A1-2-3 A reference to a statute or statutory provision is a reference to such statute or provision as amended or re-enacted. A reference to a statute or statutory provision includes any subordinate legislation made under that statute or statutory provision, as amended or re-enacted.

A1-2-4 Any phrase introduced by the terms including, include, in particular or any similar expression shall be construed as illustrative and shall not limit the sense of the words preceding those terms.

A1-2-5 The headings in this Dynamic Purchasing System Contract are for ease of reference only and do not affect the interpretation or construction of this Dynamic Purchasing System Contract or any Contract.

A1-2-6 A reference to **writing** or **written** includes faxes and e-mails.

A2 Basis of contract

A2-1 Where UK SBS is not the Contracting Authority, UK SBS is the agent of the Contracting Authority for the purpose of procurement and is authorised to negotiate and enter into contracts for the supply of Supplies and or Services on behalf of the Contracting Authority. UK SBS will not itself be a party to, nor have any liability under, the Dynamic Purchasing System Contract unless it is expressly specified as Contracting Authority in the Order.

A2-2 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority appoints the Supplier to supply Supplies and or Services to the Contracting Authority in accordance with this Dynamic Purchasing System Contract.

A2-3 This Dynamic Purchasing System Contract enters into force on the date on which it is signed by the Contracting Authority and the Supplier and shall remain in full force and effect for the Initial Term and, subject to clause A2-4, any subsequent extension period following the Initial Term which is agreed in writing between the parties from time to time, or unless and until expiry or termination in accordance with clause A3, whichever is earlier.

A2-4 In no circumstances shall this Dynamic Purchasing System Contract be extended pursuant to clause A2-3 beyond the Maximum Expiry Date. In the event that the parties attempt to extend this agreement beyond the Maximum Expiry Date, such extension shall only have effect until the Maximum Expiry Date and the rights and obligations of the parties shall be apportioned accordingly.

A2-5 The Contracting Authority may order Supplies and or Services to be supplied under this Dynamic Purchasing System Contract, but they are under no obligation to do so. No guarantee or representation has been, or shall be deemed to have been made by the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority in respect of the total quantity or value of the Supplies and or Services which the Contracting Authority may order, and the Supplier acknowledges and agrees that it has not entered into this Dynamic Purchasing System Contract on the basis of any such guarantee or representation.

A2-6 Nothing in this Dynamic Purchasing System Contract shall create an exclusive relationship between the Supplier and either the Contracting Authority or UK SBS for the supply of Supplies and or Services and the Contracting Authority shall at all times be entitled to enter into contracts with other parties for the provision of Supplies and Services the same as, or similar to, the Supplies and or Services.

A2-7 The terms of this Dynamic Purchasing System Contract, any Special Conditions and the Order apply to each Contract to the exclusion of all other terms and conditions, including any other terms that the Supplier seeks to impose or incorporate (whether in any quotation, confirmation of order, in correspondence or in any other context), or which are implied by trade, custom, practice or course of dealing.

A2-8 If there is any conflict or inconsistency between the terms of this Dynamic Purchasing System Contract, the Special Conditions (if any) and the Order (including any Specification), the terms of this Dynamic Purchasing System Contract will prevail over the Special Conditions and the Special Conditions will prevail over the Order (including any Specification), in each case to the extent necessary to resolve that conflict or inconsistency.

A2-9 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority may issue an Order to the Supplier at any time.

A2-10 The Order (including any Special Conditions) constitutes an offer by the Contracting Authority to purchase the Supplies and or Services in accordance with the terms of this Dynamic Purchasing System Contract. This offer shall remain valid for acceptance by the Supplier, in accordance with clause A2-11, for 28 days from the date of the Order. Notwithstanding that after 28 days the offer will have expired, the Contracting Authority may, at its discretion, nevertheless treat the offer as still valid and may elect to accept acceptance by the Supplier, in accordance with clause A2-11, as valid acceptance of the offer.

A2-11 Subject to clause A2-10, the Order shall be deemed to be accepted on the earlier of:

A2-11-1 the Supplier issuing a written acceptance of the Order; and

A2-11-2 The Supplier doing any act consistent with fulfilling the Order, at which point the Contract shall come into existence. The Contract shall remain in force until all the parties' obligations have been performed in accordance with the Contract, at which point it shall expire, or until the Contract has been terminated in accordance with clause A3.

