The opinion will be provided on a without prejudice basis and will not be used in evidence in any proceedings relating to this Agreement without the prior written consent of all the parties
- 9.3.6 if the parties fail to reach agreement in the structured negotiations within 20 Working Days of the Mediator being appointed, or any longer period the parties agree on, then any dispute or difference between them may be referred to the courts

10. Termination and consequences of termination

10.1 Termination

- 10.1.1 The Buyer has the right to terminate this Agreement at any time by notice in writing to the Collaboration Suppliers whenever the Buyer has the right to terminate a Collaboration Supplier's [respective contract] [Call-Off Contract].
- 10.1.2 Failure by any of the Collaboration Suppliers to comply with their obligations under this Agreement will constitute a Default under their [relevant contract] [Call-Off Contract]. In this case, the Buyer also has the right to terminate by notice in writing the participation of any Collaboration Supplier to this Agreement and sever its name from the list of Collaboration Suppliers, so that this Agreement will continue to operate between the Buyer and the remaining Collaboration Suppliers.

10.2 Consequences of termination

- 10.2.1 Subject to any other right or remedy of the parties, the Collaboration Suppliers and the Buyer will continue to comply with their respective obligations under the [contracts] [Call-Off Contracts] following the termination (however arising) of this Agreement.
- 10.2.2 Except as expressly provided in this Agreement, termination of this Agreement will be without prejudice to any accrued rights and obligations under this Agreement.

11. General provisions

11.1 Force majeure

- 11.1.1 For the purposes of this Agreement, the expression “Force Majeure Event” will mean any cause affecting the performance by a party of its obligations under this Agreement arising from acts, events, omissions, happenings or non-happenings beyond its reasonable control, including acts of God, riots, war or armed conflict, acts of terrorism, acts of government, local government or Regulatory Bodies, fire, flood, storm or earthquake, or disaster but excluding any industrial dispute relating to any party, the party's personnel or any other failure of a Subcontractor.
- 11.1.2 Subject to the remaining provisions of this clause 11.1, any party to this Agreement may claim relief from liability for non-performance of its obligations to the extent this is due to a Force Majeure Event.
- 11.1.3 A party cannot claim relief if the Force Majeure Event or its level of exposure to the event is attributable to its wilful act, neglect or failure to take reasonable precautions against the relevant Force Majeure Event.
- 11.1.4 The affected party will immediately give the other parties written notice of the Force Majeure Event. The notification will include details of the Force Majeure Event together with evidence of its effect on the obligations of the affected party, and any action the affected party proposes to take to mitigate its effect.
- 11.1.5 The affected party will notify the other parties in writing as soon as practicable after the Force Majeure Event ceases or no longer causes the affected party to be unable to comply with its obligations under this Agreement. Following the notification, this Agreement will continue to be performed on the terms existing immediately before the Force Majeure Event unless agreed otherwise in writing by the parties.

11.2 Assignment and subcontracting

- 11.2.1 Subject to clause 11.2.2, the Collaboration Suppliers will not assign, transfer, novate, sub-license or declare a trust in respect of its rights under all or a part of this Agreement or the benefit or advantage without the prior written consent of the Buyer.
- 11.2.2 Any subcontractors identified in the Detailed Collaboration Plan can perform those elements identified in the Detailed Collaboration Plan to be performed by the Subcontractors.

11.3 Notices

- 11.3.1 Any notices given under or in relation to this Agreement will be deemed to have been properly delivered if sent by recorded or registered post or by fax and will be deemed for the purposes of this Agreement to have been given or made at the time the letter would, in the ordinary course of post, be delivered or at the time shown on the sender's fax transmission report.

11.3.2 For the purposes of clause 11.3.1, the address of each of the parties are those in the Detailed Collaboration Plan.

11.4 Entire agreement

11.4.2 Each of the parties agrees that in entering into this Agreement and the documents and agreements referred to in it does not rely on, and will have no remedy in respect of, any statement, representation, warranty or undertaking (whether negligently or innocently made) other than as expressly set out in this Agreement. The only remedy available to each party in respect of any statements, representation, warranty or understanding will be for breach of contract under the terms of this Agreement.

