STRONG STREAM ADVICE - SPECIFIC COMPENSATION EVENT

Strong Stream Advice is issued typically when river levels are elevated, or flows are higher than 6 cumecs. Navigation is not permitted during Strong Stream Advice.

The Client accepts a labour liability of 2 x days for standing time of operatives should Strong Stream Advice come into force without sufficient warning for the Contractor to redeploy resource. After 2 days, it is expected that resources will be redeployed.

The Client recognises and accepts equipment liability for plant and equipment that cannot be redeployed due to Strong Stream Advice.

The Contractor is expected to plan the works to reasonably reduce the risk of equipment becoming stranded at a location that does not enable recovery.

X17: Low service damages

If Option X17 is used

Service Credits will be used to maintain service delivery through the contract, based on the Key Performance Indicators set out below (monitored and recorded on a quarterly basis).

The Service Credits approach is set out below:

- Contractors are required to score at least 80% per quarter. If they achieve a score below this, they are
 required to submit a Performance Improvement Plan to the Service Manager to set out how they will
 improve their performance to the required levels.
- If a Contractor **scores below 70%**, service credits would apply on a sliding scale basis as seen below (the below numbers have been used as an example and will be calculated based on a quarterly price from the returned pricing schedule):

KPI Score	Percentage retained	Amount retained per quarter (based on £4,134 weekly fee; £53,742/ quarter)	Equivalent amount retained per week
66-70	30		
61-65	40		
51-60	50		
45-50	75		
Below 45	100		

- If in the following quarter the Contractor then scores above 80, any retained credits from the
 previous quarter would be repaid (this relates to the previous quarter only and not any previous
 quarters).
- Alternatively, if in the following quarter the Contractor scores between 70 and 80, half of the
 retained credits from the previous quarter only would be repaid. The other half of the retained
 credits are permanently lost.

 OR if the Contractor does not reach a score of 80 in the following quarter, all previous retained credits are permanently lost.

Examples are shown in the following table:

EVANDLE: QUECOMES DASED ON VOIL	SUPPLIER KPI SCORE FOR QUARTER					ACTION TAKEN	
EXAMPLE: OUTCOMES BASED ON KPI'S	Quarter 1	Q2	Q3	Q4	Q5	ACTION TAKEN
