 - 15.5.4 if the Supplier purports to assign, Sub-contract, novate, create a trust in or otherwise transfer or dispose of this Contract in breach of Clause 28.1 of this Schedule 2;

 - 15.5.6 pursuant to and in accordance with the Key Provisions and Clauses 15.6, 19.7.2, 23.8, 25.2, 25.4 and 29.2 of this Schedule 2;
 - 15.5.7 if the warranty given by the Supplier pursuant to Clause 10.5 of this Schedule 2 is materially untrue, the Supplier commits a material breach of its obligation to notify the Authority of any Occasion of Tax Non-Compliance as required by Clause 10.5 of this Schedule 2, or the Supplier fails to provide details of proposed mitigating factors as required by Clause 10.5 of this Schedule 2 that in the reasonable opinion of the Authority are acceptable; or
 - 15.5.8 pursuant to and in accordance with any termination rights set out in the Data Protection Protocol, as applicable to this Contract.
- 15.6 If the Authority, acting reasonably, has good cause to believe that there has been a material deterioration in the financial circumstances of the Supplier and/or any third party guaranteeing the obligations of the Supplier under this Contract and/or any material Sub-contractor of the Supplier when compared to any information provided to and/or assessed by the Authority as part of any procurement process or other due

diligence leading to the award of this Contract to the Supplier or the entering into a Sub-contract by the Supplier, the following process shall apply:

- 15.6.1 the Authority may (but shall not be obliged to) give notice to the Supplier requesting adequate financial or other security and/or assurances for due performance of its material obligations under this Contract on such reasonable and proportionate terms as the Authority may require within a reasonable time period as specified in such notice;
- 15.6.2 a failure or refusal by the Supplier to provide the financial or other security and/or assurances requested in accordance with Clause 15.6 of this Schedule 2 in accordance with any reasonable timescales specified in any such notice issued by the Authority shall be deemed a breach of this Contract by the Supplier and shall be referred to and resolved in accordance with the Dispute Resolution Procedure; and
- 15.6.3 a failure to resolve such breach in accordance with such Dispute Resolution Procedure by the end of the escalation stage of such process shall entitle, but shall not compel, the Authority to terminate this Contract in accordance with Clause 15.4.1 of this Schedule 2.

In order that the Authority may act reasonably in exercising its discretion in accordance with Clause 15.6 of this Schedule 2, the Supplier shall provide the Authority with such reasonable and proportionate up-to-date financial or other information relating to the Supplier or any relevant third party entity upon request.

- 15.9 Within three (3) months of the Commencement Date the Supplier shall develop and agree an exit plan with the Authority consistent with the Exit Requirements, which shall ensure continuity of the Services on expiry or earlier termination of this Contract. The Supplier shall provide the Authority with the first draft of an exit plan within one (1) month of the Commencement Date. The Parties shall review and, as appropriate,

update the exit plan on each anniversary of the Commencement Date of this Contract. If the Parties cannot agree an exit plan in accordance with the timescales set out in this Clause 15.9 of this Schedule 2 (such agreement not to be unreasonably withheld or delayed), such failure to agree shall be deemed a Dispute, which shall be referred to and resolved in accordance with the Dispute Resolution Procedure.

16 Consequences of expiry or early termination of this Contract

16.1 Upon expiry or earlier termination of this Contract, the Authority agrees to pay the Supplier for the Services which have been completed by the Supplier in accordance with this Contract prior to expiry or earlier termination of this Contract.

16.4 The Supplier shall cooperate fully with the Authority or, as the case may be, any replacement supplier during any re-procurement and handover period prior to and following the expiry or earlier termination of this Contract. This cooperation shall extend to providing access to all information relevant to the operation of this Contract, as reasonably required by the Authority to achieve a fair and transparent re-procurement and/or an effective transition without disruption to routine operational requirements.

16.5 Immediately upon expiry or earlier termination of this Contract any licence or lease entered into in accordance with the Key Provisions shall automatically terminate.

16.6 The expiry or earlier termination of this Contract for whatever reason shall not affect any rights or obligations of either Party which accrued prior to such expiry or earlier termination.

16.7 The expiry or earlier termination of this Contract shall not affect any obligations which expressly or by implication are intended to come into or continue in force on or after such expiry or earlier termination.

- 17.9 The Parties agree that where a Successor or the Authority provides the Services or services which are fundamentally the same as the Services in the immediate or subsequent succession to the Supplier or Sub-contractor (in whole or in part) on expiry or early termination of this Contract (howsoever arising) TUPE, the Cabinet Office Statement and Fair Deal for Staff Pensions may apply in respect of the subsequent provision of the Services or services which are fundamentally the same as the Services. If TUPE, the Cabinet Office Statement and Fair Deal for Staff Pensions apply then Clause 17.11 to Clause 17.14 of this Schedule 2 and (where relevant) the provisions of Clause 1.15 of Part D of Schedule 7 shall apply.

- 17.16 If any person who is not a Subsequent Transferring Employee claims or it is determined that their contract of employment has been transferred from the Supplier or any Sub-contractor to the Authority or Successor pursuant to TUPE or claims that their employment would have so transferred had they not resigned, then:

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

1. Introduction

The Workforce, Training and Education (WT&E) Directorate in NHS England (NHSE), formerly Health Education England (HEE), is responsible for providing education, training and personal development to every member of health & social care. In addition, they are responsible for the leadership of all healthcare education and training for those employed by the NHS and for those seeking NHS employment in England. NHSE also has statutory obligations for the quality of the services which it funds and for the safety and protection of students and patients.

The Aspirant Cancer Career and Education Development programme (ACCEND) commenced in Autumn 2021 to provide guidance and direction on the knowledge, skills and capabilities required by the nursing and allied health professions workforce at all levels of practice (supportive, assistive, registration, enhanced, advanced and consultant levels) who care for people affected by cancer in generalist and specialist cancer services and roles as part of multi-professional teams. This also includes pre-registration learners and those aiming to develop their careers in the cancer workforce.

This is a new and ambitious multi-partnership programme that seeks to address significant challenges and issues that have faced the nursing and AHP workforce in cancer for many years, and which have been accelerated by the COVID-19 pandemic. An essential element to address some of these challenges is to ensure that (1) a standardised QIS (Qualification in Speciality) - a Postgraduate Certificate and (2) a Professional development and clinical leadership module are created and aligned to the ACCEND Framework. This commission has 2 offers. The QIS Postgraduate Certificate is aimed at registered nursing and allied health professionals to develop fundamental knowledge and capabilities about cancer, its treatments and care of people affected by cancer, alongside additional knowledge and capabilities to meet their role or service requirements. The 'Professional development and clinical leadership' module is for those seeking to develop their knowledge and capabilities in practice focused on clinical leadership.

In July 2023, the ACCEND programme is pleased to have been referenced within, and aligned with the goals of, the [NHS Long Term Workforce Plan](#) as it is working towards supporting the development of attracting and retaining the workforce, developing career pathways, reform and a focus on education and training.

1.1. ACCEND Career Pathway, Core Cancer Capabilities and Education Framework

The ACCEND programme has worked to provide the workforce with a recognised, nationally agreed career pathway underpinned by capabilities in practice and an education framework that will enable the development of a skilled, knowledgeable and capable workforce to provide the best care and support for people affected by cancer. The [ACCEND Career Pathway, Core Cancer Capabilities in Practice \(CiP\) and Education](#) Framework was published in 2023.

Further information can be found in the [Framework](#): **Table 1** in the ACCEND Framework (p.21) summarises the levels of practice, the four pillars of professional practice, the associated academic level and workplace development opportunities. **Table 4** (p.34) in the ACCEND Framework provides detailed descriptors for the levels of practice and indicative requirements to work at each level for the cancer workforce. Combined, the education framework and capabilities in practice supports practitioners to form their career pathway and to develop the core knowledge, skills and behaviours to care for people affected by cancer. In addition, role specific and specialist knowledge, skills and behaviours can be included to meet a practitioner's role/service requirements, wellbeing and career aspirations.

Focusing on cancer care education, currently, there is variation in content, availability and academic credits awarded by different Higher Educational Institutions (HEI's) nationally. There is currently no programme or scheme of work attempting to address this inequality and this is often hindered by other issues including, but not limited to, the lack of cancer care education funding, difficulties associated with releasing staff and

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

the delivery methods of post-registration programmes. The introduction of a standardised qualification and flexible delivery will enable practitioners and employers to access a programme of education aligned to nationally defined learning outcomes setting out the knowledge and capabilities in practice.

1.2. Summary of the Offers (Lots)

This tender relates to the provision of **two offers** (lots) which are mapped to the knowledge and core cancer capabilities in practice identified in the [ACCEND Career Pathway, Core Cancer Capabilities and Education Framework](#) for the nursing and allied health professions workforce from Registration level onwards. It is our expectation that education providers review and use the ACCEND Framework to inform programme development and delivery. This is to ensure that providers have a clear understanding of the expectations for learning outcomes and programme delivery.

The **two offers** are:

1. **Qualification in Speciality (QIS):** PG Certificate mapped to the [ACCEND Framework](#): the delivery of an overall 60 credit (**level 7**) award for cancer care, enabling registered professionals at all levels of practice to establish their knowledge and capabilities in caring for people affected by cancer and, from which, to develop their career pathway. To achieve this, the QIS PG Certificate includes a 'core' component of knowledge and capabilities as identified in the 'learning outcomes' for Fundamentals of Cancer Care plus an 'optional' component focused on specific knowledge and capabilities to meet role or service specific requirements.
2. The delivery of a **postgraduate (PG), (Level 7) Cancer professional development and clinical leadership module**. This module is aimed at those registered professionals leading and managing teams who are working in cancer care to develop their knowledge, confidence, and capability. The module will include management of a patient caseload across a team, service evaluation, quality improvement, promoting services, writing business cases, the importance of collecting and analysing data and outcomes and influencing others.

Providers should note that only **offer 1 (Qualification in Speciality: Post Graduate Certificate)** is required to be delivered through **blended learning**.

It is expected that the offers may be delivered by multiple providers and are to cover England. A further cost and delivery breakdown can be found in **Section 6**.

This **Invitation to Tender** document provides you with the necessary information regarding the requirement and provides the vehicle within which your tender will be submitted. Prospective bidders are advised to read this invitation to tender carefully to ensure they are familiar with the nature and extent of the obligations to be accepted by them if their tender is successful. The template to complete the ITT can be found in **Appendix 3**.

A central component of this commission is to ensure that individuals undertaking education and training can fully maximise the opportunities available to them. The aspiration of NHSE (formerly HEE) is that successful bidders are recognised as high quality providers of all aspects of the cancer care education and training they provide. Successful bidders must therefore demonstrate an ability to work in partnership with NHSE, clinical practice partners, e.g., NHS Trusts, HEI's and other social care providers, to attract and recruit individuals who meet or exceed the agreed entry levels for the provision being offered.

The successful bidders are required to demonstrate a commitment to working closely with the aforementioned partners to develop targeted marketing and recruitment protocols to ensure that an individual's learning journey is linked to career development and/or clinical/patient need. Having completed their studies, individuals are able to fully consolidate and utilise acquired knowledge and skills to provide high standard of care to people affected by cancer, demonstrating excellent leadership in clinical care and, where required, go on to do further training and development related to cancer care.

