

DEFENCE EQUIPMENT & SUPPORT

ARTILLERY SYSTEMS DELIVERY TEAM

APPENDIX 2 to ANNEX A & B

GROUND BASED SURVEILLANCE RADAR (GBSR)

INTEGRATED LOGISTIC SUPPORT PRODUCT DESCRIPTIONS LIST

Contract Number: 701547527

FINAL

CONDITIONS FOR RELEASE

This information is released by the Government of the United Kingdom to the recipient for defence purposes only. This information must be accorded the same degree of security protection as that accorded thereto by the Government of the United Kingdom. This information may be disclosed only within Defence Departments of the recipient Government except as authorised by the United Kingdom Ministry of Defence. Such recipients shall be required to accept the information on the same conditions as the recipients. This information may be subject to privately owned rights.

THIS DOCUMENT IS THE PROPERTY OF HER BRITANNIC MAJESTY'S GOVERNMENT AND IS NOT TO BE DUPLICATED WITHOUT THE CONSENT OF THE ISSUING AUTHORITY IN THE UNITED KINGDOM MINISTRY OF DEFENCE.

Ground Based Surveillance Radar (GBSR) ILS Product Description (PD) List

INTRODUCTION

1. This Annex contains the ILS Product Descriptions (PD) List.

2. The PDs are structured to provide a generic set of data requirements, which addresses the Contractual scope of work being provided by the Contractor, regarding the Integrated Logistic Support Requirements in Annex A: D&M Statement of Work (SoW) of the Contract.

3. The Contractor shall work with the Authority to agree and refine the specific data requirements, providing feedback and comments to each deliverable to be included as part of the Contract. The Authority is open to Contractor recommendations to make deliveries easier and expedite delivery timelines.

INDEX OF PRODUCT DESCRIPTIONS (PDs)

PD Title	PD Number Link	Scope of PD
Management PD:		
Integrated Support Plan	PD0001-02	This Product Description (PD) contains the requirement for the purpose, format and content of the Integrated Support Plan (ISP).
Support Analysis Plan	<u>PD0002-02</u>	This PD covers how the Contractor conducts and plans the activities of Support Analysis (SA), in the transition from the current capability to the delivery of the GBSR System ensuring contractual compliance against the in-scope and agreed SA activities.
ILS Associated Meeting, Minutes and Actions	PD0003-02	This PD identifies the requirement for agendas, minutes and actions associated with ILS/SA meetings. The minutes shall be raised by the contractor and agreed with MOD.
Integrated Logistic Support Element Plans	PD0004-02	This PD identifies and describes the contractor's Integrated Logistic Support (ILS) Element Plans.
Software Support Plan	PD0005-03	This PD identifies and describes the Software Support Plan.
Master Fielding Schedule	PD0006-02	This document contains management information for the fielding of the ILS product to an identified end user community.
Obsolescence Management Plan	PD0007-01	This PD contains the format and content instructions for the production of the ILS Obsolescence Management Plan (OMP).
Human Factors Integration (HFI) Management Plan	PD0008-01	This PD contains the requirement for the format and content of the Human Factors Integration (HFI) Plan.
Packaging, Handling, Storage & Transportation (PHS&T) Plan	PD0009-01	This Product Description (PD) contain the requirement for the format and content of the Package, Handling, and Storage and Transportation (PHS&T) Plan.
Packaging, Handling, Storage & Transportation (PHS&T) Report	<u>PD0010-01</u>	This PD covers the packaging, handling, storage, transportation and labelling levels for the new Items of Supply including tools, test equipment and associated items.