A3 Termination

A3-1 This Dynamic Purchasing System Contract shall automatically expire without the need for notice on the Maximum Expiry Date.

A3-2 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority may terminate the Dynamic Purchasing System Contract in whole or in part at any time before the Services are provided with immediate effect by giving the Supplier written notice, whereupon the Supplier shall discontinue all work on the Contract. The Contracting Authority shall pay the Supplier fair and reasonable compensation for work-in-progress at the time of termination, but such compensation shall not include loss of anticipated profits or any consequential loss. The Supplier shall have a duty to mitigate its costs and shall on request provide proof of expenditure for any compensation claimed.

A3-3 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority may terminate this Dynamic Purchasing System Contract, and any subsequent call off Contract or Order which that Contracting Authority has concluded, with immediate effect by giving written notice to the Supplier if:

A3-3-1 the circumstances set out in clauses B3-1-1, B6-1-1, C3 or C4-1 apply; or

A3-3-2 the Supplier breaches any term of this Dynamic Purchasing System Contract or the Contract and (if such breach is remediable) fails to remedy that breach within 30 days of being notified in writing of the breach; or

A3-3-4 the Supplier commences negotiations with all or any class of its creditors with a view to rescheduling any of its debts, or makes a proposal for or enters into any compromise or arrangement with its creditors; or

A3-3-5 (being a company) a petition is filed, a notice is given, a resolution is passed, or an order is made, for or in connection with the winding up of the Supplier; or

- A3-3-6 (being an individual) the Supplier is the subject of a bankruptcy petition or order; or
 - A3-3-7 a creditor or encumbrancer of the Supplier attaches or takes possession of, or a distress, execution, sequestration or other such process is levied or enforced on or sued against, the whole or any part of its assets and such attachment or process is not discharged within 14 days; or

 - A3-3-10 a person becomes entitled to appoint a receiver over the Supplier's assets or a receiver is appointed over the Supplier's assets; or
 - A3-3-11 any event occurs, or proceeding is taken, with respect to the Supplier in any jurisdiction to which it is subject that has an effect equivalent or similar to any of the events mentioned in clause A3-3-3 to clause A3-3-10 inclusive; or
 - A3-3-12 there is a change of control of the Supplier (within the meaning of section 1124 of the Corporation Tax Act 2010); or
 - A3-3-13 the Supplier suspends, or threatens to suspend, or ceases or threatens to cease to carry on, all or substantially the whole of its business; or
 - A3-3-14 the Supplier's financial position deteriorates to such an extent that in the Contracting Authority's opinion the Supplier's capability to adequately fulfil its obligations under this Dynamic Purchasing System Contract or the Contract has been placed in jeopardy; or
 - A3-3-15 (Being an individual) the Supplier dies or, by reason of illness or incapacity (whether mental or physical), is incapable of managing his or her own affairs or becomes a patient under any mental health legislation.
- A3-4 Termination or expiry of this Dynamic Purchasing System Contract or any Contract, however arising, shall not affect any of the parties' rights and remedies that have accrued as at termination. Clauses which expressly or by implication survive termination or expiry of this Dynamic Purchasing System Contract or any Contract shall continue in full force and effect.
- A3-5 Without prejudice to clause A3-4, clauses B1, B2, B3, B4, B5, B6, B12, B13, B14, B15, B16, C1, C2, C3, C4, C6 and C7 shall survive the termination or expiry of this Dynamic Purchasing System Contract or any Contract and shall continue in full force and effect.
- A3-6 Upon termination or expiry of this Dynamic Purchasing System Contract or any Contract, the Supplier shall immediately:
- A3-6-1 cease all work on the Contract;
 - A3-6-2 Deliver to the Contracting Authority all Deliverables and all work-in-progress whether or not then complete. If the Supplier fails to do so, then the Contracting Authority may enter the Supplier's premises and take possession of them. Until they have been returned or delivered, the Supplier shall be solely responsible for their safe keeping and will not use them for any purpose not connected with the Contract;
 - A3-6-3 cease use of and return (or, at the Contracting Authority's or UK SBS's acting as an agent on behalf of the Contracting Authority's election, destroy) all of

the Contracting Authority's Materials in the Supplier's possession or control;
and

A3-6-4 Cease all use of and delete all copies of UK SBS's or the Contracting Authority's confidential information.

