of providing the assistance and the Contractor shall take all reasonable steps to mitigate such costs.

H6.4 At the end of the Contract Period (howsoever arising) the licence granted pursuant to Clause E8.2 shall automatically terminate without the need to serve notice.

I. DISPUTES AND LAW

I 1 Governing Law and Jurisdiction

The Contract shall be governed by and interpreted in accordance with English law and the Parties submit to the jurisdiction of the English courts. Each Party irrevocably waives any objection which it might at any time have to the courts of England being nominated as the forum to hear and decide any proceedings and to settle any disputes and agrees not to claim that the courts of England are not a convenient or appropriate forum.

I 2 Dispute Resolution

- I 2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within twenty (20) Working Days of either Party notifying the other of the dispute. Such efforts shall involve the escalation of the dispute ultimately to the commercial director (or equivalent) (or such other person as he may direct) of each Party.
- I 2.2 Nothing in this dispute resolution procedure shall prevent the Parties from seeking from any court of competent jurisdiction an interim order restraining the other Party from doing any act or compelling the other Party to do any act.
- I 2.3 If the dispute cannot be resolved by the Parties pursuant to clause I 2.1 the Parties shall refer it to mediation pursuant to the procedure set out in clause I 2.5 unless (a) the Authority considers that the dispute is not suitable for resolution by mediation; or (b) the Contractor does not agree to mediation.
- I 2.4 The obligations of the Parties under the Contract shall not cease, or be suspended or delayed by the reference of a dispute to mediation (or arbitration) and the Contractor and its Staff shall comply fully with the requirements of the Contract at all times.
- I 2.5 The procedure for mediation and consequential provisions relating to mediation are as follows:
- a) a neutral adviser or mediator (the “Mediator”) shall be chosen by agreement between the Parties, or if they are unable to agree upon a Mediator within ten (10) Working Days after a request by one Party to the other or if the Mediator agreed upon is unable or unwilling to act, either Party shall within ten (10) Working Days from the date of the proposal to appoint a Mediator, or within ten (10) Working Days of notice to either Party that he is unable or unwilling to act, apply to a mediation provider to appoint a Mediator.
 - b) The Parties shall within ten (10) Working Days of the appointment of the Mediator meet with him in order to agree a programme for the exchange of all relevant information and the structure to be adopted for negotiations to be held. If considered appropriate, the Parties may at any stage seek assistance from a mediation provider to provide guidance on a suitable procedure.
 - c) Unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings.
 - d) If the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives.
 - e) Failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be

provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties.

- f) If the Parties fail to reach agreement in the structured negotiations within sixty (60) Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the Courts.

SCHEDULE 2 – MINIMUM PERFORMANCE LEVELS AND CUSTOMER SERVICE STANDARDS

1.1 MINIMUM PERFORMANCE LEVELS

MINIMUM PERFORMANCE LEVELS	
<ol style="list-style-type: none"> 1. 100% of referrals either Start, Do not Start or Do not attend, and the Start or Did not attend/Did not Start (as more particularly described in the Specification) action is recorded in PRaP within 20 working days of referral; 2. a minimum of 80% of referrals, measured both on an in-month basis and a cumulative basis, that are recorded on PRaP by DWP, Start the provision; 3. as a minimum the number of Provision Starts will never be below 85% of the cumulative starts profile as set out in the Starts Cohorts; 4. cumulative referral backlogs (as more particularly described in the Specification) must be below 2%; 5. no one will be in backlog for over 40 working days from the date of referral; 6. The Contractor specified expected Short Job Outcome rates as part of the Tender and these are set out in the table below; these are expressed as a single percentage of Starts made for each Starts Cohort 7. The Contractor specified expected Sustained Job Outcome rates as part of the Tender and these are set out in the table below; these are expressed as a single percentage of Starts made for each Starts Cohort. 8. In addition to in-month measures, all Job Outcome performance measures will also include rolling cumulative performance from day one of the contract. 	
•	Short Job Outcomes as set out in the table below
•	Sustained Job Outcomes as set out in the table below
•	The conversion of Starts to Short Job Outcomes on a profiled Cohort basis as set out in the table below
•	The conversion of Starts to Sustained Job Outcomes on a profiled Cohort basis as set out in the table below

The Authority shall be entitled to measure the Contractor's performance under the Contract in relation to Cohort Profiles net of any extrapolation error and where there is no measure for a cohort the last used extrapolation error shall be used for determining net performance for performance management purposes. When an extrapolation error is established for a cohort then that revised extrapolation error shall be used. By way of example and for the avoidance of doubt, if the Contractor is achieving 100% of profile

for a cohort, but they have an error rate of 10%, for performance management purposes the Authority would deem the Contractor's performance to be 90%, and it is the 90% which the Authority would use for contract performance management purposes.

