 - (c) disclose any Personal Data only on a need to know basis to staff directly concerned with the provision of the Goods and/or Services;
 - (d) not transfer or direct the transfer of any Personal Data to any third party or process or direct the processing of Personal Data outside of the European Economic Area in each case without UKRI's prior written consent (which consent may be subject to conditions as directed by UKRI);
 - (e) keep all Personal Data confidential, and have in place now and shall on a continuing basis take all reasonable appropriate technical and organisational measures to keep all Personal Data confidential and secure and to protect against unauthorised or unlawful processing, accidental loss, destruction, damage, alteration, disclosure or access;
 - (f) upon request by UKRI, promptly do such other acts in relation to the Personal Data, or any part thereof, as UKRI shall request to enable UKRI to comply with its obligations under the Data Protection Legislation;
 - (g) notify UKRI promptly (and at least within 24 hours) if it receives a request from a Data Subject or a complaint relating to a Data Subject and promptly provide UKRI with all such data, information, cooperation and assistance as is required by UKRI in order to respond to and resolve the request or complaint within any applicable time frames;
 - (h) provide such information and allow for and contribute to audits, including inspections, conducted by UKRI or an auditor mandated by UKRI, as is reasonably necessary to enable UKRI to satisfy itself of the Supplier's compliance with this Clause 15 and the Data Protection Legislation
 - (i) on termination or expiry of this Contract, and at any other time on UKRI's request, either return or destroy (as elected by UKRI) the Personal Data (including all copies of it) and confirm in writing that it has complied with this obligation; and
 - (j) notify UKRI without undue delay on becoming aware of any Personal Data Breach and promptly following notification, provide such data, information and assistance as is required by UKRI in order for UKRI to notify the Personal Data Breach to the

Information Commissioner and/or Data Subject(s) and otherwise fulfil its obligations under Data Protection Legislation.

On request from UKRI, the Supplier shall provide UKRI with copies of the insurance policy certificates and details of the cover provided.

17 **FORCE MAJEURE**

Neither Party shall have any liability under or be deemed to be in breach of the Contract for any delays or failures in performance of the Contract which result from circumstances beyond the reasonable control of the Party affected. Each Party shall promptly notify the other Party in writing when such circumstances cause a delay or failure in performance and when they cease to do so. If such circumstances continue for a continuous period of more than 30 days, either Party may terminate the Contract by written notice to the other Party.

18 **TERMINATION**

18.1 UKRI may terminate the Contract in whole or in part at any time before the Goods and/or Services are provided with immediate effect by giving the Supplier written notice, whereupon the Supplier shall discontinue the provision of the Goods and/or Services (in whole or in part as applicable). UKRI shall pay to the Supplier:

- (a) such Charges or that part of the Charges for Goods which have been Delivered to UKRI or, on the deemed date of service of the notice of cancellation, are already in transit and the costs of materials which the Supplier has purchased to fulfil the order for the Goods and which cannot be used for other orders or be returned to the supplier of those materials for a refund; and/or
- (b) such Charges or that part of the Charges for Services provided and a fair and reasonable portion of the Charges for work-in-progress in performing the Services at the time of termination,

- 20.2 The Supplier shall take all reasonable steps, in accordance with Good Industry Practice, to prevent fraud by the Staff and the Supplier (including its shareholders, members and directors) in connection with the Contract and shall notify UKRI immediately if it has reason to suspect that any fraud has occurred or is occurring or is likely to occur.
- 20.3 If the Supplier or the Staff engages in conduct prohibited by clause 20.1 or commits fraud in relation to the Contract or any other contract with the Crown (including UKRI) UKRI may:
- (a) terminate the Contract and recover from the Supplier the amount of any loss suffered by UKRI resulting from the termination, including the cost reasonably incurred by UKRI of making other arrangements for the supply of the Goods and/or Services and any additional expenditure incurred by UKRI throughout the remainder of the Contract; or
 - (b) recover in full from the Supplier any other loss sustained by UKRI in consequence of any breach of this clause.

21 DISPUTE RESOLUTION

- 21.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract and such efforts shall involve the escalation of the dispute to an appropriately senior representative of each Party.
- 21.2 If the dispute cannot be resolved by the Parties within one month of being escalated as referred to in clause 21.1, the dispute may by agreement between the Parties be referred to a neutral adviser or mediator (the "**Mediator**") chosen by agreement between the Parties. All negotiations connected with the dispute shall be conducted in confidence and without prejudice to the rights of the Parties in any further proceedings.
- 21.3 If the Parties fail to appoint a Mediator within one month, or fail to enter into a written agreement resolving the dispute within one month of the Mediator being appointed, either Party may exercise any remedy it has under applicable law.