A3-7 Termination

The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority may terminate the Contract by written notice to the Supplier in any of the following circumstances:

A3-7-1 Where it considers that the Contract has been subject to a substantial modification which would have required a new procurement procedure in accordance with Regulation 72(9) of the Public Contracts Regulations 2015 ("PCR 2015");

A3-7-2 Where it considers that the Supplier has at the time of the award of the Contract been in one of the situations referred to in Regulation 57(1) of the PCR 2015, including as a result of the application of regulation 57(2), and should therefore have been excluded from the procurement procedure;

A3-7-3 Where the Contract should not have been awarded to the Supplier in view of a serious infringement of the obligations under the EU Treaties and Directive 2014/24/EU of the European Parliament and of the Council that has been declared by the Court of Justice of the European Union in a procedure under Article 258 of the TFEU;

A3-7-4 Where the European Commission sends a reasoned opinion to the United Kingdom or brings the matter before the Court of Justice of the European Union under Article 258 of the TFEU alleging that the Contract should not have been awarded to the Supplier in view of a serious infringement of the obligations under the Treaties and Directive 2014/24/EU of the European Parliament and of the Council; or

A3-7-5 Where a third party starts court proceedings against the Contracting Authority seeking a declaration that the Contract is ineffective or should be shortened under Regulations 98 to 101 of the PCR 2015, which the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority considers to have a reasonable prospect of success.

A3-7-6 Such termination shall be effective immediately or at such later date as is specified in the notice. The Contracting Authority shall not incur any liability to the Supplier by reason of such termination and shall not be required to pay any costs, losses or damage to the Supplier. Termination under this clause shall be without prejudice to any other rights of the Contracting Authority.

A3-8 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority shall at any time have the right for convenience to terminate the Contract or reduce the quantity of Supplies and or Services to be provided by the Supplier in each case by giving to the Supplier reasonable written notice. During the period of notice the Contracting Authority may direct the Supplier to perform all or any of the work under the Contract. Where the Contracting Authority has invoked either of these rights, the Supplier may claim reasonable costs necessarily and properly incurred by him as a result of the termination or reduction, excluding loss of profit, provided that the claim shall not exceed the total cost of the Contract. The Supplier shall have a duty to mitigate its costs and shall on request provide proof of expenditure for any compensation claimed

SECTION B

B1 The Supplies

B1-1 The Supplier shall supply all Supplies in accordance with the Dynamic Purchasing System Contract. In particular, the Supplier warrants that the Supplies shall:

B1-1-1 correspond with their description in the Order and any applicable Specification;

B1-1-2 be of satisfactory quality (within the meaning of the Sale of Goods Act 1979, as amended) and fit for any purpose held out by the Supplier or made known to the Supplier by the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority, expressly or by implication, and in this respect the Contracting Authority relies on the Supplier's skill and judgement;

B1-1-3 where applicable, be free from defects in design, material and workmanship and remain so for 12 months after delivery;

B1-1-4 comply with all applicable statutory and regulatory requirements relating to the manufacture, labelling, packaging, storage, handling and delivery of the Supplies;

B1-1-5 be supplied in accordance with all applicable legislation in force from time to time; and

B1-1-6 Be destined for supply into, and fully compliant for use in, the United Kingdom (unless specifically stated otherwise in the Order).

B1-2 The Supplier shall ensure that at all times it has and maintains all the licences, permissions, authorisations, consents and permits that it needs to carry out its obligations under the Dynamic Purchasing System Contract.

B1-3 The Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority shall have the right to inspect and test the Supplies at any time before delivery.

B1-4 If following such inspection or testing the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority considers that the Supplies do not conform or are unlikely to comply with the Supplier's undertakings at clause B1-1, the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority shall inform the Supplier and the Supplier shall immediately take such remedial action as is necessary to ensure compliance.

B1-5 Notwithstanding any such inspection or testing, the Supplier shall remain fully responsible for the Supplies and any such inspection or testing shall not reduce or otherwise affect the Supplier's obligations under the Dynamic Purchasing System Contract, and the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority shall have the right to conduct further inspections and tests after the Supplier has carried out its remedial actions.

B1-6 The Contracting Authority's rights under the Contract are without prejudice to and in addition to the statutory terms implied in favour of the Contracting Authority under the Sale of Goods Act 1979, the Supply of Goods and Services Act 1982 and any other applicable legislation as amended.