11.4.3 Nothing in this clause 11.4 will exclude any liability for fraud.

11.5 Rights of third parties

Nothing in this Agreement will grant any right or benefit to any person other than the parties or their respective successors in title or assignees, or entitle a third party to enforce any provision and the parties do not intend that any term of this Agreement should be enforceable by a third party by virtue of the Contracts (Rights of Third Parties) Act 1999.

11.6 Severability

If any provision of this Agreement is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, that provision will be severed without effect to the remaining provisions. If a provision of this Agreement that is fundamental to the accomplishment of the purpose of this Agreement is held to any extent to be invalid, the parties will immediately commence good faith negotiations to remedy that invalidity.

11.7 Variations

No purported amendment or variation of this Agreement or any provision of this Agreement will be effective unless it is made in writing by the parties.

11.8 No waiver

The failure to exercise, or delay in exercising, a right, power or remedy provided by this Agreement or by law will not constitute a waiver of that right, power or remedy. If a party waives a breach of any provision of this Agreement this will not operate as a waiver of a subsequent breach of that provision, or as a waiver of a breach of any other provision.

11.9 Governing law and jurisdiction

This Agreement will be governed by and construed in accordance with English law and without prejudice to the Dispute Resolution Process, each party agrees to submit to the exclusive jurisdiction of the courts of England and Wales.

- reference to a gender includes the other gender and the neuter
- references to an Act of Parliament, statutory provision or statutory instrument also apply if amended, extended or re-enacted from time to time

References to liability are to include any liability whether actual, contingent, present or future.

Guarantee and indemnity

The Guarantor irrevocably and unconditionally guarantees that the Supplier duly performs all of the guaranteed obligations due by the Supplier to the Buyer.

If at any time the Supplier will fail to perform any of the guaranteed obligations, the Guarantor irrevocably and unconditionally undertakes to the Buyer it will, at the cost of the Guarantor:

- fully perform or buy performance of the guaranteed obligations to the Buyer
- as a separate and independent obligation and liability, compensate and keep the Buyer compensated against all losses and expenses which may result from a failure by the Supplier to perform the guaranteed obligations under the Call-Off Contract

As a separate and independent obligation and liability, the Guarantor irrevocably and unconditionally undertakes to compensate and keep the Buyer compensated on demand against all losses and expenses of whatever nature, whether arising under statute, contract or at common Law, if any obligation guaranteed by the guarantor is or becomes unenforceable, invalid or illegal as if the obligation guaranteed had not become unenforceable, invalid or illegal provided that the guarantor's liability will be no greater than the Supplier's liability would have been if the obligation guaranteed had not become unenforceable, invalid or illegal.

Obligation to enter into a new contract

If the Call-Off Contract is terminated or if it is disclaimed by a liquidator of the Supplier or the obligations of the Supplier are declared to be void or voidable, the Guarantor will, at the request of the Buyer, enter into a Contract with the Buyer in the same terms as the Call-Off Contract and the obligations of the Guarantor under such substitute agreement will be the same as if the Guarantor had been original obligor under the Call-Off Contract or under an agreement entered into on the same terms and at the same time as the Call-Off Contract with the Buyer.

Demands and notices

Any demand or notice served by the Buyer on the Guarantor under this Deed of Guarantee will be in writing, addressed to:

[Enter Address of the Guarantor in England and Wales]

[Enter Email address of the Guarantor representative]

For the Attention of **[insert details]**

or such other address in England and Wales as the Guarantor has notified the Buyer in writing as being an address for the receipt of such demands or notices.

Any notice or demand served on the Guarantor or the Buyer under this Deed of Guarantee will be deemed to have been served if:

- delivered by hand, at the time of delivery

- posted, at 10am on the second Working Day after it was put into the post
- sent by email, at the time of despatch, if despatched before 5pm on any Working Day, and in any other case at 10am on the next Working Day

In proving Service of a notice or demand on the Guarantor or the Buyer, it will be sufficient to prove that delivery was made, or that the envelope containing the notice or demand was properly addressed and posted as a prepaid first class recorded delivery letter, or that the fax message was properly addressed and despatched.

