Part B – Terms and conditions

1. Call-Off Contract start date, length and methodology

1.1 The Supplier will start providing the Services in accordance with the dates specified in any Statement of Work (SOW).

1.2 Completion dates for Deliverables will be set out in any SOW.

1.3 Unless the Call-Off Contract period has been either increased in accordance with Clause 1.4 or decreased in accordance with Clause 1.5 then the term of the Call-Off Contract will end when the first of these occurs:

- the Call-Off Contract period End Date listed in the Order Form is reached;
or
- the final Deliverable, specified in the final SOW, is completed.

1.4 The Buyer can extend the term of the Call-Off Contract by amending the Call-Off Contract End Date where:

- an Extension Period was specified in the Order Form; and
- written notice was given to the Supplier before the expiry of the notice period set out in the Order Form. The notice must state that the Call-Off Contract term will be extended, and must specify the number of whole days of the extension.

After this, the term of the Call-Off Contract will end on the last day of the Extension Period listed in the notice (the “Extension Period End Date”).

1.5 If the Call-Off Contract is terminated early, either during the initial Call-Off Contract period, or during any Extension Period, the term of the Call-Off Contract will end on the termination date.

1.6 The Supplier will plan on using an agile process, starting with user needs. The methodology will be outlined in the SOW. Waterfall methodology will only be used in exceptional circumstances, and where it can be shown to best meet user needs. Projects may need a combination of both waterfall and agile methods, playing to their respective strengths.

2. Supplier Staff

2.1 The Supplier Staff will:

- fulfil all reasonable requests of the Buyer;
- apply all due skill, care and diligence to the provisions of the Services;
- be appropriately experienced, qualified and trained to supply the Services;

- complete any necessary vetting procedures specified by the Buyer.

2.2 The Supplier will ensure that Key Staff are assigned to provide the Services for their Working Days (agreed between Supplier and Buyer) and are not removed from the Services during the dates specified in the relevant SOW.

2.3 The Supplier will promptly replace any Key Staff that the Buyer considers unsatisfactory at no extra charge. The Supplier will promptly replace anyone who resigns with someone who is acceptable to the Buyer. If the Supplier cannot provide an acceptable replacement, the Buyer may terminate the Call-Off Contract subject to clause 23.

2.4 Supplier Staff will comply with Buyer requirements for the conduct of staff when on Buyer's premises.

2.5 The Supplier will comply with the Buyer's staff vetting procedures for all or part of the Supplier Staff.

3. Swap-out

3.1 Supplier Staff providing the Services may only be swapped out with the prior approval of the Buyer.

The Key Personnel shall be those people who are identified by each party as being key to the success of the implementation and/or operation of the Services and who shall be retained on the implementation and/or operation of the Services for such time as a person is required to perform the role which has been allocated to the applicable Key Personnel. The Key Personnel shall have the authority to act on behalf of their respective party on the matters for which they are expressed to be responsible. **Key Personnel will be discussed and agreed by the Supplier and Buyer upon the agreement of each Statement of Works.**

The Supplier shall inform the Buyer of the identity and background of any replacements for any of the Key Personnel as soon as a suitable replacement has been identified. The Buyer shall be entitled to interview any such person and may object to any such proposed appointment within 5 Working Days of being informed of or meeting any such replacement if, in its reasonable opinion, it considers the proposed replacement to be unsuitable for any reason.

Each party shall ensure that the role of each of its Key Personnel is not vacant (in terms of a permanent representative) for more than 5 Working Days. Any replacement shall be as, or more, qualified and experienced as the previous incumbent and fully competent to carry out the tasks assigned to the Key Personnel whom they have replaced. A temporary replacement shall be identified with immediate effect from the Supplier or the Buyer becoming aware of the role becoming vacant.

The Buyer may require the Supplier to remove, or procure the removal of, any of its Key Personnel whom it considers, in its reasonable opinion, to be unsatisfactory for any reason which has a material impact on such person's responsibilities.

If the Supplier replaces the Key Personnel as a consequence of this Clause 3 the cost of effecting such replacement shall be borne by the Supplier.

4. Staff vetting procedures

Details of such mitigation arrangements are to be sent to the Buyer as soon as possible. 13.6 The Buyer grants the Supplier a non-exclusive, non-assignable, royalty-free licence to use the Buyer Background IPRs, the Buyer Data and the Project-Specific IPRs during the term of the Call-Off Contract for the sole purpose of enabling the Supplier to provide the Services.

13.7 The Buyer gives no warranty as to the suitability of any IPRs licensed to the Supplier hereunder. Any such licence:

- may include the right to grant sub-licences to Subcontractors engaged in providing any of the Services (or part thereof) provided that any such Subcontractor has entered into a confidentiality undertaking with the Supplier on the same terms as in clause 11 (Confidentiality) and that any such subcontracts will be non-transferable and personal to the relevant Subcontractor; and
- is granted solely to the extent necessary for the provision of the Services in accordance with the Call-Off Contract. The Supplier will ensure that the Subcontractors do not use the licensed materials for any other purpose.

13.8 The Supplier shall keep strictly confidential and shall not disclose, or cause or permit to be disclosed, to any person or entity any element of the Project Specific IPR except to its employees to whom disclosure is reasonably necessary to perform its obligations under the Call-Off Contract.

13.9 The Supplier will ensure that no unlicensed software or open source software (other than the open source software specified by the Buyer) is interfaced with or embedded within any Buyer Software or Deliverable.

13.10 Before using any third-party IPRs related to the supply of the Services, the Supplier will submit to the Buyer for approval, all details of any third-party IPRs.

13.11 Where the Supplier is granted permission to use third-party IPRs in a request for approval, the Supplier will ensure that the owner of such third-party IPRs grants to the Buyer a licence on the terms informed to the Buyer in the request for approval.

13.12 If the third-party IPR is made available on terms equivalent to the Open Government Licence v3.0, the request for approval will be agreed and the Supplier will buy licences under these terms. If not, the Supplier shall notify the Buyer in writing giving details of what licence terms can be obtained and other alternatives and no third-party IPRs may be used without Buyer approval in writing.

13.13 The Supplier will, on written demand, fully indemnify the Buyer and the Crown for all losses which it may incur at any time as a result of any claim (whether actual alleged asserted and/or substantiated and including third party claims) that the rights granted to the Buyer in accordance with the Call-Off Contract or the performance by the Supplier of the provision of the Services or the possession or use by the Buyer of the Services or Deliverables delivered by the Supplier, including the publication of any Deliverable that is software as open source, infringes or allegedly infringes a third party's Intellectual Property Rights (an 'IPR Claim').