B2 Delivery

B2-1 The Supplier shall ensure that:

B2-1-1 the Supplies are properly packed and secured in such manner as to enable them to reach their destination in good condition;

B2-1-2 each delivery of the Supplies is accompanied by a delivery note which shows the date of the Order, the Order number (if any), the type and quantity of the

Supplies (including the code number of the Supplies, where applicable), special storage instructions (if any) and, if the Supplies are being delivered by instalments, the outstanding balance of Supplies remaining to be delivered (the **Delivery Note**); and

The Supplies will remain at the risk of the Supplier until delivery to the Contracting Authority (including unloading) is complete, including that the Supplier has obtained sign-off of the Delivery Note by or on behalf of the Contracting Authority, at which point ownership of the Supplies shall transfer to the Contracting Authority.
- B2-4 If the Supplier delivers to the Contracting Authority more than the quantity of Supplies ordered, the Contracting Authority will not be bound to pay for the excess and any excess will remain at the Supplier's risk and will be returnable to the Supplier at the Supplier's expense.

- B2-6 The Supplier shall not deliver the Supplies in instalments without prior written consent from the Contracting Authority's or UK SBS acting as an agent on behalf of the Contracting Authority's. Where it is agreed that the Supplies are to be delivered in instalments, they may be invoiced and paid for separately. - B2-7 The Supplier shall:
- B2-7-1 obtain, at its risk and expense, any export and import licences or other authorisations necessary for the export and import of the Supplies and their transit through any country or territory; and
- B2-7-2 Deal with all customs formalities necessary for the export, import and transit of the Supplies, and will bear the costs of complying with those formalities and all duties, taxes and other charges payable for export, import and transit.
- B2-8 Without prejudice to the Contracting Authority's statutory rights, the Contracting Authority will not be deemed to have accepted any Supplies until the Contracting

Authority has had at least 14 Working Days after delivery to inspect them and the Contracting Authority also has the right to reject any Supplies as though they had not been accepted for 14 Working Days after any latent defect in the Supplies has become apparent.

- B2-9** If, in connection with the supply of the Supplies, the Contracting Authority permits any employees or representatives of the Supplier to have access to any of the Contracting Authority's premises, the Supplier will ensure that, whilst on the Contracting Authority's premises, the Supplier's employees and representatives comply with:

B2-9-1 all applicable health and safety, security, environmental and other legislation which may be in force from time to time; and

B2-9-2 any Contracting Authority policy, regulation, code of practice or instruction relating to health and safety, security, the environment or access to and use of any Contracting Authority laboratory, facility or equipment which is brought to their attention or given to them whilst they are on Contracting Authority's premises by any employee or representative of the Contracting Authority.

B3 Supplies – Remedies

- B3-1** If the Supplies, or any part of them, including any instalment(s), are not delivered on the Delivery Date, or do not comply with the undertakings set out in clause B1 or any requirements set out in the Special Conditions (if any), or the Supplier has otherwise not supplied the Supplies in accordance with, or the Supplier has failed to comply with, any of the terms of the Dynamic Purchasing System Contract, then, without limiting any of its other rights or remedies, the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority shall have the right, at its discretion, to any one or more of the following remedies, whether or not it has accepted the Supplies or any part of them:

B3-1-1 to terminate the Dynamic Purchasing System Contract in whole or in part without liability to the Supplier;

B3-1-2 at its discretion reject any of the Supplies which have been delivered by the Delivery Date and refuse to accept any subsequent delivery of Supplies that the Supplier attempts to make (and any such rejected Supplies shall be stored and are returnable at the Supplier's sole risk and expense);

B3-1-3 purchase substitute Supplies from elsewhere;

B3-1-4 accept late delivery of the Supplies;

B3-1-5 to require the Supplier to remedy any defect in, repair or replace the rejected Supplies, or to provide a full refund of the price of the rejected Supplies;

B3-1-6 to recover from the Supplier any costs incurred by the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority in obtaining substitute Supplies from a third party; and

B3-1-7 To claim damages for any other costs, loss or expenses incurred by the Contracting Authority or UK SBS acting as an agent on behalf of the Contracting Authority which are in any way attributable to the Supplier's failure to carry out its obligations under the Dynamic Purchasing System Contract.