1.2.1. Phased Approach

Potential bidders should note the two offers are to be delivered through a phased tender approach where this initial delivery of the QIS PG Certificate and module will be run as a "pilot" for one year. The purpose of this is to evaluate the feasibility, outcome and effectiveness of the programmes before they are delivered nationally. Robust evaluations of qualitative and quantitative data/feedback from course attendees will be expected to be collected and analysed by the provider. The provider is expected to provide this as a report and present to the ACCEND programme. The ACCEND programme will partner with the successful provider to determine the most appropriate methodologies for evaluation.

The Tender will therefore inform those who design, deliver and quality assure post-registration education, training and continuing development opportunities, to focus on the fundamental learning outcomes that learners need to develop in order to deliver high standards of care to people affected by cancer. This will provide detailed guidance to the content and the use of high-quality teaching, learning and assessment strategies. Use of this Tender also supports organisational and system wide effectiveness and efficiencies by encouraging the delivery of education and training that is focused on developing knowledge and capabilities required in practice and optimises opportunities for inter-professional learning; focused on outcomes-based curricula.

It is important to note that this specification is **not** intended to cover all the capabilities and pillars of NHS England (formerly Health Education England's) [Multi-Professional Framework for Advanced Practice](#) (2017). Additional learning over and above this specification would be required. This document identifies

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

learning outcomes that all registered professionals who care for people affected by cancer should meet and additional learning outcomes for those registered professionals aspiring to or working at an enhanced level of practice. These learning outcomes can form the basis of developing programmes of learning and continuing development.

1.2.2. Enhanced Clinical Practitioner (ECP) Apprenticeship

We are also encouraging providers, where possible, to offer the **QIS PG Certificate** via an Enhanced Practice Apprenticeship. The [Enhanced Clinical Practitioner \(ECP\) apprenticeship](#) was approved for delivery in May 2021 and provides a formal educational pathway for clinical staff in their early to mid-careers, creating an education pathway to optimise upskilling of clinical skills and practice. It is a multi-disciplinary apprenticeship with a typical duration of 12-18 months, with a levy funding band of £7,000. The apprenticeship also supports APEL (accreditation of prior experiential learning) route to further advanced level education. Providers can access the [ECP apprenticeship guide](#), which provides support to employers in understanding, implementing, and harnessing the enhanced clinical practitioner apprenticeship within their organisations.

Please note in this scenario that the programme must deliver all the Knowledge, Skills and Behaviours of the apprenticeship standard and also map to the enhanced level capabilities identified in the ACCEND Framework relevant to practitioners' role or service requirements or career aspirations. It is expected that the providers who wish to deliver this via an apprenticeship, would ensure that these programmes are also able to be mapped and delivered as part of the [ECP apprenticeship](#).

1.2.3. Blended Learning

Providers should note that **offer 1 (Qualification in Speciality: Post Graduate Certificate)** is to be delivered through **Blended Learning**. For the purpose of this tender specification, **blended learning** is defined as 'a method of teaching that integrates technology and digital media with traditional instructor-led classroom activities, giving learners more flexibility to customise their learning experiences'. The blended learning delivery will include mandatory in-person delivery of between 10-30% of the taught content hours, as well synchronous and asynchronous online delivery. Blended learning uses a combination of learning approaches supported by technology. Using technology, students may be immersed in a learning environment, for example, using virtual reality-type sessions like gaming or in online training labs where they work their way through a series of tasks and simulations.

The aims of blended learning are to:

- Create innovative, accessible programmes using the latest digital and other technologies
- Attract greater numbers and a more diverse student population.
- Create a significantly different education offer that will support the growth of a qualitatively different, expert and professional workforce suited to the demands of healthcare now and in the future.
- Facilitate the growth of digitally capable learners.

2. Scope of Contract

2.1. Overview of programmes for national delivery

NHSE is seeking to engage education providers, in higher education and/or clinical services, to develop the **two offers** outlined in Section 1.

2.2. Requirements for delivering the programmes through an Apprenticeship

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

Education providers who are anticipating delivering the Postgraduate certificate (QIS) and Professional development and clinical leadership module via an apprenticeship should note the following requirements to ensure that they can offer a national reach and capacity to deliver innovative and flexible education solutions that meet the needs of learners and employers.

1. Programme must deliver all the Knowledge, Skills and Behaviours of the apprenticeship standard and also enable mapping to the learning outcomes for the Postgraduate Certificate and relevant enhanced level capabilities identified in the [ACCEND Framework](#) for the registered nursing and allied health professions workforce.
2. It is expected that the providers who wish to deliver this via an apprenticeship, would ensure that these programmes are also able to be mapped and delivered as part of the [ECP apprenticeship](#).
3. National reach and capacity: Providers should have the capability to offer their education programmes across the country, considering the geographical challenges of different employers.
4. Significant innovation in blended learning: Providers must show innovation in their blended learning approach, including the use of emerging technologies, virtual reality, and other tools, to ensure that the programmes are up-to-date and engaging for learners.
5. Highly efficient education delivery: Providers should be able to deliver education in a flexible and innovative way, providing efficient education solutions that meet the needs of learners.
6. Support for learners and line managers/mentors: Providers should outline how they would support both the learners and the line managers/mentors within the learner's workplace, to ensure that the programme is successful.
7. Approach to smaller professions: Providers should consider the approach towards smaller professions, where only one or two providers may be required. For larger professions such as diagnostic radiography, more providers may be needed.
8. Apprenticeship constraints: Providers must consider the constraints of apprenticeship programs on movement across pathways and offer meaningful broad pathway options that provide appropriate value to employers.
9. Flexible delivery days: Providers should consider flexing the delivery days in a week to allow several staff members from the same department to access programmes without leaving rota gaps.
10. It is expected that within Year 1 (financial year 2023/24) some course delivery will commence, such as cohort induction.

2.3. Postgraduate certificate (QIS) and capabilities in practice

Postgraduate certificate (QIS) mapped to the [ACCEND Framework](#): the delivery of a 60 credit (Level 7) Qualification in Speciality (QIS) for cancer care, enabling registered professionals at all levels of practice to establish their knowledge and capabilities in caring for people affected by cancer and, from which, to develop their career pathway. The learning outcomes for postgraduate awards are proposed in **Table 9** in the framework (p.77). To achieve these, the QIS Postgraduate Certificate includes:

- a) Core: aligned to the 'Fundamentals of cancer care' learning outcomes defining the core knowledge and capabilities in practice (CiP's) (Domains A-C) as a minimum at **registration level; plus**
- b) Additional cancer focused optional module(s) focused on role or service requirements and include evidence of achievement of relevant capabilities in practice at **enhanced** level. The optional module(s) enable the registrant to focus on specific knowledge and capabilities to meet role or service specific requirements or to meet their career aspirations.

The **core learning outcomes** for the Fundamentals in Cancer Care module can be found in **Table 8** (p. 75) in the framework. These set out clear expectations for registered professionals about the requirements for effective and safe practice. They provide clarity about minimum knowledge and capabilities in practice to care for people affected by cancer in general and specialist settings and services. The learning outcomes can assist practitioners to develop a portfolio of evidence.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

Aligned to the levels of practice identified in the career pathway component, the Framework sets out the CiP's and cancer specific knowledge required for the nursing and AHP's workforce providing care to people affected by cancer. The core cancer CiP's set out the underpinning theoretical and clinical knowledge, skills and behaviours for practitioners at the different levels to develop and demonstrate their capability; to assess, plan and manage personalised care, and beyond this, to influence, lead and manage change to improve cancer care and services safely and effectively. These are divided into four pillars of practice, as focused on:

1. Clinical
2. Management and leadership
3. Research
4. Education

These pillars reinforce the continuing development of these aspects of role initiated in pre- registration programmes to meet the education standards for registration. A practitioner's focus of activity will progress through 1:1 care, group, team, organisational and system activities, alongside an increasing scope of complexity from clinical skills and competency development to improvement and innovation, as their level of practice develops.

For each of the four pillars, the core cancer CiP's are identified for safe and effective cancer care at each level of practice. Education providers should note that the capabilities are written at a 'high level' to enable practitioners and employers to contextualise the capabilities for the environment of care in which the service operates and the job/roles adopted for each level of practice. They can be interpreted and applied in the context of individual practitioners' level and scope of practice, role, practice environment and the patient group(s) with whom they work. In addition, this enables employers with their employees to confirm the scope of practice and a job/role description. The CiP's element of the PG Certificate (QIS) is a key component of this qualification and, as such, all learners should provide a portfolio of evidence to demonstrate their achievement of relevant CiP's. Education providers need to have structures in place to:

- a) Support the facilitation of a range of experiences for learners undertaking the course (via structured education and practice).
- b) Facilitate learners with a range of work-based learning outside of their field of practice where required to achieve identified learning outcomes and CiP's. This should preferably be achieved via managed clinical placements.
- c) Offer the additional use of simulation and immersive technologically enhanced learning where appropriate.
- d) Provide adequately and appropriately trained work-based support for learners undertaking the qualification.
- e) Enable assessment and verification of the portfolio of capabilities achieved by the learner and provide guidance on how to achieve these.
- f) Provide the academic content in an integrated and coherent fashion to meet the identified learning outcomes.

Practitioners may develop and demonstrate their knowledge, skills and capability through a range of opportunities including workplace-based learning and reflection, continuing professional development (CPD) and university accredited modules and programmes. Practitioners will be able to evidence their knowledge and achievement of the CiP's in a portfolio developed as part of the ACCEND programme.

Workplace-based clinical supervision and assessment is fundamental to the delivery of safe and effective learning for all levels of practice. High quality supervision that supports all practitioners' professional development and enables them to demonstrate achievement of the relevant core cancer CiP's and career progression is an essential aspect of this Framework. Clinical supervision and assessment take advantage of the experience, knowledge and skills of expert clinicians and ensures interaction between experienced clinicians and members of the multi-professional team.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

The CiP's Domains A-G are in **Table 5 (p.40-69)** within the [Framework](#). A minimum of Domains A-C, should be completed at the **registration level** for the **PG Certificate (QIS)**, noting that these are **colour coded** for each level of practice. Providers should also note that whilst the Framework states on page 26 that *'the learning outcomes, syllabi and the core cancer CiP's for each level of practice can be used for academic credit and non- credit bearing CPD or to guide workplace-based learning and assessment'* This Tender relates for the provision and delivery of **accredited programmes** as outlined in this Service Specification.

Overall, the PG Certificate (QIS), will provide a core, essential and comprehensive foundation in cancer, its treatments, management and care based upon evidence-based practice. It may also form part of a pathway of learning for those aspiring towards 'enhanced and advanced levels of practice' and further into consultant and strategic leadership. The new offer supports the development of knowledge and capabilities in practice towards an 'enhanced' level and sets a pathway for those seeking to develop and progress their career in cancer care. It formalises the minimum level of knowledge and capabilities for a qualification in this specialist area of practice and ensures that this is clearly understood by educators, practitioners, employers and funders/commissioners.

It is our expectation that providers access the [ACCEND Framework](#) and ensure the programmes delivered are mapped accordingly in line with the framework.