13.14 Clause 13.13 will not apply if the IPR Claim arises from:

- designs supplied by the Buyer;
- the use of data supplied by the Buyer which is not required to be verified by the Supplier under any provision of the Call-Off Contract; or
- other material provided by the Buyer necessary for the provision of the Services.

13.15 The indemnity given in Clause 13.13 will be uncapped.

13.16 The Buyer will notify the Supplier in writing of the IPR Claim made against the Buyer and the Buyer will not make any admissions which may be prejudicial to the defence or settlement of the IPR Claim. The Supplier will at its own expense conduct all negotiations and any litigation arising in connection with the IPR Claim provided always that the Supplier:

- consults the Buyer on all substantive issues which arise during the conduct of such litigation and negotiations;
- takes due and proper account of the interests of the Buyer;
- considers and defends the IPR Claim diligently using competent counsel and in such a way as not to bring the reputation of the Buyer into disrepute; and
- does not settle or compromise the IPR Claim without the prior approval of the Buyer (such decision not to be unreasonably withheld or delayed).

13.17 If an IPR Claim is made (or in the reasonable opinion of the Supplier is likely to be made) in connection with the Call-Off Contract, the Supplier will, at the Supplier's own expense and subject to the prompt approval of the Buyer, use its best endeavours to:

- modify the relevant part of the Services or Deliverables without reducing their functionality or performance, or substitute Services or Deliverables of equivalent functionality or performance, to avoid the infringement or the alleged infringement, provided that there is no additional cost or burden to the Buyer;
- buy a licence to use and supply the Services or Deliverables, which are the subject of the alleged infringement, on terms which are acceptable to the Buyer; and
- promptly perform any responsibilities and obligations to do with the Call-Off Contract.

13.18 If an IPR Claim is made (or in the reasonable opinion of the Supplier is likely to be made) against the Supplier, the Supplier will immediately notify the Buyer in writing.

13.19 If the Supplier does not comply with provisions of this Clause within 20 Working Days of receipt of notification by the Supplier from the Buyer under clause 13.16 or receipt of the notification by the Buyer from the Supplier under clause 13.18 (as appropriate), the Buyer may terminate the Call-Off Contract for Material Breach and the Supplier will, on demand, refund the Buyer with all monies paid for the Service or Deliverable that is subject to the IPR Claim.

13.20 The Supplier will have no rights to use any of the Buyer's names, logos or trademarks without the Buyer's prior written approval.

13.21 The Supplier will, as an enduring obligation throughout the term of the Call-Off Contract where any software is used in the provision of the Services or information uploaded, interfaced or exchanged with the CCS or Buyer systems, use software and the most up-to-date antivirus definitions from an industry-accepted antivirus software vendor. It will use the software to check for, contain the spread of, and minimise the impact of Malicious Software (or as otherwise agreed between CCS or the Buyer, and the Supplier).

13.22 If Malicious Software is found, the Supplier will co-operate with the Buyer to reduce the effect of the Malicious Software. If Malicious Software causes loss of operational efficiency or loss or corruption of Buyer Data, the Supplier will use all reasonable endeavours to help the Buyer to mitigate any losses and restore the provision of the Services to the desired operating efficiency as soon as possible.

13.23 Any costs arising from the actions of the Buyer or Supplier taken in compliance with the provisions of the above clause, and clause 20.3, will be dealt with by the Buyer and the Supplier as follows:

- by the Supplier, where the Malicious Software originates from the Supplier Software or the Buyer Data while the Buyer Data was under the control of the Supplier, unless the Supplier can demonstrate that such Malicious Software was present and not quarantined or otherwise identified by the Buyer when provided to the Supplier.

- by the Buyer if the Malicious Software originates from the Buyer Software or the Buyer Data, while the Buyer Data was under the control of the Buyer.

13.24 All Deliverables that are software shall be created in a format, or able to be converted into a format, which is suitable for publication by the Buyer as open source software, unless otherwise agreed by the Buyer, and shall be based on open standards where applicable. The Supplier warrants that the Deliverables:

- are suitable for release as open source;
- have been developed using reasonable endeavours to ensure that their publication by the Buyer shall not cause any harm or damage to any party using them;
- do not contain any material which would bring the Buyer into disrepute;
- can be published as open source without breaching the rights of any third party; and
- do not contain any Malicious Software.

13.25 Where Deliverables that are software are written in a format that requires conversion before publication as open source software, the Supplier shall also provide the converted format to the Buyer unless the Buyer agrees in advance in writing that the converted format is not required.

13.26 Where the Buyer has authorised a Supplier request not to make an aspect of the Deliverable open source, the Supplier shall as soon as reasonably practicable provide written details of what will not be made open source and what impact that exclusion will have on the ability of the Buyer to use the Deliverable and Project Specific IPRs going forward as open source.

13.27 The Buyer may assign, novate or otherwise transfer its rights and obligations under the licences granted pursuant to this clause to:

- a Central Government Body; or
- to any body (including any private sector body) which performs or carries on any of the functions and/or activities that previously had been performed and/or carried on by the Buyer

If the Buyer ceases to be a Central Government Body, the successor body to the Buyer shall still be entitled to the benefit of the licences granted in this clause.

14. Data Protection and Disclosure

14.1 The Parties will comply with the Data Protection Legislation and agree that the Buyer is the Controller and the Supplier is the Processor. The only processing the Supplier is authorised to do is listed at Schedule 9 unless Law requires otherwise (in which case the Supplier will promptly notify the Buyer of any additional processing if permitted by Law).

14.2 The Supplier will provide all reasonable assistance to the Buyer to prepare any Data Protection Impact Assessment before commencing and processing (including provision of detailed information and assessments in relation to processing operations, risks and measures) and must notify the Buyer immediately if it considers that the Buyer's instructions infringe the Data Protection Legislation.

14.3 The Supplier must have in place Protective Measures, which have been reviewed and approved by the Buyer as appropriate, to guard against a Data Loss Event, which take into account the nature of the data, the harm that might result, the state of technology and the cost of implementing the measures.