More details of how cohorts are managed under the Contract are set out in the Specification and the Provider Guidance.

This should be free text of at least 500 words;• in 100% of cases (where requested), send a copy of the final Action Plan to the Authority within 5 working days of the request;• any other Customer Service Standards detailed in the Tender.

3 Measuring and Monitoring Performance

- 3.1 For the flow of new Participants, performance will be measured against Cohort Profiles based on Minimum Performance Levels (MPLs).
- 3.2 The Contractor shall achieve or exceed the Cohorts and the Cohort Profiles in the manner more specifically described in the Minimum Performance Levels.
- 3.3 The Authority may add Cohorts together to provide information about performance over a different length of time, such as a quarter, year, or cumulatively over (potentially) the duration of a contract.
- 3.4 Over the lifetime of the contract, a given cohort is expected to achieve a total minimum number of job outcomes (both Short Job Outcomes and Sustained Job Outcomes). The speed of getting the job outcomes is determined by a profile.
- 3.5 The journey through the programme takes many months and the Authority needs some way of measuring progress without waiting for the whole cohort of starters to complete the customer journey.
- 3.6 Performance expectations are therefore based on the number of outcomes expected from the actual number of starts. The contractual MPLs therefore reflect real information rather than being fixed on an assumption.

- 3.7 Cohorts are a good way of looking at performance as it shows how many of a group of people achieve an outcome compared to the contractual MPLs. They also mean that if the number of starts, for example, differs from the profile for some reason, then the targets adjust to reflect that.
- 3.8 Once the number of participant starts in a given Cohort is known, the number of job outcomes expected every month from that cohort can be calculated based on the providers percentage Cohort Profiles.
- 3.9 When more cohorts join the programme, the job outcomes they are expected to generate are added to those from previous cohorts to give a total number of expected job outcomes in any given month. Totals are summed to give monthly, quarterly, annual and cumulative MPLs. The Contractor is required to achieve its in-month cohort profiles, its cohort profiles cumulatively and also its in-month cumulative outcomes as set out in the tables at section 1.2 of this Schedule 2.
- 3.10 Performance will be measured on a monthly and cumulative basis by comparing, for example, the actual number of job outcomes achieved, to the number expected from performance profiles submitted by the provider.
- 3.11 The Authority operates a robust performance management regime to hold Providers to account for performance offered within their contracts. Formal Contract Performance Reviews (CPRs) will be conducted focussing on achieving contractual performance based on monthly and cumulative profiled cohorts and minimum customer service standards. This measure will determine whether the contract performance is meeting the standards committed to by the Provider in the tender response document. Where providers are not achieving these required levels, the Authority may take action as specified in the Performance Management Intervention Regime (PMIR) detailed in the Contractor Guidance.

SCHEDULE 3 – MONITORING & INFORMATION REQUIREMENTS

This Schedule sets out the contract and performance management requirements which are applicable to the delivery of the Services. It also sets out the management information requirement for the Contract.

