

FLEET/00708 - Purchase of a Global Positioning System (GPS) tracker capability for CTCRM with 5 years subscriptions and maintenance –

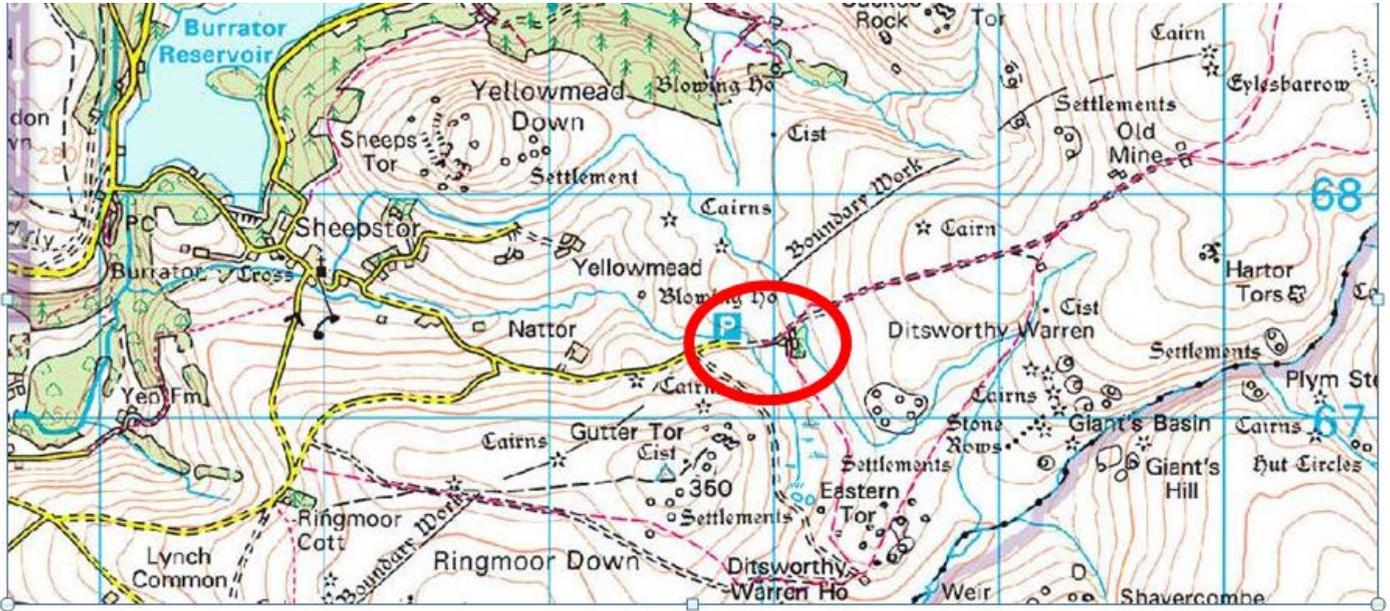

Demonstration Event Trials Tuesday 15 May 2018

The demonstration event has been scheduled to take place at Dartmoor on Tuesday 15 May 2018.

Please consider the following relevant information;

Trial location is:

Gutter Tor Refuge (also known as Scout Hut') Sheepstor, Yelverton PL20 6PG – Grid Ref: SX 581 673
Car Park SX 579 673

Trials will commence at 11:00. Tenderers should aim to arrive in time to be set up and ready for trackers to be used from 11:00. The site will be open from 10:00. It is anticipated that trials will be completed by 15:00.

Tenderers will not be allocated specific time slots. Trackers from each Tenderer will be assigned to RM personnel whilst they complete their standard planned exercises. Each tenderers tracking solution (trackers, base-stations etc) will be observed over the course of these exercises.

Each Tenderer will be provided with their own tented area in which to set up their equipment.

Base station: Will be operating from a 9'x9' tent.

Power will be supplied from a user supplied Lightweight Field Generator (LFG).

The number of individuals expected to be tracked per Tenderers equipment is 4 (it may be less but this is the maximum we would want to track for the trial).

A 4x4 vehicle would be advantageous for Tenderers to move to the trial area. The car park is approximately 250m from the base/trial location – only 4x4 vehicles will be able to transit between the car park and base location.