2.4. Professional development and clinical leadership module and CiP's A-G at enhanced level

The 'Professional development and clinical leadership module' will be relevant to Registered Nurses and AHP's who are developing their roles/practice in case management and clinical leadership. Providers should note that the learning, supervision and support expectations and strategy to support the Professional development module can be found in [Appendix 1](#) and [Appendix 2](#) respectively, of this Service Specification.

The **CiP's Domains A-C** are in Table 5 in the [framework](#) and additional relevant CiPs should be completed at the **enhanced level** for the **Professional development and clinical leadership module**, noting that these are **colour coded** for each level of practice.

2.4.1. Outcomes for practice

The following outlines what the practitioners must be able to do following the completion of the Professional development and clinical leadership module. Practitioners will be able to:

- Apply a range of advanced communication skills relevant to practice that enable a personalised approach to cancer care; recognising the absolute imperative to empower the patient and others in the decision-making process as part of their cancer care; evaluating the effectiveness of such approaches.
- Identify and critically apply strategies to effectively build personal resilience, recognising the emotive/stressful work environment/context.
- Critically evaluate approaches and strategies which
 - enable effective multi/inter disciplinary team (MIDT) working.
 - identify MIDT conflicts and competing priorities and work to overcome and address.
 - facilitate solutions which ensure the needs of the patient are prioritised the most.
- Critically evaluate personalised care approaches in the management of patient's cancer care.
- Critically appraise the range of care and support services to patients and support their navigation of such services and support throughout their episodes of care/treatment.
- Critically evaluate theoretical frameworks of leadership and management and critically appraise their relevance to their own practice in cancer care; identifying and implementing changes as identified – acting as a role model/champion for such change.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

- Advocate for and contribute to a culture of individual, team and organisational education/learning to inspire future and existing staff through identifying developmental needs and supporting them to address these which could include capacity and capability building through work-based and interprofessional learning.
- Foster and enable a culture of continuous improvement, critically evaluating evidence-based practice through undertaking service/professional evaluations, audits, research and reviews.
- Synthesis research, disseminate findings and support the implementation of such findings into practice.
- Take a leading role in managing a clinical service and caseload effectively, understanding the importance of boundaries between and across roles in a team.
- Identify how to lead deliver and evaluate an effective service.
- Enhancing clinical expertise in own area of cancer care while acquiring transferable skills, including advanced assessment, diagnostic reasoning, and managing complete episodes of care.
- Working effectively in collaboration with other practitioners and people affected by cancer in order to provide the optimal level of care, demonstrating autonomous practice while assessing and managing risk and accountability within healthcare arenas.

These outcomes are underpinned by the capabilities in practice (CiP's) identified in the [ACCEND Framework](#). **The CiP's must be used when designing learning and evidence shown of how they are met through evidencing achievement of the relevant CiP's at the required level of practice as part of the module assessment.**

2.4.2. Principles for Learning

The following key learning principles should be considered when designing and delivering learning and development interventions for the PG Certificate and Professional development and clinical leadership module. **Table 2 in the Service Specification** below outlines the activity and approaches that should be taken for the PG Cancer Professional development and clinical leadership module; however, further information/guidance is located in [Appendix 1](#) and [Appendix 2](#).

- Learning should be based on the identified outcomes and capabilities in practice.
- Learning should be quality assured.
- Flexible delivery methods should be used.
- Bite sized packages of learning are preferable however there should be the ability for learning to be built into larger qualification as needed.
- Learning should have an emphasis on enhancing skills that focus on meeting the needs of the learner and those whom they serve.
- Learning should be highly grounded in reflective practice.

Table 2 - Activity and approach for QIS PG Certificate and Professional development and clinical leadership module

Activity	Approach

3. Detailed Requirements

It is the expectation of NHSE that successful providers delivering education programmes under the contracts resulting from this procurement will be appropriately skilled to provide the delivery of the offers specified. There is also an expectation that providers will work with service to support placement activity to enhance clinical practice which is reflected in the funding per candidate. Successful providers are expected to demonstrate how they will ensure that the values and behaviours as ascribed within the NHS Constitution are or will be embedded throughout all the programmes being offered.

Furthermore, it is the expectation of NHSE that providers delivering programmes under the contracts resulting from this procurement will be appropriately skilled to provide a cutting- edge educational experience. To this end, NHSE will be looking to establish that all successful bidders have effective working relationships with HEIs, Healthcare Service Providers, clinical practice partners, clinical cancer care providers e.g. NHS Trusts, with the necessary aspirations, vision and resources as leaders in the training and development related to cancer care.

Providers are expected to demonstrate evidence of collaboration with HEIs, Healthcare Service Providers, clinical practice partners, clinical cancer care providers e.g., NHS Trusts, to ensure that the programmes are developed and delivered to the highest standards. This is evidenced through initiatives such as knowledge exchange, shared learning, and collaboration between education providers and stakeholders in cancer care. NHSE recognises the valuable contribution made by Healthcare Service Providers and HEI's in the development of a dynamic community of practice in the cancer care workforce development, education and training. To this end, NHSE is working towards the creation of a relationship of co-production to develop a virtual faculty that delivers high quality workforce development education and training. The programme encourages providers to exploit new and emerging technologies to provide a fully interactive, and innovative programmes that will meet the requirements of this tender. This is an exciting opportunity to contribute to the creation of an offer in cancer care education that will support the growth of a competent and professional workforce suited to the demands of 21st century care and service.

It is our expectation that there will be several education providers that will be awarded a contract, subject to attaining a minimum score of 70% on quality (see attached Evaluation criteria in Appendix 3). Once the successful education provider has recruited staff to their organisation, they will be expected to deliver the following:

- a) agree a flexible plan for delivery which takes capacity and learner needs into consideration.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

- b) provide relevant enrolment documents /information to the learner in advance of course starting.

This procurement is specifically looking for provision of a PG Certificate (QIS) and postgraduate level Cancer professional development and clinical leadership module and is seeking to contract HEI's and other eligible education providers that can create and deliver a flexible, accessible programme using innovative means in digital and other technologies. For clarity, providers bidding for the **PG Certificate (QIS)** must ensure they deliver both parts (please refer to Table 1 in Section 1 above).

Consortia or partnership bids are welcome, providing the tender shows evidence that all parties have the capacity to work on this project and are available to deliver within the timeframe. Confirmation of funding for year one (2023/2024 financial year) of the contract is confirmed, with the initial term of the contract set at 1 year. Subject to a review of performance, geographical need and available budget, funding for additional years will be confirmed at a later date. A breakdown of the finances related to this tender can be found in Section 6. It is expected that within Year 1 (financial year 2023/24) some course delivery will commence, such as cohort induction.

Education providers shall provide evidence of on-going investment in the facilities and technological equipment used for the delivery of this Agreement based on maintaining high standards for programme delivery.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

Where appropriate, education providers shall help in securing alternative facilities for students attending programmes covered by this agreement or shall demonstrate support for students in gaining suitable access to equipped facilities for him/her to attend or access online academic elements of programmes. Education providers must ensure that all premises identified as suitable for the delivery of training are readily accessible to attendees, and that no physical or technological barrier to attendance exists at the identified premises. Your identification of such premises, digital and learning technologies indicates that all necessary due diligence in this regard has been satisfied.

3.5. Academic and Clinical Staff requirements

The Institution shall be responsible for ensuring that it has sufficient, appropriately trained and prepared academic and clinical staff to deliver the services under this contract. The Institution shall ensure that all academic and clinical staff contributing to the development, delivery or assessment of services being delivered under this contract reflect the NHS Values and Behaviours as set out in the NHS Constitution.

The Institution shall ensure that it has systems and procedures in place to ensure its academic and clinical staff continue to be appropriately trained and developed. The Institution shall ensure that academic and clinical staff appraisals are carried out in accordance with such systems and procedures, this should include evidence of alignment with the NHS Values and Behaviours as set out in the NHS Constitution.

3.6. Outcomes

For the successful delivery of services, the promotion of attributes and values in today's healthcare is paramount. These attributes include respect for self and others, confidentiality, punctuality, reliability and appearance appropriate to the clinical setting. Providers are expected to demonstrate how they will ensure that the values and behaviours as ascribed within the [NHS Constitution](#) are or will be embedded throughout all of the programmes being offered. As part of submitting a tender response, bidders will be expected to provide a detailed list of activity to be offered in the first year of the contract term. Such activity must be provided in the format specified in Appendix 3 of the tender response template, which requires bidders to set out the unit price for all education programmes. For the avoidance of doubt, unit price is defined as the price allocated to one (1) student place on a specified education programme from start through to completion.

It is expected that within Year 1 (financial year 2023/24) some course delivery will commence, such as cohort induction as a minimum.

3.7. Requirements linked to KPI's

1. **Recruitment:** Successful providers will be expected to develop and implement a coordinated recruitment strategy no later than quarter 1 in the contract. This strategy will be evaluated and reviewed during regular contract meetings to assess their progress in terms of recruitment figures (see KPI 1). The strategy should consider the needs of both healthcare organisations (i.e., Healthcare Service Providers, clinical practice partners, clinical cancer care etc.) and HEI's to ensure that the best possible candidates are recruited for the programme, through, for example joint recruitment processes.
2. **Engagement** with people with a lived experience of cancer – Successful providers will demonstrate through the design, development and delivery of the PG Certificate and professional development and leadership module the engagement of people with a lived experience of cancer.
3. **Technology:** Successful providers are encouraged to take advantage of current and emerging innovative technologies in the development of the programme. The expectation is for **10%** of the programme to be delivered which embeds these technologies (i.e., use of simulation and virtual

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

reality). Where the levels do not meet expectations, strong justifications and reasonings must be provided.

4. **Blended Learning:** Deliver the PG Certificate (QIS) programme using a blended learning approach as defined in the [introduction](#), which includes mandatory in-person delivery of between 10-30% of the taught theory content hours, as well synchronous and asynchronous online delivery. A blended learning approach would allow learners to access the majority of the theory-based learning online and attend the University of choice for 10-30% of the total taught theory content, for example clinical simulation practice, and arrange a clinical placement nearer to their home. Learners may arrange a learning opportunity in another cancer service/setting to understand the patient journey/experience.
5. **Marketing plan:** A comprehensive marketing plan will be submitted during the contract mobilisation stage, providing a high-level assurance demonstrating that the successful provider is delivering on the following:
 - a. Targeting underrepresented groups in the workforce based on population demographics.
 - b. Engaging with local key stakeholders to inform programme development and delivery.
 - c. Present engagement strategies which demonstrate an understanding of local demographics needs and ensure strategies for engaging with different parts of the region to enable co-design, informing decision and strategic priorities.
6. **Annual Evaluation:** Successful providers will be expected to facilitate and deliver a comprehensive evaluation of the programme to include learner satisfaction, quality and curriculum reviews and employer feedback where successful employment in cancer care is achieved.
7. **Government Social Value Priorities:** We acknowledge that these will vary for providers, however the expectation is that for successful providers to demonstrate how they will contribute to the NHS' net zero targets and social value in contract delivery in line with the [Government's Social Value Model](#). If appropriate, these will then be used as KPI's in the contract to report against.

4. Service Levels and Key Performance Indicators (KPIs)

To ensure the maintenance of quality of the training solution and delivery of this specification, the below Key Performance Indicators (KPIs) will be measured for the duration of the contract. Successful providers should note that the KPIs will be expanded on in the reporting schedule of the contract to ensure there is clarity in expectations for module development and delivery. The contract will be managed in accordance with the following indicative KPIs which will be collected and reviewed on a quarterly basis.