Any notice purported to be served on the Buyer under this Deed of Guarantee will only be valid when received in writing by the Buyer.

Beneficiary's protections

The Guarantor will not be discharged or released from this Deed of Guarantee by:

- any arrangement made between the Supplier and the Buyer (whether or not such arrangement is made with the assent of the Guarantor)
- any amendment to or termination of the Call-Off Contract
- any forbearance or indulgence as to payment, time, performance or otherwise granted by the Buyer (whether or not such amendment, termination, forbearance or indulgence is made with the assent of the Guarantor)
- the Buyer doing (or omitting to do) anything which, but for this provision, might exonerate the Guarantor

This Deed of Guarantee will be a continuing security for the Guaranteed Obligations and accordingly:

- it will not be discharged, reduced or otherwise affected by any partial performance (except to the extent of such partial performance) by the Supplier of the Guaranteed Obligations or by any omission or delay on the part of the Buyer in exercising its rights under this Deed of Guarantee
- it will not be affected by any dissolution, amalgamation, reconstruction, reorganisation, change in status, function, control or ownership, insolvency, liquidation, administration, appointment of a receiver, voluntary arrangement, any legal limitation or other incapacity, of the Supplier, the Buyer, the Guarantor or any other person
- if, for any reason, any of the Guaranteed Obligations is void or unenforceable against the Supplier, the Guarantor will be liable for that purported obligation or liability as if the same were fully valid and enforceable and the Guarantor were principal debtor
- the rights of the Buyer against the Guarantor under this Deed of Guarantee are in addition to, will not be affected by and will not prejudice, any other security, guarantee, indemnity or other rights or remedies available to the Buyer

The Buyer will be entitled to exercise its rights and to make demands on the Guarantor under this Deed of Guarantee as often as it wishes. The making of a demand (whether effective, partial or defective) relating to the breach or non-performance by the Supplier of any Guaranteed Obligation will not preclude the Buyer from making a further demand relating to the same or some other Default regarding the same Guaranteed Obligation.

The Buyer will not be obliged before taking steps to enforce this Deed of Guarantee against the Guarantor to:

- obtain judgment against the Supplier or the Guarantor or any third party in any court
- make or file any claim in a bankruptcy or liquidation of the Supplier or any third party
- take any action against the Supplier or the Guarantor or any third party

No action (or inaction) by the Buyer relating to any such security, guarantee or other means of payment will prejudice or affect the liability of the Guarantor.

The Buyer's rights under this Deed of Guarantee are cumulative and not exclusive of any rights provided by Law. The Buyer's rights may be exercised as often as the Buyer deems expedient. Any waiver by the Buyer of any terms of this Deed of Guarantee, or of any Guaranteed Obligations, will only be effective if given in writing and then only for the purpose and upon the terms and conditions on which it is given.

Any release, discharge or settlement between the Guarantor and the Buyer will be conditional upon no security, disposition or payment to the Buyer by the Guarantor or any other person being void, set aside or ordered to be refunded following any enactment or Law relating to liquidation, administration or insolvency or for any other reason. If such condition will not be fulfilled, the Buyer will be entitled to enforce this Deed of Guarantee subsequently as if such release, discharge or settlement had not occurred and any such payment had not been made. The Buyer will be entitled to retain this security before and after the payment, discharge or satisfaction of all monies, obligations and liabilities that are or may become due owing or incurred to the Buyer from the Guarantor for such period as the Buyer may determine.

the terms of any agreement or other document to which the Guarantor is a party or which is binding upon it or any of its assets
all governmental and other authorisations, approvals, licences and consents, required or desirable

This Deed of Guarantee is the legal valid and binding obligation of the Guarantor and is enforceable against the Guarantor in accordance with its terms.

Payments and set-off

All sums payable by the Guarantor under this Deed of Guarantee will be paid without any set-off, lien or counterclaim, deduction or withholding, except for those required by Law. If any deduction or withholding must be made by Law, the Guarantor will pay that additional amount to ensure that the Buyer receives a net amount equal to the full amount which it would have received if the payment had been made without the deduction or withholding.

