

WONDROUS PLACE GALLERY - Museum of Liverpool

Samples required

As part of the tender response we require the delivery of samples on or before **11 June 2021** to the Contract Administrator, Cunliffes Ltd. at the address:

Cunliffes Ltd.

Claire Court
Oriel Road
Bootle
Liverpool
L20 7AD

This document outlines the full list of samples required.

Level 1

Level 1 graphics are wallpaper graphics. We would require these graphics to be produced in one piece where possible and where unable to do so please indicate the amount of splits that would be required. A sample using artwork **level 1.pdf** should be produced at no smaller than 500 x 500mm.

Level 2

These graphics are what we refer to as Section Panels. We are looking for a premium and permanent solution to look the part and consider permanent. We have suggested using 5mm white acrylic with polished edges and a SAV applied to face. To protect the SAV we suggest a 1mm clear polycarbonate sheet is applied on top. It would be desirable to use minimum 2 x split battens to fix onto the walls of the gallery. A sample using artwork **level 2.pdf** should be produced at no smaller than 500 x 500mm.

Level 4

We also would require a sample label to be produced which would consist of a 2mm white acrylic with polished edges and a SAV applied to face. To protect the SAV we suggest a 1mm clear polycarbonate sheet is applied on top. A sample using artwork **level 4.pdf** should be produced at 270 x 385mm.

3D lettering

As the first thing the visitors will see the title of the exhibition needs to look the best it can. We would like to see a sample of your suggested approach to producing 3D lettering as per elevation **WP-01-a.pdf**.

Colour testing

As some graphics will be appearing in museum display cases alongside accessioned objects we are required to Oddy Test materials for safety. We require a sample of your suggested SAV material unprinted as well using **Colour Test.pdf** to 1 of each page no smaller than 500 x 500mm.
