## **Annex 1 The Services**

### **Culturally Appropriate Advocacy Pilot Proposal**

We would deliver the pilots for a three month period commencing in January 2022 and ending on the 31<sup>st</sup> March 2022. Our proposal is to deliver:

- Model A and Model B (high detention) in the area covered by Black [REDACTED]  
[REDACTED]
- Model C (low detention) in the area covered by [REDACTED]  
[REDACTED]

### **Model A and Model B Proposal**

#### **Group advocacy**

We will deliver group sessions on as many ward as possible in two secure mental health facilities [REDACTED]. We will cover the full range of patient groups (male/female/older people/young people/learning disability). The advocates will maintain a regular ward presence, engaging with staff to identify BAME patients who may wish to participate and the groups will be well-publicised through ward posters and leaflets in appropriate formats (Easy Read, large print and relevant languages). Sessions will be facilitated by the advocates and provide an open forum for people to discuss their experiences, seek peer support and raise concerns.

We will also deliver community group advocacy for Model A, identifying accessible community venues in the [REDACTED] and working with community mental health professionals and voluntary/community organisations to identify people who would like to participate.

#### **CTO Engagement**

We will work to ensure that all people on CTOs receive information about the culturally appropriate advocacy service, ideally by being referred to the service on an 'opt out' basis

at the time that the Order is made. We will also engage with people in the community already on a CTO and inpatients who have been recalled from a CTO.

Our pilot team will work closely with our [REDACTED] to identify BAME people on CTOs who would like to be supported by a trained Culturally Appropriate Advocate. Once allocated the advocates will provide one-to-one advocacy support, helping people to understand their rights, engage with mental health professionals and attend appointments, as well as discussing with the person what is and is not working with their treatment and support and what would help to improve their experience of mental health services and advocacy.

The team will also develop a survey for returning patients (to be completed when they are well enough) to collect their perception of why the CTO failed; what support they got; what else might have helped.

## **Proposal for Model C**

We will deliver Model C in the area covered by [REDACTED]

We will deliver group sessions in [REDACTED]  
[REDACTED]  
[REDACTED]

We will cover the full range of patient groups (male/female/forensic/older people/learning disability). The advocates will maintain a regular ward presence, engaging with staff to identify BAME patients who may wish to participate and the groups will be well-publicised through ward posters and leaflets in appropriate formats (Easy Read, large print and relevant languages). Sessions will be facilitated by the advocates and provide an open forum for people to discuss their experiences, seek peer support and raise concerns.

## **Referral pathways**

The advocates and Community Manager will promote the pilots and ensure professionals understand how and who to refer. This includes working with the Trust's MHA Administrator and, for CTO engagement, the Mental Health Liaison Teams and Community Mental Health Teams for Older Adults, staff with responsibility for patient discharge; GPs; social workers. The team will also contact local BAME organisations/groups and mental health support organisations to promote access to the service in the community.

For these pilots we expect the majority of people we work with to have been referred to our IMHA service so we may already hold information about their ethnicity. To help us identify service users who may be interested in working with us on the Culturally Appropriate Advocacy pilots we will ask our IMHAs to provide information about the initiatives to all service users who have identified as being in our target groups and anyone who has declined to indicate their ethnicity. Service users will then have the opportunity to be referred to the initiatives.

Referrals can be made by service users themselves, family members, Trust staff, social workers, GPs and other professionals. Referrals will be accepted face-to-face, and by phone and email to POHWER's Help Hub.

### **Staffing**

We will have four full-time equivalent Advocates working on the pilot; two for Model A and B and two for Model C with one full-time manager overseeing both pilots.

### **Projected activity**

We expect to deliver inpatient Group Advocacy on an individual ward basis as it is unlikely that patients from different wards would be permitted to mix for security reasons and to comply with Covid-19 measures. We would work with DHSC to finalise activity e.g. number of groups held, locations, and number of people on CTOs supported once the proposal is accepted and our staffing is confirmed.

## **Data collection**

POhWER's bespoke case management database (CLEAR) will enable us to report on a range of data and outputs including:

- total number of people supported in a particular period
- response times
- referral source
- client location (inpatient ward/community)
- issue(s) supported
- advocacy hours per case/issue type
- demographic monitoring (ethnicity, age, religion, gender identity, sexuality)

We will make adjustments to CLEAR to incorporate any additional reporting requirements.

We can also use CLEAR to report on other outputs including: Group advocacy (sessions held, locations and number of attendees, issues raised, themes and trend). We will collect and report on feedback received from service users and stakeholders.

Our outcome tool, based on the NDTi Advocacy Outcomes Framework is closely aligned to the four expected outputs in 5.26 of the specification, enabling us to report on these. We will also develop a survey to capture the outcomes which service users experience as a result of the pilot.

We will use CLEAR to produce a detailed workbook to present the data, which will be accompanied by a narrative report, submitted to DHSC/third party evaluation organisation at the frequency required, and with a final report submitted in March 2022.

## **Expected outputs for models A, B, C:**

Expected outputs for ethnic minority groups in this model include:

- Increased access to culturally appropriate IMHA and other forms of advocacy
- Increased say in care and treatment during detention under the MHA
- Increased propensity for self-advocacy and peer advocacy

**Knowledge transfer and IRP requirements:**

All Pilot outputs, including findings and information contained within, will be the intellectual property of DHSC to use, further develop and disseminate as they see fit. The successful supplier must not publish any detail of the findings without written permission from DHSC.

**Service improvement**

Subject to approval by DHSC we would want to be able to share any learning identified with the Trusts as the project progresses, particularly where this could result in real improvements in outcomes for service users. Where patients provide feedback we will support them to raise this directly with ward/community MH staff, or will ask for their consent to raise this on their behalf. Similarly if collective issues are identified through group work we would agree with the service users how they would like to raise this with the Trusts. All issues will be recorded so we can share themes and trends with the Trusts and DHSC.

We would also welcome the ability to be able to share information with our local authority IMHA commissioners to inform their future commissioning decisions.

All staff working on the pilot will also fully participate in the project evaluation.

**Knowledge transfer and IRP requirements:**

All Pilot outputs, including findings and information contained within, will be the intellectual property of DHSC to use, further develop and disseminate as they see fit. The successful supplier must not publish any detail of the findings without written permission from DHSC.

**Performance:**

PoHwer will appoint a named person to project manage the pilots and liaise with/report as the Authority requires to a named DHSC policy contact.

DHSC has awarded the overall evaluation of the pilots to a third party. DHSC expects PoHwer to work in partnership with the third party to agree the data collection and reporting requirements for the pilot evaluation.

PoHwer must have the capacity to release one advocate for up to 1.5 days a month to attend Culturally Appropriate Advocacy training (on-line or in person) delivered by a third party and to attend online/ in person meetings with the evaluators of the pilot. A third party has been awarded the Training contract.

PoHwer will provide updates on the key outputs and costs at reporting milestones, to be agreed with DHSC. A final report will include, but not be limited to, a summary of how the PoHwer has met the expected outputs of the pilot. This will be required by 31<sup>st</sup> March 2022.