The Guarantor will pay interest on any amount due under this Deed of Guarantee at the applicable rate under the Late Payment of Commercial Debts (Interest) Act 1998, accruing on a daily basis from the due date up to the date of actual payment, whether before or after judgment.

The Guarantor will reimburse the Buyer for all legal and other costs (including VAT) incurred by the Buyer in connection with the enforcement of this Deed of Guarantee.

Guarantor's acknowledgement

The Guarantor warrants, acknowledges and confirms to the Buyer that it has not entered into this Deed of Guarantee in reliance upon the Buyer nor been induced to enter into this Deed of Guarantee by any representation, warranty or undertaking made by, or on behalf of the Buyer, (whether express or implied and whether following statute or otherwise) which is not in this Deed of Guarantee.

Assignment

The Buyer will be entitled to assign or transfer the benefit of this Deed of Guarantee at any time to any person without the consent of the Guarantor being required and any such assignment or transfer will not release the Guarantor from its liability under this Guarantee.

The Guarantor may not assign or transfer any of its rights or obligations under this Deed of Guarantee.

Severance

If any provision of this Deed of Guarantee is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision will be severed and the remainder of the provisions will continue in full force and effect as if this Deed of Guarantee had been executed with the invalid, illegal or unenforceable provision eliminated.

Third-party rights

A person who is not a Party to this Deed of Guarantee will have no right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Deed of Guarantee. This Clause does not affect any right or remedy of any person which exists or is available otherwise than following that Act.

Governing law

This Deed of Guarantee, and any non-Contractual obligations arising out of or in connection with it, will be governed by and construed in accordance with English Law.

The Guarantor irrevocably agrees for the benefit of the Buyer that the courts of England will have jurisdiction to hear and determine any suit, action or proceedings and to settle any dispute which may arise out of or in connection with this Deed of Guarantee and for such purposes hereby irrevocably submits to the jurisdiction of such courts.

Nothing contained in this Clause will limit the rights of the Buyer to take proceedings against the Guarantor in any other court of competent jurisdiction, nor will the taking of any such proceedings in one or more jurisdictions preclude the taking of proceedings in any other jurisdiction, whether concurrently or not (unless precluded by applicable Law).

The Guarantor irrevocably waives any objection which it may have now or in the future to the courts of England being nominated for this Clause on the ground of venue or otherwise and agrees not to claim that any such court is not a convenient or appropriate forum.

Company Overview

Freshworks is a multi-product software-as-a-service company, providing businesses all over the world with refreshing business software that teams will love. We are supported and backed by four major venture capital partners: Google Capital, Accel Partners, Sequoia Capital, and Tiger Global. Freshworks is a truly global brand headquartered in San Mateo, California with a global development centre in Chennai, India, and regional offices in London, Berlin, Paris, Utrecht, Singapore, Melbourne, and Sydney.

Freshworks Inc. is the parent company behind the suite of products which includes Freshservice, Freshdesk, Freshsales, Freshcaller, Freshconnect, Freshchat, Freshping, Freshrelease, Freshteam, Freshsuccess and Freshmarketer. Freshworks' suite of products is designed to work tightly together to increase contextual collaboration to help teams better connect and communicate with their customers and co-workers.

Value Proposition

Freshworks provides a platform for employee engagement called Freshworks EES, which consists of

Freshservice (ITSM service desk software), Freshchat (live chat), Freshcaller (telephony), Freshrelease (Project Management tool), and Freshmarketer (Experience Optimisation tool). The inherent benefits of having a platform to handle all employee support interactions include better customer visibility, more efficiency of agent operations and richer reporting insight.

Our most popular value-adds in the public sector tend to be our fresh approach to both business / partnership and the intuitive nature of the product itself. This is because many public sector

institutions often struggle, due to their lack of capital, to find an optimal software solution across requirement matching, budget matching and working style. Due to the fact that we are a newer company in the market, we have been able to survey the market, understand what we think might be lacking and work those offerings into our overall solution (incorporating support throughout implementation, customer support, requirement matching and cost). For example, since using Freshservice, Western Sussex Hospitals NHS Trust (WSHT) have seen a 70% rise in first call resolution, a reduction in wait times from 15 minutes to 20 seconds, a threefold increase in self-service through the portal and an increase in customer satisfaction to 93.7%.

