

3M³ EARLY LEGACY BOX

INSTRUCTIONS FOR VIEWING “3d pdf – Legacy_WC00_.pdf”

Please follow these instructions to navigate the image or if you have a blank viewing pane after opening the document:

1. If you have an amber coloured ribbon across the top of the viewing pane, click the ‘options’ button towards the right-hand side and select ‘always trust this document’.
2. Having completed step 1, right click anywhere in the viewing pane to display the menu, and select ‘enable content’. The image should now appear.
3. Different views can be selected by clicking the ‘model tree’ button  in the vertical menu down the right-hand side of the window, this will display the ‘model tree’. Then expand the tree and select the appropriate check-boxes for the view you wish to see. Uncheck the component views as required for an unobstructed view individual or inner components.
4. The 3D image can be rotated and tumbled by placing the cursor over part of the image and holding the left button while dragging the image to the desired position.
