E9.1 The Contractor shall keep and maintain until 6 years after the end of the Contract Period, or as long a period as may be agreed between the Parties, full and accurate records of the Contract including the Services supplied under it, all expenditure reimbursed by the Authority, and all payments made by the Authority. The Contractor shall provide such explanations as are reasonably required for these purposes.

F. CONTROL OF THE CONTRACT

F1 Failure to meet Requirements

F1.1 If the Authority informs the Contractor in writing that the Authority reasonably believes that any part of the Services do not meet the requirements of the Contract or differs in any way from those requirements, and this is not as a result of a default by the Authority, the Contractor shall at its own expense re-schedule and carry out the Services in accordance with the requirements of the Contract within such reasonable time as may be specified by the Authority.

F2 Monitoring of Contract Performance

F2.1 The Contractor shall immediately inform the Authority if any of the Services are not being or are unable to be performed, the reasons for non-performance, any corrective action and the date by which that action will be completed.

F2.2 At or around 6 Months from the Commencement Date and each anniversary of the Commencement Date thereafter (each being a "Review Date"), the Authority shall carry out a review of the performance of the Contractor ("Checkpoint Review"). Without prejudice to the generality of the foregoing, the Authority may in respect of the period under review consider such items as (but not limited to): the Contractor's delivery of the Services; the Contractor's contribution to innovation in the Authority; whether the Services provide the Authority with best value for money; consideration of any changes which may need to be made to the Services; a review of future requirements in relation to the Services and progress against key milestones.

F2.3 The Contractor shall provide at its own cost any assistance reasonably required by the Authority to perform such Checkpoint Review including the provision of data and information.

F2.4 The Authority may produce a report (a "Checkpoint Review Report") of the results of each Checkpoint Review stating any areas of exceptional performance and areas for improvement in the provision of the Services and where there is any shortfall in any aspect of performance reviewed as against the Authority's expectations and the Contractor's obligations under this Contract.

F2.5 The Authority shall give the Contractor a copy of the Checkpoint Review Report (if applicable). The Authority shall consider any Contractor comments and may produce a revised Checkpoint Review Report.

F2.6 The Contractor shall, within 10 Working Days of receipt of the Checkpoint Review Report (revised as appropriate) provide the Authority with a plan to address resolution of any shortcomings and implementation of improvements identified by the Checkpoint Review Report.

F2.7 Actions required to resolve shortcomings and implement improvements (either as a consequence of the Contractor's failure to meet its obligations under this Contract identified by the Checkpoint Review Report, or those which result from the Contractor's failure to meet the Authority's expectations notified to the Contractor or of which the Contractor ought reasonably to have been aware) shall be implemented at no extra charge to the Authority.

F3 Remedies for inadequate performance

F3.1 If the Authority reasonably believes the Contractor has committed a Material Breach it may, without prejudice to its rights under clause H2 (Termination on Default), do any of the following:

- (a) without terminating the Contract, itself supply or procure the supply of all or part of the Services until such time as the Contractor has demonstrated to the Authority's reasonable satisfaction that the Contractor will be able to supply the Services in accordance with the Specification;
- (b) without terminating the whole of the Contract, terminate the Contract in respect of part of the Services only (whereupon a corresponding reduction in the Price shall be made) and thereafter itself supply or procure a third party to supply such part of the Services;
- (c) withhold or reduce payments to the Contractor in such amount as the Authority reasonably deems appropriate in each particular case; and/or
- (d) terminate the Contract in accordance with clause H2.

F3.2 Without prejudice to its right under clause C3 (Recovery of Sums Due), the Authority may charge the Contractor for any costs reasonably incurred and any reasonable administration costs in respect of the supply of any part of the Services by the Authority or a third party to the extent that such costs exceed the payment which would otherwise have been payable to the Contractor for such part of the Services.

F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

- (a) direct the Contractor to identify and remedy the failure within such time as may be specified by the Authority and to apply all such additional resources as are necessary to remedy that failure at no additional charge to the Authority within the specified timescale; and/or

(b) withhold or reduce payments to the Contractor in such amount as the Authority deems appropriate in each particular case until such failure has been remedied to the satisfaction of the Authority.

