II.1.5) Short description of the contract or purchase(s)

Scape wishes to establish a framework agreement for use by or on behalf of public sector bodies (and their respective statutory successors and organisations created as a result of re-organisations or organisational changes). Applications are invited from experienced providers of construction (building) works and services who can provide high quality works and services using a customer focused approach particularly in the public sector. It is anticipated that the works and services will be provided by the providers themselves and/or through their supply chain. No consortia bids will be accepted and in the case of group companies again only one bid will be accepted from either the group company or one of subsidiaries, but not both. The specific works and services that may be procured under the Framework cannot be clearly defined at this stage, however the nature and types of works that may be required may include those services identified by CPV code on or in connection with any land or property and related asset owned, rented, leased or developed by any of the public sector bodies eligible to use the Framework or on property or related assets in which any of the public sector bodies may have an interest at the time or prospectively and may include projects in the following sectors, amongst others: — education, housing, social care, leisure, libraries, blue light, health and social care, offices, transport, military, farms, recycling and waste centres, industrial and commercial buildings and other public sector operational buildings and establishments. The works and services will comprise all types of building construction works and associated mechanical, electrical and services works and may include design and other services as required for a develop and construct or design and build works. The provider will be expected to work closely and cooperate with local government and other contracting authorities, in-house and external design consultants, contractors and other partner providers. All contract performance will be monitored using a set of comprehensive performance indicators.

The public sector bodies to whom the use of this framework agreement will be open, include without limitation, the following contracting authorities commissioning construction (building) works and services in the geographical areas stated in II.1.2 (and any future successors to these organisations):

VI.3) Additional information

The contracting authority and other public bodies interested in utilising the framework arrangements contemplated by this procurement are transforming the manner in which construction projects are procured and managed. The construction services may include design and other services as required for develop and construct works, design and build works, regeneration works or construction works. They will adopt the principles of partnering through the development of longer term relationships through the supply chain, integrated design and construction teams, shared risk/rewards and performance management. The partnering ethos will involve partners selected for their capability and commitment to these principles. It will include target cost setting, open book accounting, shared problem solving and a strong commitment to all aspects of continuous improvement. A key feature of this approach will be to develop a spirit of mutual trust and teamwork throughout the supply chain. The framework arrangements may be used by public bodies as set out in this notice. To achieve continuity in the availability of a framework arrangement, Scape will review future service requirements and capacity regularly to determine when to carry out its next parallel tender exercise in the range stipulated. Note that the PQQ contains important background information and contextual information, together with exclusion clauses relating to the fact that the contracting authority may terminate or suspend this procurement at any time, without cost or liability to the contracting authority. The contract conditions will be set out in the invitation to tender documents. Interested companies will be required to complete a pre-qualification questionnaire (PQQ) and companies must demonstrate commitment to partnering including working with clients and their partners, shared problem solving and continuous improvement. Any queries relating to the technical aspect of the works should be made to the contact in I.1) through Delta. A breakdown of the evaluation criteria will be detailed in the tender documents. An indicative procurement timetable is included in the PQQ. The Common Procurement Vocabulary stated are deemed to include, for the avoidance of doubt and unless otherwise stated, the Category and Sub-category codes below the CPV codes stated, i.e. 45310000 is deemed to include 45313000; 45212000 is deemed to include 45212100 and 45212110. VI.4) **Procedures for appeal**

VI.4.1) **Body responsible for appeal procedures**

VI.4.2) **Lodging of appeals**

Precise information on deadline(s) for lodging appeals: The Contracting Authority will incorporate a minimum 10 calendar day standstill period (or 15 days where non-electronic or fax methods are used) at the point that an award decision notice is communicated to tenderers. The award decision notice will specify the criteria for the award of the framework agreement, the reasons for the decision, including the characteristics and relative advantages, the name and score of the successful tender; and will specify when the standstill period is expected to end or the date before which the Contracting Authority will not conclude the framework agreement. If an appeal regarding the award of a contract has not been successfully resolved, the Public Contracts Regulations 2015 set out the time frame within which aggrieved parties who have been harmed or are at risk of a breach of the rules may take action in the High Court (England, Wales and Northern Ireland). Any such action must be brought within 30 days from the date when the economic operator in question first knew or ought to have known that grounds for the bringing of proceedings had arisen. The Court may extend the 30 day period in a particular case if it considers that there is good reason for so doing, up to a period of 3 months from the actual or deemed date of knowledge of the economic operator. The Court may order the setting aside of the award decision or may order the Contracting Authority to amend any document and may award damages. If the framework agreement has been entered into the Court may make a declaration of ineffectiveness or may order that the duration of any relevant specific contract be shortened and additionally may award damages. The time limit for seeking such a declaration is generally 30 days from notification of the award (either by award decision notification or contract award notice depending on the circumstances) or otherwise 6 months.

VI.4.3) **Service from which information about the lodging of appeals may be obtained**

VI.5) **Date of dispatch of this notice:**
26.4.2017
