Details

Delivery Info

Kickplates are available made to measure in a variety of metals  
Supplied drilled and countersunk in a variety of sizes

The finishes shown are priced per metre squared  
To find the price of a kickplate you need to calculate the square meterage

**How to price a kickplate:**  
Times the length x the height x the cost

For instance a kickplate measuring 900 mm x 150 mm would be calculated thus:  
.900 x .150 = .135 sq mtr x price of the chosen material shown above

Please call our sales team for more information or to place an order  
Quantity discounts available

30 Day

Money back guarantee Full refunds given

Excellent 

Over 4000 customers have written excellent reviews on [Trustpilot](#)!!