F3.5 If the Contractor has been notified of a failure in accordance with clause F3.3, it shall:

(a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and

(b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in this clause F3.5 and the progress of those measures until resolved to the satisfaction of the Authority.

F3.6 If, having been notified of any failure, the Contractor fails to remedy it in accordance with clause F3.5 within the time specified by the Authority, the Authority may treat the continuing failure as a Material Breach and may terminate the Contract immediately on notice to the Contractor.

F4 Transfer and Sub-Contracting

F4.1 Except where clauses F4.6 and F4.7 both apply, the Contractor shall not transfer, charge, assign, sub-contract or in any other way dispose of the Contract or any part of it without Approval. All such documents shall be evidenced in writing and shown to the Authority on request. Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.

F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.

F4.4 If the Authority has consented to the award of a Sub-Contract, the Contractor shall ensure that:

(a) the Sub-Contract contains a right for the Contractor to terminate the Sub-Contract if the relevant Sub-Contractor does not comply in the performance of its contract with legal obligations in environmental, social or labour law;

(b) the Sub-Contractor includes a provision having the same effect as set out in clause F4.4 (a) in any Sub-Contract which it awards; and

(c) copies of each Sub-Contract shall, at the request of the Authority, be sent by the Contractor to the Authority immediately.

F4.5 If the Authority believes there are:

- (a) compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Contractor shall replace or not appoint the Sub-Contractor; or
- (b) non-compulsory grounds for excluding a Sub-Contractor pursuant to regulation 57 of the Regulations, the Authority may require the Contractor to replace or not appoint the Sub-Contractor and the Contractor shall comply with such requirement.

F4.6 Notwithstanding clause F4.1, the Contractor may assign to a third party (the "Assignee") the right to receive payment of the Price or any part thereof due to the Contractor (including any interest which the Authority incurs under clause C2 (Payment and VAT)). Any assignment under this clause F4.6 shall be subject to:

- (a) reduction of any sums in respect of which the Authority exercises its right of recovery under clause C3 (Recovery of Sums Due);
- (b) all related rights of the Authority under the Contract in relation to the recovery of sums due but unpaid; and
- (c) the Authority receiving notification under both clauses F4.7 and F4.8.

F4.7 If the Contractor assigns the right to receive the Price under clause F4.6, the Contractor or the Assignee shall notify the Authority in writing of the assignment and the date upon which the assignment becomes effective.

F4.8 The Contractor shall ensure that the Assignee notifies the Authority of the Assignee's contact information and bank account details to which the Authority shall make payment.

F4.9 The provisions of clause C2 shall continue to apply in all other respects after the assignment and shall not be amended without Approval.

F4.10 Subject to clause F4.11, the Authority may assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof to:

- (a) any Contracting Authority;
- (b) any other body established or authorised by the Crown or under statute in order substantially to perform any of the functions that had previously been performed by the Authority; or
- (c) any private sector body which substantially performs the functions of the Authority

provided that any such assignment, novation or other disposal shall not increase the burden of the Contractor's obligations under the Contract.

F4.11 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.12, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.

F4.12 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.10 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the "Transferee"):

- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee; and
- (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.

F4.13 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.

F4.14 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.

F5 Waiver

F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.

F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).

F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause 6.

F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.

F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:

- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or
- (b) terminate the Contract immediately except where the Contractor has already delivered all or part of the Services or where the Contractor can show evidence of substantial work being carried out to fulfil the requirements of the Specification; and in such case the Parties shall attempt to agree upon a resolution to the matter. If a resolution cannot be reached, the matter shall be dealt with under the Dispute Resolution procedure detailed in clause I2 (Dispute Resolution).

F6.4 No Variation will take effect unless and until it is recorded in a validly executed CCN. Execution of a CCN is made via electronic signature as described in clause 1.2 of Section 1 of the Contract.

F6.5 A CCN takes effect on the date on which both Parties communicate acceptance of the CCN via Bravo. On the date it communicates acceptance of the CCN in this way the Contractor is deemed to warrant and represent that the CCN has been executed by a duly authorised representative of the Contractor in addition to the warranties and representations set out in clause G2.