What the Service Provides

Freshworks as a company offer ourselves to the buyer as a partner. We always like to work very closely with any prospect right from first interaction through to them becoming a customer and beyond. This can be demonstrated through the fact that we have won the Service Desk Institute Award for Implementation of the Year for the past two years (with Western Sussex Hospitals NHS Trust and Descartes respectively).

Freshservice

Freshservice provides an IT service desk that's actually simple. It enables you to modernize IT and other business functions with a refreshingly easy-to-use, simple-to-configure ITIL-aligned IT service desk solution in the cloud. This makes it very adaptable to a large variety of different needs. What's more, it is very intuitive for both agents and end users, which means the uptake is very quick. This also means that every employee is happy to use a solution that matches the nature of the products they often use in their private lives, as opposed to the tools they have typically been using over the last decade or two. This also shows through the rapid uptake of unique features like our powerful mobile app.

Freshcaller

Freshcaller has been designed with a linear set-up process that enables business process owners to set up and maintain a call centre without any technical pre-requisite. It provides managers and administrators with specialised features such as live dashboards, service-level monitoring, call recordings, appending to tickets and allowing calls to be answered through Freshservice. The Freshcaller platform is compatible with 90+ countries phone numbers, allowing agents to answer calls on the go via iOS and Android apps that can be downloaded through Google play store and iTunes.

Freshchat

Freshchat is a modern messaging platform that enables businesses to have fluid conversations and realtime engagement with customers. It modernises support, sales and other business functions with a refreshingly easy-to-use, simple-to-configure live chat solution in the cloud. This makes it adaptable to sales, support and engagement use cases. It is intuitive to set up, easy-to-use for both agents and endusers. Freshchat has been designed to be integrated and used within Freshservice.

The platform allows agents to use Freshservice as a single source of truth to answer chats and calls.

Freshrelease

Freshrelease is an end-to-end project management software that helps teams to plan and keep track of their work. It empowers teams to prioritize, collaborate and keep deliverables on track. Using Freshrelease, businesses can get more things done and deliver quality outcomes on time.

Freshmarketer

Freshmarketer is an experience optimisation tool. From generating session based replays to dropping heat maps onto a self-service portal or other web resources, it enables organisations to pull insight from user behaviour. With self-service being the ultimate goal for organisations, lowering the barrier for entry is incredibly important. This is done through understanding the wants, needs and preferences of users - all of which are then catered to through the terminology used, and the look/feel of the resources provided. It is the insight provided by Freshmarketer that enables organisations to understand the above, and therefore influence the subsequent design and content decisions made. Indeed, this tool is invaluable to organisations in optimising the experience provided. In addition, the tool will help organisations trigger emails to aid specific actions performed by employees in your team based on the activity of employees within Freshservice, Freshchat, Freshcaller or Freshrelease. Other actions include, but are not limited to, the following:

- A chain of emails can also be configured based on whether the employee has opened the email or not.
- The emails can be personalized and can be used to send educational content, contextual emails, etc.

Marketplace/Integration

On average, employees will use 44 applications every day in fulfilling their job role. As such, the importance of sharing context and value across disparate systems is crucial if one wishes to assist employees, improve their experience, and enhance their efficiency and productivity.

Our product vision is to empower organisations of all sizes with the ability to provide moments of WOW to their employees. Indeed, we are focussed on Employee Experience, driven through Employee Engagement.

With all of this in mind, Freshservice follows a Marketplace model, and apps are added on a continuous basis to provide a two way value stream between Freshservice and other business applications. Freshservice has over 200 plus integrations and a number of Freshplugs based on custom requirements. Extending the functionality of Freshservice through integrations for a seamless employee experience has always been one of our strong assets and we are excited to let you know that the integrations can be done in a much more convenient way – pick and choose apps much like you e-shop!

All these established integrations are available in the marketplace. Marketplace apps include, but are not limited to: SCCM, Skype, JIRA, Office 365, MS Teams, Bomgar, PowerBI etc. Freshservice's APIs belong to the Representational State Transfer (REST) category. This means that they can be used to perform "RESTful" operations like reading, modifying, adding or deleting data from a business' service desk. Indeed as an open API first platform, the extensive and powerful APIs and SDKs can be leveraged to build custom platform apps as well if required. You can make use of these, engaging with the wider Freshservice community in the Developer Portal.

