Malthouse Square Playground Tender

10 September 2020

Beaconsfield Town Council are seeking tenders for the removal of existing equipment and the design, build and installation of new equipment on a fixed fee basis at Malthouse Square Playground. Situated at Malthouse Square fields by the Guide Hut, Beaconsfield, Buckinghamshire, HP9 2LG.

General Terms

All relevant approvals and all other legal requirements pertaining to the scope of supply and installation to be supplied by the tenderer with tender submission. This includes copies of all relevant insurance certificates and licences together with a certificate of Employers Liability. Please also supply a reference list of previous relevant work undertaken with your submission. Please confirm the warranty period of all equipment and installation works.

Tenders will be evaluated on price and quality of design options and an overall value for money solution. The budget guide is for £80K whole cost for all areas excluding walking path and benches. Variation options are allowed but should be limited. Please note orders could be placed separately for the different zones at Malthouse. Also provide a discount price for whole order for all works. All submissions received assume agreement to this brief.

Guidelines for all areas

Malthouse Square ground is currently made up of separate areas and each area needs to be quoted for separately and broken down into removal, new equipment and installation costs. Separately identify, if appropriate, any equipment that you consider could be reused or relocated, within your design scheme or for offsite. The gym equipment is outside the scope of this tender and will remain in situ.

For each area please ensure your proposals are wheelchair and pushchair friendly and include all sundries such as bins, the relevant metal fences and gates and safety signage. Please also have due consideration for the potential of social distancing (ie. swings spaced apart) and any reasonable and practical measures that could reduce the spread of any infection ie COVID. Designs that reduce the risk of vandalism damage and made of durable material to reduce maintenance will be preferable, therefore wood is **not** a preferred material.

Our Aim

To provide a new improved outdoor open space for all ages to enjoy in the heart of the Old Town, which is an improvement to what is currently on site. The activities that need to be included are:

1. Under 7s safe play area with metal fencing

To include but not limited to: swings, slide, a picnic table, further equipment with movement and/or education benefits.

2. Over 7s play equipment for various different age groups and abilities

To include but not limited to: pyramid frame near back of guide hut, baseball net, table tennis, play equipment with movement and with education benefits.

3. Football pitch – 5-a-side, 3 sets of sockets to enable moving pitch for wear if space permits along the south western area.
4. Benches near play areas
5. A picnic area - 3 sets of table and benches outside the play areas.

Specifications

Any proposed benches need to be comply with our approved bench design in recycled plastic with a base colour of black (board game designs preferable). www.earth-anchors.com/benches-seats#!/Moulded-Forest-Saver-recycled-plastic-seats-353/p/69605934

CLOSING DATE FOR TENDER SUBMISSIONS 31 October 2020