B3-4-1 any claim made against the Contracting Authority or UK SBS for actual or alleged infringement of a third party's intellectual property rights arising out of, or in connection with, the manufacture, supply or use of the Supplies, to the extent that the claim is attributable to the acts or omissions of the Supplier, its employees, agents or subcontractors;

B3-4-2 any claim made against the Contracting Authority or UK SBS by a third party arising out of, or in connection with, the supply of the Supplies, to the extent that such claim arises out of the breach, negligent performance or failure or delay in performance of the Contract by the Supplier, its employees, agents or subcontractors; and

B3-4-3 any claim made against the Contracting Authority or UK SBS by a third party for death, personal injury or damage to property arising out of, or in connection with, defects in Supplies, to the extent that the defect in the Supplies is attributable to the acts or omissions of the Supplier, its employees, agents or subcontractors.

This clause B3-4 shall survive termination or expiry of the Contract.

B3-5 The Contracting Authority's rights and remedies under this Dynamic Purchasing System Contract and any Contract are in addition to their rights and remedies implied by statute and common law.

B4 Title, Risk and Use

Schedule 4 - Specification**Gas chromatography–Mass Spectrometry System****Introduction & Key Features & Capabilities**

The Office for Product Safety and Standards (OPSS) is responsible for building national capacity for product safety to ultimately protect consumers from unsafe products and support compliant businesses. In addition to construction products, OPSS regulates a wide range of non-food and non-medicinal consumer products which are listed [here](#). All product areas under OPSS remit should be considered in scope of this tender and will be the main focus for identifying future chemical testing and research requirements.

The Teddington site houses OPSS testing facilities and is currently undergoing refurbishment and development in a bid to strengthen national capability and support the enforcement of product safety and construction product casework as well as the investigation of new and emerging product risks. Chemical analysis is an important area for OPSS product testing. In order to fully assess chemical regulatory requirements and emerging chemical risks, it is essential to introduce a new Gas Chromatography-Mass Spectrometry (GC-MS) instrument for the analysis of volatile and semi-volatile chemicals such as phthalates, nitrosamines, allergens, fragrances, flame retardants, pyrolysis products of commercial polymeric materials, etc. GC-MS should form part of an integrated suite of in-house technologies which also comprises FTIR and UV-Vis spectrometers as well as XRF instruments.

OPSS product remit and analyte selection may change and/or expand so it is important we provide a future-proof solution. Suppliers should ensure that proposed GC-MS systems are appropriate for a broad spectrum of product safety applications, ideally offering wide flexibility on analyte selection and future modification where needed. It is also important to note that this operational requirement includes the determination of trace-level chemicals as we expect to both screen and target product impurities which may pose a risk to human health.

Required criteria:

It is critical that any detection system selected is based on:

- A mature and well proven analytical chemistry technique based on gas chromatography and mass spectrometry (use of novel or immature techniques would represent an intolerable technical risk) with robust outputs which can withstand scrutiny.
- An established commercial off-the-shelf GC-MS, which can be easily modified or enhanced to provide additional functionality.
- A future-proofed instrument where parts are not foreseen to be discontinued in the near to mid future. Where instruments are discontinued in the future, we will need assurance the supplier will continue to support and produce product parts.

Essential criteria: for a GC-MS system to be effective, it must fulfil the following criteria:

- Have the ability to detect nanogram levels of a range of analytes in real-world samples.

- Have the ability to detect multiple (>20) target analytes in a single sample analysis.
- Utilise a multi-mode injector/autosampler to allow different sample introduction techniques (one of which **must** be a thermal desorption system). This will ensure coverage of a broad range of sample types and target analytes.
- Be capable of providing quantitative responses to target analytes.
- Provide high levels of assurance for both 'screening' and 'confirmatory' results obtained.
- Automatically store time and date stamped results for future analysis.
- Have electron and chemical ionisation modes.
- A Windows 10 based desktop computer or laptop with internet function capable of running the GC-MS software.
- Be capable of using standard mains power and a generator in an arrangement which uses an uninterruptable power supply to switch between the two if necessary.
- Be capable of operation by technical staff who have undergone suitable training.
- Equipment must be able to withstand high sample throughput that the laboratory requires. Sample throughput will depend on the needs/scope of the project.
- Must be safe and legal to use within the UK.

A comprehensive support package from the equipment manufacturer will be required ideally over a 5-year (minimum 3 year) period. following installation and setup in order to maximise equipment availability, serviceability and readiness.