22 GENERAL

- 22.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform

its obligations under the Contract, and that the Contract is executed by its duly authorised representative.

- 22.3 The Supplier must make sure that neither it nor any of its Staff or sub-contractors are placed in a position where there is or may be an actual conflict, or a potential conflict, between their interests or the interests of its Staff or sub-contractors and the Supplier's obligations under this Contract. You must disclose to us the particulars of any conflict of interest that arises.
- 22.4 A person who is not a party to the Contract shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him or her, without the prior written agreement of the Parties.
- 22.5 The Contract cannot be varied except in writing signed by a duly authorised representative of both the Parties.
- 22.6 The Contract contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Contract on the basis of any representation that is not expressly incorporated into the Contract. Nothing in this clause 22.6 shall exclude liability for fraud or fraudulent misrepresentation.
- 22.7 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Contract shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. - 22.8 The Contract shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Contract. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 22.9 Except as otherwise expressly provided by the Contract, all remedies available to either Party for breach of the Contract (whether under the Contract, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 22.10 If any provision of the Contract is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Contract and rendered ineffective as far as possible without modifying the remaining provisions of the Contract, and shall not in any way affect any other circumstances of or the validity or enforcement of the Contract.

Background

Brief Description of Requirements

The Engineering and Physical Sciences Research Council (EPSRC) wishes to commission a study to demonstrate the impact and success of research that EPSRC Energy has funded as part of, and since the inception of the RCUK Energy Programme in 2004 across the full breadth of EPSRC Energy's research and activities. The study should focus on highlighting specific impacts (in Research, Economy, Skills, Society, Environment, and Policy), both in academia and industry, of the investments made by EPSRC Energy since 2004. A key deliverable for this study will be the development of high quality case studies.

Completion Date

The case studies will be delivered by 31st July 2020 with drafts provided to EPSRC for review by 30th June 2020.

The final report will be delivered by 31st July 2020 with a draft provided to EPSRC for review by 30th June 2020.

Background

The RCUK Energy Programme was set up in 2004 to provide funding to UK academic researchers with a focus on energy research across the remit of multiple research councils. This aim has remained following the unification of the research councils into UKRI as of April 2018.

Research within this Programme is spread across the following Research Areas:

- Energy Storage
- Nuclear Fusion
- Nuclear Fission
- Solar
- Offshore Renewable Energy (Marine, Wave, Tidal and Wind)
- Whole Energy Systems
- Energy Networks
- Hydrogen and Alternative Vectors
- Fuel Cell Technology
- End Use Energy Demand
- Bioenergy
- Carbon Capture, Storage and Utilisation

Research and innovation priorities over the last two decades have been driven by the 'Energy Trilemma', which referred to the need for the deployment of solutions for energy security, energy affordability and environmental sustainability. The recent introduction of a net-zero emissions target builds on the foundations of that work. The UK's energy system has seen a rapid growth in the share of low-carbon energy, which accounted for 37% of the electricity mix in 2017: natural gas (41%), nuclear (21%), wind (whose share has increased from 3% in 2010 to 15%), solar (3%), bioenergy and waste (11%), coal (whose share has decreased from 29% in 2010 to 7%) and hydroelectric power (2%).

Since 2004, the RCUK Energy Programme (of which EPSRC is part) has invested significant sums of money into energy research at UK Universities, with EPSRC alone having committed £1.57bn since 2004 (up to 31st January 2020). The study will need to help show the impact that these investments have made for the UK over the duration of the programme since in 2004. The proposed study is intended to demonstrate academic, industry, environmental, skills and policy impacts from EPSRC Energy investments. The study will provide specific examples of impact in each of the Research Areas in the EPSRC Energy Programme (as detailed above). In addition, the study will be expected to provide a report of a broader set of evidence in key areas where we have attained or maintained international leadership.

Aims and Objectives of the Project

Aims and Objectives

This study will show the impact that EPSRC investment, as part of the RCUK Energy Programme has made since 2004 across all of EPSRC's research areas in Energy through the development of high quality case studies and a report. The study will be expected to provide a minimum of 15 high quality case studies, both bottom up and also led by specific key impacts. The study should provide a wide variety of case studies, of varying formats, to capture the impact of EPSRC's investment in the RCUK Energy Programme across the breadth of EPSRC Energy's specified research areas. **We envisage the use of case studies to demonstrate the wider impacts covering qualitative as well as quantified benefits wherever possible. Case studies should have information that will be useful for different audiences including Treasury/Government, business/investors, and the public.**

In addition, the study will be expected to provide a report of a broader set of evidence in key areas where we have attained or maintained an international place as leaders.