Or if preferred, as per the direct partnership model, Freshworks can manage (end-to-end), and support, any custom app work through our extensive SI network.

2. Data Protection

Information Assurance

Freshworks is hosted globally on AWS. The safety and security policies that AWS provide to us are also applicable to Freshworks customers. Our AWS data centre operations have been accredited under ISO 27001, SSAE 16, PCI Level 1 and FISMA Moderate Sarbanes-Oxley (SOX). Additionally, AWS is the US & EU Privacy Shield Certified. A SOC II report to be released shortly (AWS SOC II compliance reports can be shared if required)

Freshworks products are offered from PODs which include US, Germany, and Australia. Data at rest is encrypted using AES-256 bit standards. All data in transit is encrypted using FIPS-140-2 standard encryption over a secure socket connection for all accounts hosted on FreshWorks. For accounts hosted on independent domains, an option to enable a secure socket connection is available.

Passwords at storage are one-way hashed and salted. Penetration tests performed by external vendors (can be shared post-NDA signature)

Data Back-Up and Restoration

Data is backed up and stored in AWS. Data can be stored on either our US or EUC (Frankfurt). Data stored in the EUC, will not leave the EEA.

- Backup Interval: 5 mins
- Backup Nature: Full

The backup and restore operations are performed and tested regularly. Evidence of these tests can be provided upon request.

Application code and databases are written out to persistent storage volumes. If the need arises to ever rebuild instances from scratch, Freshworks possess the ability to restore data from previous snapshots.

Freshworks uses the AWS S3 service for backups. By default, database backups are taken daily and are rotated every 10 days. Advanced monitoring tools are used to monitor availability and performance of our application, database servers and virtual servers. Automatic monitoring of server and application performance incidents are carried out using New Relic. Freshworks use Pagerduty to monitor on-call schedule, escalation and incident resolution. If the application goes down, Pagerduty immediately escalates an incident to the Operations Team. If incidents are not resolved within 4 hours, they are escalated to the CEO of FreshWorks Inc.

Business continuity statement/plan

Business Continuity Management systems are in place. The Freshworks instances are booted in multiple zones within a region in AWS. Zones are physically separate data centres within AWS in the same region. If one of Freshworks' data centres drops connectivity, applications will be

unaffected. In addition, Freshworks performs backups of the DB and AMI and keep cloud formation templates of all instances. These can be restored in event of a region-level outage:

- Recovery Time Objective (RTO) – 2hrs
- Recovery Point Objective (RPO) – 5 minutes. AWS production backup happens within the AWS managed backup services every 5 minutes (thus providing an RPO of 5 minutes) and every 24 hours. Every 24 hours snapshot backup is retained for 7 days.

More information on the Security can be shared post NDA signature. Indeed, a more detailed plan can be provided to the buyer on request.

Privacy by Design

GDPR readiness at Freshworks focuses on changes related to product, processes, documentation and vendors. Freshworks has a dedicated cross-functional team that has undergone training on GDPR, reviewed company-wide readiness and recommended changes. These changes involve changes to the product, as well as process and documentation changes and will be completed before the May deadline. Programs, projects, and processes at Freshworks (and therefore within Freshdesk) are aligned to Privacy Principles right from inception of an idea or project, thereby supporting Privacy by Design and Default principles.

Product level changes have already been deployed in the form of additional features and enhancement on already existing features to ensure that the data belonging to requesters are secure as per GDPR standards. More on this, in the form of open discussions and collaterals (with the appropriate NDA) can be shared with the clients on request.

3. Using the service

Ordering and Invoicing

If an organisation wishes to engage in conversations with Freshworks, they should email the contact details at the bottom of this document and state the nature of their interest. Thereafter, Freshworks will respond, most likely attempting to organise an initial call to understand more about the requirements. Post the initial call, Freshworks will likely request for any additional information captured by the prospective customer (e.g. requirements) that would supplement this initial understanding. There may then be future meetings (depending on the complexity of requirements / search process) or the next step could equally be for the prospective customer to engage in an online / onsite demo followed by an active evaluation of the product (trial).

