1 SOW Specification – Background and Context

Background:

DWP is transforming the way it processes benefits. Moving away from the reliance on its legacy estate and into world where new digital services provide a better customer experience, joining up the end-to-end service offering and providing a more efficient way to process benefits.

The benefit, Disability Living Allowance for Children (DLA-C) uses a legacy system called Disability Living Allowance Computer System (DLACS), which is based on Cobol code. There is a heightened near-term risk associated with DLACS in terms of its ability to support required system changes. The business processes within its Cobol code are inadequately documented, and the extensive codebase presents significant challenges in training staff to support the system, debug issues, and accommodate new legislative requirements.

Objective

DWP wishes to undertake a feasibility on the service for DLA Child to look at how the system processes this benefit and for Redacted to provide recommendations for treatment options.

Redacted

Overview of Requirements

The Buyer requires a team to support a feasibility study that will enable the move of the legacy DLACS-DLA-C service onto a modern architecture.

Requirements
Produce technical designs reflecting the current (AS-IS) DLACS solution, and a range of technical concepts for the treatment options to support the modernisation of the DLACS-DLA-C system.
Produce high level AS-IS process maps for a subset of the core business processes.
Provide an experienced team for a fast start with knowledge of DWP processes, governance and ways of working ,with capability to deliver subsequent phases
Assist with the production of a Roadmap of next phase activities to support the transition of the DLACS-DLA-C Legacy service to modernised architecture

Ways of Working

The **Redacted** team will align with an Agile Delivery approach where possible, and the team will work with the Buyer resources to meet the objectives of the feasibility phase. This will include the use of daily stand ups, regular progress meetings and open communication channels to drive effective collaboration.

2 Scope

Scope of Service:

Redacted

3 Out of Scope

The citizen facing journey that is currently under development by a separate service transformation team is out of scope for this work.

4 Milestones, Deliverables, and Assurance Criteria

This SoW and the project activities will be provided on a fixed price basis.

This SOW covers a 14-week delivery period. If additional time is needed, we will discuss this with the DWP sponsor, and a Change Request (CR) will be submitted to adjust the SOW's value and extend the timeframe.

Payment Terms will be milestone based, and payment cycles are outlined as below:

Redacted

4.1 Acceptance Procedure:

Each deliverable associated to a milestone date and payment will be subject to formal certification for both delivery and acceptance:

- The Supplier will complete an internal peer review process prior to submission to the buyer for acceptance.
- As part of the deliverable acceptance process:
- The Supplier will provide the product of each deliverable or the deliverable outcome event notification to the Buyer by the deliverable target due date.
- Within 5 working days of receiving the deliverable product or deliverable outcome event notification, the Buyer will review and i.) confirm acceptance, or ii.) clearly state any material nonconformance against the description of the specified deliverable with a statement of the Buyer's expected revisions that will address the material nonconformance.
- Where the Buyer deems the deliverable to be nonconformant, the Supplier shall use reasonable efforts to address any such nonconformity and shall then re-submit the deliverable product to Buyer within 5 working days or by a date agreed between the Parties. In this circumstance, the acceptance process shall re-start for that deliverable.
- Any milestone payments due will be made following the Buyer formal acceptance of all deliverables.
- The Buyer confirms that it will be deemed to have accepted the relevant Deliverable on the earlier of: (a) using the Deliverable (other than for carrying out the Acceptance review) or modifying it; or (b) 5 (five) working days from the date that the Supplier tells the Buyer that the relevant Deliverable is ready for acceptance (if the Buyer does not inform the Supplier within this time of any material failure of the Deliverable to meet the relevant Acceptance Criteria).

Governance:

Governance activities for this Statement of Work comprise of:

- The Supplier will schedule and attend team meetings and any formal governance checkpoints relevant to the services being provided in this SOW, with key stakeholder meetings held either face-to-face or remotely, subject to agreement between the Buyer's team and the Supplier.
- The Supplier will comply with Buyer governance processes applicable to the services being delivered under this SOW.

Supplier Resource Plan:

For the provision of services in this Statement of Work, all Supplier resources are under Supplier Payroll / PAYE. If subcontractors are used, the Supplier only contracts via PAYE, using umbrella companies. If the employment status of any individuals resourced on this Statement of Work changes throughout the duration of this engagement, the Supplier will inform the Buyer of this change at the earliest opportunity.