The broader success stories should look to draw from 2-3 of the following areas;

- 1) the retention of capacity and capability in the UK research community as a consequence of continued investment in Carbon Capture, Utilisation and Storage (CCUS),
- 2) the UK's place as leaders in Solar Technologies due to discovery and innovation in Perovskite and dye sensitised Photovoltaics,
- 3) our position as leaders in Nuclear Fission in decommissioning waste re-processing,
- 4) the UK's position as international leaders in Offshore Wind.

For these latter case studies, the expectation is that they will be run in a top down fashion, starting at the ultimate impact achieved in that particular area and then linking this backwards to EPSRC investments in these, or related, topics.

It will be important to highlight the investment of business, the development of skills in key growth areas of the economy, and the development and retention of capability and capacity across the UK in these areas as a consequence of these investments. It will also be important to highlight the impact that these investments have made on policy during this period. Furthermore, the study should show how support in key areas of energy research have enabled the UK to attain or maintain our position as a global leader in that area.

The study is expected to capture the impact of the programme's investments on the following areas:

- Research (for example; value of these investments to research advancement, competitiveness, collaborations, efficiency and type and quality of research outputs – this will not include a bibliometric analysis of Energy publications),
- Economy (for example; return on investment through assessing the value of research and research led innovations to the UK economy),
- Skills (for example; value of training a highly skilled technical and analytical workforce across career stages),
- Society (for example; finding ways to address the different societal challenges),
- Environment (for example understanding and mitigating climate change, the environmental impacts of current and future energy generation technologies etc.) and
- Policy (for example; the legal commitment to achieve net zero emissions by 2050).

EPSRC wishes to demonstrate the contribution that its investments in Energy Research via the RCUK Energy Programme have made to the advancement of research, research led innovations and skills and the value of the socio-economic benefits enabled by these investments. In particular, the study wants to determine the impact on advancement and competitiveness of research and research led innovations alongside the value that it brings in terms of training highly skilled people for the economy and its benefit to wider communities that benefit from research.

The evidence and information gathered through this study will inform decisions on future investments and provide crucial evidence to support continued investments in Energy Research. The study should establish what impact the programme has made as a result of its investments since 2004.

Key Evaluation Questions

The key questions the study will answer are:

- What are the scientific, economic, societal, environmental and policy impacts of EPSRC's investments via the RCUK Energy Programme?
- How have these investments enabled the UK to attain or maintain a leadership position internationally in key research areas?
- What quantifiable benefits have these investments had?

In order to answer this question, we would like the study to gather qualitative and quantitative data for the following:

Impact on Research

What has the impact of our investments been on research, for example:

- What technical and scientific advances has EPSRC funding enabled?
- What effect has the funding had on the research landscape, for example facilitating collaborations between disciplines?
- What impact has this investment had on national and international collaboration?
- What impact has this investment had on training across different career stages in academia?

Economic Impact

What has the overall economic impact of our investments been, for example:

- What additional contributions have been leveraged through EPSRC funding and from which sources? Has this contributed to any direct foreign investment, and if so in what areas?
- Which sectors have benefitted from the research enabled by EPSRC funding?
- What effects has this investment had on regional growth, local economies and jobs? How does the UK compare internationally as a result of this?
- What evidence is there that EPSRC-funded research and training has led to business benefits, for example via cost savings, increased turnover, imports and exports?
- What impact has EPSRC-funded research and training had on innovation, for example, spin-offs, development of innovation clusters, use by business for innovation etc.?

Skills Impact

What has the impact of the Energy Programme been on developing skills for the future in the energy sector, for example:

- How has EPSRC funding contributed to skills training, for example for PhD students, technicians, and other?
- What tangible impact has this had on industry in areas of growth for the UK economy?

Social and Policy Impact

What Social and Policy impacts has investment in the Energy Programme led to, for example:

- How has EPSRC funding helped address key societal challenges?
- What policy impacts has this funding had to facilitate the addressing of these challenges?

Out of Scope

The study is bound by investments made by EPSRC in support of the RCUK Energy Programme since the inception of the programme in 2004. The study should not include investments that are primarily led (more than 50% funding) by the other research councils that form UKRI, or Innovate UK. Nor should any investments made prior to the inception of the programme be included. All grants included in the accompanying data set that will be provided to the successful consultancy by EPSRC will be within this bracket of >50% EPSRC funding and after the inception of the Energy Programme and so are relevant to the study. The study should also include data and impacts from EPSRC investments that have supported the objectives of the Energy Programme beyond schemes administered specifically by the programme itself (i.e. outputs as a result of an accelerating impact account).

