3. GENERAL

.1 Working Hours

No work shall be permitted on a Saturday, Sunday or Bank Holiday without prior consent from the Council's Representative. Weekday work will commence no earlier than 8.00am and will not continue beyond 6.00pm.

.2 Traffic and Parking

All construction vehicles shall be contained within the car park or where required within the working area.

.3 Labour, Materials, Plant etc.

The Supplier will provide all labour, materials, fuel, water, carriage, plant, tools and machinery of all descriptions in order to execute the works.

All materials will be of the best of their respective kinds and shall conform to appropriate British and or European Standards.

.4 Retention of delivery notes/orders etc.

The Supplier shall keep copies of all delivery notes/orders concerning materials/equipment etc. used in the contract until final completion is reached. These shall be made available to the Clerk if requested.

.5 Disposal and Transportation of Waste

All arisings need to be removed from site to a recognised tip. The Contractor needs to have a current Waste Carriers License appropriate for the type of waste being transported or employ a waste carrier that has this license.

.6 Access to Site

Access to the site shall be via the barrier on the west side of the recreation ground car park. **Any damage to access routes must be rectified before Practical Completion. All access routes will need to be kept in a safe and clean condition during use.**

.7 Trespass

The Supplier shall prevent trespass onto areas outside the

designated works site by his own employees or those employed by a sub-contractor.

.8 Protection of Existing Vegetation

The Supplier shall not prune, cut, remove or damage in any way trees or shrubs on the site without prior written consent from the Council's Representative. The Supplier shall provide any protection deemed necessary to prevent the aforementioned damage.

.9 Safety, Health and Welfare

The Supplier shall at all times comply with the requirements for the Health and Safety at Work Act 1974 and all associated Acts, Regulations and Approved Codes of Practice, including the Construction (Design and Management) Regulations 1994. The successful Supplier shall supply to the Council his own specific policy statement prior to the commencement of the Contract as part of the Method Statement.

.10 Control of Substances Hazardous to Health Regulations 1998

Assessments carried out by the Supplier of all work which is liable to expose employees and any other person in the vicinity of the site to hazardous solids, liquids, dust, fumes, vapours, gases, etc. shall be made available to the Council's Representative ten working days prior to the commencement of works.

.11 Risk Assessments

The Contractor shall ensure that Risk Assessments are carried out for all activities undertaken during the course of the works, and for the use, storage and disposal of any hazardous materials highlighted in the COSHH Assessments.

.12 Risk of Works

The Supplier will be held responsible for any damage whatsoever caused by the carriage of materials or spoil to and from the works and is to hold the employer indemnified from any claims in this connection.

.13 Damage to Buildings/Roads etc.

The Supplier will be held responsible for and shall make good any damage caused to existing buildings, roads, paths, grassed areas, car parks, fences, drains, sewers, service mains, landscaping etc. The Supplier shall take all necessary steps to

prevent roads becoming fouled with soil etc. from vehicles entering and leaving the site and allow for cleaning if the roads/paths do become soiled, on immediate exit of the said vehicles.

.14 Existing Services Across Site

- a. It shall be the responsibility of the Supplier to make enquiries of the utility companies in respect of any location where, in the opinion of the Supplier, underground services are likely to be present. The Supplier shall similarly be responsible to make specific arrangements with the utility companies if he/she deems it necessary for a representative to accurately locate services on site. If any underground cable or pipe is located during ground works, that particular item of work is to be stopped immediately and the Council's Representative advised as soon as possible. If any damage has occurred to the services, the appropriate utility company will be informed immediately by the Supplier, who will then follow instructions as given by the utility company. If damage has not occurred, the exposed apparatus shall be recovered until further instructions are received from the Council's Representative. Exposed services, whether damaged or not, shall at no time be left unattended without first erecting such protection as will ensure the safety of the apparatus, operatives and general public.
- b. The Supplier will be responsible for ensuring that no damage is caused to any underground drainage systems or pipework. Any damage caused will be the responsibility of the Supplier to rectify at his own cost.
- c. Should any underground drainage need to be moved or redirected, the Council's Representative will be informed prior to any works starting.
- d. It will be the responsibility of the Supplier to ensure that all current drainage systems are fully working during and after installation and have no lesser outcome than before work commenced.

1.15 Protection of Site

The Supplier shall ensure that all reasonable efforts are made to close off the pitch during the course of the works and that no holes are left open overnight.

At no time will the public have access to construction areas, storage areas, site vehicles, delivery areas etc. Warning signs will be supplied and maintained by the Supplier. Any machinery left on site overnight shall, where possible, be immobilised. The Supplier

will be held responsible for:

- i. Any damage/ vandalism caused to machinery/materials left on site by the Supplier
- ii. Any damage caused by machinery/materials left on site by the Supplier

The Supplier will liaise with the local police to update them on progress and deal with any issues with regard to the security of the site and anti-social behaviour during the construction process.

1.16 Inclement Weather

The Supplier shall allow for protecting the works against inclement weather and shall include for taking all reasonable precautions to ensure the regular progress of works during adverse weather conditions.

1.17 Temporary Storage

The Supplier may provide a temporary secure storage container on site. However, this shall be within a location agreed with the Council's Representative, and any ground damage shall be fully reinstated immediately after removal. Any container shall be removed from site prior to all works being complete and there are no outstanding defects.

1.18 Traffic Regulations

The Supplier will comply with all Police and Local Authority traffic regulations relating to works in the vicinity of the Works, particularly in regard to loading/unloading vehicles. However, it will be expected that all works and deliveries will be made from the car park.

1.19 Burning Materials on Site

No materials shall be burned on site.

1.20 Use of Pesticides

The Supplier shall not use any pesticides during the course of these works without the prior written permission of the Council's Representative.

1.21 Time scales

The Supplier shall ensure enough resources are available to

complete all works within the proposed time agreed.

1.22 Users of the car park and amenity spaces

The Supplier must ensure when working on the site and using the car park that members of the public and their animals are safe from the supplier's equipment and vehicles.

2 DRAINAGE WORK

2.1 **Year one** – to install new primary drainage system which needs to be dug by a trenching machine that lifts the soil into a trailer to minimise mess

- a) Install primary collector drain along all sides of pitch area in a trench with a width not greater than 175mm and depth of 600mm. The pipe installed shall be 100mm perforated plastic piping and the trench backfilled with 3-6mm stone to 100mm of the surface and then to the surface with approved coarse sand;
- b) The collector drain will exit in the south east corner to a manhole/silt trap then to the existing manhole beside the hedge, which leads to an existing soakaway with an overflow;
- c) Lateral drains to then be installed at 5m centres to a fall in accordance with the existing levels. Appropriate junctions to be installed;
- d) Trenches to be excavated to a depth of 600mm at 5m spacings, the trench will be no wider than 125mm and shall be excavated by a trenching machine. The drainage pipe will be 80mm perforated plastic drainage pipe backfilled with clean 3-6mm stone to 100mm of the surface backfilled with an approved sand to the surface.

2.2 Year two

- a) Install sand slit drains using an approved slit trencher (not sand bands) 250-300mm deep and at 1m spacing. Fill with an approved clean 3-6mm stone aggregate to 100mm from surface; allowance must be made for brushing-in sand to minimise the effective width of drain and hasten grass recovery
- b) Supply and install Spring fertiliser.