1. Recruitment strategy:

- a) Successful providers will be expected to report against and deliver the number and percentage of starters on the programme against the agreed figures in table 1 This includes reporting on the number of applicants, total offers made and justifications for unsuccessful and incomplete offers (i.e., rejections and leavers). Additionally, it is our expectation that providers include reasoning for the scores of unsuccessful candidates and how the total number of successful applicants can be increased, and incomplete offers reduced.
- b) Successful providers will be expected to report against the number and percentage of completers on the programme based on the agreed figures in
- c) While education providers do not have control over successful completers gaining employment, it is our expectation that successful providers report on the number and percentage of completers who have also been supported in gaining employment in cancer care. Education providers are expected to provide regular reports on attrition from the programme and where possible the reason for this.
- d) The metrics reported by successful providers are graded in three RAG criteria's and it is our expectation that providers are delivering at a recruitment figure of 70% minimum (pass):
 - I. Green: recruitment figures of 80% and above.
 - II. Amber: recruitment figures ranging from 60-80%.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

III. Red: recruitment figures which fall below 60% (Fail).

3. Equality, diversity and inclusion (EDI)

- a. Successful providers will be expected to deliver an analysis of programme take-up in year 1, which highlights EDI data (age, disability, gender, ethnicity, religion or belief, and sexual orientation). This will be analysed noting where there is a positive change (%) reported through the annual evaluation.

4. Learner satisfaction outcomes:

- a. Successful providers will be expected to deliver a comprehensive student/learner satisfaction and plans for quality enhancement, where education providers must report on the programme overall, teaching, learning, assessments, and feedback to the tutor (including qualitative and quantitative data). The methodology used to collect this data will need to be outlined by the successful provider and the outcomes will be graded using the following scoring criteria:
 - i. Excellent, overall satisfaction figures of over 80%
 - ii. Very good, overall satisfaction figures of over 70%
 - iii. Good, overall satisfaction figures of over 60%
 - iv. Average, overall satisfaction figures of over 50%
 - v. Poor, overall satisfaction figures which fall below 50%

Key Performance Indicator Metric Table

	Key Performance Indicator	Evidence Exemplar
Recruitment (Qualitative)	- A review of recruitment and selection policy and processes is undertaken by the provider annually, including successful recruitment at allocated regional level, and reported back with inclusion in the annual quality and performance report. - Within this we expect to see a clear breakdown of widening participation, demographic data, and equality data. - Recommendations arising and further actions are agreed with the Authority ahead of the next recruitment phase.	Evidence of a mutually agreed recruitment and selection plan between the Authority and provider showing actions and the outcomes of these actions. This is to be included as an appendix to the annual report. As a minimum this plan must include the following topics: - Evidence and demonstration that staff are recruited in line with requirements in the tender - Evidence and demonstration of working in partnership with the relevant HEIs, Healthcare Service Providers, clinical practice partners, clinical cancer care providers e.g., NHS Trusts in their area and the Authority to manage over and under recruitment. - Evidence and statistics of support for widening access. - Evidence and statistics of promotion of Equality Diversity and Inclusion. - Evidence of ensuring candidates' compatibility with the values and behaviours defined within the NHS Constitution; Explanation of how a clear record of interview decisions are maintained - Explanation and Evidence of how service representatives are actively engaged in recruitment and selection process. - Demonstration and evidence of innovation and adoption of best practice in the development of marketing, recruitment and selection plans, ensuring accessibility across a regional recruitment pool. - Evidence and demonstration that the Institution has ensured that students understand their responsibility to provide feedback on their education experience;
Recruitment (Quantitative)	- Numbers of interest, applications, and starters. A conversion rate should also be developed between these figures. - Geography/location of course delivery. - Number of engagement events and marketing opportunities to be demonstrated. - Starters are identified as the number of staff commencing training on a programme as first-time entrants and not transfers in from other programmes.	Variance between commissioned numbers and actual students recruited per programme (actuals and percentage). Target recruitment is 100% with flexibility around how this will be achieved. Percentage of staff recruited (as percentage of recruitment total) as follows: - Green: recruitment figures of 80% and above. - Amber: recruitment figures ranging from 60-80%.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

	- Recruitment will be measured against the recruitment target in each contractual year as set out in your bid. - Recruitment will be measured based on the Census data submission of information from the provider from contract commencement date.	Red: recruitment figures which fall below 60% (Fail). Demonstrable evidence of all recruitment activities, with narrative detail.
Attrition	- The average rate of exits from commissioned programme(s) (percentage) and identification of key attrition points/factors. - Attrition figures are produced by grouping programme uptake across cohorts and calculating the aggregate rate of attrition over all cohorts for each year from contract commencement date. - Sum of all (Discontinuances + Withdrawals + External Transfers Out + Internal Transfers Out – External Transfers In – Internal Transfers In) / Sum of all Starters Definitions of the items used in the formula: Discontinuation: A student who leaves by the education provider's decision Withdrawal: A student who leaves by their own decision External Transfer: A student who moves to or from a different education provider, with credit Internal Transfer: A student who moves between programmes or cohorts within an education provider, e.g., returning after a break in study and moving to a later cohort. Starters: Students commencing training on a programme as first-time entrants and not transfers in from other programmes.	Measured through Contract Review Meeting and end of year report, to include: - Evidence of notification to NHSE of students who change their pathway. - Evidence of actions taken to minimise attrition. - Trends and Themes identification report - Attrition report demonstrating, date notified, action taken, outcome.

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

Completions	The actual and percentage of completers against starting numbers	Direct from census data and contract review meetings and reports
Course Content	The provider undertakes an annual review of programme content and delivery and agrees with NHSE to ensure it delivers the learning outcomes of the two offers. As outlined under Section 2, Scope of contract, and Section 3, Detailed Requirements, it is NHSE's expectation that providers access the ACCEND Framework and ensure the programmes delivered are mapped accordingly in line with the framework. To support the development of the PG Cancer professional development and clinical leadership module additional resources are included in Appendix 1 and Appendix 2. This will ensure that the learning and development provision contributes to the full range of knowledge, to support the capabilities required to make individuals safe and effective members of the workforce.	Production of an Evaluation Report for Quality and Performance on an annual basis which as a minimum must include: • Clear process for the management of concerns raised by Students about course content and delivery, detailed log of concerns, actions and outcomes, • Clear process for involving service, clinical staff and system leads in curriculum design and delivery, including evidence and feedback from service, • Demonstration of partnership working with the Authority in curriculum design and delivery; with themes discussed and outcomes taken • Demonstrable innovation in curriculum design and delivery; with research supporting the innovation • Evidence that academic/ clinical staff developing and delivering programmes have up to date, relevant academic, professional and clinical knowledge; log of CPD training completed and date (no identifiable information) • Evidence that academic staff developing and delivering Programmes reflect the values and behaviours of the NHS Constitution. • Evidence that delivery for the programme ensures research-informed teaching from within a research-rich environment; log of research utilised and any research outputs • Evidence that delivery of the programme must include input from clinical experts from Service, with relevant professional body registration, and those research-active in the relevant curriculum areas. Record of themes, discussions and outcomes. • Evidence of the progressive development of digital capabilities
	The provider confirms over the course of the year it will report any weakness identified by quality reviews either	• Reports from other reviews should be available on request • External Examiner Reports

1.1 QIS Postgraduate Certificate and PG module Professional development & clinical leadership

Quality Reviews	internal or external and share their module and course feedback from external examiners and students. In addition, the provider would be required to confirm that an action plan has been or is being developed in partnership with the Authority. Where no weakness has been identified by any form of review over the previous year, the provider would need to confirm this with the Authority. The provider shall share information in relation to the placement of students on the programme and share any concerns, issues or incidents occurred whilst on placement.	• Module and Course Survey results • Action plans to address concerns should be developed and agreed with the Authority • Sharing of performance and quality data confidentially for the purpose of benchmarking • Placements either physical or virtual survey results
Learner Voice	The provider participates in module and course evaluation to ensure learner voice is represented to ensure quality of the course content	Action plans and collated student feedback for each cohort must be available on request, to demonstrate a representation of learner voice in relation to course content and delivery. Feedback from students – student evaluations, mid and post module Evidence should be available to demonstrate: • Effective approach to interrogating the data • Effective mechanisms for feeding back to Students • Process and evidence for making changes based on feedback • How the HEI is measuring effectiveness of changes made as a result of Student feedback Where response rates are low, the supplier must produce an action plan to show how these will be increased. Expectant of student satisfaction of 80% or above, per module and for course.

Demonstration and logs of partnership working through regular engagement with: • The Authority • Local practice providers • Other contracted providers for this programme • HEE/NHSE Technology Enhanced Learning Team (TEL)

5. Contract Management and Review

a) 5.1. Performance management requirements

The QIS and Professional development and clinical leadership module are to be delivered by the agreed deadline and to a standard of high-quality where successful providers will:

- a) adhere to the guidance set out in this specification, where they are expected to demonstrate creativity and expertise in the module development, and a strong attention to detail.
- b) adhere to the reporting schedule where Milestones are delivered to time and budget.
- c) expected to report risks and issues in a timely and efficient manner, with considerations for appropriate mitigation strategies.
- d) ensure that the allocated project lead continues to monitor, and review spend against deliverables across the period of the contract, reporting on a quarterly basis.
- e) ensure a suitable representative from the provider company will be made available to attend planning/scoping meetings (virtually or in person) when required. This includes a senior representative from the provider company reviewing the contract, raising issues, and agreeing mitigation strategies where applicable.
- f) where it is conducive to the development and delivery of the module, the provider company makes appropriate provision for relevant NHSE members or subject matter experts to work directly with their staff to provide guidance.

b) 5.2. Meeting Schedule

There will be a minimum of **two Contract Review meetings** each year unless otherwise required by the Authority. These will be led by the Authority with appropriate representation from the provider. The purpose of contract review meetings shall include, but is not limited to:

- a) Identify problems encountered with delivery and actions taken and/or planned
- b) Report the effectiveness of any previous changes to curriculum or delivery
- c) Report on current recruitment, delivery, teaching, and assessment of courses being delivered
- d) Identify significant changes to resource and the impact of this on the programme.
- e) Review performance information including recruitment, programme attrition and completion rates
- f) Review delivery of actions agreed as part of annual report.

5.3. Annual Report

The provider will be expected to submit annually a quality and performance report as identified in the Key Performance Indicators. This will be submitted by the provider and reviewed by the Authority at the end of each academic year. In addition, the provider is required to submit a part-year report, clarifying actions completed from the annual report, progress to date and key milestones for delivery before the annual report.

5.4. Periodic Review

The authority may carry out a periodic review in line with contractual requirements and the lifetime of this agreement to determine whether or not the provision to extend this agreement should be enacted. The periodic review will be undertaken by officers of the Authority and other health service representatives in discussion with representatives from the provider. Providers are to grant access within one week for the Authority to undertake a periodic review. In exceptional circumstances where the Authority has been notified of a quality issue, this will be unannounced. The outcomes of periodic reviews will be confirmed in writing to the provider by the Authority, in adherence with the appropriate clauses of this agreement.