The study is restricted to impacts that are for the betterment of the UK. While these can have additional further impacts beyond the UK itself, the information provided will need to give evidence for what benefit these investments have had for UK academics, businesses and the public.

Funding provided via ISCF will be specifically OUT OF SCOPE of this review. There is not expected to be any bibliometric study undertaken as part of this study as EPSRC already holds this data and so this will specifically be out of scope.

*Note: We are not expecting this study to perform an analysis of number and impact of publications arising from research in Energy as a bibliometric analysis is not part of this study.

Data and other information provided by EPSRC to help the study

The following data and information will be made available to assist the study and it is expected that an analysis of this data will be provided as part of the report:

- List of all grants funded by Energy since 2004 including; Grant Reference Number, Project Title, Principal Investigator, Scheme, Start date, End date, Value and, where possible, Research Area.
- Industrial partners for each of the above grants.
- A list of outputs from these grants (publications, patents, spin outs etc.) collected from Research Fish.
- Data from Grants on the web (<https://epsrc.ukri.org/links/gow-links/grants-on-the-web-gow/>), and Gateway to research (<http://gtr.ukri.org/>)
- List of grants against which we already have comprehensive case studies and so are not worth pursuing.
- A list of useful contacts (this is not in any way expected to be exhaustive but will be a starting point to allow a fast start for the successful consultancy).
- Indicators on areas where we believe good top-down impact-led case studies can be developed.

It will be expected that any additional data collection will take account of what is already available and be designed to minimise additional burden on researchers.

Suggested Methodology

The bidder is expected to propose methodologies and plans of how they are going to progress and deliver this study addressing the challenges of research impact assessment. However, we would expect a mixture of quantitative and qualitative methods including surveys, interviews and subsequent analysis to contribute towards producing a minimum of 15 case studies (at least one for each of EPSRC's research areas and a minimum of 2 top down, impact led studies). The information from these case studies will be used to tie in to the overarching story of the impact the Programme has had that will be explained in the report.

The study should clearly outline any assumptions that are used on any estimation, these might include measures of deadweight, spill overs and leakages where possible. We would like to see these considerations in the proposal. Given the nature of the study there will be an expectation of relying on estimates drawn from the wider literature, the expectation is that proposals would highlight why these are the best and represent robust estimates in order to help the study draw quantifiable conclusions. Additionally, the bidder should consider the challenges and limitations for the evaluation and propose measures to address these where it is feasible.

Interaction with successful bidder

We expect the successful bidder to work closely with EPSRC to develop the approaches and methods by which the questions proposed in the study could be answered. Regular updates should be provided to the EPSRC project management team through fortnightly phone/email updates: these should include access to topic guides and other research material used to gather primary information.

Updates and deliverables should include, but not be limited to, datasets gathered as a result of the exercise, development of case studies and any other qualitative outputs generated, contact with appropriate stakeholders, progress against delivery and spend to date and a report summarising the findings and the underlying basis on which these findings have been derived.

Any issues should be raised promptly with EPSRC.

Deliverables

A draft report based on study findings and examples case studies by 30th June 2020.

All deliverables due by 31st July 2020:

- A final report based on study findings agreed by EPSRC.
- A minimum set of 15 case studies depicting the academic, economic, environmental, social, and political impacts of EPSRC Energy investment agreed by EPSRC.
- Datasets gathered as a result of the exercise.
- Other qualitative outputs generated.
- An explanation of the methodology used for any ROI calculations.
- Any model or modelling tools used to estimate economic impacts.

The outputs of this study are expected to be a report containing a wealth of qualitative and quantitative evidence to highlight the impact of EPSRC funding in the RCUK Energy Programme. Robust evidence should be provided with linkages to specific past investments to help with future bids. In addition, retention or building of capacity and capability in key areas that have enabled the UK to hold a leadership position internationally should be highlighted.

- 1.8 If a claim or allegation is made by any person who is not an Employee (a "**Non-Disclosed Employee**") that his contract of employment has or should have effect as if originally made between himself and the Contractor (or a Sub-Contractor) by virtue of the operation or alleged operation of TUPE:

1.9 The Supplier acknowledges and agrees that UKRI, any UKRI Group Company and any Previous Supplier have complied with its or their obligations under Regulation 11 of TUPE to notify the Supplier (or any Sub-Contractor) of employee liability information and that this Contract provides sufficient protection in relation to the provision of information concerning the Employees and that it would not be just or equitable for any compensation to be paid by UKRI for any breach of such obligation.

1.10 The Supplier shall indemnify and keep indemnified UKRI (for itself, any UKRI Group Company and any Previous Supplier) against all and any costs, expenses, liabilities, damages, and losses arising out of or in connection with any complaint made by the