14.4 The Supplier will ensure that the Supplier Personnel only process Personal Data in accordance with this Call-Off Contract and take all reasonable steps to ensure the reliability and integrity of Supplier Personnel with access to Personal Data, including by ensuring they:

- i) are aware of and comply with the Supplier's obligations under this Clause;
- ii) are subject to appropriate confidentiality undertakings with the Supplier or relevant Subprocessor
- iii) are informed of the confidential nature of the Personal Data and don't publish, disclose or divulge it to any third party unless directed by the Buyer or in accordance with this Call-Off Contract
- iv) are given training in the use, protection and handling of Personal Data

14.5 The Supplier will not transfer Personal Data outside of the European Economic Area unless the prior written consent of the Buyer has been obtained and the following conditions are met:

- i) the Buyer or the Supplier has provided appropriate safeguards in relation to the transfer (whether in accordance with GDPR Article 46 or LED Article 37) as determined by the Buyer;
- ii) the Data Subject has enforceable rights and effective legal remedies;

- iii) the Supplier complies with its obligations under the Data Protection Legislation by providing an adequate level of protection to any Personal Data that is transferred (or, if it is not so bound, uses its best endeavours to assist the Buyer in meeting its obligations); and
- iv) the Supplier complies with any reasonable instructions notified to it in advance by the Buyer with respect to the processing of the Personal Data

14.6 The Supplier will delete or return the Buyer's Personal Data (including copies) if requested in writing by the Buyer at the termination or expiry of this Call-Off Contract, unless required to retain the Personal Data by Law.

14.7 The Supplier will notify the Buyer immediately if it receives any communication from a third party relating to the Parties' obligations under the Data Protection Legislation, or it becomes aware of a Data Loss Event, and will provide the Buyer with full and ongoing assistance in relation to each Party's obligations under the Data Protection Legislation in accordance with any timescales reasonably required by the Buyer.

14.8 The Supplier will maintain complete and accurate records and information to demonstrate its compliance with this clause. This requirement does not apply where the Supplier employs fewer than 250 staff, unless:

- i) the Buyer determines that the processing is not occasional;
- ii) the Buyer determines the processing includes special categories of data as referred to in Article 9(1) of the GDPR or Personal Data relating to criminal convictions and offences referred to in Article 10 of the GDPR; and
- ii) the Buyer determines that the processing is likely to result in a risk to the rights and freedoms of Data Subjects.

14.9 Before allowing any Subprocessor to process any Personal Data related to this Call-Off Contract, the Supplier must obtain the prior written consent of the Buyer, and shall remain fully liable for the acts and omissions of any Subprocessor.

14.10 The Buyer may amend this Call-Off Contract on not less than 30 Working Days' notice to the Supplier to ensure that it complies with any guidance issued by the Information Commissioner's Office.

15. Buyer Data

15.1 The Supplier will not remove any proprietary notices relating to the Buyer Data.

15.2 The Supplier will not store or use Buyer Data except where necessary to fulfil its obligations.

15.3 If Buyer Data is processed by the Supplier, the Supplier will supply the data to the Buyer as requested and in the format specified by the Buyer.

15.4 The Supplier will preserve the integrity of Buyer Data processed by the Supplier and prevent its corruption and loss.

15.5 The Supplier will ensure that any system which holds any Buyer Data complies with the security requirements prescribed by the Buyer.

15.6 The Supplier will ensure that any system on which the Supplier holds any protectively marked Buyer Data will be accredited as specific to the Buyer and will comply with:

- the government security policy framework and information assurance policy;
- guidance issued by the Centre for Protection of National Infrastructure on Risk Management and Accreditation of Information Systems; and
- the relevant government information assurance standard(s).

15.7 Where the duration of the Call-Off Contract exceeds one year, the Supplier will review the accreditation status at least once a year to assess whether material changes have occurred which could alter the original accreditation decision in relation to Buyer Data. If any changes have occurred, the Supplier will re-submit such system for accreditation.

15.8 If at any time the Supplier suspects that the Buyer Data that the Supplier has held, used, or accessed has or may become corrupted, lost, breached or significantly degraded in any way for any reason, then the Supplier will notify the Buyer immediately and will at its own cost comply with any remedial action proposed by the Buyer.

15.9 The Supplier will provide, at the request of CCS or the Buyer, any information relating to the Supplier's compliance with its obligations under the Data Protection Legislation. The Supplier will also ensure that it does not knowingly or negligently fail to do something that places CCS or any Buyer in breach of its obligations of the Data Protection Legislation. This is an absolute obligation and is not qualified by any other provision of the Call-Off Contract.

15.10 The Supplier agrees to use the appropriate organisational, operational and technological processes and procedures to keep the Buyer Data safe from unauthorised use or access, loss, destruction, theft or disclosure.

16. Document and source code management repository

16.1 The Supplier will comply with any reasonable instructions given by the Buyer as to where it will store documents and source code, both finished and in progress, during the term of the Call-Off Contract.

16.2 The Supplier will ensure that all items that are uploaded to any repository contain sufficient detail, code annotations and instructions so that a third-party developer with the relevant technical abilities within the applicable role would be able to understand how the item was created and how it works together with the other items in the repository within a reasonable timeframe.

17. Records and audit access

17.1 The Supplier will allow CCS (and CCS's external auditor) to access its information and conduct audits of the Services provided under the Call-Off Contract and the provision of Management Information (subject to reasonable and appropriate confidentiality undertakings).

18. Freedom of Information (FOI) requests

18.1 The Supplier will transfer any Request for Information to the Buyer within 2 Working Days of receipt.

18.2 The Supplier will provide all necessary help reasonably requested by the Buyer to enable the Buyer to respond to the Request for Information within the time for compliance set out in section 10 of the Freedom of Information Act or Regulation 5 of the Environmental Information Regulations.

18.3 To the extent it is permissible and reasonably practical for it to do so, CCS will make reasonable efforts to notify the Supplier when it receives a relevant FoIA or EIR request so that the Supplier may make appropriate representations.

19. Standards and quality

19.1 The Supplier will comply with any standards in the Call-Off Contract and Section 4 (How Services will be delivered) of the Framework Agreement, and with Good Industry Practice.

20. Security

20.1 If requested to do so by the Buyer, the Supplier will, within 5 Working Days of the date of the Call-Off Contract, develop, obtain Buyer's approval of, maintain and observe a Security Management Plan and an Information Security Management System (ISMS) which, after Buyer approval, will apply during the term of the Call-Off Contract. Both the ISMS and the Security Management Plan will comply with the security policy of the Buyer and protect all aspects of the Services, and all processes associated with the delivery of the Services.