5.5. Continuous Risk-based Quality Monitoring

All Programmes covered by this Agreement are subject to the HEE/NHSE Quality Framework. The provider must ensure that it fully engages with the Framework – [click here: HEE Quality Framework](#) or any successor process. The Authority has responsibility for quality across all healthcare learners therefore the provider must ensure it allows effective oversight of where training is succeeding and works with the Authority to create new solutions where there are concerns about quality. Quality concerns will be reviewed against the HEE/NHSE quality domains and related standards. Each domain has a set of metrics and evidence which will be used to form an assessment of compliance with the standards. The provider must ensure it meets its responsibilities in relation to:

- c) Delivering high quality education
- d) Ensuring that students understand their responsibility to provide feedback via the student surveys and other feedback forums
- e) Engaging with the Quality Framework implementation process

Risks and concerns relating to the quality of programmes or student experience should be raised with the Authority at the earliest opportunity. Following triangulation of evidence, the Authority will notify the provider should any quality interventions be required. This will be an on-going process. Any outcomes arising will be notified in writing by the Authority including further actions.

6. Finance & Delivery

NHSE is seeking to ensure clear and unambiguous pricing for the programmes commissioned. The maximum financial envelope for the **two** offers is up to £635,000 (maximum of £435,000 Offer 1 and maximum of £200,000 for Offer 2). This is split between the two offers as per Table 3 below. Providers can bid to deliver both offers.

- For Offer 1, we will be seeking to engage a maximum of 4 individual providers across 4 different regions to ensure geographical spread.
- For Offer 2, we will be seeking to engage a maximum of 2 individual providers across 2 different regions to ensure geographical spread.
- Providers are able to bid for Offer 1 and Offer 2.
- Providers are able to bid to deliver cohorts in multiple regions as long as they are able to demonstrate they have the capabilities to do so.

Table 3 outlines the maximum course cost per person for each offer. We encourage providers to provide a competitive quote whilst recognising the quality and time aspects we

are seeking to achieve. Table 3 also details the amount that is reserved for development costs, which providers can bid for.

We encourage providers to provide a competitive quote whilst recognising the quality and time aspects we are seeking to achieve. Consortium or partnership bids are welcome, providing the tender shows evidence that all parties have the capacity to work on this project and are available to deliver within the timeframe.

Table 3 - Financial Breakdown

Offer	Title of course	Maximum funding for course per person	Maximum funding available for the development of the course (split per provider)	Number of regions (up to)	Number of places per region (minimum)
1	Post-graduate certificate: Qualification in specialty (QIS) for cancer care (60 credits)	£2,550 for PG cert	*Maximum of £4,700 per learner	4 regions in England	15
2	Postgraduate module: Professional development and clinical leadership in cancer care (30 credits)	£1,250 for PG module	*Maximum of £3,750 per learner	2 regions in England	20

Whilst the ACCEND programme has defined preferred outcomes, it also wishes to be flexible and open to alternate options to meet the delivery of quality training. **Please note, we are working to very tight timescales, driven by financial year funding pressures. Hence, we are seeking providers who can respond and deliver with speed and agility.**

Bidders should ensure pricing ranges consider the accredited training programme(s). NHSE reserves the right to reject bids in excess of the amounts highlighted above per learner. Part funding will be given to training providers upfront to ensure funds are available for the duration of the contract. NHSE wish to ensure through this procurement that:

- Education providers are or will be able to operate at a scale that is both viable and sustainable in terms of finance and quality.
- Education providers are able to demonstrate the ability to provide economies of scale against specific areas of their available provision and that such economies are reflected in a differential pricing structure.
- Education providers can clearly articulate and demonstrate their costing structures for all available provision including bespoke activity; and
- Education providers can offer provision at the lowest available cost for their institution at any given time.

For the avoidance of doubt, unit prices for each programme must include the following components:

- Administration of the education services
- Enrolment and registration of students with the relevant statutory and education bodies
- Teaching of students in accordance with the relevant course documents.
- The provision of all necessary course documents
- Access to learning resources.
- Such other services as are reasonably required to provide the education services.
- Cost of digital and learning technologies to be used in development and delivery of training.

NHSE will require transparency against all costs associated with the unit price and therefore bidders are requested to ensure all financial assumptions are clearly articulated in their tender. NHSE will not consider any additional costs not identified within the unit prices proposed. Furthermore, as part of the contract, throughout the contract term, NHSE reserves the right to review the pricing of any programmes offered, even after selection and reserve the right to exclude any programmes where the unit price is inconsistent with the pricing methodologies submitted as part of this tender. Each provider will submit invoices with a detailed breakdown of costs and services to be provided. These invoices will include all elements. Details around expectations will be detailed in the contract.

It is an express term of any contract awarded under this tender that all invoices are submitted to NHSE by **31st January 2024**. Invoices received after this date will not be processed. It is expected that within Year 1 (financial year 2023/24) some course delivery will commence, such as cohort induction.

The awarded bidders are expected to provide effective management of funds associated for programmes delivered in accordance with the details outlined in this specification. In delegating those responsibilities, NHSE need to ensure such financial operations are both lawful and adhere to the respective organisations' policies and procedures. Financial management will follow formal contractual processes and is expected to be achieved within the terms of the funding provided. The awarded bidders are to have a transparent and governed process including evidence and accounting, for funding being utilised for the purposes set in this specification.

7. Sustainability

The delivery of cancer care education and training must prioritise sustainability, given the increasing demand for cancer care services and the challenges associated with an ageing population and scientific and technological advancements. As the current cohort of cancer care nurses and AHPs approach retirement, it is essential to ensure that their expert knowledge and skills are passed down to the next generation of professionals to maintain service quality and sustainability. Providers of cancer care education and training must also demonstrate their commitment to sustainability by delivering high-quality, evidence-based education and training programs that reflect local educational needs and minimize environmental impact. They must contribute to the NHS' net-zero targets and social value in contract delivery in line with [the Government's Social Value Model](#). This may involve using digital technology to reduce travel and emissions and adopting sustainable procurement practices to reduce waste and promote social value. Sustainability in cancer care education and training also entails the integration of leadership development to empower nurses and

AHPs to take on leadership roles, promote a culture of continuous improvement and innovation, and contribute to the long-term sustainability of service provision. Investing in sustainable cancer care education and training can reduce unwarranted variation in service provision and empower communities to take control of their own care.

However, the critical shortages in the Health and Social care workforce, particularly in the cancer care sector, pose a significant challenge to sustainable service provision. The absence of a standardised curriculum and nationally recognized career pathway further compounds these challenges. Thus, decisive, long-term, and coordinated action is necessary to address these issues, including the recruitment and retention of staff and the mapping of the PG Certificate (QIS) and PG Cancer professional development and clinical leadership module to the [ACCEND Framework](#) to increase consistency in knowledge and skills development and prevent unnecessary duplication in education and training delivery. Any developments in the QIS/professional development and clinical leadership agenda must be scalable and sustainable to meet the increasing demands for cancer care services while prioritizing the sustainability of service provision.

8. General Data Protection Regulations (GDPR)

The successful provider(s) will be required to complete all necessary Data Protection Impact Assessment (DPIA) documentation to ensure adherence with GDPR and NHSE policies, in respect of data processing and security. The Supplier will be considered as the data manager for trainee and training provider information. The supplier will abide by public sector requirements for data security and management and will abide by GDPR (General Data Protection Regulations) regulations. Data will be required, anonymised, for use by the commissioner. Data in respect individuals may be required by the commissioner, or its agents, in order to prevent, investigate, or prosecute fraud or other illegal activities.

9. Intellectual Property

All Intellectual Property Rights used or owned by a Party prior to the Commencement Date (Background IP (Intellectual Property)) is and shall remain the exclusive property of the Party owning it (or, where applicable, the third party from whom its right to use the Background IP (Intellectual Property) has derived). Each Party grants to the other royalty-free, non-exclusive licence to use its Background IP (Intellectual Property) during the contract terms for the sole purpose of developing and delivering the Programme, but for no other purpose. Neither Party shall be entitled to grant and sub-licence over or in respect of the other Party's Background IP. Any modification or amendment to the service or training materials shall be subject to the Authority and the Supplier approval.

The qualifications/training courses will be linked to/from the ACCEND hub under the relevant level of practice section currently being designed for the Registered, Enhanced towards Advanced (RETA) workstream of the ACCEND Programme.

Except as set out expressly in this contract no Party shall acquire the Intellectual Property Rights of any other Party. The Provider confirms and agrees that all Intellectual Property Rights in and to the Provider Outputs, Services, materials and any other output developed by the Provider as part of the Services shall be owned by NHSE. The Provider hereby assigns with full title guarantee by way of present and future assignment all Intellectual Property Rights in and to such Provider Outputs, Services, materials and other outputs to NHSE. The Provider shall ensure that all Staff assign any Intellectual Property Rights they may have in and to such

Provider Outputs, Services, materials and other outputs to the Provider to give effect to clause 11.3 and that such Staff absolutely and irrevocably waive their moral rights in relation to such Provider Outputs, Services, materials and other outputs. This clause 11 shall continue notwithstanding the expiry or earlier termination of this contract.

The Provider is hereby granted a non-exclusive, non-transferable, royalty-free, non-sublicensable right and licence to use all Intellectual Property Rights assigned pursuant to clause 11.3 for academic and research purposes, including research involving projects funded by third parties provided that no third party shall gain any rights in or to such Intellectual Property Rights.

For the avoidance of doubt, the Provider is not granted any permission to use any Intellectual Property Rights licenced to it in accordance with clause 11.6 for commercial gain.

All Intellectual Property Rights used or owned by a Party prior to the Commencement Date (“**Background IP**”) are and shall remain the exclusive property of the Party owning them (or, where applicable, the third party from whom its right to use the Background IP has derived).

Each Party grants to the other a, royalty-free, non-exclusive licence to use its Background IP for the sole purpose of developing and delivering the Services but for no other purpose. Neither Party shall be entitled to grant any sub-licence over or in respect of the other Party’s Background IP.

10. Confidentiality

The provider agrees to comply with the following:

- That they shall keep permanently confidential the information contained herein or sent herewith or made available in connection with further enquiries (in accordance with the Freedom of Information Act 2005), and
- That they shall not divulge or communicate to any personnel (other than those whose province it is to know the same or with the permission of NHSE or where a joint response with another Education Provider is requested) any such information, and
- That they shall ensure that their employees, agents, and sub-contractors comply with the same principles.

11. Freedom of Information (FOI)

Submissions will be subject to the Freedom of Information Act 2000 (FoIA). Potential providers should be aware of NHSE’s obligations and responsibilities under the FoIA to disclose on request recorded information held by the organisation provided by potential providers in connection with this procurement exercise, or with any contract that may be awarded as a result of this exercise, unless it considers one of the statutory exemptions under FoIA. On 1 April 2023 Health Education England merged with NHSE and all FoIA requests are processed by [NHSE](#).

12. Contract Period

- **SERVICES COMMENCEMENT DATE:** This contract shall start as soon as possible.

- **EXPIRY DATE:** This contract shall expire on the Expiry Date unless terminated earlier in accordance with clause 15.2 (Termination) of Schedule 2 of the contract.
- The initial term of the contract will be 1 year with the option to extend for a further 1-year period subject to a review of performance, need and available budget.
- **LONG STOP DATE:** The Long Stop date as defined in definition shall be within 3 months of service commencement date as per Clause 15.5.1 of Schedule 2.

