

Cyber Security

The Cyber Risk Level for the C-sUAS-SWS Requirement has been assessed as a **Very Low** risk project. The associated Risk Assessment Reference (RAR or RA) is:

DE&S have included DEFCON 658 (SC2) as part of the ITT process. This DEFCON is intended to protect MOD Identifiable Information transferred during the life of the contract and sometimes post contract. MOD Identifiable Information is defined in DEFCON 658 (SC2) as “All Electronic Information which is attributed to or could identify an existing or proposed MOD capability, defence activities or personnel and which the MOD requires to be protected against loss, misuse, corruption, alteration and unauthorised disclosure.”

Tenderers should complete the SAQ by either using the supporting PDF document on the Defence Sourcing Portal (DSP) for this ITT or using the online SAQ Form from the weblink below (preferred).

Online SAQ available from:

The completed SAQ must be uploaded within the Commercial Envelope on DSP AND emailed to the DCCP Team at the following email address: ISSDes-DCPP@mod.gov.uk

NOTE: Tenderers should allow a minimum of two working days for the DCCP team to respond with their SAQ result for inclusion in their Tender response.

Def Stan 05-138 (appendix 1) provides further advice and specific guidance on classifications. If the SAQ response is not accepted as sufficient by the online tool, then tenderers should show how they intend to achieve compliance by completing a Cyber Implementation Plan.

Suppliers intending to sub-contract part of a Ministry of Defence contract will also be required to complete a Risk Assessment for the sub-contract(s), and sub-contractors will be required to complete an SAQ in response to it.