F6.6 The provisions of clauses F6.4 and F6.5 may be varied in an emergency if it is not practicable to obtain the Authorised Representative's approval within the time necessary to make the Variation in order to address the emergency. In an emergency, Variations may be approved by a different representative of the Authority. However, the Authorised Representative shall have the right to review such a Variation and require a CCN to be entered into on a retrospective basis which may itself vary the emergency Variation.

F7 Severability

F7.1 If any provision of the Contract which is not of a fundamental nature is held invalid, illegal or unenforceable for any reason by any court of competent jurisdiction, such provision shall be severed and the remainder of the provisions of the Contract shall continue in full force and effect as if the Contract had been executed with the invalid, illegal or unenforceable provision eliminated.

F8 Remedies Cumulative

F8.1 Except as expressly provided in the Contract all remedies available to either Party for breach of the Contract are cumulative and may be exercised concurrently or separately, and the exercise of any one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.

F9 Entire Agreement

F9.1 The Contract constitutes the entire agreement between the Parties in respect of the matters dealt with therein. The Contract supersedes all prior negotiations between the Parties and all representations and undertakings made by one Party to the other, whether written or oral, except that this clause shall not exclude liability in respect of any fraudulent misrepresentation.

F10 Counterparts

F10.1 The Contract may be executed in counterparts, each of which when executed and delivered shall constitute an original but all counterparts together shall constitute one and the same instrument.

G LIABILITIES

G1 Liability, Indemnity and Insurance

G1.1 Neither Party limits its liability for:

- (a) death or personal injury caused by its negligence;
- (b) fraud or fraudulent misrepresentation;
- (c) any breach of any obligations implied by section 2 of the Supply of Goods and Services Act 1982;

G1.2 Subject to clauses G1.3 and G1.4, the Contractor shall indemnify the Authority and keep the Authority indemnified fully against all claims, proceedings, demands, charges, actions, damages, costs, breach of statutory duty, expenses and any other liabilities which may arise out of the supply, or the late or purported supply, of the Services or the performance or non-performance by the Contractor of its obligations under the Contract or the presence of the Contractor or any Staff on the Premises, including in respect of any death or personal injury, loss of or damage to property, financial loss arising from any advice given or omitted to be given by the Contractor, or any other loss which is caused directly by any act or omission of the Contractor.

G1.3 Subject to clause G1.1 the Contractor's aggregate liability in respect of the Contract shall not exceed £5,000,000.00.

G1.4 The Contractor shall not be responsible for any injury, loss, damage, cost or expense if and to the extent that it is caused by the negligence or wilful misconduct of the Authority or by breach by the Authority of its obligations under the Contract.

G1.5 The Authority may recover from the Contractor the following losses incurred by the Authority to the extent they arise as a result of a Default by the Contractor:

- (a) any additional operational and/or administrative costs and expenses incurred by the Authority, including costs relating to time spent by or on behalf of the Authority in dealing with the consequences of the Default;
- (b) any wasted expenditure or charges;

(c) unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings;

(d) if the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives;

(e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and

(f) if the Parties fail to reach agreement within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the Courts unless the dispute is referred to arbitration pursuant to the procedures set out in clause 12.6.

12.6 Subject to clause 12.2, the Parties shall not institute court proceedings until the procedures set out in clauses 12.1 and 12.3 have been completed save that:

(ii) providing details of the issues to be resolved;

(b) the London Court of International Arbitration ("LCIA") procedural rules in force at the date that the dispute was referred to arbitration in accordance with I2.7(b) shall be applied and are deemed to be incorporated by reference to the Contract and the decision of the arbitrator shall be binding on the Parties in the absence of any material failure to comply with such rules;

(c) the tribunal shall consist of a sole arbitrator to be agreed by the Parties;

SCHEDULE 1 - SPECIFICATION

SPECIFICATION OF REQUIREMENTS

This Section sets out the Authority's requirements.

Specification for the major waste reforms consultation analysis.

Background:

The UK Government (in conjunction with the Devolved Administrations for EPR and DRS) will be launching a second consultation on three major waste reforms (**extended producer responsibility for packaging, a deposit return scheme for drinks containers, and consistent recycling collections**) in early 2021. We wish to commission an analysis of the responses to these three consultations.

Each consultation features questions directly related to final policy proposals and so responses need to be analysed within a tight timeframe to ensure a government response for each is published quickly and implementation timelines are met.