Support & Test Equipment (S&TE) Plan	<u>PD0011-01</u>	This PD covers the Contractor's management processes and Organisation used in the designing, developing, identifying, delivering and up-keeping of S&TE for the Product.
Support & Test Equipment (S&TE) Report	PD0012-01	This PD covers the requirement for the format and content of the S&TE Report.
Configuration Management Plan (CMP)	PD0013-01	This PD documents the Contractor's Configuration Management System and processes to ensure a common baseline relating to the Contractor's scope of supply is worked to across all Defence Lines of Development (DLOD) contributing to the GBSR capability.
Contractor Facilities Report	PD0014-01	This PD covers the facilities required to store and maintain spares or other special stores to repair the equipment or to carry out maintenance tasks.
Reliability and Maintainability Case	PD0015-01	To provide a reasoned argument how each of the requirements will be met in service, based on the evidence and any assumptions. It is to be part of a suite of documents which will comprise the overall R&M Case.
Reliability & Maintainability Case Report	PD0016-01	To form part of the body of evidence that makes up the R&M Case
Reliability and Maintainability Plan	PD0017-01	The R&M Plan will be used as part of the Invitation To Tender (ITT) evaluation process. The R&M Plan will describe how the Contractor will demonstrate compliance with the R&M System Requirements and mitigate R&M risks.
Disposal Plan	PD0018-01	The Disposal Plan will ensure that the correct activities are undertaken so that the system is decommissioned safely and securely, this will include
Training Needs Analysis (TNA)	PD0019-01	This PD covers the guidance and format of how TNA activities should be completed.
Knowledge, Skill and Attitude (KSA) Analysis	PD0020-01	This PD covers the guidance and format of how Knowledge, Skill and Attitude (KSA) Analysis is completed.
Training Assurance Plan	PD0021-01	The Training Assurance Plan shall cover assurance of: Training Analysis, Training Design and Training Delivery.
Supportability Analysis	PD:	
Supportability Analysis (SA) Tasks Plan	PD1001-02	This PD identifies a Plan for SA Activities and sub activities that will be performed.
Trade-off Analysis Report	PD1002-02	This PD defines a format for the presentation of trade-off analysis results.
FMECA Report.	PD1004-02	The principal use of the Failure Modes Effects and Criticality Analysis (FMECA) report is to advise the MOD of the results of the FMECA programme and for determining contractual compliance.
Reliability-Centred Maintenance (RCM) Report	PD1006-02	The principal use of the RCM Report is to advise the MOD of the results of the RCM programme and for determining contractual compliance.
Level of repair Analysis (LORA) Report	<u>PD1008-02</u>	This PD contains the format and content instructions generated by the task requirement as specified in the contract.

Data Requiring, Analysis and Corrective Actions Systems (DRACAS) PD1009-01 Pin PD1009-01 This PD contains the requirement for the format and content of the Data Reporting, Analysis and Corrective Action System (DRACAS) Plan. Logistic Demonstration (Log Demo) Plan PD 1010-01 To describe the specific techniques to be used, tasks to be performed and the development and integration into the overall Supportability programme. Government Furnished Asset (GFA) PD 1011-01 To describe the specific techniques to be used, tasks to be performed and the development and integration into the overall Supportability programme. 	Supportability Case PD):		

Supportability Case	<u>PD 4001-02</u>	The supportability case is a reasoned auditable argument created to support the contention that a defined system will satisfy the support requirements of a project.
Supportability Case Report	<u>PD 4002-01</u>	Supportability Case Reports are periodic updates to the Supportability Case (usually at predetermined points in the programme as agreed in the Evidence Framework.
In-Service Support Proposal	<u>PD 4003-01</u>	This PD covers the product support to maintain the design and facilitate design investigations and improvements throughout the life of the equipment.
Logistic Data PD:		
Logistic Support Analysis Control Number (LCN) Assignment Report	<u>PD 5001-01</u>	This PD contains the format for a report detailing the requirements and rationale used for allocation of LCNs and associated data, to meet the requirements of DEF STAN 00-60 (withdrawn) Part 0.
Logistic Support Analysis Record (LSAR)	<u>PD 5002-01</u>	This PD identifies deliverable LSAR data. LSAR data usage includes source data in the preparation of technical documentation, manpower and personnel requirements, training requirements, support and test equipment requirements.
Logistic Support Analysis Record (LSAR) Reports	PD 5003-01	This PD contains a listing and description of the Logistic Support Analysis Record (LSAR) reports.
Methods of Delivery of LSAR Data	PD 5004-01	This PD contains the format and content instructions generated by the task requirement as specified in the contract.
Delivery Standards and Schedule of Non-ADP LSAR Data	<u>PD 5005-01</u>	This Product Description contains the format and content instructions generated by the task requirement as specified in the contract.