20.2 The Supplier will use software and the most up-to-date antivirus definitions available from an industry accepted antivirus software vendor to minimise the impact of Malicious Software.

20.3 If Malicious Software causes loss of operational efficiency or loss or corruption of Buyer Data, the Supplier will help the Buyer to mitigate any losses and will restore the Services to their desired operating efficiency as soon as possible.

20.4 The Supplier will immediately notify CCS of any breach of security in relation to CCS's Confidential Information (and the Buyer in relation to any breach regarding Buyer Confidential Information). The Supplier will recover such CCS and Buyer Confidential Information however it may be recorded.

20.5 Any system development by the Supplier must also comply with the government's '10 Steps to Cyber Security' guidance, as amended from time to time and currently available at: <https://www.ncsc.gov.uk/guidance/10-steps-cyber-security>

20.6 The Buyer will specify any security requirements for this project in the Order Form.

21. Incorporation of terms

21.1 Upon the execution of a Statement of Work (SOW), the terms and conditions agreed in the SOW will be incorporated into the Call-Off Contract that the terms of the SOW are agreed under.

22. Managing disputes

22.1 When either Party notifies the other of a dispute, both Parties will attempt in good faith to negotiate a settlement as soon as possible.

22.2 Nothing in this prevents a Party from seeking any interim order restraining the other Party from doing any act or compelling the other Party to do any act.

22.3 If the dispute cannot be resolved, either Party will be entitled to refer it to mediation in accordance with the procedures below, unless:

- the Buyer considers that the dispute is not suitable for resolution by mediation;
- the Supplier does not agree to mediation.

22.4 The procedure for mediation is as follows:

- A neutral adviser or mediator will be chosen by agreement between the Parties. If the Parties cannot agree on a mediator within 10 Working Days after a request by one Party to the other, either Party will as soon as possible, apply to the mediation provider or to the Centre for Effective Dispute Resolution (CEDR) to appoint a mediator. This application to CEDR must take place within 12

Working Days from the date of the proposal to appoint a mediator, or within 3 Working Days of notice from the mediator to either Party that they are unable or unwilling to act.

- The Parties will meet with the mediator within 10 Working Days of the mediator's appointment to agree a programme for the exchange of all relevant information and the structure for negotiations to be held. The Parties may at any stage seek help from the mediation provider specified in this clause to provide guidance on a suitable procedure.
- Unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it will be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings.
- If the Parties reach agreement on the resolution of the dispute, the agreement will be recorded in writing and will be binding on the Parties once it is signed by their duly authorised representatives.
- Failing agreement, either Party may invite the mediator to provide a non-binding but informative opinion in writing. Such an opinion will be provided without prejudice and will not be used in evidence in any proceedings relating to the Call-Off Contract without the prior written consent of both Parties.
- If the Parties fail to reach agreement in the structured negotiations within 60 Working Days of the mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the courts.

22.5 Either Party may request by written notice that the dispute is referred to expert determination if the dispute relates to:

- any technical aspect of the delivery of the digital services;
- the underlying technology; or
- is otherwise of a financial or technical nature.

22.6 An expert will be appointed by written agreement between the Parties, but if there's a failure to agree within 10 Working Days, or if the person appointed is unable or unwilling to act, the expert will be appointed on the instructions of the President of the British Computer Society (or any other association that has replaced the British Computer Society).

22.7 The expert will act on the following basis:

- they will act as an expert and not as an arbitrator and will act fairly and impartially;
- the expert's determination will (in the absence of a material failure to follow the agreed procedures) be final and binding on the Parties;
- the expert will decide the procedure to be followed in the determination and will be requested to make their determination within 30 Working Days of their appointment or as soon as reasonably practicable and the Parties will help and provide the documentation that the expert needs for the determination;
- any amount payable by one Party to another as a result of the expert's determination will be due and payable within 20 Working Days of the expert's determination being notified to the Parties

- the process will be conducted in private and will be confidential;
- the expert will determine how and by whom the costs of the determination, including their fees and expenses, are to be paid.

22.8 Without prejudice to any other rights of the Buyer under the Call-Off Contract, the obligations of the Parties under the Call-Off Contract will not be suspended, ceased or delayed by the reference of a dispute submitted to mediation or expert determination and the Supplier and the Supplier Staff will comply fully with the Requirements of the Call-Off Contract at all times.

23. Termination

23.1 The Buyer will have the right to terminate the Call-Off Contract at any time by giving the notice to the Supplier specified in the Order Form. The Supplier's obligation to provide the Services will end on the date set out in the Buyer's notice.

23.2 The minimum notice period (expressed in Working Days) to be given by the Buyer to terminate under this Clause will be the number of whole days that represent 20% of the total duration of the current SOW to be performed under the Call-Off Contract, up to a maximum of 30 Working Days.

23.3 Partial days will be discounted in the calculation and the duration of the SOW will be calculated in full Working Days.

23.4 The Parties acknowledge and agree that:

- the Buyer's right to terminate under this Clause is reasonable in view of the subject matter of the Call-Off Contract and the nature of the Service being provided.
- the Call-Off Contract Charges paid during the notice period given by the Buyer in accordance with this Clause are a reasonable form of compensation and are deemed to fully cover any avoidable costs or losses incurred by the Supplier which may arise either directly or indirectly as a result of the Buyer exercising the right to terminate under this Clause without cause.
- Subject to clause 34 (Liability), if the Buyer terminates the Call-Off Contract without cause, they will indemnify the Supplier against any commitments, liabilities or expenditure which result in any unavoidable Loss by the Supplier, provided that the Supplier takes all reasonable steps to mitigate such Loss. If the Supplier holds insurance, the Supplier will reduce its unavoidable costs by any insurance sums available. The Supplier will submit a fully itemised and costed list of such Loss, with supporting evidence of unavoidable Losses incurred by the Supplier as a result of termination.

23.5 The Buyer will have the right to terminate the Call-Off Contract at any time with immediate effect by written notice to the Supplier if:

- the Supplier commits a Supplier Default and if the Supplier Default cannot, in the opinion of the Buyer, be remedied; or
- the Supplier commits any fraud.

