Evaluation criteria

Bids will be evaluated against the following criteria.

Technology requirements:
In order to be considered for the contract the supplier must commit to being able to provide all of the following types of technologies for the duration of the pilot:

- Desk-top document scanners
- Mobile document scanning kits
- A system that can integrate with existing office equipment, assuming the office has a PC, a scanner and a printer;
- A smart phone app

All equipment/ software solutions must be able to produce a report on any false document encountered in a PDF format so it can be e-mailed to the National False Identity Database.

Cost:
All suppliers that confirm they meet the technology requirements will be ranked by total cost, and the contract awarded to the lowest bid.