Appendix 1: Learning, supervision and support expectations linked to postgraduate Professional development and clinical leadership module

f) Introduction

Practitioners engaging with this specification need to have a scope of practice, role and practice environment that provides them with structured, supportive opportunities to engage in relevant, safe and effective workplace-based learning and supervision that reflects the demands of advanced-level practice. They will need to commit to engage with the required learning arrangements and assessment requirements to do the following:

- meet the outcomes and underpinning capabilities.
- integrate all components of learning in their progression and development.
- engage in learning and development activities that reflect the demands of advanced / masters learning (e.g., in terms of engaging with complexity, ambiguity and risk and engaging critically with the evidence base).

At all times, practitioners must place the wellbeing and safety of patients above all other considerations and take responsibility for recognising and working within the limits of their personal scope of practice and competence.

Emphasis is on the further development and refinement of practitioners' clinical decision-making to manage increasing levels of complexity, ambiguity and risk, including on when to seek assistance and advice from others. Practitioners are expected to take responsibility for their own learning and to be proactive in initiating appointments with their supervisors (see below) to plan, undertake and receive feedback on their learning and development.

Learning and assessment must be routed in being outcomes focused and that any/all assessment of practice is focused on demonstrating capability.

g) Formal teaching and learning

Education providers and those providing workplace-based supervision and learning opportunities must use this specification to plan learning, teaching and assessment strategies to maximise the quality and integration of workforce development across academic and clinical settings.

Practitioners should be enabled to develop their professional knowledge, skills and behaviours to achieve the outcomes set out in this specification by having access to a variety of learning and teaching activities and being supported to engage in critical reflection on their own development, informed by feedback from others.

Learning and teaching activities can include, but are not limited to, the following:

- teaching sessions including lectures and small group teaching.
- case presentations.

- engagement in research and quality improvement projects.
- clinical skills simulation.
- joint specialty meetings.
- independent learning, including the critical appraisal of research and other evidence-based practice resources.
- structured reflection on learning.
- participation in management and multidisciplinary meetings and,
- recommended online resources.

Other learning activities can support practitioners providing that they clearly align with the learning outcomes. Delivery of all components requires collaboration between education providers, local service providers and practitioners. Whether practitioners are employed or on placement, local service providers retain full responsibility for all aspects of clinical governance in the workplace, in line with the specific responsibilities set out in locally made collaborative agreements.

h) Self-directed learning

Practitioners are expected to take a proactive approach to their own learning and development as part of engaging with the specification, including through their engagement with multi-professional team-working, learning and collaboration. Practitioners are responsible for:

- engaging with opportunities for learning
- initiating assessments and appraisal meetings with their supervisors
- undertaking self- and peer-assessment.

Practitioners are expected to take the opportunity to learn with their peers (including at a local level) through engaging in peer-to-peer learning, review and discussion. Practitioners are also expected to undertake self-directed learning in line with their personal learning needs to meet the learning outcomes. This includes through engaging critically with learning and development materials and evidence-based publications, and their critical reflection on their own learning progression and practice.

Practitioners should maintain a portfolio of evidence of their learning and development as they progress. They should use their portfolio as a medium for critical reflection on their learning and practice in ways that are in keeping with the demands of level 7 learning and development. Reflective practice is an important part of self-directed learning and of continuing professional development. It is an educational exercise that enables practitioners to explore, with rigour, the complexities and underpinning elements of their actions in order to refine and improve them. Reflection in the oral form is an activity that advanced practitioners may engage in and find useful and developmental.

Writing reflectively also adds to the oral process by deepening the understanding of practice. Written reflection offers different benefits to oral reflection that include: a record for later review; a reference point to demonstrate development; and a starting point for shared discussion. Whatever the modality of reflection, it is important that it takes place and that there is a record of it having taken place, whether or not the specific subject or content of the reflection is recorded. Practitioners are expected to use feedback from their supervisor to inform their on-going focuses for their further professional development, across the four pillars of practice.

i) Workplace-based learning

Workplace-based learning should provide the majority of experiential learning opportunities, supported by practitioners' supervisor and other experienced clinicians. These settings will provide learning to include liaison with other practitioners, working closely with the multidisciplinary team, referral as appropriate, discharge planning and follow-up. Continuous systematic feedback and reflection are integral to learning from practice and will be assisted by workplace-based supervision and assessments. The practitioner is required to keep evidence of workplace-based learning activity and further development in their portfolio. The following arrangements should be in place to support practitioners' workplace-based learning:

- access to online learning facilities and libraries, including e-resources.
- induction to local policies, procedures and arrangements comparable to senior clinical decision-makers.
- access to electronic patient records consistent with their level of training and in line with all data security requirements and protocols.
- use of resources to enable safe and effective learning.
- access to storage for confidential training records and,
- access to appropriate local training.

j) Workplace-based supervision

Workplace-based supervision is fundamental to the delivery of safe and effective training. It takes advantage of the experience, knowledge and skills of expert clinicians and ensures interaction between an experienced clinician and the practitioner.

Supervision is designed to ensure safety by encouraging safe and effective practice and professional conduct. Learning must be supervised appropriately, depending on the experience of the practitioner, case mix and workload to enable delivery of high-quality, safe patient care. It is anticipated that, as the practitioner progresses, the level of supervision will be tailored to facilitate independence consistent with safe and effective person-centred care. Those involved in the workplace-based education supervision of practitioners must have the relevant qualifications, experience and training to undertake the role. Specialist skills and knowledge are usually taught by consultant or advanced level practitioners, whereas the wider multidisciplinary team can also teach the more generic aspects of practice.

k) Workplace-based coordinating education supervisor

A workplace-based coordinating education supervisor is required who is appropriately trained and with the delegated authority to fulfil the role. This may be a consultant practitioner or an experienced advanced clinical practitioner who has the necessary skills, knowledge and experience to oversee the practitioner's clinical activity and learning. The workplace-based education supervisor must be familiar with the specification and local arrangements for its delivery and take-up. This includes the precise arrangements for supervision, learning and assessment and providing good-quality, constructive feedback and for ensuring the practitioner is enabled to develop safely and effectively.

A practitioner's portfolio should include their reflections on their learning experiences and progress and a record of their learning agreement meetings, supervision reports and workplace-based assessments, including their outcomes. The workplace-based education

supervisor's main responsibilities are to use the evidence held within the practitioner's portfolio, including the outcomes of assessments, reflections and the progression of learning agreements, to inform appraisal meetings. Supervisors are also expected to update and verify the practitioner's record of progress as part of the assessment for the module.

Further information:

Health Education England has published guidance for [Workplace Supervision for Advanced Clinical Practice \(2021\)](#). This sets out detailed guidance for the workplace supervision of registered health professionals developing in advanced clinical practice including:

- Identifying the advanced clinical practice demands (including competence and capability), understanding multi-professional registrations and scope of practice.
- Approaches to learning and development include developing and agreeing and individual learning plans.
- An integrated multi-professional approach to workplace supervision, including the recommended roles of 'coordinating education supervisor' and 'associate workplace supervisors' and employer responsibilities.

Appendix 2: Strategy to support assessment linked to postgraduate Professional development and clinical leadership module

Introduction

The purpose of the strategy set out here is to define the principles for a proportionate, robust and consistent approach to practitioner assessment, including:

- Demonstrable integration of academic and workplace-based learning in how outcomes are assessed.
- Formative assessment leading to summative assessment.
- Integration of critical reflection on learning and development.
- Evidence of engagement in evidence-based practice.
- Development of a portfolio of evidence.
- A proportionate approach (including to avoid over-assessment).
- Consistency in assessment decisions.

It is recognised that employers and education providers may already have established assessment processes in place with regard to workplace-based and academic assessment. It is not the intention for this specification to add another 'layer' of assessment where this is the case. Rather, it is to support education providers and employers to ensure that their approach to assessment aligns with and fulfils the requirements set out in this specification and that the assessment load remains proportionate for all parties. The assessment strategy is designed to allow practitioners to demonstrate their fulfilment of the outcomes set out in this specification and to deliver high-quality care to meet population/patient needs within the specific service delivery model in which they have a role and their individual scope of practice.

The approach to assessment must have both formative and summative aspects. Workplace-based assessment must be carried out by a workplace-based supervisor in the practitioner's clinical setting. The approach should ensure the safe ongoing progression of practitioners' learning to meet the requirements of enhanced and advanced-level practice, recognising the importance of assessing the integration of learning and the multi-faceted nature of working at these levels of practice.

Approaches to assessment

The achievement of each outcome and capability in practice must be demonstrated through sufficient, valid, proportionate evidence, in line with the demands of master's level. The reliability of the assessment process can be increased through triangulating and integrating written, observational and oral evidence. The emphasis within evidence must be on quality and not quantity. However, it is acknowledged that assessment drives learning and, as such, practitioners should be encouraged to seek assessment and feedback on their performance. The number of formative assessments undertaken prior to a summative assessment is not stipulated. It is anticipated that all assessments provide evidence that contributes to the professional development process.

Types of assessment

Examples of types of assessment evidence that can be used either formatively or summatively include but are not limited to:

Multi-clinician report	This is designed to help capture the opinions of clinicians who have supervised the practitioner. They are asked to comment on clinical knowledge and skills and various important aspects of clinical performance.
Self-assessment	As part of the multi-clinician report, the practitioner undertakes self-assessment that encourages analysis of existing knowledge, level of ability and preferred learning style. Within this analysis, reflection on self, performance, task and suitability is encouraged to explore, develop and evaluate capability and interpersonal skills.
Multisource feedback	This is used to gather feedback on generic skills, such as communication, leadership and teamworking, alongside assessing behaviours. Feedback is sought from people that practitioners care for and colleagues with whom they work, including their manager, peers, junior staff, administrators and other allied health professionals.
Mini clinical evaluation exercise	A mini clinical evaluation exercise formatively or summatively assesses history taking (interpersonal skills), physical examination (clinical skills) and differential diagnosis (problem-solving skills), that lead to the development of a treatment plan. Feedback is provided to enable learning and development.
Case-based discussion	A case-based discussion is an interview conducted by the workplace-based supervisor designed to assess knowledge, clinical reasoning and decision making focused on written case records. It enables assessment and feedback to be documented to enable learning either formatively or summatively.
Direct observation of procedural skills	The direct observation of procedural skills is used to assess clinical and professional skills in performing a range of diagnostic and interventional procedures. The assessor does not have to be the workplace-based supervisor. The assessor will provide written feedback for the practitioner's portfolio and verbal developmental feedback. A practitioner may already be proficient in the capability being observed, and this must be recorded in the portfolio and approved by a suitably qualified/competent assessor.
Patient survey	The patient survey is aimed at triangulating the feedback the practitioners receive, while undertaking an episode of care. It considers clinical, interpersonal and professional skills, including behaviours and attitudes, to ensure any episode of care is patient centred.