23.6 Either Party may terminate the Call-Off Contract at any time with immediate effect by written notice to the other if:

- the other Party commits a Material Breach of any term of the Call-Off Contract (other than failure to pay any amounts due under the Call-Off Contract) and, if such breach is remediable, fails to remedy that breach within a period of 15 Working Days of being notified in writing to do so;
- an Insolvency Event of the other Party occurs, or the other Party ceases or threatens to cease to carry on the whole or any material part of its business
- a Force Majeure Event occurs for a period of more than 15 consecutive calendar days.

23.7 If a Supplier Insolvency Event occurs, the Buyer is entitled to terminate the Call-Off Contract.

24. Consequences of termination

24.1 If the Buyer contracts with another Supplier, the Supplier will comply with Clause 29.

24.2 The rights and obligations of the Parties in respect of the Call-Off Contract (including any executed SOWs) will automatically terminate upon the expiry or termination of the relevant Call-Off Contract, except those rights and obligations set out in clause 24.6.

24.3 At the end of the Call-Off Contract period (howsoever arising), the Supplier must:

- immediately return to the Buyer:
 - all Buyer Data including all copies of Buyer Software and any other software licensed by the Buyer to the Supplier under the Call-Off Contract;
 - any materials created by the Supplier under the Call-Off Contract where the IPRs are owned by the Buyer;
 - any items that have been on-charged to the Buyer, such as consumables; and
 - all equipment provided to the Supplier. This equipment must be handed back to the Buyer in good working order (allowance will be made for reasonable wear and tear).
- immediately upload any items that are or were due to be uploaded to the repository when the Call-Off Contract was terminated (as specified in Clause 27);
- cease to use the Buyer Data and, at the direction of the Buyer, provide the Buyer and the replacement Supplier with a complete and uncorrupted version of the Buyer Data in electronic form in the formats and on media agreed with the Buyer and the replacement Supplier;
- destroy all copies of the Buyer Data when they receive the Buyer's written instructions to do so or 12 months after the date of expiry or termination (whichever is the earlier), and provide written confirmation to the Buyer that the data has been destroyed, except where the retention of Buyer Data is required by Law;

- vacate the Buyer premises;
- work with the Buyer on any work in progress and ensure an orderly transition of the Services to the replacement supplier;
- return any sums prepaid for Services which have not been delivered to the Buyer by the date of expiry or termination;
- provide all information requested by the Buyer on the provision of the Services so that:
 - the Buyer is able to understand how the Services have been provided; and
 - the Buyer and the replacement supplier can conduct due diligence.

24.4 Each Party will return all of the other Party's Confidential Information. Each Party will confirm that it does not retain the other Party's Confidential Information except where the information must be retained by the Party as a legal requirement or where the Call-Off Contract states otherwise.

24.5 All licences, leases and authorisations granted by the Buyer to the Supplier in relation to the Services will be terminated at the end of the Call-Off Contract period (howsoever arising) without the need for the Buyer to serve notice except where the Call-Off Contract states otherwise.

24.6 Termination or expiry of the Call-Off Contract will not affect:

- any rights, remedies or obligations accrued under the Call-Off Contract prior to termination or expiration;
- the right of either Party to recover any amount outstanding at the time of such termination or expiry;
- the continuing rights, remedies or obligations of the Buyer or the Supplier under clauses:
 - 8 - Payment Terms and VAT
 - 9 - Recovery of Sums Due and Right of Set-Off
 - 11 - Confidentiality
 - 12 - Conflict of Interest
 - 13 - Intellectual Property Rights
 - 24 - Consequences of Termination
 - 28 - Staff Transfer
 - 34 - Liability
 - 35 - Waiver and cumulative remedies
- any other provision of the Framework Agreement or the Call-Off Contract which expressly or by implication is to be performed or observed notwithstanding termination or expiry will survive the termination or expiry of the Call-Off Contract.

25. Supplier's status and Sub-Contracting

25.1 The Supplier is an independent Contractor and no contract of employment or partnership is created between the Supplier and the Buyer. Neither Party is authorised to act in the name of, or on behalf of, the other Party.

25.2 The Supplier shall not sub-contract the whole or any part of its obligations under this Call-Off Contract except with the express prior written consent of the Buyer.

25.3 In the event that the Supplier enters into any Sub-Contract in connection with this Call-Off Contract it shall:

- a) remain responsible to the Buyer for the performance of its obligations under the Call-Off Contract notwithstanding the appointment of any Sub-Contractor and be responsible for the acts omissions and neglects of its Sub-Contractors;
- b) impose obligations on its Sub-Contractor in the same terms as those imposed on it pursuant to this Call-Off Contract and shall procure that the Sub-Contractor complies with such terms; and
- c) provide a copy, at no charge to the Buyer, of any such list of proposed Sub-Contractors or Sub-Contract on receipt of a request for such by the Buyer's authorised representative.

26. Notices

26.1 Any notices sent must be in writing. For the purpose of this Clause, an email is accepted as being in writing.

26.2 The following table sets out the method by which notices may be served under the Call-Off Contract and the respective deemed time and proof of Service:

Delivery type	Deemed delivery time	Proof of Service
Email	9am on the first Working Day after sending	Dispatched in a pdf form to the correct email address without any error message

26.3 The address and email address of each Party will be the address and email address in the Order Form.

27. Exit plan

27.1 The Buyer and the Supplier will agree an exit plan during the Call-Off Contract period to enable the Supplier Deliverables to be transferred to the Buyer ensuring that the Buyer has all the code and documentation required to support and continuously develop the Service with Buyer resource or any third party as the Buyer requires. The Supplier will update this plan whenever there are material changes to the Services. A Statement of Work may be agreed between the Buyer and the Supplier to specifically cover the exit plan.

28. Staff Transfer

28.1 The Parties agree that nothing in the Call-Off Contract or the provision of the Services is expected to give rise to a transfer of employment to which the Employment Regulations apply.

28.2 The Supplier will fully indemnify the Buyer against all Supplier Staff Liabilities which arise as a result of any claims brought against the Buyer due to any act or omission of the Supplier or any Supplier Staff.

28.3 The indemnity given in Clause 28.2 will be uncapped.

29. Help at retendering and handover to replacement supplier

29.1 When requested, the Supplier will (at its own expense where the Call-Off Contract has been terminated before end of term due to Supplier cause) help the Buyer to migrate the Services to a replacement Supplier in line with the exit plan (Clause 27) to ensure continuity of the Services. Such help may include Supplier demonstrations of the existing code and development documents, software licences used and Buyer approval documents. The Supplier will also answer Service and development-related clarification questions.