Consultants with capacity to undertake this project should submit a tender application to undertake the analysis of all three consultation responses, and produce separate reports summarising the findings for each, as set out below.

Details of each consultation:

Extended Producer Responsibility for packaging:

In 2019, the UK Government together with the devolved administrations published a consultation on proposed changes to the UK producer responsibility regime for packaging. This proposal included setting out objectives and mechanisms to incentivise better packaging design, encourage the use of recyclable materials and ensure that producers pay the full net costs of managing the packaging they place on the market, once it becomes waste. There was strong support for the introduction of an extended producer responsibility (EPR) scheme which embraces the polluter pays principal. Government committed to introduce packaging EPR following a further consultation. This second consultation will focus on specific policy proposals, including the scope of full net costs, producer obligations, scheme governance, regulation of the scheme, and recycling targets.

The previous consultation can be found here:

Deposit Return Scheme for drinks containers:

In 2019 we launched a first consultation on introducing a Deposit Return Scheme (DRS) for drinks containers in England, Wales and Northern Ireland. There was overwhelming support for the introduction of the scheme and we have therefore pressed ahead with

developing the proposed policy which will form the basis of our DRS. Introducing a DRS will see a refundable deposit added to the price of an in-scope container, which people can reclaim when they return their empty drinks containers to a return point. This will help to increase recycling of plastic bottles and reduce littering, by incentivising the return of containers in good condition to then be reprocessed. This consultation will set out our final policy positions in greater detail, and include chapters on Scheme Governance, Scope, Targets, Financial Flows, Return Points, Labelling, Local Authorities, and Enforcement.

Consistent Recycling Collections:

We consulted in 2019 on the principles of increasing the consistency of materials collected for recycling from households, businesses and other organisations in England. There was support for the introduction of a core set of materials to be collected by waste collection authorities from households (plastic; paper and card; glass; metal; food waste and garden waste) and this statutory requirement is being legislated for in the Environment Bill. Businesses and other organisations will also be required to arrange for the collection of the same core set of materials for recycling, with the exception of garden waste. This second consultation will ask more detailed policy questions including on the materials in scope, statutory and non-statutory guidance for local authorities, and exemptions to the requirements introduced through the Environment Bill.

The previous consultation document can be found here:

Business:

For recycling consistency, we published one consultation document at first consultation, but are considering publishing two consultation documents this time, to minimise responses from householders on business waste and ensure that respondents answer the relevant parts of the consultation which was an issue at first consultation. This would require producing two summary documents for recycling consistency. A final decision on this has not been made as we are finalising proposals. This can be confirmed at the pre-commencement meeting or earlier if appropriate.

Budget:

There is up to around £120,000 in total available for the analysis of the responses to the three consultations and preparation of a summary of responses report for each, excluding VAT, and value for money will be a key criterion in assessing the bids.

The project will be split into two phases, one in the current financial year (2020/2021), and the second in the next financial year (2021/2022). This two-phased approach applies to all three consultations which will be conducted simultaneously, with phase one focused on planning, and phase two where the analysis is carried out and the reports produced. More detail of the tasks to be undertaken in each phase are detailed in the table below.

Project Purpose and objectives:

The overall purpose of this project is to analyse the responses to each of the three major reform consultations and use this data to produce consultation response summary documents, which will summarise the responses received, bringing out the key findings, and which will inform the Government's next steps and intentions when implementing these reforms.

The objectives of the analysis are to:

1. **Identify, and quantify the frequency of, main themes in response** to each question within the consultation documents for each major reform. The aim of these consultations is to receive clear feedback and preferences for the specific policy proposals put forward.
2. **Identify the views expressed by different types of respondent.** The analysis will cover both public (individual) and organisational (businesses, local authorities, NGOs and representative organisations etc.) responses. Analysis should enable us to understand and compare the motivations of each group. The nature of the consultation means that responses from stakeholders with detailed knowledge and experience of each area are of particular interest to us, and therefore the analysis should pay particular attention to these stakeholders.

It should also identify whether there are particular differences in the views of key stakeholders in the devolved administrations in the EPR and DRS consultations (this information is not required for consistency). Further context about key stakeholders will be provided to the successful bidder.

