X17: Low service damages

If Option X17 is used

Service Credits will be used to maintain service delivery through the contract, based on the Key Performance Indicators set out below (monitored and recorded on a quarterly basis).

The Service Credits approach is set out below:

- Contractors are required to score **at least 80%** per quarter. If they achieve a score below this, they are required to submit a Performance Improvement Plan to the Service Manager to set out how they will improve their performance to the required levels.
- If a Contractor **scores below 70%**, service credits would apply on a sliding scale basis as seen below (the below numbers have been used as an example and will be calculated based on a quarterly price from the returned pricing schedule):

KPI Score	Percentage retained	Amount retained per quarter (based on £4,134 weekly fee; £53,742/ quarter)	Equivalent amount retained per week
66-70	30	£16,122.60	£1,240.20
61-65	40	£21,496.80	£1,653.60
51-60	50	£26,871	£2,067
45-50	75	£40,306.50	£3,100.50
Below 45	100	£53,742	£4,134

- If in the following quarter the Contractor then scores above 80, any retained credits from the previous quarter would be repaid (this relates to the previous quarter only and not any previous quarters).
- Alternatively, if in the **following quarter** the Contractor **scores between 70 and 80**, half of the retained credits from the previous quarter only would be repaid. The other half of the retained credits are permanently lost.
- OR if the Contractor does not reach a score of 80 in the following quarter, all previous retained credits are permanently lost.

Examples are shown in the following table:

	SUPPLIER KPI SCORE FOR QUARTER					
EXAMPLE: OUTCOMES BASED ON KPI's	Quarter 1	Q2	Q3	Q4	Q5	ACTION TAKEN
Contractor KPI score above 80	82					No action taken
A score of less than 80 in any quarter requires the Contractor to provide an Improvement Plan		76				Contractor must provide an Improvement Plan
A score of less than 70 in any quarter results in service credits applying: every percentage below 70 results in the same reduction in % payments of the quarterly			66			EA retains 30% of the management fee from the quarterly invoiced totals
invoice amount (to a capped maximum reduction of 100% of management fee)						Contractor must provide an Improvement Plan
If following a Service Credit quarter, the Contractor KPI score exceeds 80 in the following quarter , any retained service credits from the previous quarter would be repaid				81		Service Credits from previous quarter (30% of management fee) are paid (along with regular quarterly payment).
OR If following a Service Credit quarter, in the next quarter the Contractor KPI score achieves a score of 70 but fails to achieve a score of 80, half of the service credits retained in the previous quarter are paid; half are permanently lost.				72		Half of the previously retained 30% is repaid (15%) along with regular quarterly payment), (15% of previous quarters management fee) is permanently retained.
The Contractor is required to provide an Improvement Plan						Contractor must provide an Improvement Plan
OR If following a Service Credit quarter, in the next quarter the Contractor KPI score again fails to achieve a score of 70 , the same % is deducted from the quarterly invoice amount (to a capped maximum reduction				50		EA retains 75% of management fee from the quarterly invoiced totals AND the previously retained 30% of management fee is permanently retained.
of 100%)						Contractor must provide an Improvement Plan

If following two Service Credit quarters, the Contractor KPI score exceeds 80 in the following quarter , any retained service credits from the previous quarter only would be repaid	81	Service Credits from previous quarter (100% of management fee) are paid, along with regular quarterly payment. Note that any previously retained Service Credits are not repaid.

Z: Additional conditions of contract

If Option Z is used

The additional conditions of contract are

Z Clauses

Clause No.	Clause
Z1	Z1 Environment Agency as regulatory authority
	Z1.1 The Environment Agency's role as a regulatory authority and as Client under the contract is
	separate and distinct. Actions taken in one capacity are deemed not to be taken in the other.
	Z1.2 Where statutory consents must be obtained from the Environment Agency in its capacity as a
	regulatory authority, the Contractor is responsible for obtaining these and paying fees. The Client's
	acceptance of a tender and the Client's instruction or variation of the service does not constitute
	statutory approval or consent.
	Z1.3 An action by the Environment Agency as regulatory authority is the action of Other.
Z2	Z2 Framework Agreement
	Z2.1 The Contractor shall ensure at all times during this contract it complies with all the obligations
	and conditions of the Asset Operations Operation, Maintenance, Response Framework Agreement
	made with the Client.
Z3	Z3 Data Protection
-	Z3.1 The requirements of the Data Protection Schedule shall be incorporated into this contract
Z4	Z4 Liabilities and insurance
	Z4.1 Civil data protection claims and regulatory fines for breaches of Data Protection Legislation are
	excluded from any limit of liability stated.
Z5	Z5 Risks and insurance
	Z5.1 Replace clause 84.1 with the following

Z6	Z6 Resolving Disputes
20	Z6.1 Delete clause W2.1
Z31	
29T	Z31 Price Adjustment for Inflation TSC
	The Client recognises the ongoing pricing uncertainty with regards to inflation. The Client will mitigate this uncertainty through this clause.
	mitigate this uncertainty through this clause.
	Z31.1 Defined terms:
	a) The index is Office for National Statistics (ONS) CPI (UK, 2015=100).
	b) The Base Date Index (B) is the latest available index published by ONS prior to the Contract Date.
	c) The Latest Index (L) is the latest available index published by ONS before the date of
	assessment of an amount due.
	d) The Price Adjustment Factor (PAF) at each date of assessment of an amount due is
	0.9((L-B)/B).
	Z31.2 Application rules.
	The provisions of this clause [Z31] shall apply provided that:
	a) The Price for Service Provided to Date is less than or equal to the total of the Prices
	and
	b) Inflation remains positive ie L is greater than B.
	Z31.3 Price Adjustment Factor.
	If an index is changed after it has been used in calculating a PAF, the calculation is not changed. The
	PAF calculated at the last assessment date before the Completion Date for the whole of the <i>service</i>
	is used for calculating an amount for price adjustment after that date.
	Z31.4 Price adjustment Options A and B.
	Each amount due includes an amount for price adjustment which is the sum of
	• The change in the Price for Service Provided to Date since the last assessment of the
	amount due multiplied by the PAF and

	•	The amount for price adjustment included in the previous amount due