1 Reviewing Contract Performance

- 1.1 Notwithstanding the Parties' obligations to comply with the Contract, the Contractor shall work with the Authority to establish and maintain an effective and beneficial working relationship to ensure the Contract is delivered to its contractual obligations, including the minimum required standard in this Schedule.
- 1.2 The Contractor shall manage and report on any sub-contractual arrangements. Arrangements shall include mechanisms for the provision of management information, including feedback to and from customers, stakeholders and employers, change control procedures and the prompt resolution of any problems.
- 1.3 The Contractor shall work with the Authority to establish suitable administrative arrangements for the effective management and performance monitoring of the Contract and shall provide information as requested to monitor and evaluate the success of the Contract and the Contractor's management and delivery of it. The Authority will agree with the Contractor day-to-day relationship management, contact points, communication flows and escalation procedures.
- 1.4 The Contractor shall appoint a named Supplier Manager who will cooperate with the Authority's Performance Manager to ensure that the Contract is delivered as specified in the Contract and that contractual standards and performance levels are met.
- 1.5 The Contractor shall continuously improve the quality of the provision including that delivered by Sub-contractors. Where quality falls below the contractual obligations, the Contractor will be expected to have suitable escalation procedures in place and, in respect of sub-contracted provision, take action where necessary to terminate the contract.
- 1.6 The Contractor shall manage the contract and any sub-contractors, including addressing poor performance. The Contractor must therefore ensure that all systems and processes used for the monitoring and recording of performance are robust, provide a clear audit trail of evidence and give confidence to the Authority that the Contractor and its supply chain are delivering the Provision in accordance with its contractual obligations.
- 1.7 The Authority will regularly monitor Contractor performance. The Contract will be managed by both Commercial Directorate and Performance Managers.
- 1.8 Commercial Directorate manage the commercial relationship with the Contractor.

- 1.9 The Commercial function manages Providers and Provision utilising a Supplier Relationship Management approach (by Contractor) and a Contract Management approach (by provision /Contract).
- Contract Management entails managing the day to day commercial activities of a specific contract. Commercial Contract Specialists and Business Delivery functions work in partnership to drive Performance, quality and value for money throughout the life of the Contract.
 - Supplier Relationship Management is the management of the relationship between the Authority and the Contractor across their entire Authority portfolio. Category Managers are a single point of contact for key suppliers for all commercial matters. By meeting regularly they will develop strategic partnerships to understand the commercial and business drivers and the market in which the Contractor operates. They will develop long term strategic partnerships with these key Contractors to maximise performance, quality, delivery of contractual services and value for money across the portfolio.
- 1.10 Performance Managers will specifically focus on the performance and quality of the delivery of the Services by the Contractor. During live running of the Contract, the Authority will utilise the Authority's Performance Management and Intervention Regime (PMIR) to assure delivery of the proposals and standards as set out in the Contract. Performance Managers will carry out Contract Performance Reviews.
More details on the PMIR can be found in the Contractor Guidance.
- 1.11 The purpose of the Contract Performance Reviews is to encourage an open and regular dialogue between the Parties with the purpose of ensuring that the Services, including the contractual standards and outputs are being delivered appropriately and to drive up the performance and quality of the Services. They will encourage the Parties to review performance, discuss opportunities for continuous improvement and raise and address any complaints or persistent problems encountered with the Contract. Where issues cannot be immediately addressed, the Authority and the Contractor may follow the dispute resolution process detailed in the Dispute Resolution clause or the Performance Improvement Process as detailed in the Contract.
- 1.12 Review meetings between the Authority and the Contractor shall also cover, as appropriate, resolving disputes and/or dealing with contractual breaches in accordance with the terms and conditions of this Contract.
- 1.13 Contract Performance Reviews will be formally undertaken and documented. The Contractor will be expected to provide any additional management information required by the Authority to facilitate the reviews and arrange where necessary access to any of its delivery locations, including those operated by Sub-contractors.

- 1.14 The Authority may undertake spot checks at any time during the Contract to ensure that the Contractor is complying with its obligations: the Contractor shall co-operate fully, at its own cost, with the Authority.
- 1.15 There may also be occasions when the Authority may be involved in (whether through its Rapid Reaction Team or otherwise) reacting quickly to failing provision and/or areas of risk within provision; to investigate and implement either preventative or reactionary activities to allow for the provision to move back into steady state management quickly.
- 1.16 Any improvements or actions agreed between the Parties will form part of the continuous improvement activity recorded in an action plan agreed between the Party's in accordance with this Schedule 3 ("**Contractor Action Plan**") and/or the Performance Improvement Plan. It will be the Contractor's responsibility to develop the Contractor Action Plan and/or a Performance Improvement Plan depending on the level of intervention used as described in the Performance Management Intervention Regime. This will be discussed and agreed with the Performance Manager.