Desirable Criteria: For a GC-MS system to be fully effective, it would be **desirable** to fulfil the following criteria:

- Have the ability to detect femtogram levels of a range of analytes in real-world samples.
- Have the ability to detect multiple (>50) target analytes in a single sample analysis.
- Have a liquid autosampler option.
- Have simultaneous installation of two columns in the oven that both feed into the MS.
- Have a column splitter and merger kit to enable the eluate flow to be split between two differing detectors.

Installation	On-site delivery to Office for Product Safety and Standards, Stanton Avenue, Teddington, Middlesex, TW11 0LW. Delivery and installation must take place by 18th March 2022. Installation of the equipment includes unpacking and on-site validation and calibration ensuring the instrument is operating correctly as well as user training.
Software and Hardware	GC-MS Software: The software for the instrument must offer user-friendly control of the Gas Chromatography (e.g. temperature programming) and Mass Spectrometry (e.g. method design, scan times etc.) instruments for trained specialist users.

	Analytical software and libraries suitable for OPSS purposes must also be included in this requirement. The software must link and integrate to a LIMS system (including system that is provided by a different supplier). The software can link to a standard laptop or desktop computer (Windows 10). Hardware: A desktop computer or laptop with internet function to be connected to the GCMS with the relevant software.
Training	Training on instrument operation, maintenance and key features will be required. Follow-up training on software use and data interpretation should also be offered. This should be provided onsite for OPSS technical staff.
Service Maintenance and Support (including whole life support)	Manufacturers providing analytical instrumentation must offer an additional service contract. Along with standard warranty and spare parts coverage, this will include maintenance and support ideally over a 5-year (minimum 3 year) period. As a minimum, additional services covered under warranty shall include but are not limited to: • Free of charge remote telephone support • Free call out service and labour with up to 72 hours maximum call out time • Biannual preventative maintenance and calibration service • Availability of spare parts Additional services level options should be presented in tiers, reflecting the level of service received, including but not limited to: • Frequency of preventative maintenance and calibration service • Remote instrument monitoring diagnostics • Onsite support and response time The service contract is expected to be paid upfront and will cover service maintenance and support. The instrument provider must offer this service and payment option.
User and Service Manuals	Service manuals will be required to support the operator when needed. The manual must be an appropriate, up to date version and should be available in both paper and electronic format.
Service Spare Parts	Spare parts should be provided under a service contract (see Service Maintenance and Support).

	The instrument must not be expected to be discontinued in the near to mid future. Where this risk exists assurance must be provided that the supplier will continue to support and produce product parts.
Power and Site Requirements	Dimension: 214 x 78 x 75 cm maximum* Weight: 240 kg maximum Power: 230 V / 50 Hz * These are the dimensions of the current allocated space. However, if the instrument falls outside of these measurements, please make this explicit so that considerations can be made whether additional space is available to accommodate.
Operational Requirements	The number of hours and days the instrument is in use will fluctuate over time. Certain projects may have larger sample and analyte numbers which may be running continuously over a number of days so we expect sample throughput to be high at times.
Relevant Standards	1. BS EN 16516:2017+A1:2020 Construction Products: Assessment of release dangerous substances. Determination of emission into indoor air 2. ASTM D8142-17 Standard Test Method for Determining Chemical Emissions from Spray Polyurethane Foam (SPF) Insulation using Micro-Scale Environmental Test Chambers 3. ISO 16000-6: 2021 Indoor air. Determination of organic compounds (VVOC, VOC, SVOC) in indoor and test chamber air by active sampling on sorbent tubes, thermal desorption and gas chromatography using MS or MS-FID 4. BS EN 16521:2014 Cosmetics. Analytical methods. GC-MS method for the identification and assay of 12 phthalates in cosmetic samples ready for analytical injection. 5. BS EN71-11:2005 Safety of toys - Organic chemical compounds. Methods of analysis. 6. IEC 62321-9:2021 Determination of certain substances in electrotechnical products. Hexabromocyclododecane in polymers by chromatography-mass spectrometry (GC-MS).
Warranty	Up to 5 years manufacturer warranty (3 years minimum).
Delivery location and date	The instrument must be delivered to the Office for Product Safety and Standards, Stanton Avenue, Teddington, Middlesex, TW11 0JZ by 18 th March 2022.