3. **Identify evidence** submitted by respondents to inform our understanding of the costs and benefits of the proposals.

Expected number of responses for each consultation:

Due to the public nature of these consultations, it is difficult to predict the number of responses that will be received. In the previous consultations we received the following number of responses to each:

- **Extended Producer Responsibility:** We received 679 responses to the consultation launched in February 2019

- **Deposit Return Scheme:** We received 1,180 responses to the consultation launched in February 2019, alongside 207,089 campaign responses. The campaign responses were collated by the organisation running the campaign and so consultants would not be expected to analyse these in detail but would be required to summarise the responses.
- **Consistency in recycling collections:** We received 1,713 responses to the consultation launched in February 2019.

All three of these consultations ran for 12 weeks. The new consultations will run for the same length of time so we would expect a similar number of responses.

We will want consultants to submit their application to tender on the assumption that the total number of consultation responses to be analysed across all three consultations will be 4,500.

Consultants are asked to provide their commercial rate for analysis of batches of 50 additional responses, in their application to tender. This is in the event that the number of responses received across all three consultations exceeds 4,500.

Receipt of responses:

The three consultations will be published on Citizen Space, an online consultation platform where the majority of responses will be submitted. We will also publish the consultations on the gov.uk website, with the option to submit responses via email (although Citizen Space is the preferred response option). The number of email responses received for the previous consultations are listed below.

Extended Producer Responsibility – 200 responses via email (just under 1/3 of the total number of responses)

Deposit Return Scheme – 387 responses via email (of 1180 total).

Consistent Recycling Collections – approx. 150 responses via email (of 1713 total). These were mainly from organisations.

Defra will access the responses to the three consultations on the Citizen Space platform and provide these to the consultant in an excel spreadsheet format at weekly intervals from the beginning of phase 2 to allow qualitative analysis to begin before the closing date of each consultation. The citizen space platform also has some automated functionality that could help in making broad initial calculations on the responses received to individual questions if appropriate. The email responses will also be collated and sent to the consultants as they are received.

It is possible that campaign organisations may also respond to these consultations, which will increase the number of responses (as demonstrated by the previous DRS consultation).

The organisation running the campaign will take responsibility for collating the responses received as a result of their campaign and providing a summary to Defra. Should this happen, the consultant will need to include the details of this summary in the analysis of

the responses, and in the final report. However, they will not be required to analyse campaign responses individually.

The consultant will need to have capacity to analyse the responses submitted via Citizen Space and those submitted via email, which are likely to contain more 'free text' answers and may not necessarily follow the same format as the Citizen Space questions. However, we will be directing people to citizen space via an automated email response to reduce the number of email responses and free text answers where possible.

We will want consultants to submit their application to tender on the assumption that the number of email responses they will be expected to analyse will be up to 20% of total responses (estimated from previous levels).

Consultants are asked to include the commercial rate for analysis per 20 additional responses received by email above the 20%.

Type of analysis needed:

The analysis will involve a combination of reading written responses, qualitative text analysis, response coding in Microsoft Excel, data cleansing and rudimentary statistical analysis to provide insight from the consultation responses.

The consultant will be required to analyse multiple choice answers as well as any supporting evidence provided in the open text field for each question or provided by email. Graphs and other data presentation tools should also be used to help clearly present the responses provided.

Due to tight implementation timelines we are procuring for response analysis before all three consultations are fully drafted. We are unable to say at this stage how many questions will need to be analysed within each consultation document.

The previous consultation documents give you an idea of the number of questions asked last time. There is an aspiration to reduce the number of questions asked during the next consultations and the number of open text questions where possible.

We are assuming each of the consultations will have the following number of maximum questions to analyse with the additional assumption that less than 50% of those will be free text questions (based on the number of questions in the previous consultation and the desire to reduce the number of free text responses):

Extended Producer Responsibility: 100
Deposit Return Scheme: 77
Consistency in recycling collections: 66

The questions will be broken down into the following question types, similar to those in the previous consultation documents:

- 'Yes/no' questions with a third option which is usually 'neither' or 'don't know'. These questions are in a single answer multiple choice format.
- Questions which ask the respondent to choose between a number of options. These are also in single answer multiple choice format.

