**Registration Link:** <https://www.eventbrite.com/e/sellafield-ltd-pace-market-engagement-day-tickets-1041956508967?aff=oddtcreator>

### **About this Event**

Sellafield Ltd, a Nuclear Decommissioning Authority (NDA) subsidiary, is responsible for operating and decommissioning Europe's largest, most complex, nuclear site. Sellafield Ltd's purpose is to create a clean and safe environment for future generations, in support of the NDA's mission to clean-up the UK's earliest nuclear sites safely, securely and cost effectively.

The Projects and Asset Care (PACE) Framework will be the successor to the Integrated Asset Care (IAC) framework, which will maintain asset condition, and will provide new asset capabilities when needed, at the Sellafield site in Cumbria. PACE will not be a like for like replacement for IAC but will build upon the existing IAC framework by including, higher value gated projects and design capability to deliver asset care for a scope of work, which includes jobs, tasks and projects in operational nuclear facilities in radiologically controlled areas.

The market engagement activity will be managed via the shared service Nuclear Decommissioning Authority (NDA) OneNDA eCommercial Systems powered by Atamis (Atamis), which can be accessed via the URL <https://atamis-2464.my.site.com/s/Welcome> .

All prior information relating to PACE procurement is available via Atamis reference C17465 to review.
