The notification will include details of the Force Majeure Event together with evidence of its effect on the obligations of the affected party, and any action the affected party proposes to take to mitigate its effect.

11.1.5 The affected party will notify the other parties in writing as soon as practicable after the Force Majeure Event ceases or no longer causes the affected party to be unable to comply with its obligations under this Agreement. Following the notification, this Agreement will continue to be performed on the terms existing immediately before the Force Majeure Event unless agreed otherwise in writing by the parties.

11.2 Assignment and subcontracting

11.2.1 Subject to clause 11.2.2, the Collaboration Suppliers will not assign, transfer, novate, sub-license or declare a trust in respect of its rights under all or a part of this Agreement or the benefit or advantage without the prior written consent of the Buyer.

*****A DMA Number Range Takeover is where, rather than port the numbers from the other provider to Gamma, the whole number range is moved from the other provider to Gamma due to the volume of numbers. Other providers have varying costs for this activity. This pricing is indicative only and will be confirmed on application.

UK Mobile Main Networks includes Gamma, O2, Vodafone, Three and EE, UK Mobile. Other covers all other mobile networks.

Where an Inbound call is 'answered' by Inbound call queue/announcement/IVR a chargeable call will be produced with 'Inbound Platform' as the destination and charged at the standard fixed rate according to the Inbound number type. This will be generated in addition to any further applicable charges if the call is subsequently answered by a destination number.

* Inbound Geographic calls which terminate to a Gamma IP number are free of charge, including where a call is 'answered' by the platform, the same call subsequently going into the Inbound Platform (ie an IVR or Call Queue etc) will then incur call charges.

** Where calls to 0800/ 0808 numbers ORIGINATE from a mobile, an additional 2.5ppm Mobile Access Levy will apply in addition to the standard rate.

Information

Negative values indicates a rebate is payable rather than a charge.

UK Mobile Main Networks includes Gamma, O2, Vodafone, Three and EE, UK Mobile. Other covers all other mobile networks.

Where an Inbound call is 'answered' by Inbound call queue/announcement/IVR a chargeable call will be produced with 'Inbound Platform' as the destination and charged at the standard fixed rate according to the Inbound number type. This will be generated in addition to any further applicable charges if the call is subsequently answered by a destination number.

* Inbound Geographic calls which terminate to a Gamma IP number are free of charge, including where a call is "answered" by the platform, the same call subsequently going into the Inbound Platform (ie an IVR or Call Queue etc) will then incur call charges.

** Where calls to 0800/ 0808 numbers ORIGINATE from a mobile, an additional 2.5ppm Mobile Access Levy will apply in addition to the standard rate.