29.2 Within 10 Working Days of a request by the Buyer, the Supplier will provide any information needed by the Buyer to prepare for any procurement exercise or to facilitate any potential replacement Supplier undertaking due diligence. The exception to this is where such information is deemed to be Commercially Sensitive Information, in which case the Supplier will provide the information in a redacted form.

30. Changes to services

30.1 It is likely that there will be changes to the scope of the Services during the Call-Off Contract period. Agile projects have a scope that will change over time. The detailed scope (eg as defined in user stories) can evolve and change during the Call-Off Contract Period. These changes do not require formal contract changes but do require the Buyer and Supplier to agree these changes.

30.2 Any changes to the high-level scope of the Services must be agreed between the Buyer and Supplier. The Supplier will consider any request by the Buyer to change the scope of the Services, and may agree to such request.

31. Contract changes

31.1 All changes to the Call-Off Contract which cannot be accommodated informally as described in Clause 30 will require a Contract Change Note.

31.2 Either Party may request a contract change by completing and sending a draft Contract Change Note in the form in Schedule 4 of Part C - The Schedules ('the **Contract Change Notice**') to the other Party giving sufficient information to enable the

Digital Outcomes and Specialists 3 Framework Agreement Call-Off Contract
www.gov.uk/guidance/digital-outcomes-and-specialists-3-call-off-contract

other Party to assess the extent of the change and any additional cost that may be incurred. The Party requesting the contract change will bear the costs of preparation of the Contract Change Notice. Neither Party will unreasonably withhold or delay consent to the other Party's proposed changes to the Call-Off Contract.

31.3 Due to the agile-based delivery methodology recommended by the Framework Agreement, it may not be possible to exactly define the consumption of Services over the duration of the Call-Off Contract in a static Order Form. The Supplier should state the initial value of all Services that are likely to be consumed under the Call-Off Contract.

32. Force Majeure

32.1 Neither Party will be liable to the other Party for any delay in performing, or failure to perform, its obligations under the Call-Off Contract (other than a payment of money) to the extent that such delay or failure is a result of a Force Majeure event. Each Party will use all reasonable endeavours to continue to perform its obligations under the Call-Off Contract for the length of a Force Majeure event. If a Force Majeure event prevents a Party from performing its obligations under the Call-Off Contract for more than 15 consecutive calendar days, the other Party may terminate the Call-Off Contract with immediate effect by notice in writing.

33. Entire agreement

33.1 The Call-Off Contract constitutes the entire agreement between the Parties relating to the matters dealt within it. It supersedes any previous agreement between the Parties relating to such matters.

Sch 3.1 SOW Details To be inserted once agreed

Date of SOW:	31 October 2019
SOW Reference:	DOS-10439-01
Buyer:	Department for Education
Supplier:	Create/Change
Work package title:	NRS online training Alpha – Sprint 0 Plus
Phase(s) of Development:	Alpha
Release Completion Date:	
Duration of SOW	18 November 2019 – 11 December 2019
Work package objectives and success criteria	<p>DfE envisages that an online training service will form part of the overall NRS as online learning has the potential to help alleviate the barriers that adults face to learning, including lack of time and inability to fit learning around work and family responsibilities. This will be particularly relevant to the primary users of the service; employed adults with low to medium level skills (below-degree level).</p> <p>The main problem to be solved is to how to design an effective online training service to meet the needs of adults in the NRS target population of adults. This problem encompasses effective service design and product development in addition to identification of effective approaches to pedagogy and learning design.</p> <p>Online learning has the potential to help alleviate the barriers that adults face to learning, including lack of time and inability to</p>

	<p>fit learning around work and family responsibilities. This will be particularly relevant to the primary users of the service, employed adults with low to medium level skills. Online learning can also help overcome the barriers faced by adults in remote locations, where quality learning may require unaffordable long-distance travel. However, there is limited evidence about the effectiveness of online learning in general and the forms of online learning most suited adults with low to medium level skills.</p> <p>The provision of training online also has potential benefit in terms of scalability as online delivery can reach large numbers at reduced marginal cost (as compared to classroom-based learning). However, there is a need for further evidence as to how scalability can be achieved while ensuring that online learning supports and engages remote learners as effectively as classroom provision.</p> <p>The primary objective of the online training Alpha is to research, prototype, test and iterate the proposed online training service to provide the insight we need to design an approach to online learning that meets our users’ needs (in line with other NRS products) and to inform a decision about its viability. The service must be optimised for adults with low-medium skills, busy lives and responsibilities.</p> <p>The Supplier will need to take an approach that combines original research with rapid evidence review of pre-existing research and specialist insight to inform service design</p>
<p>Work package approach</p>	<p>The work will be delivered in accordance with current agile methodologies and DfE Digital approach.</p>
<p>Work package deliverables and outputs</p>	<p>1.0 Sprint Zero Initiation, product refinement, and planning phase (18-28 November, 9 working days)</p> <p>1.1 Onboard core (supplier) team responsible for taking forward work under this statement of works ensuring: they have sufficient equipment and that all relevant technology is set up appropriately; and they have completed all necessary “hygiene checks”, including, where applicable, induction to the Department, building and National Retraining Scheme team and ways of working. (The National Retraining Scheme team will signpost relevant materials, and provide forums for discussion as necessary)</p>

1.2

Agree ways of working for the online training Alpha with the product team including: the specific agile approach and methodology; sprint cadence; key ceremonies and activities; communications technology and other software to support planning and delivery; the approach to visual/board management (electronic and physical); appropriate file storage arrangements (where appropriate this will involve relevant considerations of preferred ways of working across the NRS programme).

1.3

Ensure knowledge transfer to core team of: National Retraining Scheme policy intent; service design and intent; previous user research and user research from relevant NRS products; broader evidence and analysis in respect of adult online learning. Form a clear view of how the online training product fits into the bigger scheme, including key dependencies and assumptions.

1.4

Deliver one Show and Tells to the NRS programme team, and one retrospective.

1.5

Work with OLT product team to:

- Define, refine and prioritise product risky assumptions
- Turn risky assumptions into specific high level LEAN hypotheses, building on work in progress by Product team
- Prioritise high-level research questions and map against known evidence
- Refine product theory of change
- Conduct initial refinement of product/delivery backlog for the Alpha.

1.6

Formally agree priority areas and the scope of the project with Product Owner, Service Owner and Programme Director (based on product work referenced in 1.6).