Practitioners recording progress in their portfolio

Practitioners are expected to keep and develop a portfolio of evidence to demonstrate achievement of the outcomes and identified capabilities in practice set out in this specification. Practitioners should use their portfolio to gather evidence on their progress,

assessments and appraisals. This includes through their recording their learning activities and feedback from others and capturing their own critical reflection on their learning progression. Practitioners are expected to add their own self-assessment ratings to record their view of their progress. The aims of this self-assessment are:

- To provide the means for reflection and evaluation of current practice.
- To inform discussions with supervisors to help both gain insight and assist in developing personal development plans.
- To identify shortcomings between experience, capabilities and areas defined in the curriculum, so as to guide future clinical exposure and learning.

Assessors

Typically, assessors are consultant practitioners, advanced practitioners or other senior healthcare professionals who are appropriately qualified and skilled in assessment and have delegated authority. Assessors can undertake both formative and summative assessments; they must be competent in the area they are assessing and be familiar with the standard of, and approach to assessment, required.

Workplace-based coordinating educational supervisors are expected to use the outcomes and capabilities in practice identified in the specification as the basis for their discussion with practitioners. This includes to inform the identification of practitioners' learning needs and the formulation of learning development plans.

Both supervisors and assessors are expected to have a good knowledge of the learning outcomes and to use these as a guide for their practitioners' programme of learning.

1 Pension protection for Eligible Employees

1.1 General

- 1.1.1 The Supplier shall procure that, if relevant, each of its Sub-contractors shall comply with the provisions in this Schedule 7 as if references to the Supplier were to the Sub-contractor.

1.2 Membership of the NHS Pension Scheme

- 1.2.1 In accordance with Fair Deal for Staff Pensions, the Supplier to which the employment of any Eligible Employee compulsorily transfers as a result of the award of this Contract, if not an NHS Body or other employer which participates automatically in the NHS Pension Scheme, shall on or before the Employee Transfer Date, each secure a Direction Letter to enable the Eligible Employees to retain either continuous active membership of or eligibility for, the NHS Pension Scheme, or as appropriate rejoin or secure eligibility for the NHS Pension Scheme for so long as they remain employed in connection with the delivery of the Services under this Contract.
- 1.2.2 The Supplier must supply to the Authority a complete copy of the Direction Letter as soon as reasonably practicable after the Employee Transfer Date.
- 1.2.3 The Supplier shall comply with the terms of the Direction Letter (including any terms which change as a result of changes in Law) for so long as it remains bound by the terms of the Direction Letter.
- 1.2.4 Where any Staff (including any Transferred Staff) omitted from the Direction Letter supplied in accordance with Part D of this Schedule 7 is subsequently found to be an Eligible Employee, the Supplier (or its Sub-contractor if relevant) will ensure that that person is treated as an Eligible Employee from the Employee Transfer Date so that their Pension Benefits and Premature Retirement Rights are not adversely affected.
- 1.2.5 The Supplier shall ensure that all data relating to the Eligible Employees and the NHS Pension Scheme is up to date and is provided to the Authority as requested from time to time.

1.3 Contributions payable

- 1.3.1 The Supplier shall pay to the NHS Pension Scheme all such amounts as are due under the Direction Letter and shall deduct and pay to the NHS Pension Scheme such employee contributions as are required by the NHS Pension Scheme.
- 1.3.2 Where during the Term the standard employer contribution rate which the Supplier is required to pay into the NHS Pension Scheme pursuant to the terms of its Direction Letter is increased to a rate which is over and above

the rate which was applicable to the Supplier as at the date of this Contract and such rate increase results in an increased cost to the Supplier overall in relation to the provision of the Services ("Cost Increase"), the Supplier shall (subject to Clause 1.3.3 of Part D of this Schedule 7 and the provision of supporting information) be entitled to recharge a sum equal to the Cost Increase to the Authority. The Supplier shall only be entitled to recharge any Cost Increase to the Authority pursuant to this Clause 1.3.2 of Part D of this Schedule 7 in circumstances where the Cost Increase arises solely as a direct result of a general increase in the employer contribution rate applicable to all employers participating in the NHS Pension Scheme and not in circumstances where the employer contribution rate applicable to the Supplier is increased for any other reason, including as a result of any acts or omissions of the Supplier which give rise to any costs or additional charges (including interest) being charged to the Supplier which are over and above the minimum employer contributions payable by an employer in the NHS Pension Scheme (including as a result of a failure by the Supplier to comply with the terms of its Direction Letter or to meet its obligations to the NHS Pension Scheme).

1.3.3 The Supplier must supply all such information as the Authority may reasonably request from time to time in order to support any claim made by the Supplier pursuant to Clause 1.3.2 of Part D of this Schedule 7 in relation to a Cost Increase.

1.3.4 Where during the Term the standard employer contribution rate which the Supplier is required to pay in relation to the NHS Pension Scheme pursuant to the terms of its Direction Letter is decreased as part of a general reduction in the standard employer contribution rate applicable to all employers participating in the NHS Pension Scheme to a rate which is lower than that which was applicable as at the date of this Contract and such decrease results in a cost saving for the Supplier (a "Cost Saving"), the Authority shall be entitled to reduce the amounts payable to the Supplier under this Contract by an amount equal to the Cost Saving. The Authority shall be entitled to deduct any Cost Saving from sums otherwise payable by the Authority to the Supplier under this Contract.

1.4 Broadly Comparable Pension Benefits

1.4.1 If the Authority in its sole discretion agrees that the Supplier or Sub-contractor need not provide the Eligible Employees with access to the NHS Pension Scheme, the Supplier must ensure that, with effect from the Employee Transfer Date until the day before the Subsequent Transfer Date, the Eligible Employees are offered access to a scheme under which the Pension Benefits are Broadly Comparable to those provided under the NHS Pension Scheme.

1.4.2 The Supplier must supply to the Authority details of its Broadly Comparable scheme and provide a full copy of the valid certificate of Broad Comparability covering all Eligible Employees, as soon as it is able to do so and in any event no later than twenty eight (28) days before the Employee Transfer Date.

1.5 Transfer Option where Broadly Comparable Pension Benefits are provided

- 1.5.1 As soon as reasonably practicable and in any event no later than twenty (20) Business Days after the Employee Transfer Date, the Supplier must provide the Eligible Employees with the Transfer Option, where a Third Party offered, or the Supplier offers, a Broadly Comparable scheme.
- 1.6 Calculation of Transfer Amount
- 1.6.1 The Authority shall use reasonable endeavours to procure that twenty (20) Business Days after the Transfer Option Deadline, the Transfer Amount is calculated by the Third Party's Actuary or the Authority's Actuary (as appropriate) on the following basis and notified to the Supplier along with any appropriate underlying methodology.
- 1.6.2 If the Third Party offers a Broadly Comparable scheme to Eligible Employees:
- (i) the part of the Transfer Amount which relates to benefits accrued in that Broadly Comparable scheme other than those in Clause (ii) of Part D of this Schedule 7 below must be aligned to the funding requirements of that scheme; and
 - (ii) the part of the Transfer Amount which relates to benefits accrued in the NHS Pension Scheme (having been previously bulk transferred into the Third Party's Broadly Comparable scheme), must be aligned to whichever of:
 - (A) the funding requirements of the Third Party's Broadly Comparable scheme; or
 - (B) the principles under which the Third Party's Broadly Comparable scheme received a bulk transfer payment from the NHS Pension Scheme (together with any shortfall payment), gives the higher figure, provided that where the principles require the assumptions to be determined as at a particular date, that date shall be the Employee Transfer Date.
- 1.6.3 In the case of Transferring Employees or any Third Party Employees who have access to the NHS Pension Scheme (and who are classed as Eligible Employees), the Transfer Amount shall be calculated by the NHS Pension Scheme's Actuary on the basis applicable for bulk transfer terms from the NHS Pension Scheme set by the Department of Health from time to time.
- 1.6.4 Each Party shall promptly provide to the Actuary calculating or verifying the Transfer Amount any documentation and information which that Actuary may reasonably require.
- 1.7 Payment of Transfer Amount
- Subject to:
- 1.7.1 the period for acceptance of the Transfer Option having expired; and
- 1.7.2 the Supplier having provided the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) with completed and signed forms of consent in a form acceptable to the Third Party's pension

scheme (or NHS Pensions) from each Eligible Employee in respect of the Transfer Option; and

1.7.3 the calculation of the Transfer Amount in accordance with Clause 1.6 of Part D of this Schedule 7; and

1.7.4 the trustees or managers of the Supplier's (or any Sub-contractor's) Broadly Comparable scheme (or NHS Pensions, as appropriate) having confirmed in writing to the trustees or managers of the Third Party's pension scheme (or NHS Pensions, as appropriate) that they are ready, willing and able to receive the Transfer Amount and the bank details of where the Transfer Amount should be sent, and not having revoked that confirmation,

the Authority will use reasonable endeavours to procure that the Third Party's pension scheme (or the NHS Pension Scheme, as appropriate) shall, on or before the Payment Date, transfer to the Supplier's Broadly Comparable scheme (or NHS Pension Scheme) the Transfer Amount in cash, together with any cash or other assets which are referable to additional voluntary contributions (if any) paid by the Eligible Employees which do not give rise to salary-related benefits.

1.8 Credit for Transfer Amount

1.8.1 Subject to prior receipt of the Transfer Amount, by the trustees or managers of the Supplier's Broadly Comparable scheme (or NHS Pensions, as appropriate), the Supplier must procure that year-for-year day-for-day service credits are granted in the Supplier's (Broadly Comparable scheme (or NHS Pension Scheme), or an actuarial equivalent agreed by the Authority's Actuary (and NHS Pension Scheme Actuary) in accordance with Fair Deal for Staff Pensions as a suitable reflection of the differences in benefit structure between the NHS Pension Scheme and the Supplier's pension scheme.

1.8.2 To the extent that the Transfer Amount is or shall be insufficient to provide benefits in the receiving scheme on the basis set out in Clause 1.8.1 above, the Supplier shall be liable to make a top-up payment into the receiving scheme such that benefits shall be provided by the receiving scheme on the basis set out in Clause 1.8.1 above.

1.9 Premature Retirement Rights

1.9.1 From the Employee Transfer Date until the day before the Subsequent Transfer Date, the Supplier must provide Premature Retirement Rights in respect of the Eligible Employees that are identical to the benefits they would have received had they remained employees of an NHS Body or other employer which participates automatically in the NHS Pension Scheme.

1.10 Breach and Cancellation of any Direction Letter(s) and Right of Set-Off

1.10.1 The Supplier agrees that it shall notify the Authority if it breaches the terms of the Direction Letter. The Supplier also agrees that the Authority is entitled to make arrangements with NHS Pensions for the Authority to be notified if the Supplier breaches the terms of this Direction Letter.

1.10.2 If the Authority is entitled to terminate this Contract pursuant to Clause 15.5.5 of Schedule 2, the Authority may in its sole discretion instead of exercising

its right under Clause 15.5.5 of Schedule 2 permit the Supplier to offer Broadly Comparable Pension Benefits, on such terms as decided by the Authority.

