Item 3 a and b: Ongoing consumables and parts supply and warranty

Total cost: [REDACTED]

There are 3 workflows for the ongoing consumable parts supply and warranty.

- 1) Refurbishment of the existing AGANet DELTA 2 pump boxes for reuse
- 2) Regular pump replacement of each DELTA biannually (with annual option costed).
- 3) Field parts for annual site service to maintain the installation

- 1) Refurbishment of the existing AGANet DELTA 2 pump boxes for reuse

To promote sustainability and reuse of components, the pump boxes from the existing DELTA 2 network will be cleaned and refurbished for use in 2026 AGANet annual site servicing. This prevents the boxes going to waste and maximises reuse of components. The 27 refurbished pump boxes will be the stock available for annual hot swapping of the pump box for pump replacement and integrity checks ensuring continuous maintenance and minimisation of issues with the pump boxes. Pump failure was a core reason for down-time of DELTA systems between 2014 -2024.

- 2) Regular pump replacement of each DELTA annually: 9 years replacement of 27 pumps and pump box checks.

Annual cost: £ [REDACTED]

[REDACTED]

Following review of the DELTA 2 performance (2014-2024), the recommendation is that pumps are replaced annually. The pumps have a working life between 1-2 years, therefore in order to ensure best data capture annual replacement during the site service would maintain all DELTAs with pumps within 50% of predicted lifecycle.

It is noted that from a sustainability view this is not ideal however UKCEH will continually review the market to identify if a longer working life pump comes on the market and is available to replace following a period of testing.

3) Field parts for annual site service to maintain the installation and parts management.

Part: [REDACTED] over 9 years. Note cost averaged per annual though

2026	1548
2027	1578
2028	1610
2029	1642
2030	1675
2031	1709
2032	1743
2033	1778
2034	1813
2035	1849

Regular maintenance in the field to ensure installation remains in good condition is part of the annual site servicing.

Item 6 Power
supply changes
(including

renewables)

If and when power system changes are required for the DELTAs at field sites, quotes will be provided for the specific work required. This includes wind/solar system repair/upgrade of existing systems or capital purchase of new renewable power solutions and if infrastructure change happens at a site and the DELTA 2.5 needs re-installed or adjustments made to the configuration at site.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made, and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

- (a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own

policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

(a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.

(b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free wherever possible.

(c) The Supplier transfers ownership of the Goods on payment for those Goods.

(d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know in writing within three Working Days of Delivery.

(f) The Supplier must Deliver the Goods on the date and to the specified location during the Authority's working hours.

Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.

(h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.

(i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third-party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

(n) The Supplier warrants that on delivery, and for a period of 24 months from the date of delivery (**Warranty Period**), the Goods shall:

the Supplier shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full.

- iii. the Authority alters or repairs such Goods without the written consent of the Supplier;
- iv. the defect arises as a result of wilful damage, negligence, or abnormal storage or working conditions; or
- v. the Goods differ from the Specification as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

(q) Except as provided in this Clause 4.2, the Supplier shall have no liability to the Authority in respect of the Goods' failure to comply with the warranty set out in clause 4.2(n).

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.
