Dear Sirs

### **CLEVELAND POOL, BATH, BA2 6QS**

We are writing, on behalf of our Client, Cleveland Pool Trust, to invite you to submit a tender for the above project. Cleveland Pool Trust is looking to refurbish the existing facility and open the Pool to the General Public in 2017 and part of their intentions is that the pool shall have natural filtration systems rather than any form of chemical treatment.

Your company is therefore invited to submit a tender for the provision of a natural pool filtration system based upon the following tender documentation:-

- a) Outline Preliminaries and General Conditions
- b) Hydrock Natural Water Treatment Specification
- c) Appendix A – Indicative Programme
- d) Appendix B – Site Layout Plan
- e) Appendix C – Wessex Water Plan

Your tender should be submitted based upon the four options which are set out in Hydrock Specification Section 7.00 with costs identified for each of the Activities shown.

The intention is that the appointed Specialist for the Natural Water Treatment will be appointed in the first instance to assist the Design Team in developing the scheme through RIBA Stages 2 to 4 and this will be using CIC Form of Contract. Once the Contract for the Main Building works has been awarded the Specialist will be novated to the Principal Contractor as set out in preliminaries Clause A20.180, using either the current Edition of Domestic Sub-Contract DOM/2 1998 Edition or NEC 3 Engineering and Construction Sub Contract April 2013 as amended to reflect the obligations of the Contractor pursuant to the Main Contract, this being dependent on the Form of Contract under which the Works will be carried out which is still subject to confirmation.

Your tender submission should be returned electronically to Mr Chris Fagg, Provelio, The Meeting House, Lewins Mead, Bristol, BS1 2NN e-mail address [chris.fagg@provelio.com](mailto:chris.fagg@provelio.com) by no later than 12.00 noon on Tuesday 17 November 2015.

Your tender submission should include the following:-

- i) Technical Submission as matters identified within Hydrock Specification Section 7.00
- ii) Costed Schedule as Hydrock Specification Section 7.00 with each Option and each Activity fully costed
- iii) Details of two projects which your company has carried out in the UK together with names and contact details of two referees who may be approached relating to these projects.

The Tender submission will be evaluated on the basis of cost and quality with a weighting of 50% for each.

Page 2 of 2

Please acknowledge receipt of the tender and confirm that your company will be submitting a tender by the date stated. Should you have any queries regarding the tender documents then these should, in the first instance be sent to Edmond Shipway LLP e-mail [howard.parke@shipway.co.uk](mailto:howard.parke@shipway.co.uk)

Yours sincerely

**H R Parke**