1.7

Develop initial research plan detailing the priority user research experiments, secondary evidence review, and expert insight that

needs to be progressed; along with GDPR and data protection implications and assurances, risks and actioned mitigations.

1.8

Define and initiate initial light touch risk, issue and dependency management procedure; establishing key products, e.g. risk registers.

1.9

Work with OLT product team to identify first iteration of prioritised list of user characteristics for future user testing in the Alpha; complete a research brief and put relevant agency on standby for user recruitment through the Alpha

1.10

Support DPIA progress as necessary, in coordination with Service Ops and Associate DM.

1.11

Work with the NRS Service Design Lead and Technical Lead to understand overall user journey and integration of online training product with NRS products, resulting in identification of priority activities to ensure effective design integration

2.0 Sprint Zero Plus

2.1

Conduct desk research and expert insight on pedagogy and learning design principles most likely to be effective for NRS cohort, resulting in: Summary report and input into key assumptions about user needs (to be tested with users at a later date)

2.2

Desk research and expert insight on most appropriate models of tutor support for NRS users, resulting in: Report providing initial recommendations for testing in the Alpha

Review how the OLT product would potentially fit into the existing ecosystem in respect of current user needs; where products currently in the market meet these and where the areas of opportunity are.

2.3

	<p>Develop heuristic recommendations for engaging learning platform and content design, based on research and expert insight to inform future testing in the Alpha.</p> <p>2.4 Develop “assumed” evidence-based user journey service map, showing how users will potentially need to navigate through an online training service and course, including “service” steps (e.g sign in, save etc.) and “pedagogical” steps (e.g. present, practice, reflect etc.). The supplier will provide regular updates about the progress of work and will work with the buyer to follow the Agile method, adapting and re-planning as necessary, including updating deliverables.</p>

Additional information (applies to all Sprints)

3.1.1 The Parties will execute a SOW for each Release. Note that any ad-hoc Service requirements are to be treated as individual Releases in their own right (in addition to the Releases at the delivery stage); and the Parties should execute a separate SOW in respect of each.

3.1.2 The rights, obligations and details agreed by the Parties and set out in this SOW apply only in relation to the Services that are to be delivered under this SOW and will not apply to any other SOW's executed or to be executed under this Call-Off Contract unless otherwise agreed by the Parties.

Sch 3.2 Key Staff

This statement of works is issued on the agreement that the Supplier will provide a suitably qualified, BPSS-cleared Delivery Manager, for the duration of Sprint 0 and Sprint 0 Plus.

3.2.1 **Key Personnel will be discussed and agreed by the Supplier and Buyer upon the agreement of each Statement of Works.**

Sch 3.3 Deliverables

3.3.1 As set out in the "work package deliverables and outputs" table above.

Sch 3.4 Call-Off Contract Charges

3.4.1. For each individual Statement of Work (SOW), the applicable Call-Off Contract Charges (in accordance with the charging method in the Order Form) will be calculated using all of the following:

- the agreed relevant rates for Supplier staff or facilities, which are inclusive of any applicable expenses and exclusive of VAT and which were submitted to the Buyer during the Further Competition that resulted in the award of this Call-Off Contract.
- the number of days, or pro rata for every part of a day, that Supplier staff or facilities will be actively providing the Services during the term of the SOW.
- a contingency margin of up to 20% applied to the sum calculated on the basis of the above two points, to accommodate any changes to the SOW Deliverables during the term of the SOW (not applicable to Lot 3). The Supplier must obtain prior written approval from the Buyer before applying any contingency margin.

3.4.2 The Supplier will provide a detailed breakdown of rates based on time and materials Charges, inclusive of expenses and exclusive of VAT, with sufficient detail to enable the Buyer to verify the accuracy of the time and material Call-Off Contract Charges incurred.

The detailed breakdown for the provision of Services during the term of the SOW will include (but will not be limited to):

- a role description per Supplier Staff;
- a facilities description;
- the agreed relevant rate per day;
- any expenses charged per day, which are in line with the Buyer's expenses policy (if applicable);
- the number of days, or pro rata for every part day, they will be actively providing the Services during the term of the SOW; and
- the total cost per role/facility

The Supplier will also provide a summary which is to include:

- Total value of this SOW
- Overall Call-Off Contract value
- Remainder of value under overall Call-Off Contract Charge

Where:

Remainder of value under overall Call-Off Contract Charge = overall Call-Off Contract value - sum of total value of all SOWs invoiced

- Whether there is any risk of exceeding Overall Call-Off Contract value (and thereby requiring a Contract Change Note (CCN) to continue delivery of Services)

3.4.3 If a capped or fixed price has been agreed for a SOW:

- The Supplier will continue at its own cost and expense to provide the Services even where the agreed price has been exceeded; and
- The Buyer will have no obligation or liability to pay for the cost of any Services delivered relating to this order after the agreed price has been exceeded.

3.4.4 Risks or contingencies will be included in the Charges. The Parties agree that the following assumptions, representations, risks and contingencies will apply in relation to the Charges. Please see Schedule 14 for further information.

3.4.5 Any changes to the Supplier Staff (not applicable to Lot 3 Services) should be agreed with the Buyer and covered by a separate SOW where it cannot be accommodated within an existing SOW.

3.4.6 Multiple SOWs can operate concurrently.

3.4.7 The Supplier will keep accurate records of the time spent by the Supplier staff in providing the services and will provide records to the Buyer for inspection on request (not applicable to Lot 3 Services)

3.4.8 All expenses should comply with the Buyer's Travel & Subsistence policy, which will have been provided at the proposal stage of the process. All expenses, travel and user research incentives must be included in the Charges. Travel costs will only be

claimable if they comply with the Buyer's rules on Travel and Subsistence and will be subject to pre-approval by the Buyer's authorised representative.

Sch 3.5 User Testing

3.5.1 By entering into the Call-Off Contract, the Supplier acknowledges that:

- they have sole responsibility to recruit 200+ users to take part in user research and testing and to ensure the users chosen fit the demographic outlined in the specification.
- the volume of users for each specific sprint will be agreed at the start of each sprint and the Supplier should work under the assumption there will be an even proportion of users throughout the project

For avoidance of doubt, this clause applies to the entirety of the Alpha/ call off-contract NOT this specific sprint alone. It is expected that (subject to potential restrictions of the Pre-Election period) the Supplier will be responsible for recruiting a commensurate number of users for the user research activities taking place in this Statement of Works period.