2 ESF Compliance Monitoring Officers

- 2.1 The Compliance Monitoring Officer's (CMO) role is to perform regular evidence based checks that all ESF and match funded contractors are adhering to the delivery models set out in their contracts.
- 2.2 This includes checking samples of Participant records to validate eligibility, activity and payment for these Participants supported by the Lead Contractor and, if appropriate, their supply chain. CMOs will check that the ESF Regulatory Requirements, in terms of Marketing and Publicity; Sustainable Development; Equality and Diversity; Document Retention are being adhered to (electronic versions of all documents are kept; no paper copies will be accepted).
- 2.3 The Authority specifies the location where the checks will take place. All records must be available on the Contractor system for inspection.
- 2.4 The Contractors is expected to have the necessary remote IT equipment which they can bring to the location to enable the Authority to carry out centralised checks of the Contractors systems; this includes the provision of any necessary electronic evidence that is required by the CMO to undertake the checks effectively. The Authority will carry out these checks at the following locations:
London;
Birmingham;
Sheffield;
Leeds;
Newcastle.
- 2.5 All issues arising from CMO checks are reported to the Contractor. Contract review meetings with Authority Supplier Managers and Performance Managers will include discussions around compliance issues identified by CMOs. Further

information regarding CMO will be detailed in the ESF Contractor Guidance which will be available with the ITT.

- 2.6 The Authority reserves the right to carry out physical checks on documentation as part of this process.

3 Assuring Contractor's Systems

- 3.1 The Contractor must comply with the Authority's systems assurance requirements as described in this section and notified to the Contractor by the Authority from time to time.
- 3.2 The primary purpose of the Contracted Employment Programmes (CEP) Provider Assurance Team (PAT) is to provide the Authority with an assurance that payments to contracted employment provision contractors are in accordance with DWP and Treasury, that public funds and DWP data are protected and that value for money has been obtained.
- 3.3 The Authority's Provider Assurance Team ("PAT") and the Security and Business Continuity Team ("**S&BCT**") review Contractors' internal control systems to assess the Contractors' ability to manage risk across four key areas:

 - c) Claim Procedures and Payments – looks to ensure that Providers have in place effective systems to support their claims for payment, including appropriate segregation of duties; and
 - d) Data Security – looks to ensure that Providers have in place adequate systems to safeguard DWP data whilst it is being stored and/or transmitted around their organisations.
- 3.4 On completion of each review by the Authority, the Contractor will be awarded an assurance rating from PAT in one of the following four categories – (i) weak; (ii) limited; (iii) reasonable; or (iv) strong, and will also receive an assurance rating from S&BCT regarding data security. The Authority shall also send a formal report to the Contractor which details the review findings including key strengths and areas for improvement; where weaknesses have been identified the Contractor will be asked to complete an action plan setting out appropriate steps for improvement and this is followed up at an agreed point.
- 3.5 The timescale for a subsequent review is determined at the sole discretion of the Authority. Further details of this are set out in the Specification.
- 3.6 If the Contractor is attributed a "Weak" or "Limited" Provider Assurance Rating and/or an equivalent rating from S&BCT, as notified to the Contractor by the Authority from time to time, the Contractor shall deploy all additional resources

and take all remedial action that is necessary to remedy the “Weak” or “Limited” Provider Assurance Rating or to prevent the “Weak” or “Limited” Provider Assurance Rating from recurring by a date specified by the Authority.

- 3.7 If in the opinion of the Authority, the Contractor has failed to deploy the additional resources and to take the remedial action referred to in paragraph 3.6 of this Schedule 3 by the date specified by the Authority may treat such failure as a Non Service Failure Default and issue a Formal Warning Notice in accordance with Clause F7.
- 3.8 The Authority is entitled to regard the following circumstances, without limitation, to be a Material Breach of the Contract which shall entitle it to terminate in accordance with Clause H2:
- (a) where the Contractor has been awarded a Provider Assurance Rating of “Weak” or “Limited” and/or an equivalent rating from S&BCT, as notified to the Contractor by the Authority from time to time, in two (2) separate consecutive Provider Assurance Reviews for reasons which the Authority regards, at its sole discretion, as similar reasons; or