Regarding invoicing, Freshworks would work very closely with the prospective customer throughout the entire process (phone, email and sometimes face-to-face if necessary). This would include the review, amendment of and signature of any order forms, contracts or addendums.

Severity 2 (High)	There is a significant impact on business. The users are having difficulty performing part of their normal work. Workaround solutions can be implemented but with significant degradation of productivity.
Severity 3 (Medium)	There is no immediate impact on business with only a few users affected. The users are inconvenienced by the problem but have alternative ways of performing work with nominal productivity impact.
Severity 4 (Low)	Additional development or enhancement services which are not critical in nature.

Freshworks reserves the right to reclassify the priority level at any time if Freshworks reasonably believes the classification is incorrect.

Freshworks' ability to replicate and respond to Customer issues will depend on accurate and detailed information supplied by Customer. Response times shall run from the earlier of:

- identification of the issue by Freshworks via email; or
- receipt of a phone call stating the correct identification of the issue by Customer. Freshworks will respond to Customer via phone and email in the event of “urgent” and “high” priority support requests and via email for all other support requests.

Freshworks shall handle Severity 1 and Severity 2 issues with utmost priority but does not promise any resolution time. Freshworks shall engage in and shall continue all commercially reasonable efforts including incorporating any available work around solutions necessary to resolve any such issue and will continue to assist Customer to resolve any such issue.

Development life cycle of the solution

Product upgrades are carried out on a weekly basis, however, most of these releases are undertaken with no functional changes to the product and are primarily security patches and platform improvements. Features are pushed out as and when they become available. This is done six times a year at present, but this may increase if the speed of releases is changed. These releases are designed to minimise impact as the live production instance of Freshdesk is switched to a failover instance and then once the upgrade/ patch is loaded, tested and certified to be stable, the live instance is then switched back to production. This highly resilient infrastructure has resulted in 99.8% availability. All upgrades are seamless and don't require any retrofitting of code.

All builds are put through stringent functionality tests, performance tests, stability tests, and UX tests before the build is certified as "Good to go". Freshworks follows a blue-green deployment strategy for deployment of changes to the production environment that facilitates the introduction of new changes without any downtime and provides us the option to roll-back without impacting any existing users. Typically for routine deployment of enhancements do not require any downtime. Typically, on a yearly basis Freshworks perform major upgrades to the product that might require a minor downtime. All customers will be provided adequate advance notice of more than a week for such planned downtime and it will be typically scheduled during the low usage time of the product. Our Service upgrade SLA is at 99.8%.

After-sales Account Management

Ongoing support is also provided all-inclusive within the licensing cost. This includes proactive monitoring of the environment and runs 24/7, this includes email, phone, live chat, screen share, portal and face-to-face if required. In addition to a customer account manager, customers are assigned a dedicated Technical Account Manager who will respond reactively to any issues with the account. A Customer Success Manager will also be assigned to proactively ensure customers are getting the most from their account with Freshworks.

Termination Process

Customers may export all Service Data prior to the termination of the Customer's Account. In any event, following the termination of Customer's Account by either party, Service Data will be retained for a period of 14 days from such termination within which Customer may contact Provider to export Service Data; (ii) where the Customer does not use custom mailbox and uses the e-mail feature, if available within the Service(s), e-mails forming part of Service Data are automatically archived for a period of 3 months; and (iii) logs are archived for a period of thirty (30) days in the log

management systems, post which logs are retired to a restricted archived cold storage for a period of eleven (11) months (each a “Data Retention Period”). Beyond each such Data Retention Period, Freshworks shall delete all Service Data in the normal course of operation except as necessary to comply with Freshworks’ legal obligations, maintain accurate financial and other records, resolve disputes, and enforce its agreements. Service Data cannot be recovered once deleted.

Where customers cancel the account due to any breach or default on the part of Freshworks, Freshworks shall refund the proportionate amount for the months the services were not utilised. In all other cases, customers will not claim refund of the fee, but customers will not be liable to make any additional payments.