Sch 3.6. Call-Off Contract Extension Period

Where the Buyer has specified an Extension Period in the Order Form, the Parties agree that an Extension Period of up to 25% of the initial Call-Off Contract Period can be added to the term of the Call-Off Contract, to accommodate any changes to the Deliverables, or delay in meeting the Buyer's requirements. The Buyer must give the Supplier the minimum notice specified in the Order Form that an Extension Period is required, set out how long the Extension Period is to be, and obtain prior written approval from the Supplier before applying any Extension Period to the Call-Off Contract period.

Sch 3.7 Other requirements

3.7.1 The contracted team will need to be able to work effectively with other suppliers to the National Retraining Scheme and as directed by the Product Owner within the Department for Education and wider if necessary.

3.7.2 Given the multi-site nature of the National Retraining Scheme programme team, it will be necessary to run the project in a way that supports and is flexible to cross-site working, to enable the input of team members at other DfE sites.

3.7.3 The Supplier, including partners and subcontractors, should exercise discretion about their involvement in the project and must obtain prior approval from the Buyer for external communication in respect their involvement in, or the general nature of the Online Training Alpha. The Supplier, including partners and subcontractors, must be mindful of sensitivities concerning the Pre-Election

Period and must operate in conformance to Pre-election period guidance. This will be provided by DfE.

Sch 3.6. Agreement of statement of works

BY SIGNING this SOW, the parties agree to be bound by the terms and conditions set out herein:

If you exceed the overall Call-Off Contract value and Supplier Staff are still required to deliver the services, then a contract change note (CCN) must be raised, explaining the reason(s) for the extension.

Digital Outcomes and Specialists 3 Framework Agreement Call-Off Contract

www.gov.uk/guidance/digital-outcomes-and-specialists-3-call-off-contract

The purpose of the Balanced Scorecard is to promote contract management activity, through measurement of a Supplier's performance against Key Performance Indicators, which the Buyer and Supplier should agree at the beginning of a Call-Off Contract. The targets and measures listed in the example scorecard (above) are for guidance and should be changed to meet the agreed needs of the Buyer and Supplier.

The recommended process for using the Balanced Scorecard is as follows:

1. The Buyer and Supplier agree a templated Balanced Scorecard together with a performance management plan, which clearly outlines the responsibilities and actions that will be taken if agreed performance levels are not achieved.
2. On a pre-agreed schedule (e.g. monthly), both the Buyer and the Supplier provide a rating on the Supplier's performance
3. Following the initial rating, both Parties meet to review the scores and agree an overall final score for each Key Performance Indicator
4. Following agreement of final scores, the process is repeated as per the agreed schedule

CCS encourages Buyers to share final scores with CCS, so that performance of the Framework Agreement can be monitored. This may be done by emailing scores to: cloud_digital@crownccommercial.gov.uk.

The approach will be agreed between the Department and the Contractor.
- 1.4 The Contractor shall follow the UK Government Security Classification Policy (GSCP) in respect of any Departmental Data being handled in the course of providing this service, and will handle this data in accordance with its security classification. (In the event where the Contractor has an existing Protective Marking Scheme then the Contractor may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Departmental Data).
- 1.5 Departmental Data being handled in the course of providing an ICT solution or service must be segregated from all other data on the Contractor’s or sub-contractor’s own IT equipment to protect the Departmental Data and enable the data to be identified and securely deleted when required. In the event that it is not possible to segregate any Departmental Data then the Contractor and any sub-contractor shall be required to ensure that it is stored in such a way that it is possible to securely delete the data in line with Clause 1.14.

- 1.9 Any data in transit using either physical or electronic transfer methods across public space or cyberspace, including mail and couriers systems, or third party provider networks must be protected via encryption which has been certified to FIPS 140-2 standard or a similar method approved by the Department prior to being used for the transfer of any Departmental Data.

These devices shall be full-disk encrypted using a product which has been certified to FIPS140-2 standard or another encryption standard that is acceptable to the Department.
- 1.13 Whilst in the Contractor's care all removable media and hardcopy paper documents containing Departmental Data must be handled securely and secured under lock and key when not in use and shall be securely destroyed when no longer required, using either a cross-cut shredder or a professional secure disposal organisation.
- 1.14 When necessary to hand carry removable media and/or hardcopy paper documents containing Departmental Data, the media or documents being carried shall be kept under cover and transported in such a way as to ensure that no unauthorised person has either visual or physical access to the material being carried. This clause shall apply equally regardless of whether the material is being carried inside or outside of company premises.

- 1.15 At the end of the contract or in the event of equipment failure or obsolescence, all Departmental information and data, in either hardcopy or electronic format, that is physically held or logically stored on the Contractor's ICT infrastructure must be securely sanitised or destroyed and accounted for in accordance with the current HMG policy using a NCSC approved product or method. Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as a Storage Area Network (SAN) or shared backup tapes, then the Contractor or sub-contractor shall protect the Department's information and data until the time, which may be long after the end of the contract, when it can be securely cleansed or destroyed.
- 1.16 Access by Contractor or sub-contractor staff to Departmental Data shall be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS); or hold an appropriate National Security Vetting clearance as required by the Department. All Contractor or sub-contractor staff must complete this process before access to Departmental Data is permitted.
- 1.17 All Contractor or sub-contractor employees who handle Departmental Data must have annual awareness training in protecting information.
- 1.18 The Contractor shall, as a minimum, have in place robust Business Continuity arrangements and processes including IT disaster recovery plans and procedures that conform to ISO 22301 to ensure that the delivery of the contract is not adversely affected in the event of an incident. An incident shall be defined as any situation that might, or could lead to, a disruption, loss, emergency or crisis to the services delivered. If a ISO 22301 certificate is not available the supplier will provide evidence of the effectiveness of their ISO 22301 conformant Business Continuity arrangements and processes including IT disaster recovery plans and procedures. This should include evidence that the Contractor has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.

Risks

- Failure of the supplier to recruit sufficient user numbers to effectively test the product.
- The design and delivery of the Scheme does not effectively manage the interdependencies with other aspects of the National Retraining Scheme, other live programmes and reforms within DfE and in other Government departments, leading to missed opportunities and/or inefficiencies.
- The Alpha does not generate enough evidence or answer lines of enquiry sufficiently in order for the service to be progressed into subsequent stages of development.