- 1.10.3 If the Authority is notified by NHS Pensions of any NHS Pension Scheme Arrears, the Authority shall be entitled to deduct all or part of those arrears from any amount due to be paid by the Authority to the Supplier having given the Supplier five (5) Business Days' notice of its intention to do so, and to pay any sum deducted to NHS Pensions in full or partial settlement of the NHS Pension Scheme Arrears. This set-off right is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.11 Compensation

- 1.11.1 If the Supplier is unable to provide the Eligible Employees with either:
- (i) membership of the NHS Pension Scheme (having used its best endeavours to secure a Direction Letter); or
 - (ii) a Broadly Comparable scheme,
- the Authority may in its sole discretion permit the Supplier to compensate the Eligible Employees in a manner that is Broadly Comparable or equivalent in cash terms, the Supplier having consulted with a view to reaching agreement any recognised trade union or, in the absence of such body, the Eligible Employees. The Supplier must meet the costs of the Authority in determining whether the level of compensation offered is reasonable in the circumstances.
- 1.11.2 This flexibility for the Authority to allow compensation in place of Pension Benefits is in addition to and not instead of the Authority's right to terminate the Contract under Clause 15.5.5 of Schedule 2.

1.12 Supplier Indemnities Regarding Pension Benefits and Premature Retirement Rights

- 1.12.1 The Supplier must indemnify and keep indemnified the Authority and any Successor against all Losses arising out of any claim by any Eligible Employee that the provision of (or failure to provide) Pension Benefits and Premature Retirement Rights from the Employee Transfer Date, or the level of such benefit provided, constitutes a breach of his or her employment rights.
- 1.12.2 The Supplier must indemnify and keep indemnified the Authority, NHS Pensions and any Successor against all Losses arising out of the Supplier (or its Sub-contractor) allowing anyone who is not an Eligible Employee to join or claim membership of the NHS Pension Scheme at any time during the Term.
- 1.12.3 The Supplier must indemnify the Authority, NHS Pensions and any Successor against all Losses arising out of its breach of this Part D of this Schedule 7 or the terms of the Direction Letter.

1.13 Sub-contractors

- 1.13.1 If the Supplier enters or has at the Commencement Date entered into a Sub-contract for delivery of all or part of the Services it shall impose obligations

on its Sub-contractor in the same terms as those imposed on the Supplier in relation to Pension Benefits and Premature Retirement Benefits by this Part D of this Schedule 7, including requiring that:

- (i) if the Supplier has secured a Direction Letter, the Sub-contractor also secures a Direction Letter in respect of the Eligible Employees for their future service with the Sub-contractor as a condition of being awarded the Sub-contract; or
- (ii) if the Supplier has offered the Eligible Employees access to a pension scheme under which the benefits are Broadly Comparable to those provided under the NHS Pension Scheme, the Sub-contractor either secures a Direction Letter in respect of the Eligible Employees or provides Eligible Employees with access to a scheme with Pension Benefits which are Broadly Comparable to those provided under the NHS Pension Scheme and in either case the option for Eligible Employees to transfer their accrued rights in the Supplier's pension scheme into the Sub-contractor's Broadly Comparable scheme (or where a Direction Letter is secured by the Sub-contractor, the NHS Pension Scheme) on the basis set out in Clause 1.8 of Part D of this Schedule 7, except that the Supplier or the Sub-contractor as agreed between them, must make up any shortfall in the transfer amount received from the Supplier's pension scheme.

1.14 Direct Enforceability by the Eligible Employees

- 1.14.1 Notwithstanding Clause 30.8 of Schedule 2, the provisions of this Part D of this Schedule 7 may be directly enforced by an Eligible Employee against the Supplier and the Parties agree that the Contracts (Rights of Third Parties) Act 1999 shall apply to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to him or her by the Supplier under this Part D of this Schedule 7 in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.
- 1.14.2 Further, the Supplier must ensure that the Contracts (Rights of Third Parties) Act 1999 shall apply to any Sub-contract to the extent necessary to ensure that any Eligible Employee shall have the right to enforce any obligation owed to them by the Sub-contractor in his or her own right under section 1(1) of the Contracts (Rights of Third Parties) Act 1999.

1.15 Pensions on Transfer of Employment on Exit

- 1.15.1 In the event of any termination or expiry or partial termination or expiry of this Contract which results in a transfer of the Eligible Employees, the Supplier must (and if offering a Broadly Comparable scheme, must use all reasonable efforts to procure that the trustees or managers of that pension scheme must):
 - (i) not adversely affect pension rights accrued by the Eligible Employees in the period ending on the Subsequent Transfer Date;
 - (ii) within thirty (30) Business Days of being requested to do so by the Authority or Successor, (or if the Successor is offering Eligible Employees access to the NHS Pension Scheme, by NHS Pensions), provide a transfer amount calculated in accordance with Clause 1.6 of this Part D of this Schedule 7; and

- (iii) do all acts and things, and provide all information and access to the Eligible Employees, as may in the reasonable opinion of the Authority be necessary or desirable and to enable the Authority and/or the Successor to achieve the objectives of Fair Deal for Staff Pensions.

Schedule 8

Expert Determination

1 Dispute Process

- 1.1 During any Dispute, including a Dispute as to the validity of the Contract, it is agreed that the Supplier shall continue its performance of the provisions of the Contract (unless the Authority requests in writing that the Supplier does not do so).
- 1.2 In the case of a Dispute the Supplier and the Authority shall make every reasonable effort to communicate and cooperate with each other with a view to resolving the Dispute and shall follow the procedure set out in this Schedule 8.
- 1.3 In the event of a Dispute either Party may serve a Dispute Notice on the other Party to commence formal resolution of the Dispute. The Dispute Notice shall set out:
 - 1.3.1 the material particulars of the Dispute; and
 - 1.3.2 the reasons why the Party serving the Dispute Notice believes the Dispute has arisen.
- 1.4 Following the service of a Dispute Notice the Parties shall first seek to resolve the Dispute by convening a meeting between the Authority's Contract Manager and the Supplier's Contract Manager (together the "**Contract Managers**").
 - 1.4.1 The meeting of the Contract Managers must take place within five (5) Business Days of the date of the Dispute Notice (the "**Dispute Meeting**").
 - 1.4.2 The Contract Managers shall be given ten (10) Business Days following the date of the Dispute Meeting to resolve the Dispute.
 - 1.4.3 The Contract Managers can agree to further meetings at levels 2 and/or 3, as referred to at Clause 5.1 of the Key Provisions in Schedule 1, in addition to the Dispute Meeting, but such meetings must be held within the ten (10) Business Day timetable set out in Clause 1.4.2 of this Schedule 8.
 - 1.4.4 If at any point it becomes clear that the timetable set out cannot be met or has passed, the Parties may (but shall be under no obligation to) agree in writing to extend the timetable. Any agreed extension to the timetable shall have the effect of delaying the start of the subsequent stages by the period agreed in the extension.
- 1.5 If the procedure set out in Clause 1.4 of this Schedule 8 has been exhausted and fails to resolve the Dispute either Party may request the Dispute be resolved by way of a binding expert determination (pursuant to Clause 1.6 of this Schedule 8). For the avoidance of doubt, the Expert shall determine all matters (including, without limitation, matters of contractual construction and interpretation) in connection with any Dispute referred to binding expert determination pursuant to Clause 1.6 of this Schedule 8.
- 1.6 Where the Dispute is referred to binding expert determination the following process will apply:
 - 1.6.1 The Party wishing to refer the Dispute to expert determination shall give notice in writing to the other Party informing it of its wish to refer the Dispute to expert determination and giving brief details of its position in the Dispute.
 - 1.6.2 The Parties shall attempt to agree upon a single expert (who must have no connection with the Dispute unless both Parties have consented in writing) (an "**Expert**"). For the avoidance of doubt, where the Dispute relates to contractual interpretation and construction, the Expert may be Queen's

Counsel. In the event that the Parties fail to agree upon an Expert within five (5) Business Days following the date of the notice referred to in Clause 1.6.1 of this Schedule 8 (or if the person agreed upon is unable or unwilling to act), the Parties agree that the Expert will be nominated and confirmed to be appointed by the Centre for Effective Dispute Resolution.

- 1.6.3 The Expert must be willing and able to complete the expert determination process within thirty (30) Business Days of the Date of Final Representations (as defined in Clause 1.6.5 of this Schedule 8).
- 1.6.4 The Expert shall act as an expert not as an arbitrator or legal advisor. There will be no formal hearing and the Expert shall regulate the procedure as he sees fit.
- 1.6.5 The Parties shall each have the right to make written representations to the Expert and will, with reasonable promptness, provide the Expert with such assistance and documents as the Expert reasonably requires for the purpose of reaching a decision. Such representations must be made within twenty eight (28) Business Days of the Expert being appointed, or fourteen (14) Business Days after the last documents requested by the Expert have been provided to the Expert, whichever is the later ("**Date of Final Representations**"). Any documents provided to the Expert and any correspondence to or from the Expert, including email exchanges, shall be copied to the other Party simultaneously.
- 1.6.6 The Expert shall have the power to open up, review and revise any certificate, opinion, requisition or notice and to determine all matters in Dispute (including his jurisdiction to determine matters that have been referred to him).
- 1.6.7 The Expert may take such advice and assistance from professional advisers or other third parties as he reasonably considers appropriate to enable him to reach a determination of the Dispute and may issue orders that one or both of the Parties are to pay such third party costs, stating the proportion. For the avoidance of doubt, where the Expert is not Queen's Counsel, and the Expert requires advice or assistance on matters of contractual interpretation and construction, the expert may take such advice and assistance from a third party Queen's Counsel of their choosing under this Clause 1.6.7 of this Schedule 8. The Parties will pay any such third party costs incurred pursuant to this Clause 1.6.7 of this Schedule 8 in such proportions as the Expert shall order. In the absence of such order such third party costs will be paid equally.
- 1.6.8 The Expert shall provide the Parties with a written determination of the Dispute (the "**Expert's Decision**") within thirty (30) Business Days of the Date of Final Representations, which shall, in the absence of fraud or manifest error, be final and binding on the Parties.
- 1.6.9 The Expert's Decision shall include reasons.
- 1.6.10 The Parties agree to implement the Expert's Decision within five (5) Business Days of the Expert's Decision being provided to them or as otherwise specified as part of the Expert's Decision.
- 1.6.11 The Parties agree that the Expert shall be entitled to proceed to give his binding determination should one or both Parties fail to act in accordance with the procedural timetable set out above.

- 1.6.12 The Parties will pay the Expert's costs in such proportions as the Expert shall determine. In the absence of such determination such costs will be shared equally.
- 1.6.13 The Parties agree to keep confidential all information arising out of or in connection with the expert determination, including details of the underlying Dispute, except where disclosure is required by Law.
- 1.7 Nothing in this Contract shall prevent:
 - 1.7.1 the Authority taking action in any court in relation to any death or personal injury arising or allegedly arising in connection with the provision of the Services; or
 - 1.7.2 either Party seeking from any court any interim or provisional relief that may be necessary to protect the rights or property of that Party (including Intellectual Property Rights) or which relates to the safety of patients and other service users or the security of Confidential Information, pending the resolution of the relevant Dispute in accordance with the Dispute Resolution Procedure.
- 1.8 Subject to Clause 1.7 of this Schedule 8 neither Party may commence legal proceedings in relation to a Dispute until the dispute resolution procedures set out in this Schedule 8 have been exhausted. For the avoidance of doubt, either Party may commence legal proceedings to enforce the Expert's Decision.
- 1.9 This Schedule 8 shall survive the expiry of or earlier termination of this Contract for any reason.

Schedule 9