- Free text questions with no multiple-choice components. As previously mentioned, we hope to keep these types of questions to a minimum across all three consultations, as we are looking for clear steers on the proposed policy options in each consultation.

-

Defra will update the consultants on the question numbers and details as this becomes available during the finalisation of the consultation documents, up until the tender clarification deadline (see procurement timeline in ITT).

Phases, milestones, deliverables, and timelines:

The Deposit Return Scheme Consultation is due to be launched in February 2021, with the Extended Producer Responsibility consultation and the Consistency consultation launching in March 2021. All three consultations will run for 12 weeks. Response analysis and the development of summary documents are expected to be finalised and approved within 6 weeks of each of the consultations closing in order to meet public consultation requirements and deadlines.

The following table sets out the phases and timelines for the project, along with key milestones to be met, deliverables to be produced and meetings to be held. Phase 1 will involve developing plans for the three consultation response analyses. Phase 2 will involve undertaking the response analyses and developing the summary response documents in accordance with the project aims and objectives set out above. Phase 2 will commence on the receipt and approval of the Phase 1 project plans and the confirmation of Phase 2 funding availability.

Please note, there will be work across all three consultations occurring simultaneously, so it is important that the consultant has adequate resource to meet the required timeframes for all three consultations.

Interim meetings with DRS policy lead to occur within this timeframe to answer any questions and ensure that the report being produced fits the requirements. A meeting will be held once Defra have reviewed the draft, in order to provide feedback and ask questions. To note – whilst producing the final DRS summary, analysis of the responses to the other two consultations will have to continue s, as these will still be live.
DRS June 2021 (2 weeks)	Final DRS response summary report	A concise final summary of the responses to the DRS consultation which meets the aims listed above and includes a concise summary for each of the questions in the DRS consultation.	All data and evidence that supports the response summary report and its findings will also be provided to Defra.

Consistency Mid-June – start of July 2021 (2 weeks)	Final Consistency response summary report/s	A concise final summary of the responses to the consistency consultation which meets the aims listed above and includes a concise summary for each of the questions in the consistency consultation document/s.	

Document format and quality:

Both the initial draft response summaries and the final response summaries are to be produced in a Word document format. A register of responses (and respondents) which address key evidence gaps or responses that could not be satisfactorily coded should be provided in an Excel spreadsheet. Any supporting data or evidence that was used to present the summary of responses to the questions or to produce the graphs and information presentation tools should be provided separately to the reports. These should be provided in Excel spreadsheet format. Other format suggestions may be suggested by the tenderers but would need to be agreed by the project lead.

The quality of the documents produced must be publishable – this means they have been quality assured and proof read for any typographical errors, are jargon-free, clear, and written in plain English with any figures clearly labelled so members of public can understand what they represent. The draft documents should highlight all the key findings and structure the findings in a way that relates them to the key questions.

Project governance and contract management

Tenderers should put forward an experienced project team to manage and implement the proposed analysis. As part of this, it is expected that Tenderers will identify specific individual(s) as the main point(s) of contact with the Defra project lead based in the Environmental Quality (EQ) Directorate, and appropriate channels for escalating concerns as necessary.

The contract will be managed by the Defra project lead based in the EQ Directorate who will be the main point of contact for the consultants. However, consultants will also be expected to work closely with consultation implementation leads in each of the three major waste reform teams. At least fortnightly contact is expected between the Defra project lead and the successful bidder.

Defra has established a Consultation Implementation Group consisting of the consultation implementation leads from the three major waste reform teams and other advisors and analysts from across Defra who are involved in delivering public consultations.

It is possible that this group will attend key progress meetings outlined in the deliverables above. Further details of this group will be provided at the pre-commencement meeting.

The successful Tenderer will be required to provide project updates for any meetings as necessary.

As mentioned in the table above, project meetings will be held fortnightly with the project team and consultants to check in on progress against the timeline, project plans, budget and deliverables. The meeting schedule and agenda will be agreed at the pre-commencement meeting.

Covid-19 guidelines may also necessitate that this group meets virtually, with the platform to be agreed. Minutes will be taken and will capture actions and key discussion points from the monthly meetings.

The below table sets out the breakdown of payment points when meeting key milestones within this project:
